

## QUARTERLY REPORT

### For the 3 months ended 31 March 2023

#### Highlights:

#### Prodigy Gold 100% Projects

##### Tregony Maiden Mineral Resource:

- In February Prodigy Gold announced its maiden inferred mineral resource for the Tregony deposit with results of:
  - 1.44Mt @ 1.16g/t Au for 54.0koz @ 0.6g/t lower cut-off
  - 0.61Mt @ 1.71g/t Au for 33.7koz @ 1.0g/t lower cut-off

##### Buccaneer Metallurgical Testwork:

- Metallurgical testwork has been completed and reported during the quarter.
- Gravity gold and cyanide leach testwork returned recoveries of 95.1%, 96.7% and 84.6% for the three composites, respectively with gravity gold recoveries averaging 18.6%
  - fastest kinetics achieved for the oxide and transition composites
  - low cyanide and lime consumption for each of the oxide, transition and fresh composites

#### Prodigy Gold JV Projects

##### Lake Mackay Project:

- Diamond drilling completed in previous quarter reported results announced February 2023
- Encouraging results for hole PRDD2203 were returned with results reported:
  - 2.3m @ 1.14% Cu, 0.97% Zn, 9.1g/t Ag and 0.11g/t Au from 739.8m
    - including 0.3m @ 5.65% Cu, 3.64% Zn, 45.0g/t Ag and 0.70g/t Au from 741.5m
  - 3.3m @ 0.42% Cu, 0.57% Zn, 3.7g/t Ag, and 0.26 g/t Au from 697m
  - 3.5m @ 0.57% Cu, 0.34% Zn and 3.8g/t Ag from 718.5m
- Sole funding requirements for the restructured joint venture now complete

##### Tobruk and Monza Projects:

- Newmont Corporation (“Newmont”) is currently reviewing the results of the 3D modelling of the Magnetotelluric Survey (MT) completed in late 2022 on the Tobruk project.

Prodigy Gold NL (ASX: PRX) ('Prodigy Gold' or the 'Company') is pleased to provide this activity report for the three months ended 31 March 2023.

### **Management Commentary**

Commenting on progress made during the March 2023 quarter, Prodigy Gold Managing Director, Mark Edwards said: *"During the northern Australian wet season Prodigy Gold continued to be busy with exploration work relating to its projects in the Tanami region. Results of the Buccaneer metallurgical testwork were reported, highlighting the potential for the ore to be processed using traditional recovery methods, rather than heap leaching, opening a clear processing pathway for this deposit.*

*Prodigy Gold was excited to announce the results from its maiden mineral resource at the Tregony prospect within the Tanami North project area. This work highlights why we consider this project a high priority target area and becoming a focus for our field work in the coming drilling season. Combined with the 310Koz of gold at the Hyperion mineral resource we are above 360,000 ounces of gold within this project area. Drilling is planned on both, Tregony and Hyperion, prospects this year with the intention to add confidence and potentially ounces to the Tanami North project area.*

*The Company additionally announced encouraging results from the Phreaker diamond drill hole completed at the end of 2022. It has been a great project to work on with IGO over the last few years since the exciting hole drilled in 2021 at the deposit. Prodigy Gold has now met all its sole funding requirements and is looking forward to working with IGO on this and other Lake Mackay prospects".*

### **March Quarter Exploration Summary**

#### **Prodigy Gold Projects – 100% PRX**

While field activities have been limited over the quarter due to the wet season in northern Australia, Prodigy Gold has been very active during the quarter undertaking the following activities:

- Planning for drilling activities to commence at the end of the wet season in the Tanami North area including Boco North, Tregony and the Hyperion deposits;
- Reporting of results of the Phreaker diamond hole drilled in late 2022 ;
- Releasing the maiden mineral resource for the Tregony deposit;
- Providing an update on the metallurgical testwork results for the Buccaneer deposit as part of the on-going scoping study for the project.

The planning process is complete with the first program, to commence in the June 2023 quarter, being the co-funded (under the Resourcing the Territory Program of the NT Government) greenfields exploration program at the Boco North prospect<sup>1</sup>. This program includes the drilling of around 20 RC holes through the unprospective sedimentary cover sequence, targeting potential mineralisation related to the regional scale Suplejack Shear Zone. Permitting is in place to allow for the program to commence as soon as access to the project area is possible. The area north of Boco received significant rainfall in March 2023 resulting in local flooding, however access to these areas is reopening with people returning to their communities.

After drilling is completed at Boco North, Prodigy Gold intends to move the rig to the Tregony deposit to drill in and around the recently released Tregony mineral resource, with the final planned program for this financial year being a small drilling program around the Hyperion mineral resource.

---

<sup>1</sup> ASX: 29 June 2022

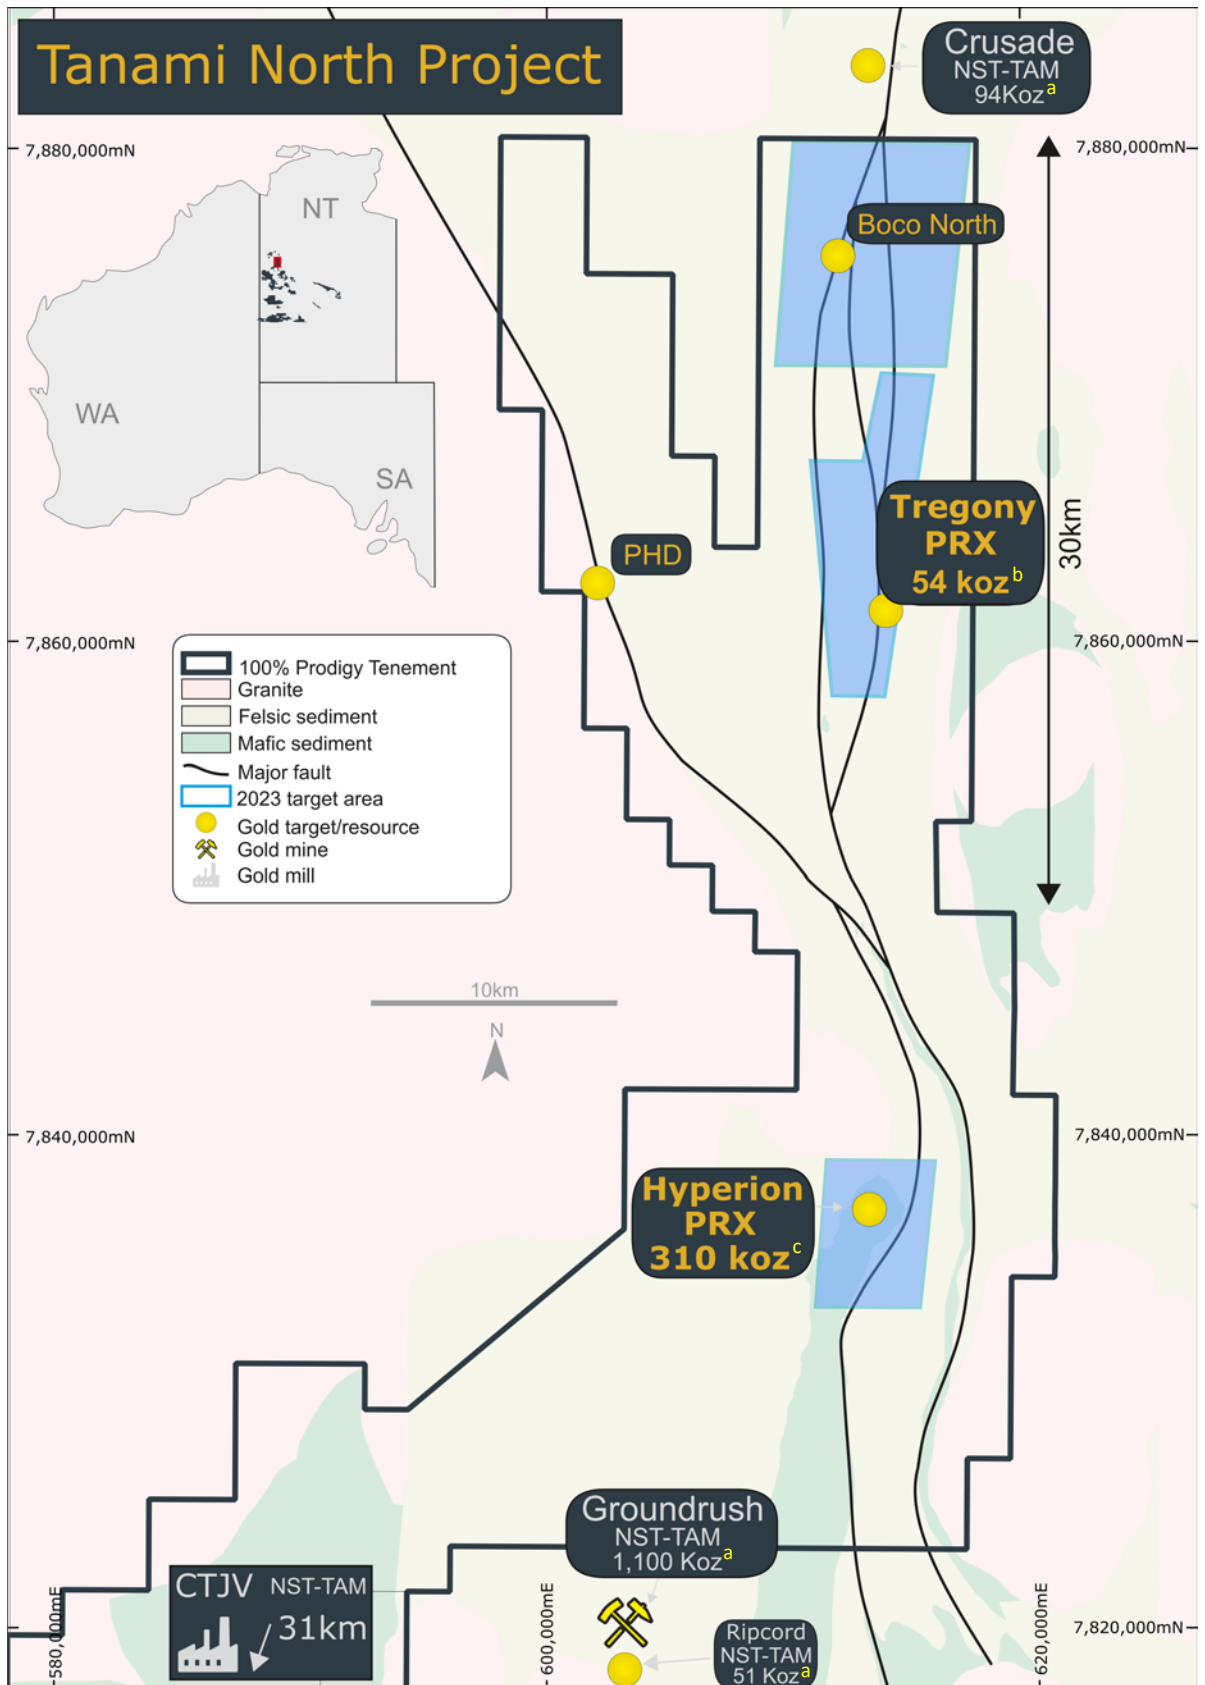

Figure 1 - Location of planned exploration activities for the 2023 dry season (Mineral Resources <sup>a</sup> ASX: TAM 22 November 2022, <sup>b</sup> ASX 15 February 2023 <sup>c</sup> ASX 31 July 2018).

### **Tregony Deposit – 100% PRX**

During the quarter Prodigy Gold released its maiden mineral resource for the Tregony Deposit which is located on EL31331 in the Tanami North project area. The project lays between the Groundrush deposit in the south and the Crusade deposit in the north (see Figure 1) both under the control of the

Central Tanami Project Joint Venture between Northern Star Resources Limited and Tanami Gold NL (CTJV).

The reported maiden mineral resource for Tregony is in the inferred category and presents results of<sup>2</sup>;

- 1.44Mt @ 1.16g/t Au for 54.0koz @ 0.6g/t lower cut-off
- 0.61Mt @ 1.71g/t Au for 33.7koz @ 1.0g/t lower cut-off

Further drilling is planned in 2023 to increase confidence in the mineral resources as well as to look to extend the resources along strike and down dip.

### **Buccaneer Deposit – 100% PRX**

In March 2023 Prodigy Gold released detailed results of the Buccaneer project metallurgical testwork program completed by Independent Metallurgical Operations (“IMO”)<sup>3</sup>. A summary of the results includes:

- Comminution testwork showed the three composites analysed (oxide, transition and fresh material) are amenable to conventional crushing and grinding processes
- Gravity gold and cyanide leach testwork returned recoveries of 95.1%, 96.7% and 84.6% for the three composites, respectively with gravity gold recoveries averaging 18.6%
  - fastest kinetics achieved for the oxide and transition composites
  - low cyanide and lime consumption for each of the oxide, transition and fresh composites
- Low overall gold recoveries in the column leach testwork showed that heap leaching is not a viable processing option.

The study to evaluate processing and mining scenarios for the Buccaneer mineral resource continues, including the assessment of IMO’s recommendations outlined in their technical report.

### **Joint Venture Portfolio**

#### **Lake Mackay JV (IGO and IGO/Castile)**

As previously reported, Prodigy Gold completed the final sole funded hole into the Phreaker prospect in late 2022<sup>4</sup>. In February this year the results of hole PRDD2203 were released as outlined below. No other work has been completed on the Lake Mackay project during the quarter. Planning is underway to return to site in order to complete rehabilitation monitoring.

#### **Lake Mackay JV – Exploration progress**

##### ***Phreaker Prospect Diamond Drilling – Base Metal Tenement***

In November 2022, Prodigy Gold announced the commencement of the drilling of one diamond core drill hole into the Phreaker prospect as part of the sole funding arrangement of the restructured Joint Venture agreements with IGO Limited (“IGO”)<sup>5</sup>. This was a follow-up to the first 2022 drilling program completed in June last year<sup>6</sup> that was designed to intersect the modelled EM plate down-plunge of the high-grade mineralisation reported in IGO drill hole 21PHDD002.

The results of diamond hole PRDD2203 were returned highlighting further encouraging results of<sup>7</sup>;

- 2.3m @ 1.14% Cu, 0.97% Zn, 9.1g/t Ag and 0.11g/t Au from 739.8m
  - including 0.3m @ 5.65% Cu, 3.64% Zn, 45.0g/t Ag and 0.70g/t Au from 741.5m
- 3.3m @ 0.42% Cu, 0.57% Zn, 3.7g/t Ag, and 0.26 g/t Au from 697m

---

<sup>2</sup> ASX: 15 February 2023

<sup>3</sup> ASX: 10 March 2023

<sup>4</sup> ASX: 15 November 2022

<sup>5</sup> ASX: 18 May 2022

<sup>6</sup> ASX: 29 June 2022

<sup>7</sup> ASX: 6 February 2023

- 3.5m @ 0.57% Cu, 0.34% Zn and 3.8g/t Ag from 718.5m

This hole completes the sole funding requirement under the restructured Joint Venture Agreements with IGO, resulting in Prodigy Gold consolidating its interest in the Lake Mackay Gold Joint Venture at 70%.

Prodigy Gold is planning to undertake further drilling in the second half of 2023 at the Goldbug prospect on the Lake Mackay Gold Joint Venture.

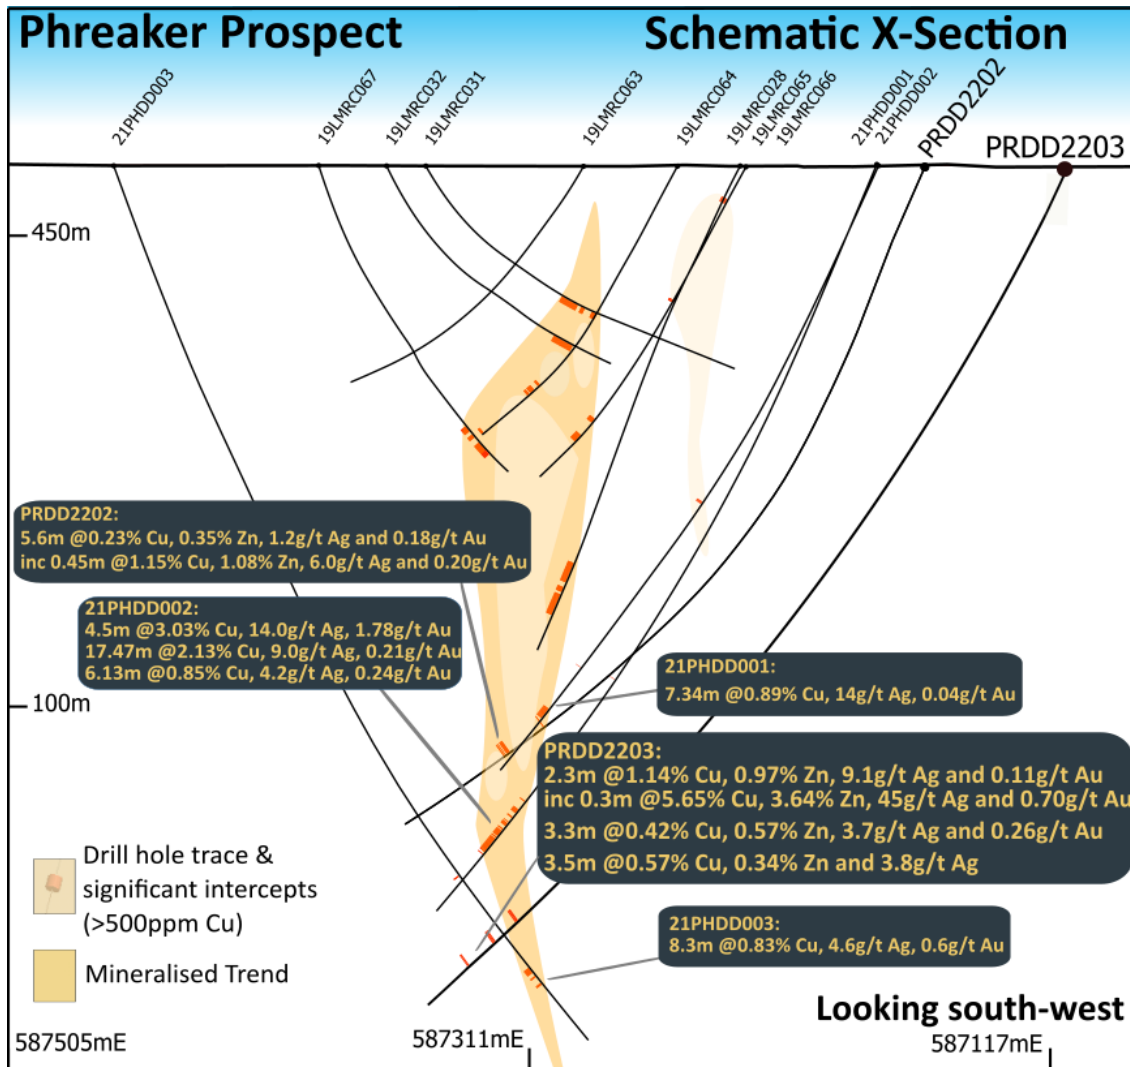

Figure 2 – Phreaker Schematic Cross Section looking south-west highlighting significant intercepts from diamond drilling<sup>8</sup>.

## **Tobruk JV and Monza JV (Newmont)**

### ***Tobruk***

- A district Magnetotellurics (“MT”) survey commenced in Q3-2022 and was completed during Q4-2022
- The MT survey comprises one generally northeast trending line through the centre of the Tobruk Project area
- MT readings were collected at 1,000m station spacing, for a total of 34-line kilometres within the Tobruk Project area
- The data was reprocessed in 3D to remediate this and modelling results were partially received during Q1 2023. Newmont is awaiting finalised products and is currently reviewing the 3D modelling data.

<sup>8</sup> Historical results first presented: 1: ASX 26/05/2021 & 2: ASX 8/8/2022

- Once finalised, Moombarriga will provide Newmont with a completion report, which is anticipated to be received during the June quarter 2023 (Q2 2023).

### Monza

- Surface geochemical survey utilising Newmont’s proprietary Deep Sensing Geochemistry (“DSG”) technique was commenced during Q3-2022 and was completed in Q4-2022.
- The survey has been designed at various spacing including 1km x 1km to provide broad coverage across the Project area, with a more detailed survey completed at a nominal spacing of 500m x 500m at selected locations
- A total of 877 survey points were collected over the last 2 quarters of 2022 – results are still pending.

### Barrow Creek JV (Australasian Metals) - 10% PRX

As announced in January 2022, Prodigy Gold finalised the sale of 90% of the Barrow Creek Project to Australasian Metals Limited (“A8G”)⁹. During the reporting period A8G has not reported any new results on this project as they are still assessing the assays.

### Divestment – Old Pirate Project and Tanami Exploration Tenements

During the quarter the Company continued to work with public entity Stockton Mining Limited (“Stockton”) on the divestment of the Company’s Old Pirate Gold Project and 23 surrounding exploration tenements located in the Tanami Region of the Northern Territory¹⁰.

Stockton and Prodigy Gold are currently progressing with the completion of conditions precedent including the assignment of several agreements. The splitting of Mineral Lease ML29822, as required under the sale agreement, has now been approved with the old Mineral Lease now covering the Buccaneer deposit and the new Mineral Lease, ML 33459, covering the Old Pirate deposit and associated mining infrastructure.

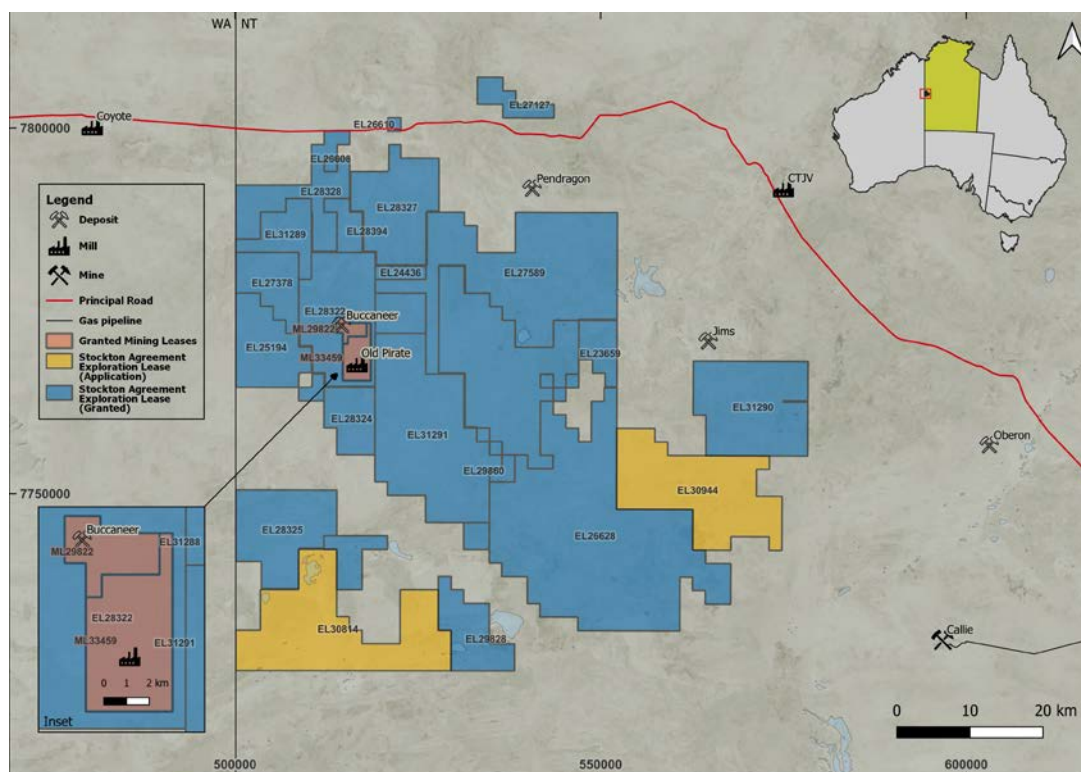

Figure 3 - Stockton Sales tenements.

⁹ ASX: 12 January 2022

¹⁰ ASX: 29 April 2022

## Environmental, Social and Governance

No reportable safety or environmental incidents occurred this quarter.

## Capital Structure

During the quarter, following the satisfaction of retention and change of control vesting conditions, all remaining unvested options vested. None of the vested options were exercised.

As at quarter end the Company continued to have a total of 1,847,882,818 fully paid ordinary shares and 8,725,000 unlisted options on issue.

## Cash Position

As at 31 March, Prodigy Gold held A\$6.5M in available cash and has no debt.

Payments reported in Appendix 5B under section 6.1 consist of remuneration paid to executive and non-executive directors of the Company, including PAYG and superannuation, on a cash basis.

Authorised for release by a resolution of Prodigy Gold's Board of Directors.

## About Prodigy Gold NL

Prodigy Gold has a unique greenfields and brownfields exploration portfolio in the proven multi-million-ounce Tanami Gold Province. Prodigy Gold remains highly active in its systematic exploration approach and intends to continue exploration prioritising on:

- drilling targets on its Tanami North and Lake Mackay Projects
- growing confidence and size of the Tanami North Project's Hyperion and Tregony Mineral Resources
- a scoping study on the Buccaneer Mineral Resource
- systematic evaluation of high potential early-stage targets
- joint ventures to expedite discovery on other targets

### Competent Person's Statement for Mineral Resources

*The information in this release that relates to the Mineral Resource estimate of the Tregony deposit was previously released to the ASX on 15 February 2023 – Maiden Mineral Resource for Tregony Deposit and is based on information compiled by Mr Mark Edwards. This document can be found at [www.asx.com.au](http://www.asx.com.au) (Stock Code: PRX) and at [www.prodigygold.com.au](http://www.prodigygold.com.au). Mr Edwards is a fellow of the Australasian Institute of Mining and Metallurgy (FAusIMM) and a member of the Australian Institute of Geoscientists (MAIG), he is also a full-time employee of Prodigy Gold NL. Mr Edwards has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity, which he has undertaken to qualify as a Competent Person, as defined in the 2021 edition of the Australasian Code for the Reporting of Mineral Resources and Ore Reserves. Mr Edwards has provided written consent approving the inclusion of the Mineral Resource in the report in the form and context in which they appear.*

*The information in this report that relates to Mineral Resource for Hyperion (previously called Suplejack) was previously released to the ASX on the 31 July 2018 – Suplejack Resource Update. This document can be found at [www.asx.com.au](http://www.asx.com.au) (Stock Code: PRX) and at [www.prodigygold.com.au](http://www.prodigygold.com.au). The 31 July 2018 release fairly represents data and geological modelling reviewed by Mr. Matt Briggs who is a member of the Australasian Institute of Mining and Metallurgy and grade estimation and Mineral Resource estimates reviewed by Mr Ian Glacken who is a Fellow of the Australia Institute of Geoscientists. At the time of the 31 July 2018 release Mr Briggs was a full-time employee of Prodigy Gold NL and Mr Glacken was a fulltime employee of Optiro Pty Ltd. Mr. Briggs and M. Glacken had previously provided written consent for the 31 July 2018 release.*

### Competent Person's Statement for Exploration Results

*The information in this report relating to exploration targets and exploration results is based on information reviewed and checked by Mr Mark Edwards, FAusIMM, MAIG. Mr. Edwards is a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM) and a Member of the Australasian Institute of Geoscientists (AIG). Mr Edwards is a full-time employee of Prodigy Gold NL and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves". Mr Edwards consents to the inclusion in the documents of the matters based on this information in the form and context in which it appears.*

*The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.*

*Refer to previous Company ASX announcements for full resource estimation details, drill hole details, and intercept calculations. Prodigy Gold NL confirms that it is not aware of any new information or data that materially affects the information included in the market announcement and that all material assumptions and technical parameters underpinning the estimates included in referenced previous market announcements continue to apply and have not materially changed.*

The information in this report that relates to previous ASX announcements relating to ASX Mineral Resources, Exploration Result and Exploration Targets. The relevant announcements are noted below:

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

<b>4.</b>	<b>Net increase / (decrease) in cash and cash equivalents for the period</b>		
4.1	Cash and cash equivalents at beginning of period	8,101	2,395
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(1,540)	(4,114)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(42)	(175)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	(11)	8,402
4.5	Effect of movement in exchange rates on cash held		
<b>4.6</b>	<b>Cash and cash equivalents at end of period</b>	<b>6,508</b>	<b>6,508</b>

<b>5.</b>	<b>Reconciliation of cash and cash equivalents</b> at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	<b>Current quarter \$A'000</b>	<b>Previous quarter \$A'000</b>
5.1	Bank balances	6,508	8,101
5.2	Call deposits		
5.3	Bank overdrafts		
5.4	Other (provide details)		
<b>5.5</b>	<b>Cash and cash equivalents at end of quarter (should equal item 4.6 above)</b>	<b>6,508</b>	<b>8,101</b>

<b>6.</b>	<b>Payments to related parties of the entity and their associates</b>	<b>Current quarter \$A'000</b>
6.1	Aggregate amount of payments to related parties and their associates included in item 1 Director fees and salaries (incl. superannuation) on a cash basis	117
6.2	Aggregate amount of payments to related parties and their associates included in item 2	
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

<b>7. Financing facilities</b>	<b>Total facility amount at quarter end \$A'000</b>	<b>Amount drawn at quarter end \$A'000</b>
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1 Loan facilities	NIL	NIL
7.2 Credit standby arrangements		
7.3 Other (Guarantee Facility) <sup>1</sup>	2,381	2,381
<b>7.4 Total financing facilities</b>	<b>2,381</b>	<b>2,381</b>
<b>7.5 Unused financing facilities available at quarter end</b>		-
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
<sup>1</sup> Prodigy Gold has guarantee facilities with the ANZ and CBA which do not require any security to be granted over the Company's assets. No interest is payable for the facilities as the funds drawn are fully cash-backed. Related fees are part of expenditure under point 1.5.		

<b>8. Estimated cash available for future operating activities</b>	<b>\$A'000</b>
8.1 Net cash from / (used in) operating activities (item 1.9)	(1,540)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(1,540)
8.4 Cash and cash equivalents at quarter end (item 4.6)	6,508
8.5 Unused finance facilities available at quarter end (item 7.5)	
8.6 Total available funding (item 8.4 + item 8.5)	6,508
<b>8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>	<b>4.2</b>
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer:	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer:	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer:	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

**Compliance statement**

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 18 April 2023

Authorised by: The Board of Directors  
(Name of body or officer authorising release – see note 4)

**Notes**

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
