

24 April 2023

Drilling Commences at Niagara West

Highlights

- Drilling commences at historic high grade Niagara West area of Kookynie Gold Project
- ~2500m RC Program testing Green Bullet and May-White Cross prospects

Regener8 Resources NL (ASX: R8R) (**Regener8** or the **Company**) is pleased to announce drilling commencement of the Niagara West Phase 1 RC program.

Further to the recent announcements regarding the program update (ASX Announcement 14 April 2023), the Company advises that pad preparation work is completed, contractors have been mobilised and drilling has commenced. This program consists of approximately 2,500m of RC drilling and is expected to run for 3 weeks

Regener8's Managing Director, Stephen Foley, comments:

"It's exciting to be kicking off our maiden RC program at the historically high-grade Niagara West. The body of knowledge progressively built over the last year on the tenements is culminating with the first subsurface investigation in this area since the 90's. We look forward to seeing the systematic approach taken, using modern exploration techniques and technology, further vectoring towards or finding mineralisation in this program."

Relevant ASX Announcements:

- 14.04.2023 "Niagara West Phase 1 RC Program Update"

This ASX Announcement has been authorised for release by the Board.

Information in this release that relates to Exploration Results on the Company's mineral assets is based on information compiled by Mr Ian Stockton. Mr Stockton is a full-time employee of CSA Global. Mr Stockton is engaged by Regener8 Resources NL as an independent consultant. Mr Stockton has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Stockton is a Fellow and RPGeo (Exploration) of the AIG and Member of the AusIMM. Mr Stockton consents to the inclusion in this release of the matters based on his information in the form and context in which it appears.

About Regener8 Resources NL

Regener8 Resources NL (ASX:R8R) listed on the Australian Securities Exchange Friday, 8 July 2022 and acquired the Kookynie Gold Project from GTI Energy (Ltd ASX:GTR).

Regener8 Resources Kookynie Project is located in the Kookynie district of Western Australia, approximately 150km north of Kalgoorlie and 55km south of Leonora. This historically productive region has produced over 500,000oz* and has undergone a revival of activity in recent years, with encouraging resource growth and exploration results by neighbours such as Genesis Minerals, Iris Metals, Carnavale Resources and Metallicity.

Regener8 intends to investigate its underexplored tenements located in the heart of this district, with a view to adding value, whilst traversing lightly on country and in a climate sensitive manner.
