

28 April 2023

QUARTERLY ACTIVITIES REPORT

FOR THE QUARTER ENDING 31st MARCH 2023

Oil and gas producer Stonehorse Energy Limited (**ASX:SHE**) (**Stonehorse** or the **Company**) is pleased to present this Quarterly Activities Report for the quarter ended 31st March 2023.

OPERATIONAL HIGHLIGHTS

- > Near term multi-well thermal oil upgrade investment made in partnership with Alberta based Proton energy with robust short cycle returns.
- Operations workover operations commenced on heavy oil well KP5 with expected payout 6 months from completion and an economic return of 30% within 9 months.
- Multiple onshore oil and gas well investment opportunities presented from a spread of Canadian based E&P companies are currently being considered to build on the initial investment with Proton.

North American Assets

Jewell is now delivering "seasoned production" and is currently generating approximately US\$123,000 per month in Operating Revenue for Stonehorse.

The balance of wells in the US portfolio continued to perform as expected during the quarter, with these wells generating approximately US\$147,000 in operating cashflow.

All the wells in the North American portfolio (with the exception of the Sutton well) (US\$98k) have now "paid out".

Canadian Assets

Stonehorse Energy has agreed to fund the cost of the proposed upgrades of three existing heavy oil wells for an estimated cost of CAD750,000 via the establishment of a financial arrangement, the terms and conditions of which are summarised in the section below.

The agreement will see Stonehorse earn an agreed return on each well investment of 30% with an estimated average annualised return of 40% based on estimated payout assumption of ~8months per well. On achieving the agreed return on each investment our financial interest will terminate.

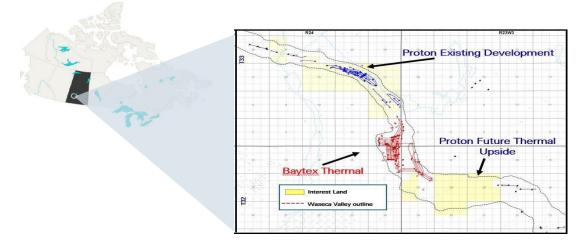

Figure 1: Proton's Superb Kerrobert Asset location.

Summary of Financial Agreement with Proton

CAD 370,000 will initially be advanced to the Borrower. Repayment is due in accordance with the terms agreed. The lender will also have options to lend additional amounts up to CAD 380,000 to Superb. The primary Loan and the additional loans will accrue a return based on the terms outlined below.

This is a production-based loan which means repayment of the loan is from the marginal net production on the properties related to the workovers. The amount to be loaned is to be paid back with the portion of incremental revenue until payout ("before payout revenue") from the upgrades using such percentages as defined.

After the Investment has been paid back, the Lender will continue to receive the portion of incremental revenue after payout ("after payout revenue") earned from the upgrades using such percentages as further defined until such time as the total cash plus cash return calculated in accordance with the following formula has been achieved: (Before payout revenue + after payout revenue)/Money to Superb=100% plus Return.

Australian Assets

Myall Creek-2 (Surat Basin, QLD)

The timing of the planned fracture stimulation is now expected to be late November / early December 2023 and is designed to coincide with the JV partners ability to take advantage of forecast eastern seaboard natural gas prices.

OPERATIONAL STRATEGY AND OBJECTIVES

The current strategy of Stonehorse is to build a portfolio of high quality well bore assets by taking non-operated working interests in wells reflecting risk appetite and capital availability. The success of the Jewell well provides the Company with the funding capacity to increase the diversity of its investments.

The Company assessed several investment opportunities as a way of diversifying the risk and production portfolio of the Company. With Jewell performing strongly, there are opportunities that have been identified for the Company to continue to invest in high quality well bore opportunities providing high potential economic impact.

Canada

The Company has recently initiated discussions and engaged technical assistance in identifying and assessing a number of onshore investment opportunities in Alberta and Saskatchewan, Canada. A number of possible investment opportunities in O&G wells have already been identified targeting light oil and liquids rich gas with the team currently working on the development of these opportunities. These opportunities deliver Stonehorse Energy the scope to take-up working interest percentages between 20% and 50% per well on "to be drilled" fracture stimulated lateral wells located in Alberta.

FINANCIAL PERFORMANCE

Operating Results

The Company reported operating revenue of A\$1.16m and a net gain from continuing operations of A\$780k for the 3 months to 31st March 2023. Reduction in operating performance from previous quarter primarily due to lower WTI oil and natural gas prices coupled with the expected portfolio production decline.

Financial Position

As at 31st March 2023, the Company had a cash balance of A\$10.6m and additional liquid assets in the form of tradable securities worth A\$630k.

EVENTS SUBSEQUENT TO REPORTING DATE

The workover of the first of the three Proton investment wells (KP5) was completed in early April with the well. Early operational highlights provided include:

- Total fluid rate increasing with time;
- Oil rate improving and expected to continue to improve over the next month;
- Temperature increasing with production;
- Well fluid production continuing to stabilise with a plan to increase pump rate and total fluids production over time; and
- Currently reviewing potential for further well stimulation.

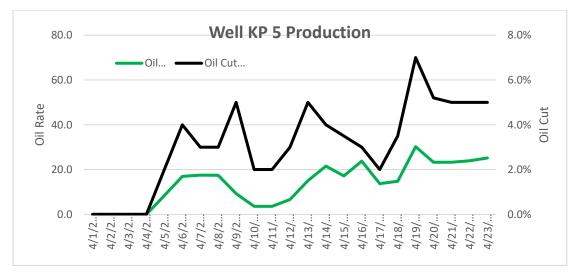

Figure 3: KP5 well initial BOPD and oil/water cut.

ASX Additional Information

- 1. ASX Listing Rule 5.2.1 and 5.4.2 Oil and gas production and development and investment activity expenditure during the quarter was \$158,000. Full details of the activity during the quarter are set out in this report.
- 2. **ASX Listing Rule 5.2.2 and 5.4.1** Exploration activity investment and operating expenditure for the quarter was \$406,000. There were no substantive exploration activities during the quarter.
- 3. **ASX Listing Rule 5.4.5** Payments to related parties of the Company during the quarter and outlined in the Appendix 5B include \$39,039 for Director Fees.

This announcement is released on authority of the Board.

Glossary

BOE	Barrels of Oil Equivalent
Development Unit (DSU)	Development unit or Drilling Spacing Unit (DSU) is the geographical area in which an initial oil and or gas well is drilled and produced from the geological formation listed in the spacing order. The spacing unit combines all interest owners for the purpose of sharing in production from oil and or gas wells in the unit. A spacing order establishes the size of the unit, divides the ownership of the unit into the "royalty interest" and "working interest".
Mboe	1,000 barrels of oil equivalent
IP24	Means average daily oil production of a well in its peak 24 hour production
IP30	Means average daily oil production of a well in its peak production month
IP90	Means average daily oil production of a well in its peak production 3 months
Mcf	1,000 cubic feet (of gas)
MMboe	1,000,000 barrels of oil equivalent

8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)		N/A	
	Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.			
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:			
	8.8.1	Does the entity expect that it will continue to have the current cash flows for the time being and, if not, why not?	level of net operating	
	Answer: N/A			
	8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?			
	Answer: N/A			

8.8.3	Does the entity expect to be able to continue its operations and to meet its business
	objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- 2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
