VANADIUM RESOURCES LIMITED (ASX: VR8; DAX: TR3) (the Company) the developer of the Tier 1 Steelpoortdrift Vanadium Project (**the Project**) in Limpopo, South Africa, is pleased to announce that it has executed conditional sale and option agreements (**Sale and Option Agreements**) to increase its interest up to 86.49% (up from 73.95%) in Vanadium Resources (Pty) Ltd (**VanRes**).

Mr Jurie Wessels, Executive Chairman of VR8 commented: *“We are very pleased with the opportunity to increase our ownership in the Project. If completed, these transactions will allow VR8 to hold greater leverage towards fulfilling our critical pathways, particularly in raising the required construction funding through debt funding and equity mechanisms. Equally, through this transaction, we have provided an opportunity to Obeec and Math-Pin to contribute to the future capital requirements of the Project as shareholders of VR8 instead of as private shareholders in VanRes. This way we are establishing a firm foundation for financing the project within the confines of the prevailing regulatory environment of the South African Government.”*
