About Great Western Exploration

Great Western Exploration (ASX:ASX) is a copper, gold and nickel explorer with a world class, large land position in prolific regions of Western Australia. Great Western’s tenements have been under or virtually unexplored (Figure 1).

Numerous field work programmes across multiple projects are currently underway and the Company is well-funded with a tight capital structure, providing leverage upon exploration success.

Figure 1: Location of Great Western's Exploration Tenure.

Authorised for release by the board of directors of Great Western Exploration Limited.
