## PROGRAMMES ACCELERATED AT LJN4 AFTER OVERSUBSCRIBED PLACEMENT

Magnetic Resources NL (**Magnetic** or the **Company**) is pleased to announce that it has now received placement funds and now has over \$5.5M in cash reserves and has already commenced drilling with three drill rigs now on site including two diamond rigs and one RC rig (Figure 1).

The RC and diamond drilling programmes are designed to increase and upgrade the resource and to follow up promising thicker intersections including 96m at 1.3g/t from 54m in MLJRC669 at Lady Julie North 4 (see ASX announcement 11 April 2023). The programmes will also include additional drilling to the south of LJN4 looking for satellite deposits, geotechnical diamond drilling for pit slope determination, completing early work technical studies, publishing feasibility studies, and initial preparations for the commencement of mining and general working capital.
