About Cosmo Metals Ltd

Cosmo Metals Ltd (Cosmo; ASX: CMO) is an ASX-listed, base metals exploration company focused on the advancement of its flagship Minjina, Narragene and Mt Venn projects in the underexplored Yamarna Belt, in the Eastern Goldfields region of Western Australia.

The Yamarna Belt is considered highly prospective for copper-nickel-cobalt (Cu-Ni-Co) and Zinc-Lead-Silver (Zn-Pb-Ag), and Cosmo's well regarded technical team is advancing exploration on multiple fronts to unlock the potential of the region.

With previous drilling having identified Cu-Ni-Co and Zn-Pb-Ag sulphide mineralisation at Cosmo's key projects, the company has a unique opportunity to add value from this large landholding.
