ASX RELEASE

VECTION TECHNOLOGIES UNVEILS ACQUISITION TO LEAD FASHION & RETAIL XR REVOLUTION

Vection Technologies Ltd (ASX:VR1, OTC:VCTNY) ("Vection Technologies" or "Company"), the INTEGRATEDXR[®] company, is pleased to announce the execution of a binding agreement to acquire the business of Invrision S.r.l ("Invrision"), a prominent technology company specializing in 3D and **mixed reality** solutions for the fashion, retail, consumer goods, and real estate sectors.

This proposed acquisition enhances Vection Technologies' position as a leader in the integrated-extended reality (XR) technology space, providing customers with innovative XR solutions and unlocking new organic growth opportunities.

HIGHLIGHTS:

- Vection Technologies to acquire the business of Invrision, a prominent 3D and mixed reality technology company specializing in the fashion, retail, consumer goods, and real estate sectors.
- Acquisition delivers enhanced customer experience and capabilities through the integration of Invrision's technology within the INTEGRATEDXR[®] suite.
- Immediately value accretive acquisition delivering positive EBITDA and ~\$1.7M in revenue, unlocking strong opportunities to drive further organic growth for the combined group.¹
- All performance-based consideration with \$0.10 floor share price, vesting after 30 June 2026.
- Transaction structure demonstrates vendor's long-term commitment to the Company's organic growth strategy.
- Invrision has a client portfolio including globally recognized brands such as Walgreens, Ferrero, Nestlé, Coca Cola, and Diageo, and has worked with leading brands including Ralph Lauren and PepsiCo.
- Notable partnerships include Microsoft, Ipsos, and Sketchfab, which contribute to Invrision's commercial strength, research, and development capabilities.
- This strategic acquisition aligns with the Company's vision to expand its technology portfolio and leverage Invrision's expertise in industry-focussed, cutting-edge 3D and mixed reality technology solutions.
- By integrating Invrision, Vection Technologies aims to drive organic growth while enhancing customer experiences and creating significant value for shareholders.

OVERVIEW:

Invrision is a prominent technology company specializing in 3D and mixed reality solutions for the fashion, retail, consumer goods, and real estate sectors.

Invrision has an impressive client portfolio that includes globally recognized brands such as Walgreens, Ferrero, Nestlé, Coca Cola, and Diageo, and has worked with leading brands including Ralph Lauren and PepsiCo.

Additionally, Invrision has notable partnerships with companies like Microsoft, Ipsos, and Sketchfab, contributing to its commercial strength, research, and development capabilities.

Image 1: Consumer behaviour analysis in Invrision's Shelfzone virtual reality (VR).

Invrision develops leading 3D and mixed reality technology solutions, including:

- **E-commerce 3D:** a patented and optimized digitization system that utilizes artificial intelligence (AI) and computer vision to create 3D digital twins of products, enabling customers to enhance their marketing and e-commerce online strategies. These real-time renderings are multi-channel, customizable, and easily embeddable through viewers and configurators, offering ultra-realistic textures, physics, and materials.
- **Shelfzone:** a platform for simulating retail spaces in large-scale and organized distribution, characterized by providing unparalleled realism in simulated spaces and ease of customization. The solution facilitates the presentation of space planning and category management projects, streamlines trade marketing activities, and through data tracking capabilities, speeds up complex consumer behaviour research activities. With Shelfzone, the industry and retail sectors can create countless virtual supermarkets and showrooms, fostering collaboration among teams, organizations, and customers while saving time and costs.
- **Virtual showroom:** an advanced technology that provides 3D objects with a realistic appearance within a customizable environment. This solution offers a brand-new 3D and virtual reality (VR) shopping experience, enhancing customer engagement and interaction. Designed to facilitate business to business

Gianmarco Biagi, managing director of Vection Technologies, commented:

"We are thrilled to announce this remarkable achievement in Vection Technologies' journey of prioritizing customer benefits and delivering exceptional value. As we continue to grow our company, we remain committed to minimizing shareholder dilution, enabling us to focus on enhancing the experiences of our valued customers."

"By acquiring Invrision, a leading technology company, we are not only adding cutting-edge technology to our INTEGRATEDXR[®] portfolio, but we are also gaining a talented team of individuals who will contribute to our organic growth. We remain committed to delivering value to our shareholders while strategically expanding our capabilities in this rapidly evolving technology sector. This acquisition aligns with our vision of staying at the forefront of innovation and solidifying our position as a leader in the industry. We are excited about the opportunities that lie ahead and look forward to leveraging the synergies between our organizations to drive continued organic growth and create value for our shareholders."

Matteo Esposito, CEO of Invrision, commented:

"We are thrilled to take this bold leap forward, uniting Invrision's unwavering commitment to drive innovation in retail and e-commerce, with Vection Technologies, bringing forth tremendous visibility and commercial momentum to our operations."

*"This strategic acquisition unlocks a wealth of synergies, enabling us to further develop our proprietary technologies within the **INTEGRATEDXR[®]** suite, delivering greater value to our customers. By merging our deep expertise in the retail industry with the cutting-edge capabilities of the **INTEGRATEDXR[®]** suite, we are poised to drive substantial growth, offering transformative solutions that empower businesses to innovate. This marks a pivotal moment for the virtual reality industry, as we prepare to unveil ground-breaking, high-performance solutions on a global scale. Together with our new partners at Vection Technologies, we are fully committed to unleashing our collective experience and unwavering passion, dedicated to assisting business in seizing this monumental opportunity."*

The proposed acquisition of Invrision aligns with the Company's vision to expand its technology portfolio and people, to drive organic growth, leveraging increased expertise in cutting-edge 3D and mixed reality technology solutions for the fashion, retail, consumer goods, and real estate sectors.

Invrision has been working on simulating retail spaces and creating optimized 3D assets for real-time rendering, by focussing on serving business-to-business (**B2B**) needs today and leading the way in the future of 3D and metaverse -commerce.

Key acquisition benefits include:

- **Customer benefits:** Integration of Invrision's technology within the **INTEGRATEDXR[®]** suite will bring remarkable advantages to the Company's customers, enhancing their experience and providing them with cutting-edge capabilities.
- **Enhanced commercial value:** By immediately commercializing Invrision's technology across the Company's direct and indirect sales network, Vection Technologies aims to deliver substantial benefits to its customers, driving organic profitable growth and providing them with innovative solutions.
- **Enhanced customer trust:** With a strengthened global commercial presence and an extensive **INTEGRATEDXR[®]** solutions and services offering tailored to the fashion, retail, and consumer goods sectors, the Company aims to earn and maintain the trust of its customers, ensuring their needs are met effectively.
- **Streamlined operations:** The integration presents an opportunity to reduce overhead costs by centralizing administrative tasks, focusing on industry-specific commercial activities, and unifying the combined research and development efforts. This optimization directly benefits the Company's customers, delivering higher value at a more efficient cost.

During calendar year 2022, Invrision delivered unaudited revenue of ~\$1.7m posting an EBITDA profitable position.
