

A DIVERSIFIED EXPLORATION COMPANY FOCUSED ON DRIVING SHAREHOLDER VALUE

June 2023 Gold Coast Investment Showcase

DISCLAIMER

These estimates and assumptions while considered reasonable by the Company are subject to known and unknown risks, uncertainties and other factors which may cause the actual results, achievements and performance of the Company to be materially different from the future results and achievements expressed or implied by such forward-looking statements. Investors are cautioned that forward looking information is no guarantee of future performance and accordingly, investors are cautioned not to place undue reliance on these forward-looking statements.

Competent Person Statement

The information in this presentation that relates to Mineral Resource and Exploration Results is based on information compiled by Mr Glenn Grayson who is a Non-Executive Director of Aruma Resources Limited. Mr Grayson is a Fellow of the Australasian Institute of Geoscientists. He has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as Competent Person as defined in the 2012 Edition of the *"Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves"*. Mr Grayson consents to the inclusion in the release of the matters based on this information and the form and context in which it appears. All exploration results reported have previously been released to ASX and are available to be viewed on the Company website www.arumaresources.com. The Company confirms it is not aware of any new information that materially affects the information included in the original announcements. The Company confirms that the form and context in which the Competent Person's findings are present have not been materially modified from the original announcements. All historic data has been sourced from Western Australian Mineral Exploration reports (WAMEX) and has been validated by GIS validation procedures by Aruma staff and consultants.

The information contained in this presentation is for informational purposes only and does not constitute an offer to issue, or arrange to issue, securities or other financial products. The information contained in this presentation is not investment or financial product advice and is not intended to be used as the basis for making investment decisions. The presentation has been prepared without considering the investment objectives, financial situation or needs of any person. Before making an investment decision, you should consider, with or without the assistance of a financial advisor, whether an investment is appropriate considering your Investment Needs, Objectives And Financial Circumstances. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of Aruma Resources Ltd, their directors, employees or agents, nor any other person accepts any liability, including, without limitation, any liability arising out of fault of negligence, for any loss arising from the use of the information contained in this presentation. No representation or warranty, express or implied is given as to the accuracy, completeness or correctness, likelihood of achievement or reasonableness or any forecasts, prospects or returns contained in this presentation nor is any obligation assumed to update such information. Such forecasts, prospects or returns are by their nature subject to significant uncertainties and contingencies.

Forward Looking Statements Caution

Certain statements contained in this document constitute forward looking statements. Such forward-looking statements are based on several estimates and assumptions made by the Company and its consultants considering experience, current conditions and expectations of future developments which the Company believes are appropriate in the current circumstances.

ARUMA'S PROJECTS

Norseman Li Project

Mt Deans

Lithium bearing pegmatite
Multiple pegmatites with consistent mineralisation
Li plus Rb, Cs, Sn, K, Ta

Pilbara Gold and REE Projects

Saltwater

New REE targets in greenfields province – high grade samples
Targeting for Au, REE, Cu, Pb, Co

Melrose

Strike extensions of Paulsens mine

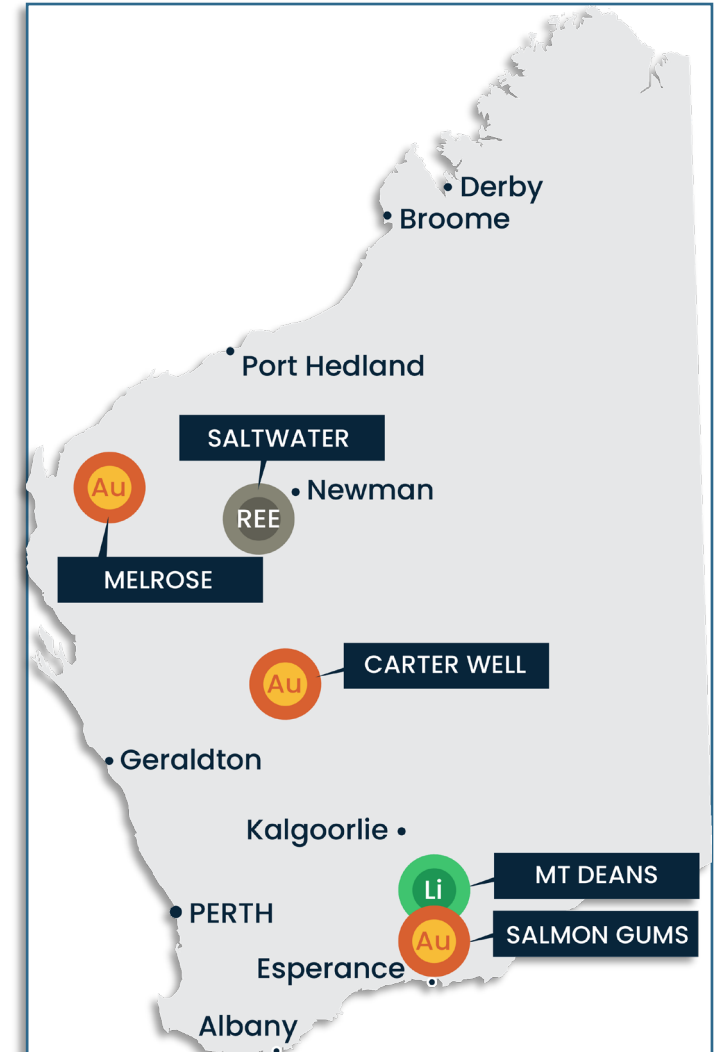

Yilgarn Gold Projects

Salmon Gums

Drilling defined high-grade gold – 5m at 50g/t
New gravity and magnetic surveys completed.

Carter Well

New area of hidden greenstone

WHAT SETS US APART

Aruma has targeted available ground that fits our mineralisation model while specifically looking for prospective terrain that has for various reasons been previously overlooked.

Mt Deans – Tantalum rich pegmatite outcrop which had not previously been sampled for Lithium.

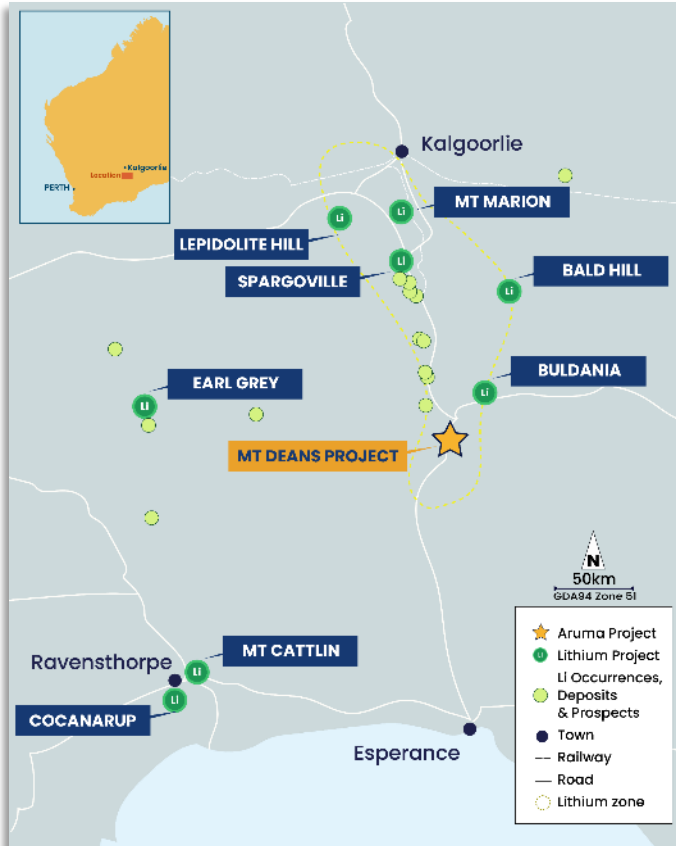

Saltwater – Local prospectors successfully prospecting for gold while completely unexplored for precious metals and rare earths.

Salmon Gums – mapped as part of the Albany Fraser zone and not Yilgarn greenstone of the Norseman belt.

Carter Well – mapped as granite. Not previously explored but has mafic outcrop.

MT DEANS LITHIUM PROJECT

- 200km from the deep sea port of Esperance in the “Lithium Corridor” of Western Australia
- Pegmatite in basalts
- Drill hits up to 2% Li₂O and 1.5% Rb₂O
 - 8m @ 1.1% Li₂O from 26m
 - 5m @ 1.0% Li₂O from 55m
 - 5m @ 1.2% Li₂O from 4m
- High Cs, Nb, Ta, Sn and K
 - 10m at 0.2% Cs from 33m
 - 6m at 0.2% Cs from 13m
 - 7m at 405ppm Sn from 33m
 - 6m at 400ppm Ta from 28m

*(AAJ ASX announcement 11 January 2023)

MT DEANS LITHIUM PROJECT

Drill Programs

Identified up to 15m thick pegmatites

Metallurgy

Flotation test work completed on RC sample. Outcrop sample currently underway

Results

Identifies Li mica is suitable for flotation and Sn and Ta very amenable to further gravity separation.

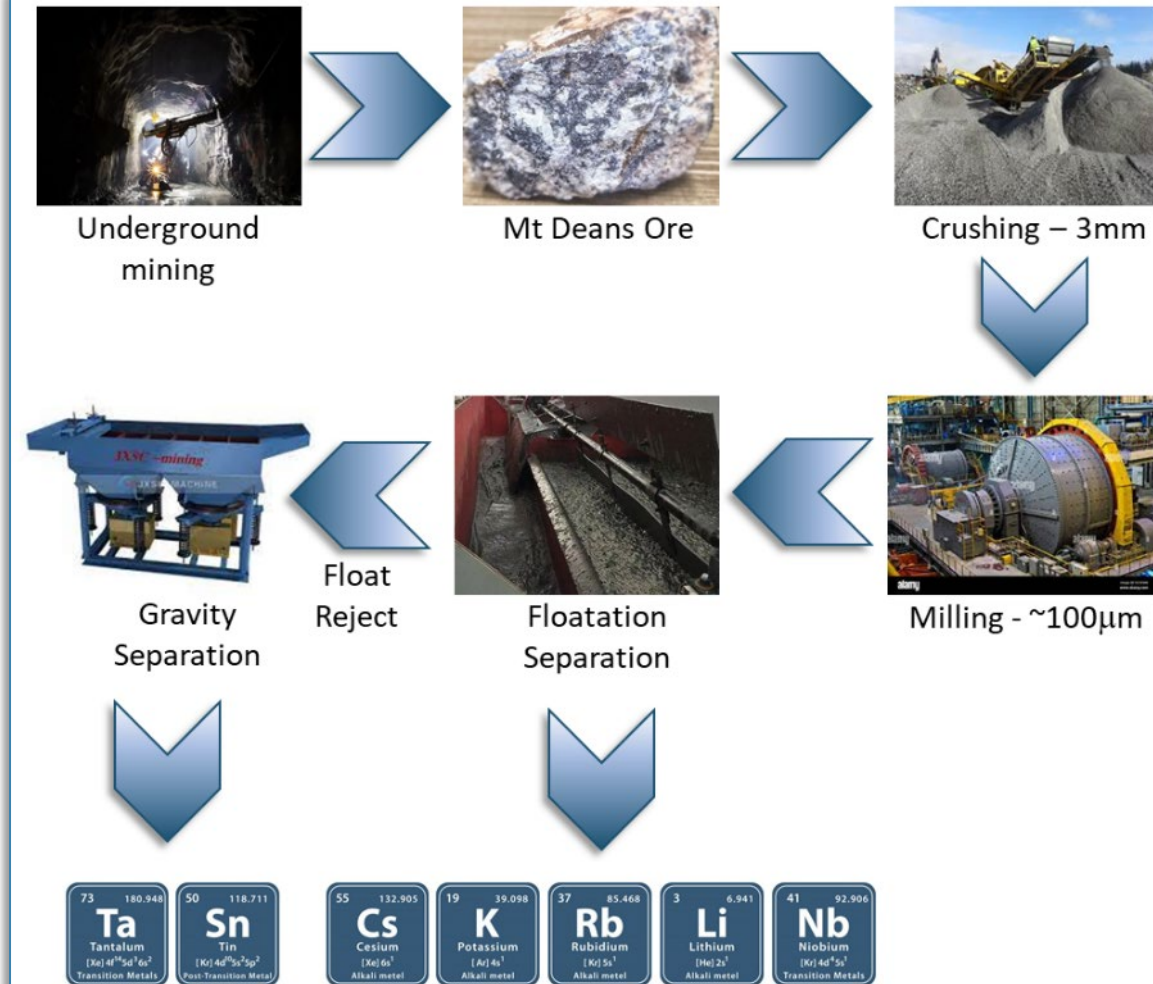

Aim

Define mineable pegmatites with ~1.0% Li₂O with Rb, Cs, Ta, Sn and K capable of producing a saleable concentrate

Initial metallurgical test work is underway. Seeking to capture Lithium and other potentially valuable accessory minerals

Conceptual processing flowsheet

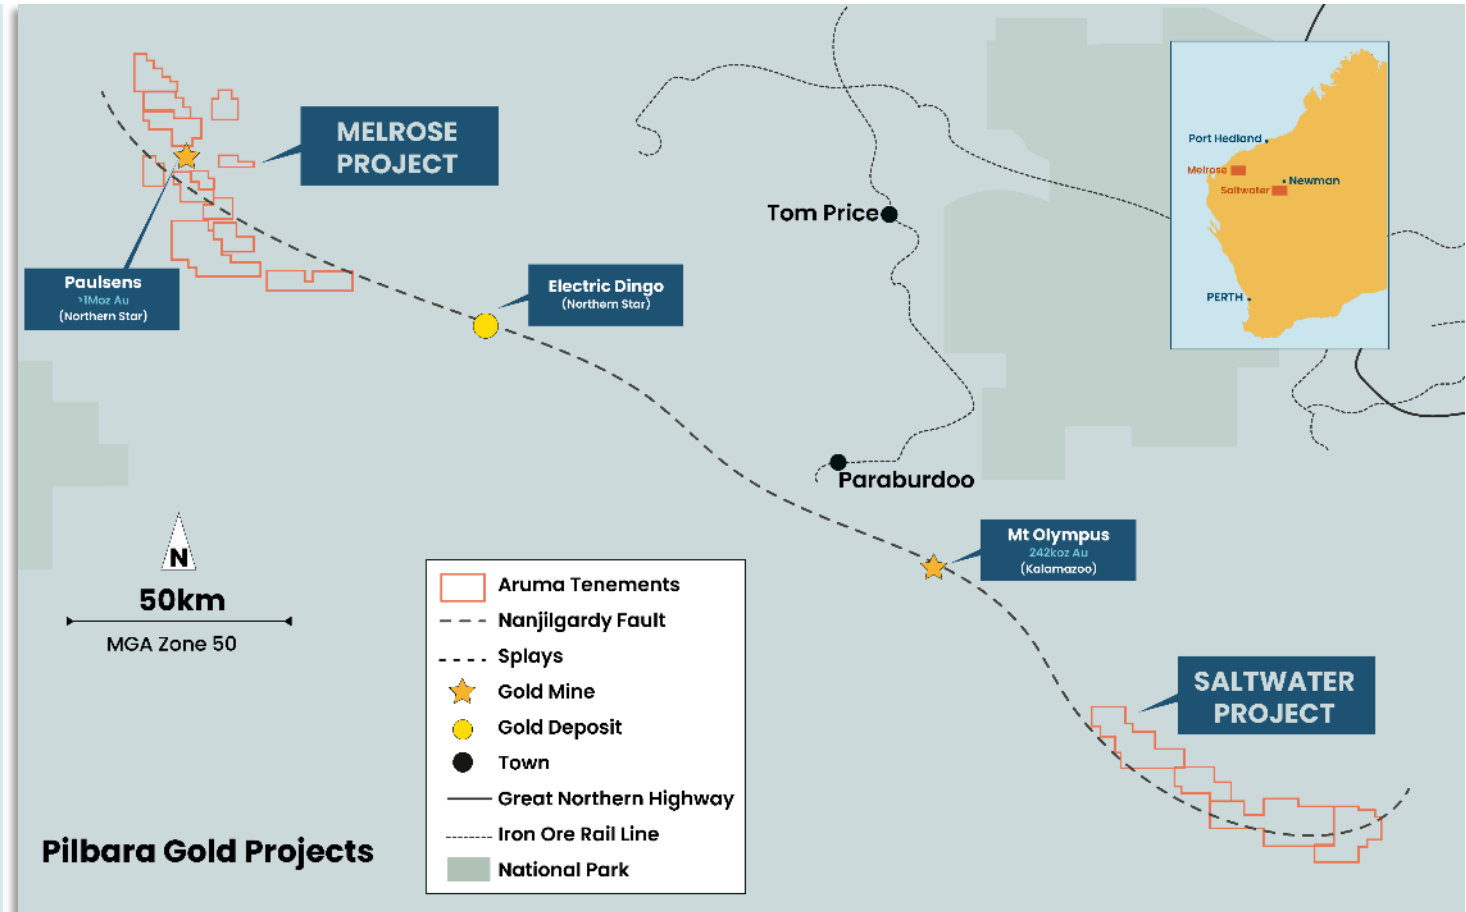

While lithium is the targeted commodity, tin and tantalum are both within the pegmatites in quantities that provide substantial economic benefit and have shown to liberate well through gravity separation.

PILBARA PROJECTS

ATTRACTIONS

- Open ground with easy access
- World class discoveries
- Fertile rock types
- 450km Nanjilgardy Fault target
- >5M oz Corridor
- >1,000km² Lease areas
- Potential for greenfields Camp discovery
- Rare Earth possibilities

SALTWATER PROJECT DESCRIPTION

Basement Fault splays into Domes

398km² granted tenure

80km of strike of the favourable Wyloo-Bresnehan major unconformity

Gold Indicators

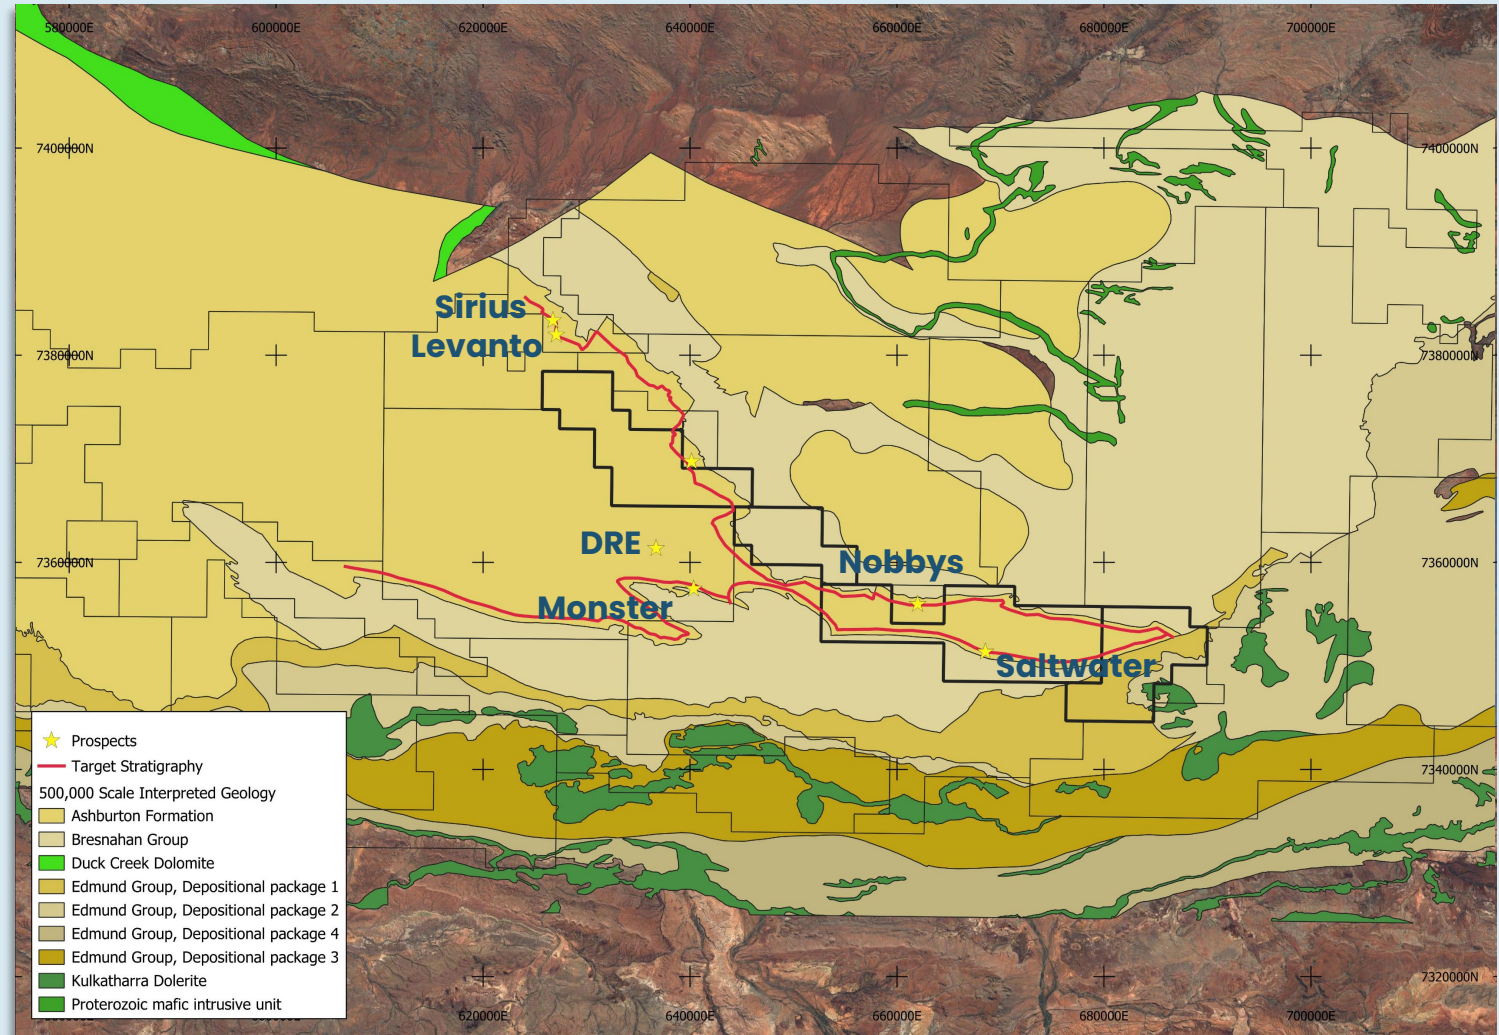

Nuggets-Alteration

Historic REE targets being investigated along with Uranium and base metal mineralization

- Levanto – 11% REO*
- Sirius – 9% REO*
- DRE – 3.25 kg/t Nd₂O₃**
- Nobbys – 3.1% Cu, 1.4% Pb, 2g/t Au*
- Monster – 11.6 g/t Au, 650 g/t Ag and 2.9% Sb**

* AAJ ASX announcement 16 February 2023 (Open file WAMEX Report A88669)

** DRE ASX announcement 8 February 2023

SALMON GUMS GOLD PROJECT

Location – Norseman Belt

Structure – Major NE faults

Area – 222km² granted EIs
 • 1 new 138km² lease just applied for.

Heritage – All on farmland

Peer explorers in the district:

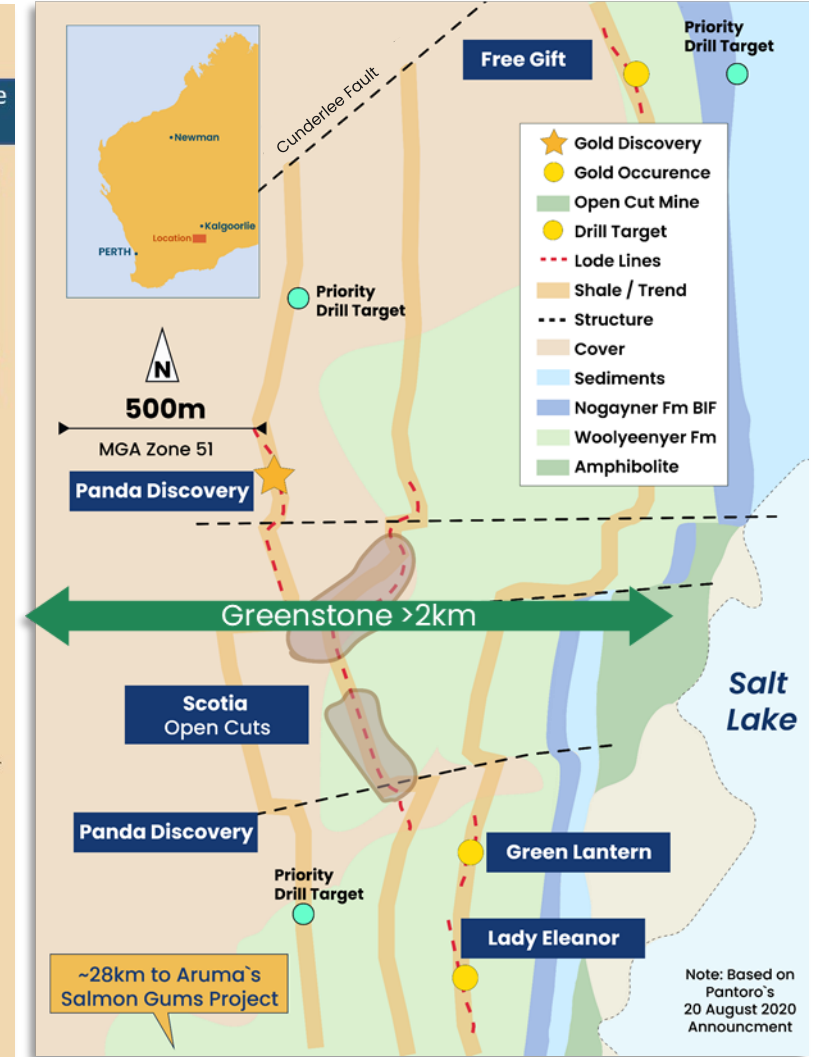

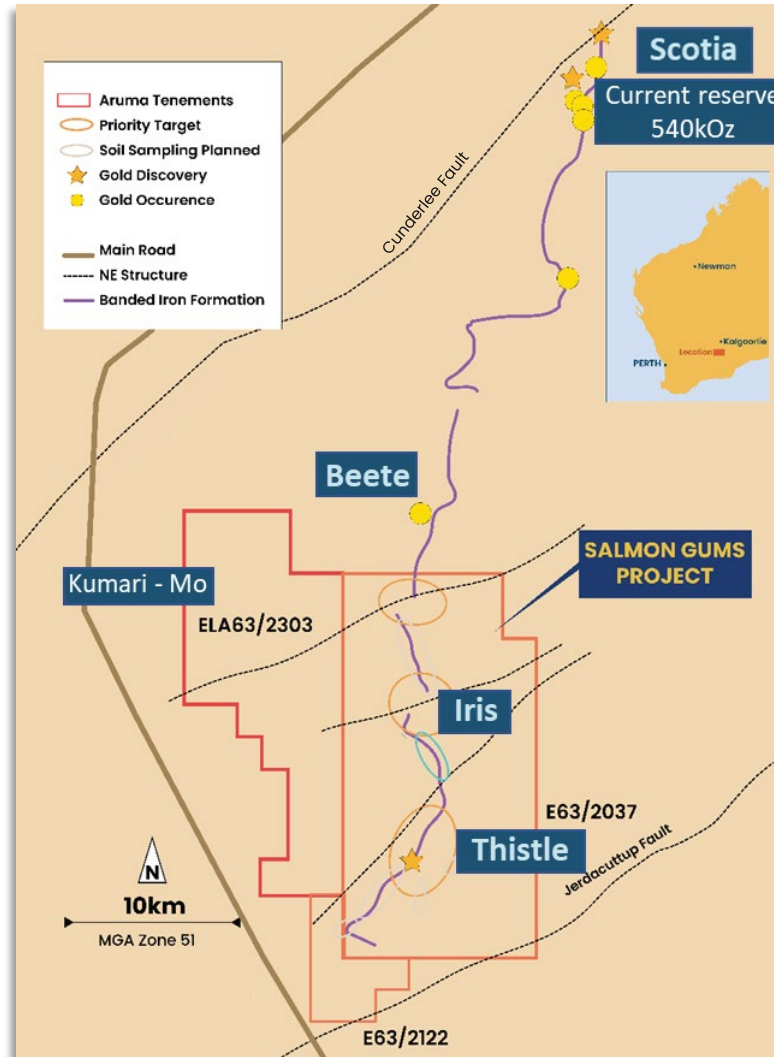

Scotia Mining Centre

Multiple zones of mineralisation

Green Lantern Intersections:

- 28m at 8.41g/t Au*
- 9m at 3.14g/t Au*
- 9m at 5.44g/t Au*

* TUL announcement 2/8/2021

Note: Based on Pantoro's 20 August 2020 Announcement

SALMON GUMS – DRILLING GOLD

Aruma drilling to date: 11,609m in 116 holes

Bonanza grade Gold Intersected;

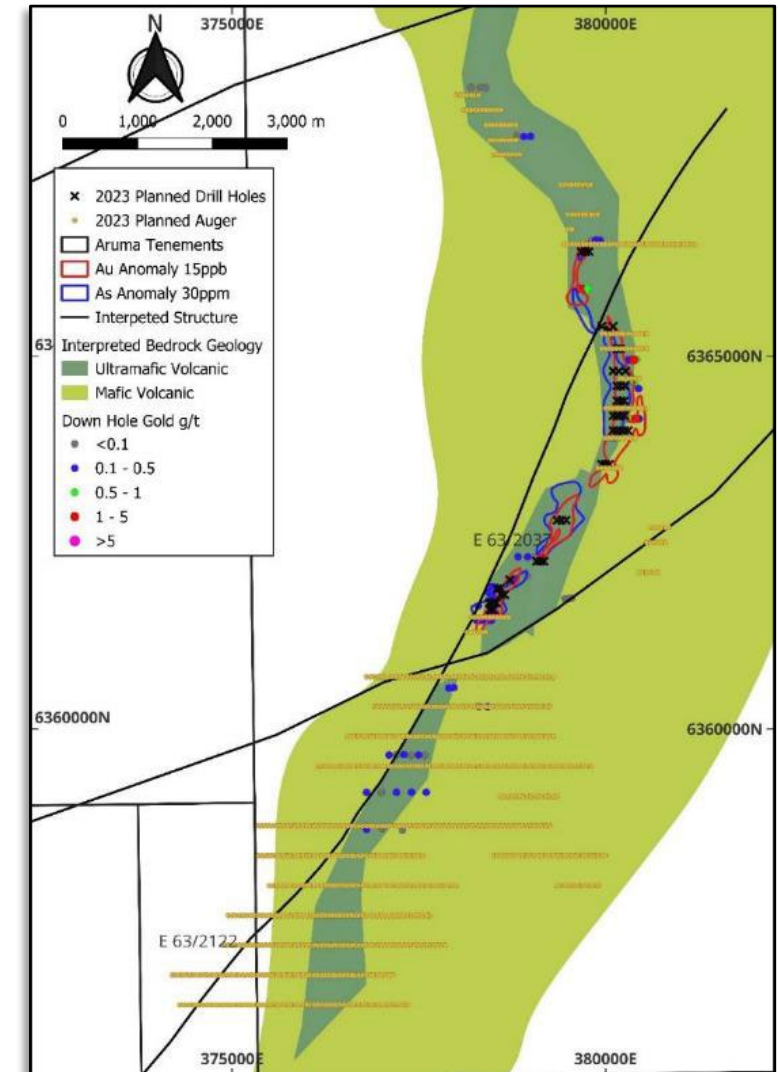

- 4m @ 4.26g/t Au from 105m
 - Incl 1m @ 13.25g/t Au from 108m
- **5m @ 50.2g/t Au** from 42m
 - Incl **3m @ 83g/t Au** from 42m (AAJ ASX announcement 21 March 2022)

Core drilling expands area of interest at Salmon Gums to;

>3.5km wide interpreted Greenstone in 3+ Stratigraphic Zones

2023 drilling just completed;

- 44 hole – 5,366m RC program; follow-up bonanza-grade gold intersections and extend gold mineralised zones at Iris and Thistle prospects. This drilling was successful in extending the known mineralisation.
- 1,026 sample shallow auger drilling program; testing 5km strike length of elevated soil anomalism with indicator elements.
- Next step: Understand the high-grade gold with diamond core.

ARUMA HIGHLIGHTS

Generating Shareholder value by Drilling Gold and Lithium-Rubidium for near term results

Company Metrics give strong upside

Market Cap ~\$9.4M
Cash ~\$3.4M

Actively Drilling for real news flow

Well Funded For exploration programs

Results
Drilling success
- Mt Deans Li Project
- Salmon Gums Gold

Projects in active mining precincts
Multi-commodity focus

New MD appointed – Glenn Grayson

In house expertise generating projects

R&D compliant for 43% rebate – >\$5.5M to date
