About Asra:

Asra Minerals is developing Gold REE and Critical Minerals projects, located in the prime Eastern Goldfields jurisdiction of Leonora, Western Australia. In addition to the **Kookynie West Project** detailed in this announcement Asra also has its **Mt Stirling Project** which hosts 10 advanced gold prospects as well as a unique inventory of clean, heavy-dominant (Dysprosium, Terbium) Rare Earth Elements (REE) and critical minerals (Scandium and Cobalt).

Located near the mining town of Leonora, 240km north of Kalgoorlie in Western Australia, the Mt Stirling Project has:

- ✓ **Gold** - a current JORC compliant Mineral Resource of gold alongside Red 5's (ASX; RED) King of the Hills mine. The region has recently produced approximately 14Moz of gold from mines such as Tower Hills, Sons of Gwalia, Thunderbox, Harbour Lights and Gwalia. Mt Stirling is nearby to excellent infrastructure including road, rail and mills.
- ✓ **REE** - A high ratio of heavy rare earths to total rare earths (0.62 to 1) and a lack of radioactivity distinguishes the company's Yttria and Wishbone prospects which contain a high proportion of the magnet REEs dysprosium, terbium, praseodymium, and neodymium, as well as significant anomalous concentrations of cobalt and scandium.
- ✓ **Property:** The Company owns the 172,662-hectare Tarmoola Pastoral Station underlying the Company's gold and REE deposits and infrastructure. The Station also extends north and east to cover Red 5's KOTH Gold Operation (ASX: RED) and Aeris' Jaguar Mining Centre (ASX: AIS).
- ✓ **Equity:** Asra also has free-carried gold joint ventures in the WA Goldfields with Zuleika (ASX: ZAG) and Loyal Lithium (ASX: LLI) as well as a large equity holding in LLI.
