

Retraction of Production Targets and Forecast Information

Triton Minerals Limited (ASX: TON or the Company) released an announcement titled “Definitive Feasibility Study Update Completed” announcement on 11 July 2023. Following discussions with ASX, the Company retracts the information contained in that release with regard to capital cost savings and an increased graphite production rate. These statements are not consistent with ASX Listing Rules 5.16 and 5.17 as the Company does not have a reasonable basis for giving revised production targets at this time.

As a consequence of the retraction of these production targets and cost savings information, the Company advises that investors should not rely on the retracted cost savings and production targets for their investment decisions.

This announcement was authorised for release by the Board of Directors.
