8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: Yes, the current net operating cash flow is foreseeable.	

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

As announced on 9th June 2023, in relation to the Mt Isa property a contract has now been signed at an agreed sale price of **\$700,000** (before sales commission and other related costs). The settlement date for the funds to be transferred to Inca is **4th August 2023**. This was a well thought out strategic decision which with it being a sale and lease back agreement, the Company is still able to use the property under the lease to 30 April 2026.

The Company is currently in conversation with brokers and corporate finance entities with the view of fundraising in the near future.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes, the Board believes that the Company will continue as a going concern after considering the factors listed in 8.8.2 where:

- the company has the ability of the Company to raise capital by the issue of additional shares under the Corporations Act 2001; and
- The ability to curtail administration and operational cash out flows as required.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
