

ANNOUNCEMENT

25 July 2023

IDC LOAN UPDATE

MC Mining Limited (**MC Mining** or the **Company**) is pleased to announce that the Industrial Development Corporation of South Africa Limited (the **IDC**) has extended the date for repayment of the R160 million loan (c.US\$8.9 million) plus interest thereon, to 30 September 2023. The repayment of the R160 million loan, plus accrued interest, was due for repayment by 30 June 2023.

As previously announced, the larger scale Makhado Project resulted in peak funding of the project increasing to ZAR1.8 billion (c.US\$100 million). The IDC is a 6.7% shareholder in the Makhado Project and remains supportive of the project and its prospects to facilitate industrialisation within the Makhado corridor.

The additional facility of R245 million (c.US\$13.6 million) for the development of the fully permitted Makhado steelmaking hard coking coal project (**Makhado Project** or **Makhado**) remained subject to the IDC confirming its due diligence and credit approval and has not been extended. This facility was based on forecast phase 1 production of 540,000 tonnes (**t**) of steelmaking hard coking (**HCC**) coal and 570,000t of thermal coal (**TC**). As announced in June 2023, the increased scale of Makhado has led to significantly improved economics and the project is now targeted to produce an average of 810,000t of steelmaking HCC and 620,000t of TC over its 28-year life of mine, therefore making this facility redundant.

The Company continues to advance the fund raising initiatives for Makhado, which as previously advised are expected to be concluded in H2 CY2023.
