QUARTERLY REPORT

For the 3 months ended 30 June 2023

Highlights:

Prodigy Gold 100% Projects

Tanami North Gold Project:

- Co-funded RC drilling under Round 15 of the Resourcing the Territory initiative commenced at the Boco North project, approximately 15 kilometres north of the Tregony Mineral Resource. Results were announced subsequent to quarter-end.
- NT Government approved co-funding for two programs on the Tanami North project area as part of Round 16 of the Resourcing the Territory drilling and geophysics collaboration initiative. These projects are:
 - A regional gravity survey covering an area south of Hyperion and North of Tregony
 - o A single diamond drill hole beneath the Tregony Mineral Resource

Prodigy Gold JV Projects

Lake Mackay Project (IGO and IGO/Castile):

• No on-ground exploration works were completed on the Lake Mackay project area during the quarter. Rehabilitation was completed with only one hole left open as a future water source.

Tobruk Project - Newmont JV

- The minimum expenditure commitment of \$2,500,000 was met during the June 2023 quarter (Q2 2023)
- Newmont is continuing to review the results of the 3D modelling of the Magnetotelluric Survey (MT) completed in late 2022 on the Tobruk project

Monza Project - Newmont JV

 A surface geochemical survey utilising Newmont's proprietary Deep Sensing Geochemistry technique commenced during the quarter

Management Commentary

Commenting on progress made during the June quarter, Prodigy Gold Managing Director, Mark Edwards said: "While it has been a delayed start to the field season due to the late finish to the Northern Australian wet season, it is good that we were able to commence our drilling campaign at the Boco North prospect before the end of the quarter. This resulted in Prodigy Gold being able to complete the drilling in time to receive the co-funding payment as part of the Round 15 Drilling and Geophysics grants under the Resourcing the Territory initiative.

While limited exploration work has been completed at the Lake Mackay project over the last quarter, rehabilitation of the previous drilling at the project was completed. This closes out the majority of previously approved exploration activities with future programs now requiring the submission of a new and updated Mining Management Plan.

It is great to see the Joint Venture projects continuing to progress, with Newmont completing the minimum expenditure requirements for the Tobruk agreement during the reporting period. Newmont has continued to be an active explorer in the Tanami Region and Prodigy Gold continues to support Newmont's activities wherever possible.

The Company hosted Minister Manison in Prodigy Gold's Darwin office on the 31st of May 2023, where she announced the recipients of the Round 16 Geophysics and Drilling Collaborations (GDC) program funded by the Resourcing the Territory initiative. Prodigy Gold is privileged to have been awarded two grants this year for a total of approximately \$160,000 covering a ground gravity survey and a Tregony diamond drill hole in the Tanami North project area. The successful applications show the support the NT government has for exploration in the Northern Territory and the commitment Prodigy Gold has for working in the Tanami Region."

June Quarter Exploration Summary

Tanami North Project - 100% PRX

The Boco North prospect is located within the Tanami North project area and is situated on the Suplejack Shear Zone ("SSZ") which hosts several known gold mineral resources (Figure 1) such as:

- Hyperion (100% PRX) 4.93Mt @ 1.95g/t Au for 310Koz¹
- Tregony (100% PRX) 1.44Mt @ 1.16g/t Au for 54Koz²
- Groundrush (50% TAM : 50% NST) 7.70Mt @ 4.3g/t Au for 1,100Koz³
- Ripcord (50% TAM : 50% NST) 0.75Mt @ 2.1g/t Au for 51Koz³
- Crusade (50% TAM : 50% NST) 1.30Mt @ 2.3g/t Au for 94Koz³

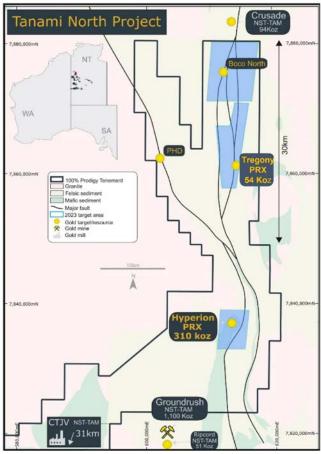

Figure 1 Tanami North Project area

¹ ASX: 31 Jul 2018 ² ASX: 15 Feb 2023

³ ASX: TAM 24 Nov 2022

The Boco North drilling was aimed at opening up an unexplored greenfields area along the significantly mineralised SSZ. Boco North had not been effectively drill tested and was seen as a geochemically blind target due to the presence of an overlying unmineralised cover. The Company completed 9 RC holes for a total of 1,647m on the program which was co-funded under the NT Government's Round 15 Resourcing the Territory Grants. The drilling at the Boco North prospect returned a much thicker than expected overlying cover resulting in no holes penetrating through to the underlying prospective Tanami Group rocks. The program was terminated before drilling all holes originally planned. Results of the Boco North drilling program were released subsequent to quarterend with no significant results returned for any of the drilled holes⁴.

On completion of the Boco North program the drill rig mobilised to the Tregony deposit to drill test the mineralisation aiming to grow the resource base and add confidence in the already reported resources.

Receipt of Exploration Grants - Tanami North Project

The Hon. Nicole Manison – Minister for Mining and Industry, announced the results of the grants program under the Round 16 of the Geophysics and Drilling Collaborations (GDC) program funded by the Resourcing the Territory initiative at Prodigy Gold's office in Darwin⁵.

Figure 2 Photo of Minister Manison at Prodigy Gold's Darwin office

Prodigy Gold was the successful recipient of two exploration grants at the Tanami North project area with the NT Government co-contributing a total of \$158,148. The first successful application was the Tanami North Regional Scale Gravity Survey covering a large portion of EL9250 that hosts the Hyperion gold deposit and EL31331 that hosts the Tregony gold deposit. The second approved application was for a single diamond core hole into the Tregony gold deposit to provide structural and stratigraphic context to the recently released maiden mineral resource⁶. It is planned to commence these programs in the second half of 2023 depending on the availability of contractors.

Buccaneer Project – 100% PRX

Analysis of the previously reported metallurgical results has continued during the quarter. No work was completed on-ground at Buccaneer during the reporting period.

⁴ ASX: 6 July 2023

⁵ ASX: 31 May 2023

⁶ ASX: 15 February 2023

Joint Venture Portfolio

Lake Mackay JV (IGO and IGO/Castile)

No active exploration activities occurred during the June 2023 quarter.

Rehabilitation work was completed at Lake Mackay with the exception of one hole, which was left open as a future water source.

Any future works on the JV projects will require a new Mine Management Plan to be submitted and approved by the NT Department of Industry, Tourism and Trade ("DITT").

WA exploration title E80/5001 was relinquished during the quarter, meaning that Prodigy Gold is now a 100% Northern Territory based exploration company.

Whilst formal notification is pending, IGO advised that it is likely to dilute rather than contribute to exploration programs on the projects.

Tobruk JV and Monza JV (Newmont)

Tobruk

Newmont met its minimum expenditure commitment of \$2,500,000 within the specified four-year timeframe during the quarter.

- A district Magnetotellurics ("MT") survey commenced in Q3-2022 and was completed during Q4-2022 conducted by Moombarriga Geoscience
- The 3D modelling results of the Magnetotelluric (MT) survey data received during Q2 2023 remain subject to evaluation of the results
- A ground gravity survey at Newmont's Officer Hill project is scheduled in July 2023; a small portion of this survey extends onto the Tobruk JV.

Monza

- A surface geochemical survey utilising Newmont's proprietary Deep Sensing Geochemistry (DSG) technique commenced and was in progress at the end of Q2 2023. A total of 636 survey points were collected during the reporting period.
- Results for the surface geochemical survey (DSG) completed during the December 2022 quarter (Q4 2022), were received during the reporting period.
 - Results highlighted a number of localised anomalous responses. The survey has been designed at various spacing including 1km x 1km to provide broad coverage across the Project area, with a more detailed survey completed at a nominal spacing of 500m x 500m at selected locations
 - A horizontal to vertical spectral ratio (HVSR) passive seismic survey was also completed in parallel with the surface geochemical survey with interpretation/results pending.

Barrow Creek JV (Australasian Metals) - 10% PRX

No work was completed on the Barrow Creek Project during the reporting period as Australasia Metals work towards updating their land access agreement with the new local station owners for the RAB drilling program.

<u>Divestment – Old Pirate Project and Tanami Exploration Tenements</u>

During the quarter the Company continued to work with public entity Stockton Mining Limited ("Stockton") on the divestment of the Company's Old Pirate Gold Project and 23 surrounding exploration tenements located in the western portion of the Tanami Region in the Northern Territory⁷.

_

⁷ ASX: 29 April 2022

A variation to the agreement was announced⁸ during the quarter where the Company and Stockton agreed to extend the end date of the transaction, as well as the payment conditions for holding costs, from 30 June 2023 to 30 November 2023. The 'Pre-IPO payment' of \$750,000 was received by Prodigy Gold on 1 May 2023.

Stockton and Prodigy Gold are currently progressing the completion of several conditions precedent including the assignment of agreements. The splitting of Mineral Lease ML29822, as required under the sale agreement and approved by DITT, has occurred with ML29822 now covering the Buccaneer deposit and the new Mineral Lease, ML33459, covering the Old Pirate deposit and associated mining infrastructure. The surveying works required to peg these new leases has now been completed.

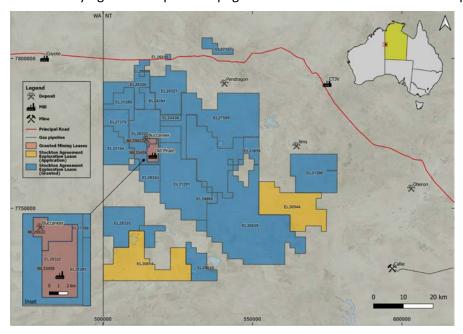

Figure 3 Stockton Sales tenements

Environmental, Social and Governance

No reportable safety incidents occurred this quarter.

Capital Structure

A total of 3,225,000 unlisted options with a zero exercise price were exercised by employees during the quarter.

As at quarter end the Company had a total of 1,751,107,818 fully paid ordinary shares and 5,500,000 unlisted options on issue.

Cash Position

As at 30 June 2023, Prodigy Gold held A\$6.05M in available cash and has no debt.

Payments reported in the Appendix 5B under section 6.1 consist of remuneration paid to executive and non-executive directors of the Company, including PAYG and superannuation, on a cash basis.

Authorised for release by a resolution of Prodigy Gold's Board of Directors.

About Prodigy Gold NL

Prodigy Gold has a unique greenfields and brownfields exploration portfolio in the proven multimillion-ounce Tanami Gold Province. Prodigy Gold remains highly active in its systematic exploration approach and intends to continue exploration prioritising on:

- exploring targets on its Tanami North and Lake Mackay Projects
- a mining study on the Buccaneer Resource
- · systematic evaluation of high potential early-stage targets
- divestment of non-core assets
- joint ventures to expedite discovery on other targets

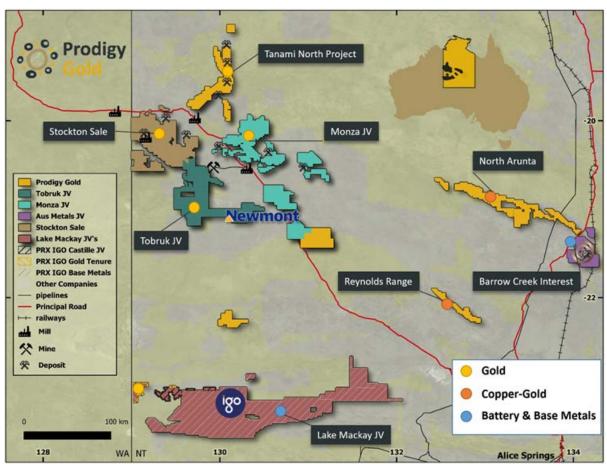

Figure 4 Prodigy Gold Major Project Areas

Competent Person's Statement for Mineral Resources

The information in this release that relates to the Mineral Resource estimate of the Tregony deposit was previously released to the ASX on 15 February 2023 – Maiden Mineral Resource for Tregony Deposit and is based on information compiled by Mr Mark Edwards. This document can be found at www.asx.com.au (Stock Code: PRX) and at www.prodigygold.com.au. Mr Edwards is a fellow of the Australasian Institute of Mining and Metallurgy (FAusIMM) and a member of the Australian Institute of Geoscientists (MAIG), he is also a full-time employee of Prodigy Gold NL. Mr Edwards has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity, which he has undertaken to qualify as a Competent Person, as defined in the 2021 edition of the Australasian Code for the Reporting of Mineral Resources and Ore Reserves. Mr Edwards has provided written consent approving the inclusion of the Mineral Resource in the report in the form and context in which they appear.

The information in this report that relates to Mineral Resource for Hyperion (previously called Suplejack) was previously released to the ASX on the 31 July 2018 – Suplejack Resource Update. This document can be found at www.asx.com.au (Stock Code: PRX) and at www.prodigygold.com.au. The 31 July 2018 release fairly represents data and geological modelling reviewed by Mr. Matt Briggs who is a member of the Australasian Institute of Mining and Metallurgy and grade estimation and Mineral Resource estimates reviewed by Mr Ian Glacken who is a Fellow of the Australia Institute of Geoscientists. At the time of the 31 July 2018 release Mr Briggs was a full-time employee of Prodigy Gold NL and Mr Glacken was a full-time employee of Optiro Pty Ltd. Mr. Briggs and M. Glacken had previously provided written consent for the 31 July 2018 release.

Competent Person's Statement for Exploration Results

The information in this report relating to exploration targets and exploration results is based on information reviewed and checked by Mr Mark Edwards, FAusIMM, MAIG. Mr. Edwards is a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM) and a Member of the Australasian Institute of Geoscientists (AIG). Mr Edwards is a full-time employee of Prodigy Gold NL and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves". Mr Edwards consents to the inclusion in the documents of the matters based on this information in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Refer to previous Company ASX announcements for full resource estimation details, drill hole details, and intercept calculations. Prodigy Gold NL confirms that it is not aware of any new information or data that materially affects the information included in the market announcement and that all material assumptions and technical parameters underpinning the estimates included in referenced previous market announcements continue to apply and have not materially changed.

The information in this report that relates to previous ASX announcements relating to ASX Mineral Resources, Exploration Result and Exploration Targets. The relevant announcements are noted below:

7.	Financing facilities Note: the term "facility' includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	NIL	NIL
7.2	Credit standby arrangements		
7.3	Other (Guarantee Facility) ¹	2,381	2,381
7.4	Total financing facilities	2,381	2,381
7.5	Unused financing facilities available at qu	arter end	-

7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.

¹Prodigy Gold has guarantee facilities with the ANZ and CBA which do not require any security to be granted over the Company's assets. No interest is payable for the facilities as the funds drawn are fully cash-backed. Related fees are part of expenditure under point 1.5.

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(264)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(264)
8.4	Cash and cash equivalents at quarter end (item 4.6)	6,053
8.5	Unused finance facilities available at quarter end (item 7.5)	
8.6	Total available funding (item 8.4 + item 8.5)	6,053
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	22.9
	Note: if the entity has reported positive relevant outgoings (i.e. a not each inflow) in item 9.3	anguar itam 0 7 as "NI/A"

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

- 8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:
 - 8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Ar	ารพ	ver:	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 25 July 2023

Authorised by: The Board of Directors

(Name of body or officer authorising release - see note 4)

Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
