## **Chatree Gold Mine Production and Refurbishment Update**

Kingsgate Consolidated Limited (ASX: KCN) (“Kingsgate or the Company”) is pleased to announce that approximately **13,135 ounces of gold**, and **155,712 ounces of silver** have been produced to date, since commissioning of Plant #2 commenced in March 2023.

Recoveries remain strong, and are averaging 84.5% for gold, and 58% for silver respectively. Additionally, production from Plant #2 continues to perform above nameplate capacity, at an average of 332 dry tonnes throughput per hour, with an average head grade of **0.5 g/t Au**.

The Plant #1 Overhaul Project is progressing well, with key long lead time items ordered and due to be received ahead of schedule. Additionally, work packs for Plant #1 Overhaul Project components have been allocated to contractors to enable refurbishment works to continue concurrently.

Kingsgate’s Executive Chairman, Mr Ross Smyth-Kirk said, We are delighted with Plant #2’s production performance as it continues to exceed expectations, and the focus now remains on getting Plant #1 up and running as quickly as possible”.

**Plant #1 Overhaul Project:** New grid mesh replacement (top left), solution tank removal for repairs (right), and acid wash column removal for repairs (bottom left).
