**ASX ANNOUNCEMENT**

## Capital Raising and Proposed Reinstatement Update

### Receipt of Reinstatement Conditions and Updates

Cyprium Metals Limited (**CYM, Cyprium or the Company**) is pleased to advise that it has received confirmation from ASX that its securities will, subject to the satisfaction of certain conditions (**Conditions**), be reinstated to quotation following the voluntary suspension of its securities on 23 February 2023 (**Reinstatement**). The Conditions are detailed in the Company's notice of general meeting released today, 09 August 2023.

Following receipt of the Conditions, the Company wishes to provide the following updates in relation to the Reinstatement process and Capital Raising (defined below):

- Reinstatement<sup>1</sup> will now occur following completion of the proposed capital raising, comprising:
  - the placement to sophisticated and professional investors, in respect of which firm commitments for \$24m have been received (**Placement**); and
  - the pro rata non-renounceable rights issue to raise up to an additional \$5 million (before costs) (**Entitlement Offer**),
 (together, the **Capital Raising**).
- To avoid any potential delays with Reinstatement, a transaction specific prospectus for the Entitlement Offer (**Prospectus**) will now be lodged during the notice period for the general meeting at which all approvals in relation to the Capital Raising will be sought.
- A revised indicative timetable is set out below:

### Updated Indicative Timetable

Event	Date <sup>2</sup>

- The above dates are indicative only and may change without notice. The Company reserves the right to extend the Closing Date.
- Pro rata non-renounceable entitlement offer to raise up to \$5M, open to all existing eligible Cyprium shareholders based on 1 new share for every 5.84 shares held on the record date.

The Company is also well advanced with its preparation of the Prospectus. The Prospectus will also permit secondary sales of all securities to be issued in conjunction with the Capital Raising. Upon completion of the Capital Raising, the Company believes that it will be in a position to satisfy the Conditions.

### Expected date for Reinstatement

The expected date for Reinstatement and quotation of securities issued under the Capital Raising is conditional on ASX being satisfied (in its absolute discretion) that all Conditions have been satisfied. In addition to customary ASX reinstatement conditions, this includes confirmation that the Company has completed the Capital Raising, which, as noted above, is expected to occur in the week commencing 11 September 2023. Accordingly, the Company will remain in voluntary suspension until the Conditions are satisfied. The Company will continue to provide updates in relation to the Reinstatement and will advise shareholders once the expected date of Reinstatement is known.

This ASX announcement was approved and authorised by the Board.

## About Cyprium Metals Limited

Cyprium Metals Limited (ASX: CYM) is an ASX listed Australian copper company. Cyprium has a vision to become a significant mid-tier copper producer with a multi-asset strategy set to capitalise on the global electrification thematic. The Company's strategy is to acquire, develop, operate and explore mineral resource projects using modern responsible methods to minimise environmental impact and optimise resource recovery and utilisation. Cyprium will make use of past investment to minimise capital intensity and lower risk to maximise the risk adjusted value of its projects.

The Company has projects in the Paterson and Murchison regions of Western Australia that are host to multiple base metals deposits.

### Paterson Copper Projects

This portfolio of copper projects comprises the Nifty Copper Mine, Maroochydore Copper Project and Paterson Exploration Project.

The Nifty Copper Mine ("Nifty") is located on the western edge of the Great Sandy Desert in the north-eastern Pilbara region of Western Australia, approximately 330km southeast of Port Hedland. Nifty contains a 2012 JORC Mineral Resource of 940,200 tonnes of contained copper<sup>i</sup>. Cyprium is focussed on a business plan to develop a large open pit mine. Initially to provide ore to an existing heap leach SX-EW operation and to retreat the current heap leach pads. The restart of the existing copper concentrator to treat open pit sulphide material will commence once technical studies and approvals have been obtained for the larger operating footprint expected within 4 years. Combined target production rate is 65,000 tonnes of copper in cathode and concentrate.

The Maroochydore deposit is located ~85km southeast of Nifty and includes a shallow 2012 JORC Mineral Resource of 486,000 tonnes of contained copper<sup>ii</sup>. Cyprium will commence a scoping studies targeting development of a +10 year 20,000 to 30,000 tonne per year copper metal producing leach-SXEW operation to commence once Nifty is fully developed and achieves stable profitable production.

An exploration earn-in joint venture has been entered into with IGO Limited on ~2,400km<sup>2</sup> of the Paterson Exploration Project. Under the agreement, IGO is to sole fund \$32 million of exploration activities over 6.5 years to earn a 70% interest in the Paterson Exploration Project, including a minimum expenditure of \$11 million over the first 3.5 years. Upon earning a 70% interest, the Joint Venture will form and IGO will free-carry Paterson Copper to the completion of a pre-feasibility study (PFS) on a new mineral discovery.

### Murchison Copper-Gold Projects

The Nanadie Well Project is located ~650km northeast of Perth and ~75km southeast of Meekatharra in the Murchison District of Western Australia, within mining lease M51/887, includes the Nanadie Well Copper-Gold Mineral Resources of 162,000 tonnes contained copper<sup>iv</sup>, which is open at depth and along strike to the north. Exploration will continue to define the scale and potential of this large prospective multi element geological footprint.

Cyprium has an 80% attributable interest in a joint venture with Musgrave Minerals Limited (ASX: MGV) at the Cue Copper-Gold Project, which is located ~20km to the east of Cue and includes the Hollandaire Copper-Gold Mineral Resources of 51,500 tonnes contained copper<sup>iii</sup>.

Nanadie Well and Cue Copper-Gold projects are included in an ongoing scoping study, to determine the parameters required to develop a copper project in the region which will determine optimal resource development and exploration work going forward.
