

Yandal Launches Dedicated Investor Hub

Yandal Resources Limited ("Yandal") is pleased to announce the formal launch of our Investor Hub. The Investor Hub is a dedicated platform for investors to learn more about Yandal and to keep up to date with our latest activities.

Visit the Investor Hub here: <https://investorhub.yandalresources.com.au/>

In line with our commitment to deliver transparency to all investors, Yandal will be regularly uploading new content to the hub, including videos accompanying select announcements, education material and interviews.

Yandal encourages investors to post questions/feedback through the **Q&A function** accompanying each piece of content and the Yandal team will endeavour to respond in a timely manner.

How to join the Yandal Investor Hub

1. Head to <https://investorhub.yandalresources.com.au/welcome>
2. Follow the prompts to sign up for an Investor Hub account
3. Complete your account profile

From time to time, investors with complete accounts on the Investor Hub may be invited to exclusive company events and corporate opportunities. We appreciate shareholder's support during 2023 and we look forward to updating investors on our progress for the remainder of the year and beyond via the Investor Hub.

LOOKING AHEAD

The Company has a very active Q3-Q4 2023 planned with priority exploration activities, including;

1. RC drill test the large scale high-potential Oblique and New England Granite prospects at Ironstone Well-Barwidgee.
2. Interpretation of RC drilling results and completion of an initial Mineral Resource Estimate for HMS Sulphur Prospect at Mount McClure.
3. Follow-up of priority targets highlighted in the recent independent geological targeting studies at Gordons (completed by Ben McCormack of Outlier Geoscience) and Ironstone Well-Barwidgee (completed by Mike Outhwaite of Lithify Pty Ltd).
4. Follow-up significant air-core drill results over structural and geochemical targets at Mt McClure and Ironstone Well/Barwidgee.
5. Complete 3D modelling of historic and recent drilling data at Mt McClure to establish controls on potential higher-grade plunging shoots for follow-up drill testing.
