

**WESTERN YILGARN** NL

Exploring the Yilgarn  
Craton, a global epicentre of  
mineral wealth

# Disclaimer

- This presentation has been prepared by Western Yilgarn NL (Western Yilgarn or the Company). It contains general information about the Company's activities current as at the date of the presentation. The information is provided in summary form and does not purport to be complete. This presentation is not to be distributed (nor taken to have been distributed) to any persons in any jurisdictions to whom an offer or solicitation to buy shares in the Company would be unlawful. Any recipient of the presentation should observe any such restrictions on the distribution of this presentation and warrants to the Company that the receipt of the presentation is not unlawful. It should not be considered as an offer or invitation to subscribe for or purchase any securities in the Company or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation or any information, opinions or conclusions expressed in the course of this presentation.
- This presentation is not a prospectus, product disclosure document or other offering document under Australian law or under any other law. It has been prepared for information purposes only. This presentation contains general summary information and does not take into account the investment objectives, financial situation and particular needs of any individual investor. It is not financial product advice and investors should obtain their own independent advice from qualified financial advisors having regard to their objectives, financial situation and needs. Western Yilgarn nor any of their related bodies corporate is licensed to provide financial product advice.
- This presentation and information, opinions or conclusions expressed in the course of this presentation contains forecasts and forward-looking information. Such forecasts, projections and information are not a guarantee of future performance, involve unknown risks and uncertainties. Actual results and developments will almost certainly differ materially from those expressed or implied.
- There are a number of risks, both specific to Western Yilgarn, and of a general nature which may affect the future operating and financial performance of Western Yilgarn, and the value of an investment in Western Yilgarn including and not limited to title risk, renewal risk, economic conditions, stock market fluctuations, commodity demand and price movements, timing of access to infrastructure, timing of environmental approvals, regulatory risks, operational risks, reliance on key personnel, reserve estimations, native title risks, foreign currency fluctuations, and mining development, construction and commissioning risk.
- You should not act or refrain from acting in reliance on this presentation, or any information, opinions or conclusions expressed in the course of this presentation. This presentation does not purport to be all inclusive or to contain all information which its recipients may require in order to make an informed assessment of the prospects of Western Yilgarn. You should conduct your own investigation and perform your own analysis in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation before making any investment decision. Recipients of this presentation must undertake their own due diligence and make their own assumptions in respect of the information contained in this presentation and should obtain independent professional advice before making any decision based on the information. No representation or warranty, express or implied, is made in relation to the fairness, accuracy or completeness of the information, opinions and conclusions expressed in the course of this presentation. To the maximum extent permitted by law, no representation, warranty or undertaking, express or implied, is made and, to the maximum extent permitted by law, no responsibility or liability is accepted by the Company or any of its officers, employees, agents or consultant or any other person as to the adequacy, accuracy, completeness or reasonableness of the information in this presentation. To the maximum extent permitted by law, no responsibility for any errors or omissions from this presentation whether arising out of negligence or otherwise is accepted. An investment in the shares of the Company is to be considered highly speculative.
- The exploration targets or conceptual exploration targets in this presentation or expressed during the course of this presentation are subject to completion of the necessary feasibility studies, permitting and execution of all necessary infrastructure agreements. In relation to any statements pertaining to future exploration targets or conceptual exploration targets, the nature of the exploration target means that the potential quantity and grade is conceptual in nature, that there has been insufficient exploration to define a Mineral Resource and that it is uncertain if further exploration will result in the determination of a Mineral Resource.
- This presentation and information, opinions or conclusions expressed in the course of this presentation should be read in conjunction with Western Yilgarn's other periodic and continuous disclosure announcements lodged with the ASX, which are available on the Western Yilgarn website.
- Some statements in this presentation regarding future events are forward-looking statements. They involve risk and uncertainties that could cause actual results to differ from estimated results. Forward-looking statements include, but are not limited to, statements concerning the Company's exploration programme, outlook and target sizes. They include statements preceded by words such as "potential", "target", "scheduled", "planned", "estimate", "possible", "future", "prospective" and similar expressions.
- The technical information contained within this Report is extracted from numerous announcements made by Western Yilgarn to the ASX which are available to view on [www.westernyilgarn.com.au](http://www.westernyilgarn.com.au). The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

# Corporate Snapshot

## Corporate Overview

Shares on issue	79,372,506*
Unlisted Options @ \$0.20	38,440,000**
Unlisted Options @ \$0.30	19,999,997***
Unlisted Options (ZEPO's)	573,751
Incentive Options	2,492,469
Share price @ 22 <sup>nd</sup> August 2023	\$0.22
Market Cap @ 22 <sup>nd</sup> August 2023	\$17.46m
Enterprise Value	\$15.33m
Cash @ 30 <sup>th</sup> June 2023	\$2.13m

\*\*\* Of which 6,762,500 are escrowed until 12/4/2024

## Share Price Year to Date

## Board of Directors

### Peter Lewis

**Non-Executive Chair**  
Peter is a QLD-based businessman with a long career in the property sector. He is a former Director of Ray White and Richard Ellis Group.

### John Traicos

**Non-Executive Director**  
John is a lawyer with 30+ years' experience in legal and corporate affairs. He has acted as a commercial and legal manager to several resources companies.

### Peter Michael

**Non-Executive Director**  
Peter has 20+ years' experience in the property sector. He is also a Non-Executive Chairman of Argent Minerals (ASX: ARD).

# Why Invest in WYX?

- Focused strategy exploring the Yilgarn Craton, a world-class mining province with major discoveries
- 5 early-stage WA assets with significant upside for Ni-Cu-Co, Au and Li mineralisation
  1. Julimar West Ni-Cu-PGE & Li
  2. Bulga Ni-Cu-PGE, Li & Au
  3. Boodanoo Li & Ni
  4. Sylvania Li & REE
  5. Melbourne Ni-Cu-PGE & Au
- Low volume of shares on issue with minimal risk of dilution
- Strong portfolio of projects with strategy to maintain inventory

# Julimar West

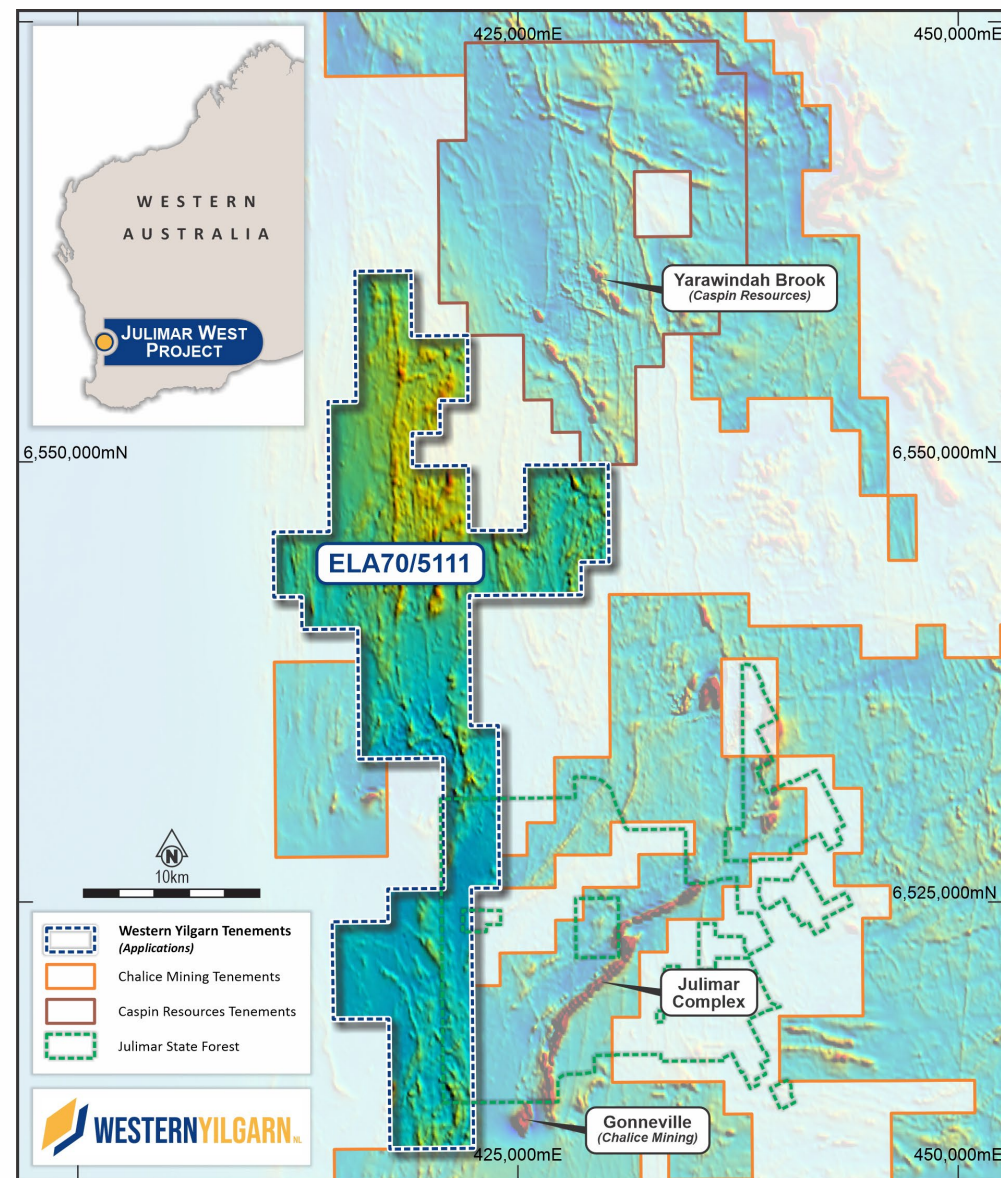

## Ni-Cu-PGE & Li

# Julimar West

## Prime location close to a major discovery

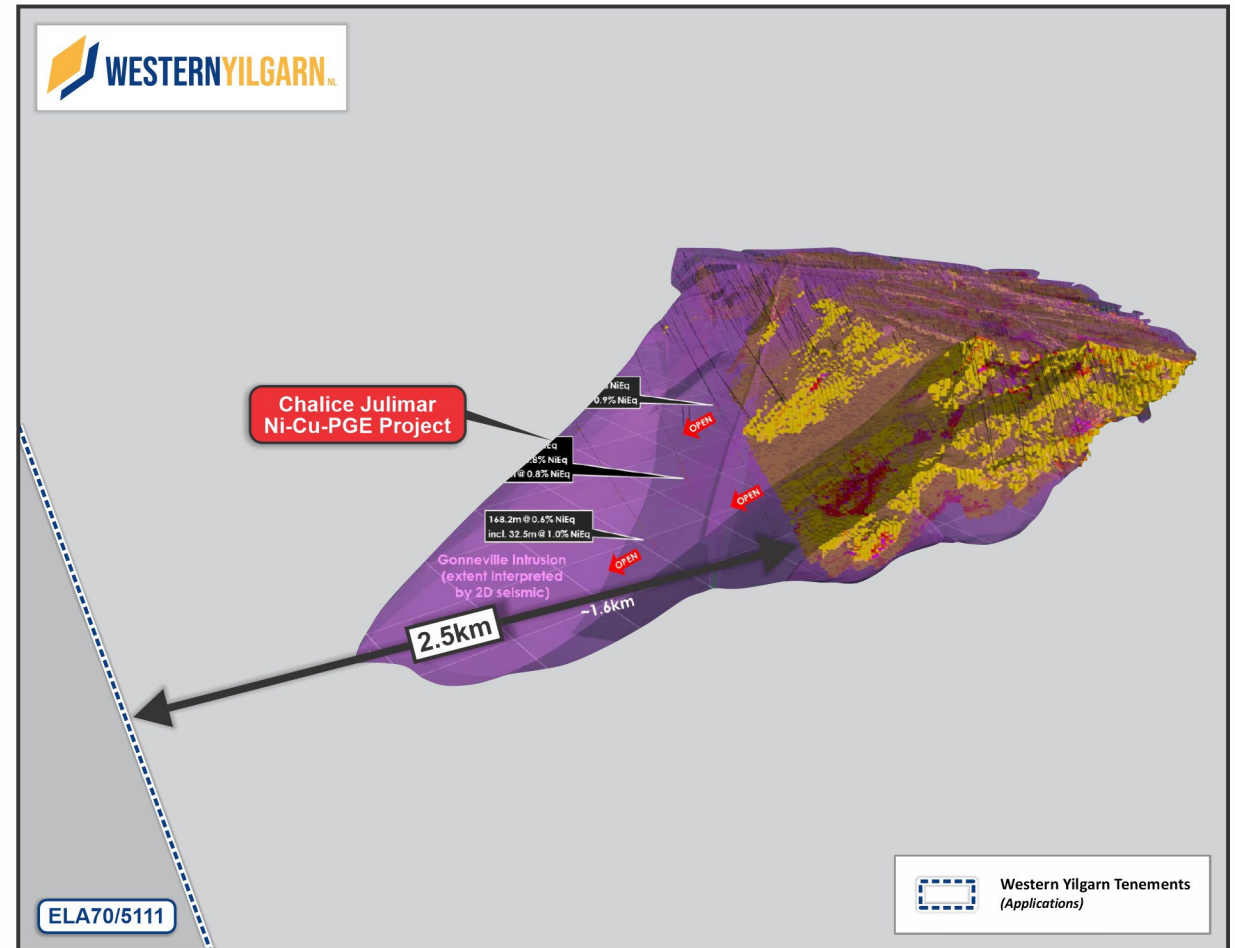

- Exploration activity to ramp up at emerging project in WYX portfolio
- 349km<sup>2</sup> project area within Darling Range, 75km from Perth
- Lease boundary 2.5km from Chalice Mining (ASX: CHN) Gonneville discovery
- Potential for Gonneville Intrusion continuing at depth into Julimar West
- Desktop review of historic data highlights multiple exciting targets
- Exploration program to commence following grant of ELAs

# Julimar West

## Desktop Review Completed

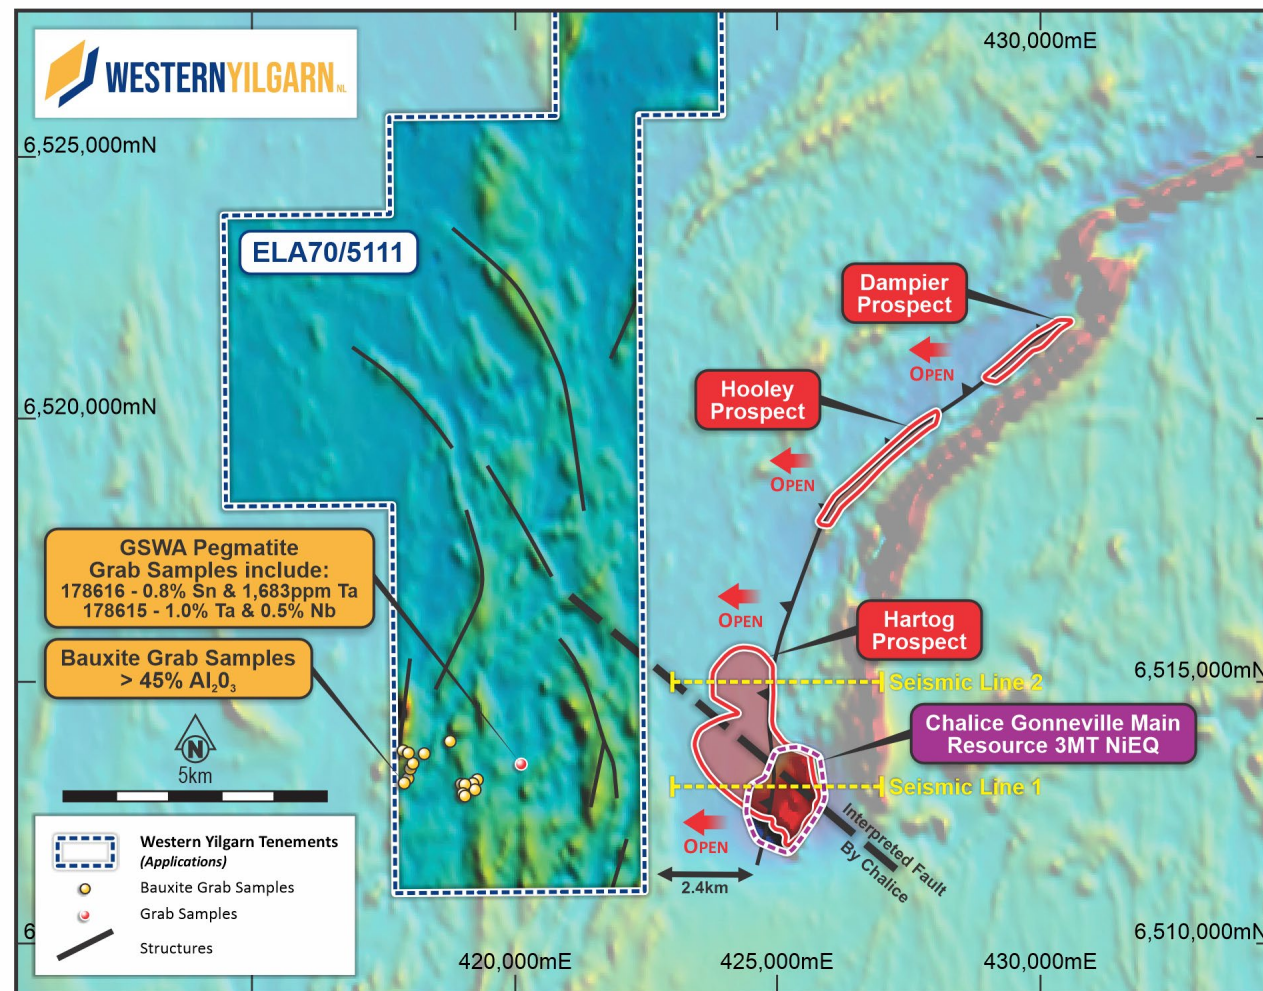

- Review included CHN announcements and WAMEX data from DMIRS
- Key targets defined include:
  - Potential for Gonneville Intrusion continuing at depth into Julimar West Project
  - Repetitions of Gonneville mineralisation interpreted in WYX ground
  - Mineralised pegmatites identified in field
  - GSWA grab samples returned significant Tin, Niobium and Tantalum results along with anomalous Lithium
  - Potential for gold in northern section

# Julimar West

## Upcoming Exploration Program

- Staged program includes:
  - AEM 400m x 200m targeting massive sulphide conductors
  - A first pass Soil or Auger Surface Geochemistry program on a regional 400m x 100m
  - Geophysics: Magnetics, Gravity Survey and Potential Seismic survey
- Drilling to follow targets defined by above program
- Program subject to grant of Exploration Lease ELA 70/5111

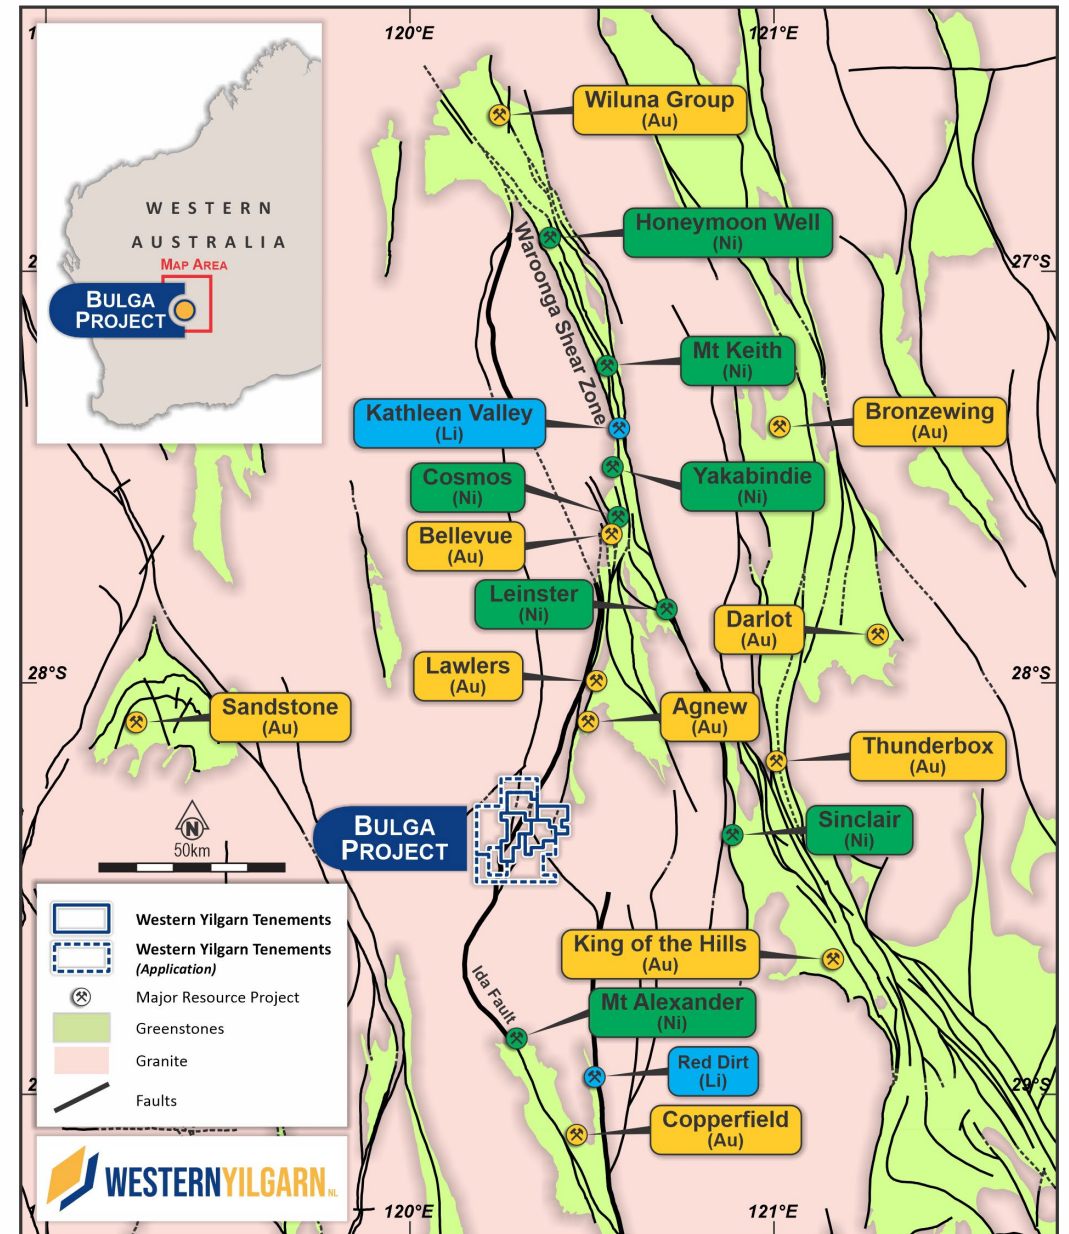

# Bulga

Ni-Cu-PGE , Li & Au

# Bulga Project

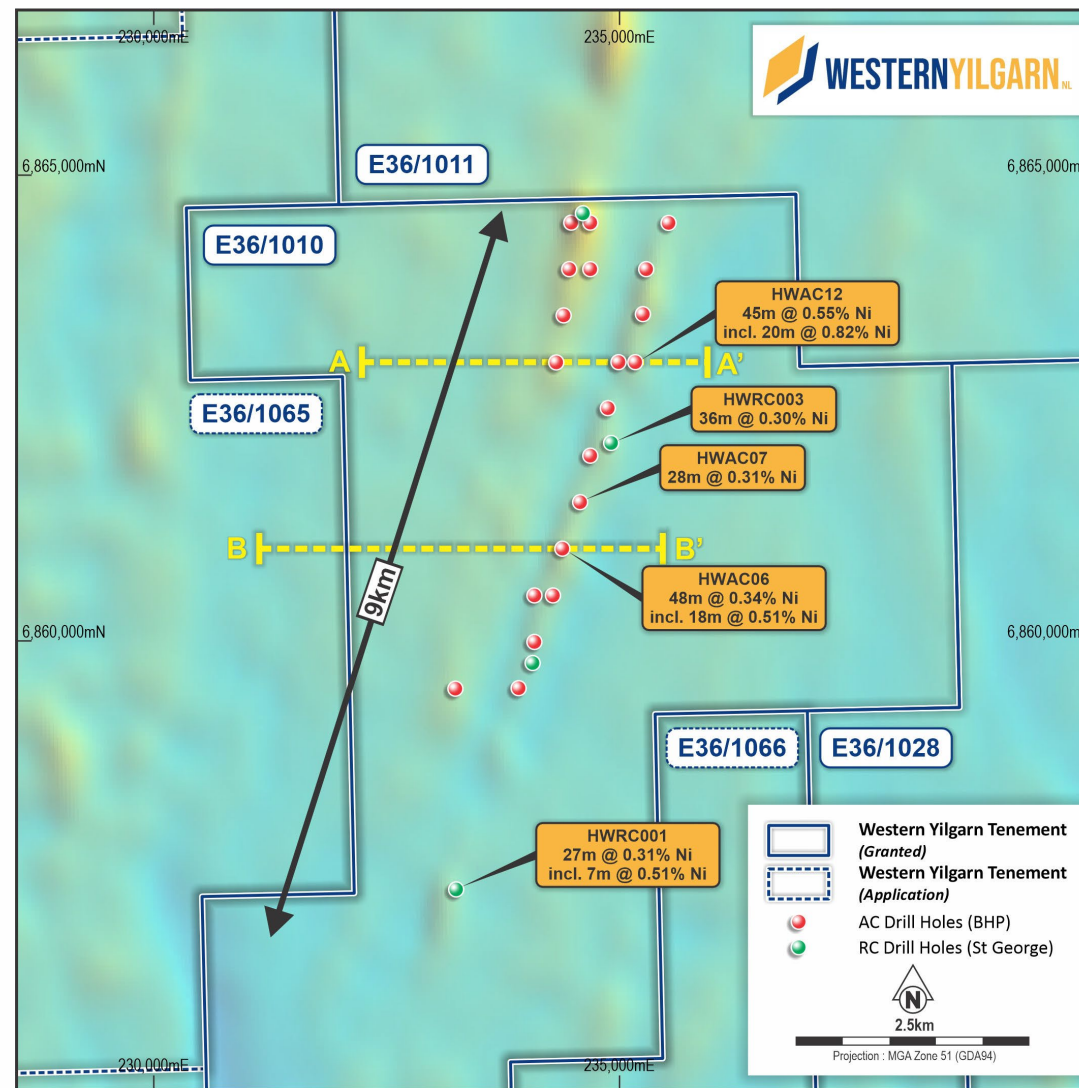

- Most advanced project in WYX portfolio
- Review of historical drilling results highlighted extensive nickel mineralisation
- Broad zones of nickel-cobalt mineralisation in drilling varying from 2m to 48m delineated by aircore and RC (potentially lateritic Ni)
- Intercepts located over a 9km trend containing a highly fertile and unexplored ultramafic belt
- Additional targets defined by Auger Geochemistry include Ni-Cu-PGE, Li & Au
- WYX has expanded its tenement holding from 154km<sup>2</sup> to 477km<sup>2</sup>

# Bulga Project

Significant results from historic BHP Aircore and RC drilling define exciting intercepts including:

- HWAC12:
  - 45m @ 0.55% Ni, 229 ppm Co from 24m including 20m @ 0.83% Ni, 312 ppm Co from 24m
- HWAC06:
  - 48m @ 0.34% Ni, 174 ppm Co from 48m including 18m @ 0.51% Ni, 246 ppm Co from 48m
- HWRC001:
  - 27m @ 0.31% Ni, 177 ppm Co from 56m including 7m @ 0.51% Ni, 334 ppm Co from 56m

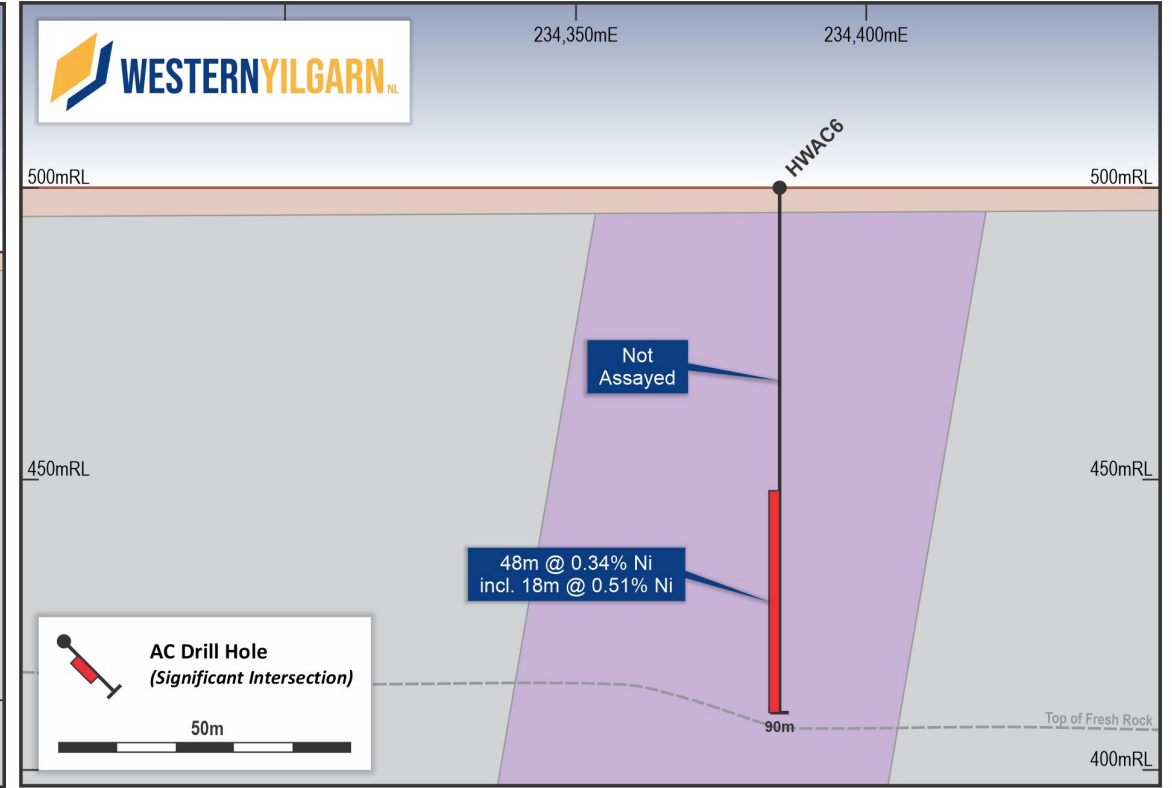

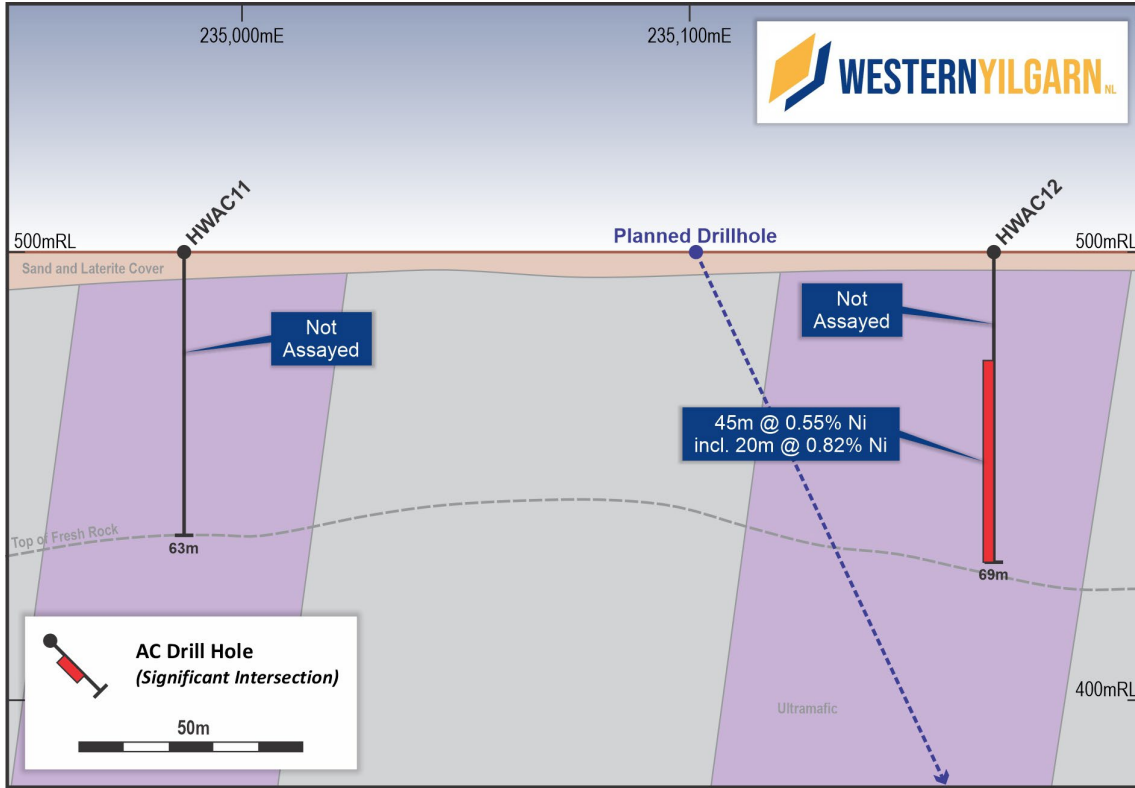

# Bulga Project

## Regional Auger Geochemistry Program

- Auger geochemical program complete with over 2,500 samples analysed for 51 elements at Intertek Laboratories
- Multiple targets confirmed by :
  - Three LCT pegmatite targets
  - Five Ni-Cu-PGE targets
  - One lower order gold target
- Planning underway for RC drilling program

# Bulga Project

**BHP Aircore drill cross sections**

# Boodanoo

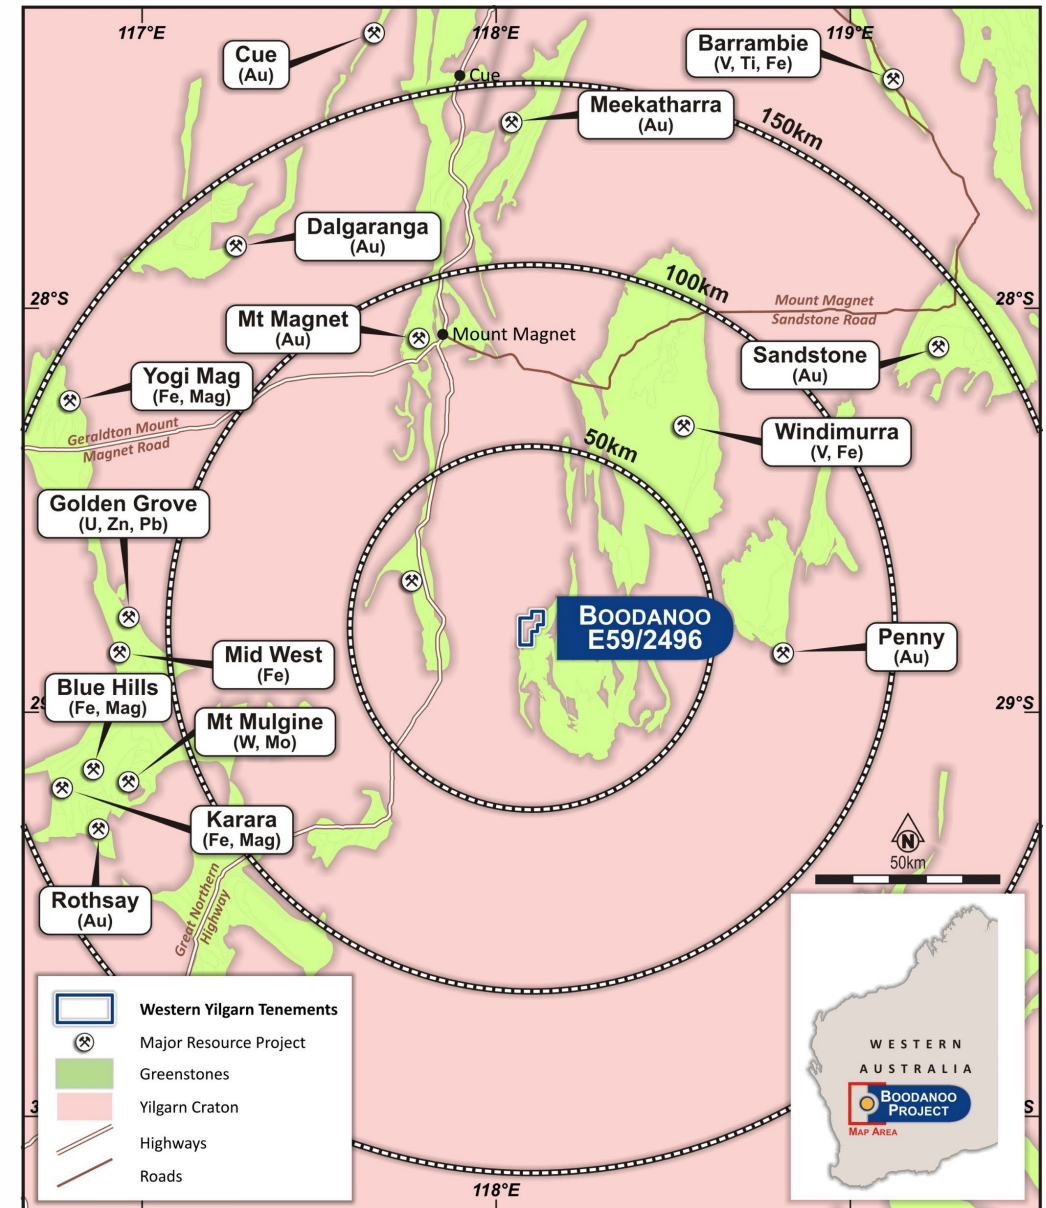

Li & Ni

# Boodanoo Project

## WYX second most explored project

- ~90km south of Mount Magnet comprising one granted exploration licence (E59/2496) for ~39km<sup>2</sup>
- Two-phase (519 holes) Auger Geochemistry program completed
- Multiple targets highlighted
  - Lithium bearing pegmatite target identified over a 3km x 2km anomaly
  - Ni potential
- Application EL 59/2838 lodged to add extra ~12km<sup>2</sup> along strike of key target

# Boodanoo Project

## Auger Geochemistry results

- Two-phase, 519-hole auger program completed
- Assays confirm ~2km long Lithium Caesium Tantalum (LCT) target
- Phase 1 holes located on 1,600m lines spaced 100m apart, with Phase 2 infill holes infilled to 400 x 100m
- Holes drilled between 2m and 10m in depth
- Results under further review prior to next phase of exploration

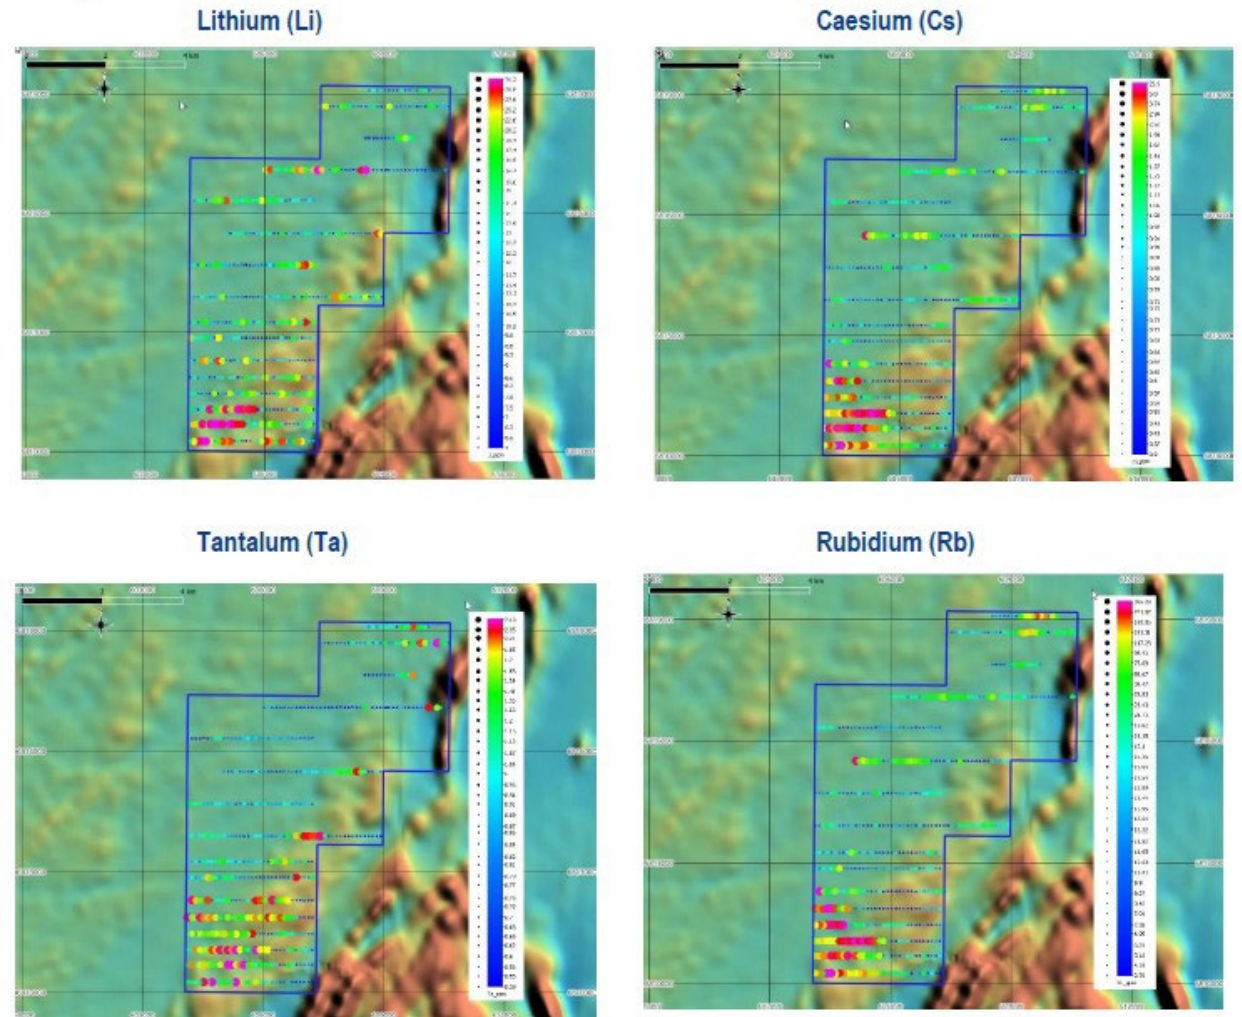

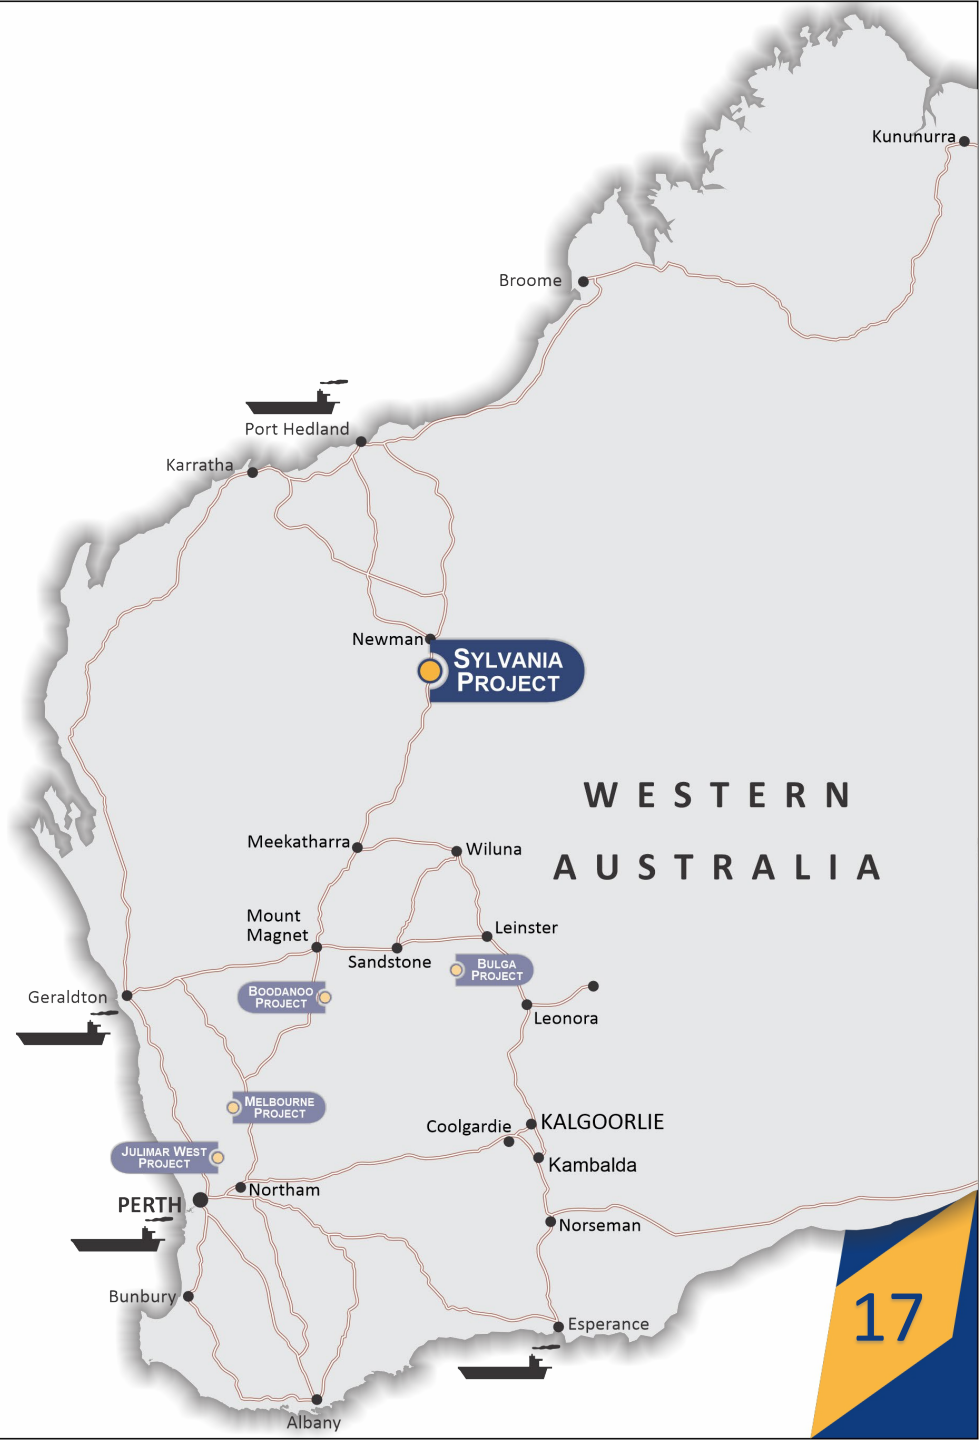

Figure 3. LCT Pegmatite target (Pathfinder elements)

# Sylvania

Li & REE

# Sylvania Project

- Located in Tier 1 mining region of the Pilbara, Western Australia
- 370km<sup>2</sup> landholding comprises two non-contiguous leases – Sylvania North and Sylvania South
- Previous exploration principally focused on Iron Ore
- Site access finalised with Aboriginal custodians
- Low impact site activities planned for October 2023
- Follow-up of historical exploration eagerly anticipated

# Management & Consultants

**Gavin Rutherford**  
General Manager

**Kevin Woodthorpe**  
Commercial Manager

**Melissa Chapman**  
Joint Company Secretary

**Beau Nicholls**  
Principal Consultant

**Stephen Sudgen**  
Geochemist

**Kim Frankcombe**  
Geophysicist
