About Linus Technologies Limited:

Linus' purpose is to unlock the value of the world's video, creating immersive, deeply personalized viewing experiences. For the first time, we make it possible to find, curate, and utilize the valuable moments across vast libraries of video, enabling viewers to create an infinite amount of personalised video compilations on-the-fly, providing the most relevant content to each viewer.

Our patented Video Virtualisation Engine™ (VVE) turns big, bulky video files into lightweight, searchable data that is enriched with AI and ML, making it easy and efficient for users to find and share what matters to them. Creators and owners of video can drive greater viewing, and monetisation of their video assets.
