

ASX Release

29 August 2023

Asset Financing Arrangements Executed

DUG Technology Ltd (ASX: DUG) (“DUG” or the “Company” or the “Group”) is pleased to announce it has entered into a material financing arrangement with First National Capital LCC (“FNC”) to asset finance the purchase of 600 new Intel CPU computers¹ to support the Group’s Services business line, in particular MP-FWI workflows.

The significant terms of the financing arrangement are as follows:

- Funding provided of US\$6.75 million
- Monthly repayments totalling US\$0.28 million over a 24 month term
- A deposit of US\$1.11 million is paid in advance at the commencement of the financing, applied to the final four repayments
- Final additional balloon payment calculated as 10% - 11.3% of the initial cost of the funded assets²
- Following the final repayment, DUG retains title to the assets.

A credit approved offer was executed today under an existing master lease agreement with FNC which has been utilised on smaller funding arrangements over the past six months.

This financing arrangement is in line with the Group’s strategy to fund computer and storage assets through asset financing arrangements whilst utilising cash reserves to fund operations and growth capital such as the Geraldton HPC Campus.³

This ASX Announcement has been approved for release by the Board of DUG Technology Ltd.
