

ASX RELEASE | 31 August 2023 | ASX: AON

Kroussou Operational Update

Apollo Minerals Limited (ASX: AON) (“Apollo Minerals” or “Company”) is closely monitoring developments in Gabon following uncertainty relating to the outcome of the 2023 Gabon General Election held on 26 August 2023.

The Company’s 100% owned Kroussou zinc-lead project in Gabon is located approximately 220km south of the capital Libreville and has been unaffected by the current political uncertainty.

Site activity at Kroussou is continuing as normal with no impact to work programs including the regional mapping and sampling program results of the gold occurrences recently identified within the Keri permit (see ASX Announcement dated 19 July 2023).
