Notes to the Condensed Interim Financial Statements (unaudited)  
Three-Month periods ended July 31, 2023 and 2022

---

## 1. NATURE OF OPERATIONS AND GOING CONCERN UNCERTAINTY

Benz Mining Corp. (“Benz” or the “Company”) is involved in the acquisition, exploration and exploitation of mineral properties located in the Americas. The Company’s head and registered offices are located at Suite 3000 Bentall Four, 1055 Dunsmuir Street, Vancouver, British Columbia, V6E 2E9.

### Going Concern

These condensed interim financial statements have been prepared on a going concern basis, which assumes that the Company will realize its assets and discharge its obligations in the normal course of operations. As at July 31, 2023, the Company has a working capital surplus of \$7,019,768 (April 30, 2023 – \$6,608,469). The Company’s ability to continue as a going concern is dependent on being able to obtain the necessary financing to satisfy its liabilities as they become due.

To date, the Company has not earned significant revenues and is considered to be in the exploration phase. The investment in, and expenditures on, exploration and evaluation assets comprise a significant portion of the Company’s activities. Mineral exploration and development is highly speculative and involves inherent risks.

Management believes the Company’s cash position will support all of its financial obligations and expected expenditures during the next twelve months. However, the Company expects that it will need to obtain further financing in order to continue exploration activities in the future. In addition, while the Company’s future activities in relation to drilling on its mineral claims look promising, there can be no assurance that the results of its exploration activities will confirm the existence of economically viable quantities of ore or that the project will ultimately go into production. There can be no assurance that management will be successful in securing adequate financing. If adequate financing is not obtained, the Company may be required to delay or reduce the scope of any or all of its exploration and development projects.

The Company reported a net loss and total comprehensive loss in the three-month period ended July 31, 2023 of \$1,390,446 (year ended April 30, 2023 - \$4,776,962). These recurring losses and the need for continued financing to further successful exploration activities indicate the existence of a material uncertainty that may cast significant doubt as to the Company’s ability to continue as a going concern.

The Company’s financial statements do not give effect to any adjustments to the carrying values and classifications of assets and liabilities that might be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

## 2. BASIS OF PRESENTATION

These unaudited condensed interim financial statements (“Financial Statements”) of the Company have been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting” following acceptable accounting policies under International Financial Reporting Standards (“IFRS”). As a result, these Financial Statements should be read in conjunction with the Company’s audited financial statements for the year ended April 30, 2023.

### **Notes to the Financial Statements (continued)**

These Financial Statements have been prepared on an accruals basis and are based on historical costs, except for certain financial instruments classified as financial instruments at fair value through profit or loss. All amounts are presented in Canadian dollars unless otherwise noted.

Estimates and judgements are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. In preparing the Financial Statements, the judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the audited consolidated financial statements as at and for the year ended April 30, 2023.

### **3. OTHER RECEIVABLES**

Other receivables as at July 31, and April 30, 2023 were as follows:

	<b>July 31, 2023</b>	<b>April 30, 2023</b>
Expenditures recoverable from third parties	\$ 125,160	\$ 172,907
Amounts refundable from suppliers	3,100	13,114
Total other receivables	<b>128,260</b>	186,021
Less provision for doubtful debts	<b>(116,184)</b>	(116,184)
	<b>\$ 12,076</b>	<b>\$ 69,837</b>

*Notes to the Financial Statements (continued)*

**4. EXPLORATION AND EVALUATION ASSETS**

The Company has accumulated the following acquisition expenditures:

	<b>Eastmain and Ruby Hill Properties</b>	<b>Windy Mountain Property</b>	<b>Total</b>
<b>Balance, April 30, 2022</b>	\$ 1,815,903	\$ 10,764	\$ 1,826,667
Acquisition costs – cash	329,840	800	330,640
<b>Balance, April 30, 2023 and July 31, 2023</b>	<b>\$ 2,145,743</b>	<b>\$ 11,564</b>	<b>\$ 2,157,307</b>

During the three-month periods ended July 31, 2023 and 2022 exploration and evaluation expenditures, recorded in the statements of operations and comprehensive loss, consisted of the following:

	<b>July 31, 2023</b>	<b>July 31, 2022</b>
Geology	<b>492,658</b>	176,123
Location/camp services	<b>158,905</b>	222,233
Drilling	<b>266,545</b>	315,170
Geochemical analysis	<b>380,502</b>	204,382
Geophysics	<b>4,400</b>	32,095
Environment	<b>8,170</b>	1,908
Health & safety	<b>24,033</b>	23,072
Property Maintenance	<b>18,973</b>	55,413
<b>Total exploration and evaluation costs</b>	<b>1,354,186</b>	<b>1,030,396</b>

**Notes to the Financial Statements (continued)**

**5. RELATED PARTY TRANSACTIONS AND BALANCES**

Related party transactions are measured at the estimated fair values of the services provided or goods received. Related party transactions not disclosed elsewhere in these Financial Statements are as follows:

a) Key Management Compensation

Key management personnel include the members of the Board of Directors and officers of the Company, who have the authority and responsibility for planning, directing, and controlling the activities of the Company. The remuneration of directors and officers for the three-month periods ended July 31, 2023 and 2022 was as follows:

	<b>July 31, 2023</b>	<b>July 31, 2022</b>
<b>Salaries, bonuses, fees and benefits</b>		
Management fees to the officers and directors of the Company	\$ 163,941	\$ 201,184
<b>Share-based payments</b>		
Officers and directors of the Company	38,580	-
	<b>\$ 202,521</b>	<b>\$ 201,184</b>

b) In the normal course of operations, the Company transacts with companies related to its directors or officers. The following amounts are payable to related parties, and are included in trade and other payables:

	<b>July 31, 2023</b>	<b>April 30, 2023</b>
Management fees	\$ 62,010	\$ 48,240

**Notes to the Financial Statements (continued)**

**6. FLOW-THROUGH SHARE LIABILITY**

The following is a continuity schedule of the liability portion of the flow-through share issuances.

<b>Balance, April 30, 2022</b>	<b>\$ -</b>
Liability incurred on flow-through shares issued (September 2022)	5,012,448
Settlement of flow-through liability upon incurring exploration expenditures	(1,898,613)
<b>Balance, April 30, 2023</b>	<b>\$ 3,113,835</b>
Settlement of flow-through liability upon incurring exploration expenditures	(342,000)
<b>Balance, July 31, 2023</b>	<b>\$ 2,771,835</b>

**7. SHARE CAPITAL**

- a) **Authorized:** Unlimited common shares, without par value  
Unlimited preferred shares, without par value

**b) Issued: During the three-month period ended July 31, 2023**

During the three-month period ended July 31, 2023, the Company issued 1,377,778 shares and 1,377,778 compensation warrants on the exercise of compensation units for proceeds of \$234,222. The fair value of the share component of these compensation units, totaling \$204,619, was transferred to share capital from reserves.

During the three-month period ended July 31, 2023, the Company issued 7,162,122 shares on the exercise of warrants and 1,377,778 shares on the exercise of compensation warrants for total proceeds of \$1,451,783. The fair value of these warrants, totaling \$1,107,278, was transferred to share capital from reserves.

**c) Issued: During the three-month period ended July 31, 2022**

During the three-month period ended July 31, 2022, the Company issued 500,000 shares on the exercise of warrants for proceeds of \$60,000. The fair value of these warrants, totaling \$15,563, was transferred to share capital from reserves.

**Escrow Shares**

As at July 31, 2023 and 2022, an amount of 222,857 common shares are being held in escrow subject to an escrow agreement with Tusk Exploration Ltd. These shares continue to be held due to unmet contractual obligations.

**Notes to the Financial Statements (continued)**

**d) Share purchase warrants**

A summary of changes in share purchase warrants is as follows:

	Underlying Shares	Weighted Average Exercise Price
Balance, April 30, 2022	44,865,039	\$ 0.28
Exercised	(500,000)	0.12
<b>Balance, July 31, 2022</b>	<b>44,365,039</b>	<b>\$ 0.28</b>
Balance, April 30, 2023	10,018,182	\$ 0.17
Exercised	(7,162,122)	0.17
Expired	(2,856,060)	0.17
<b>Balance, July 31, 2023</b>	<b>-</b>	<b>\$ -</b>

No share purchase warrants were issued during the three-month periods ended July 31, 2023 and 2022.

Warrants outstanding as at July 31, 2023 and April 30, 2023, are:

Expiry Date	Exercise Price per Share	Outstanding and Exercisable	
		July 31, 2023	April 30, 2023
June 1, 2023	\$0.17	-	10,018,182
		-	<b>10,018,182</b>

**e) Compensation Units and Warrants**

A summary of changes in compensation units and warrants is as follows:

	Compensation Units	Compensation Warrants	Weighted Average Exercise Price
<b>Balance, April 30, 2022</b>	<b>3,555,652</b>	<b>909,090</b>	<b>\$ 0.23</b>
Issued	-	1,400,000	0.63
Exercised	(2,115,652)	-	0.076
Balance, April 30, 2023	1,440,000	2,309,090	\$ 0.46
Issued	-	1,377,778	0.17
Exercised	(1,377,778)	(1,377,778)	0.17
Expired	(62,222)	-	0.17
<b>Balance, July 31, 2023</b>	<b>-</b>	<b>2,309,090</b>	<b>\$ 0.64</b>

## Notes to the Financial Statements (continued)

During the three-month period ended July 31, 2023, the Company issued 1,377,778 shares and 1,377,778 compensation warrants on the exercise of compensation units and 62,222 compensation units expired unexercised. The fair value of these expired compensation units, totaling \$18,842, was transferred to retained earnings from reserves.

No compensation units or compensation warrants were issued during the three-month periods ended July 31, 2022.

Compensation units and warrants outstanding as at July 31, 2023 and April 30, 2023 are:

Expiry Date	Exercise Price per Share/Unit	Outstanding and Exercisable	
		July 31, 2023	April 30, 2023
June 1, 2023	\$0.17	-	1,440,000
August 31, 2023	\$0.65	909,090	909,090
December 21, 2025	\$0.63	1,400,000	1,400,000
		2,309,090	3,749,090

### f) Stock options

A summary of changes in stock options during the three-month periods ended July 31, 2023 and 2022 is as follows:

	Underlying Shares	Weighted Average Exercise Price
Stock options outstanding, April 30, 2022 and July 31, 2022	7,305,963	\$0.42
Stock options exercisable, April 30, 2022 and July 31, 2022	7,305,963	\$0.42
Stock options outstanding, April 30, 2023 and July 31, 2023	<b>7,305,963</b>	<b>\$0.42</b>
Granted in the period	600,000	\$0.41
Stock options outstanding, July 31, 2023	<b>7,905,963</b>	<b>\$0.42</b>
Stock options exercisable, July 31, 2023	<b>7,905,963</b>	<b>\$0.42</b>

On July 3, 2023, the Company granted 600,000 stock options to eligible parties, exercisable at a price of \$0.41 per share for a period of three years. The options vested immediately.

No stock options were exercised or cancelled during the three-month periods ended July 31, 2023 and 2022.

## Notes to the Financial Statements (continued)

During the three-month periods ended July 31, 2023 and 2022, the Company recorded share-based payments of \$115,740 (July 31, 2022 - \$Nil), of which \$35,580 (July 31, 2022 - \$Nil) pertained to directors and officers of the Company. The fair value of stock options issued during the three-month period ended July 31, 2023 was estimated using the Black-Scholes Option Pricing Model with the following assumptions:

	<b>July 3, 2023</b>
Weighted average assumptions:	
Risk-free interest rate	3.77%
Expected dividend yield	0.00%
Expected option life (years)	3.00
Expected stock price volatility	72%
Weighted average fair value at measurement date	\$0.193

A summary of stock options outstanding as at July 31, 2023, is as follows:

<b>Number of Stock Options Outstanding</b>	<b>Number of Stock Options Exercisable</b>	<b>Exercise Price</b>	<b>Weighted Average Remaining Contractual Life (in years)</b>	<b>Intrinsic Value</b>	<b>Expiry Date</b>
9,713	9,713	\$3.00	1.47	\$0.00	January 18, 2025
131,250	131,250	\$0.265	4.09	\$0.13	August 31, 2027

<b>7,905,963</b>	<b>7,905,963</b>		<b>1.11</b>		

## 8. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development of its properties and to maintain a flexible capital structure for its projects for the benefit of its stakeholders. In the management of capital, the Company includes the components of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or adjust the amount of cash and cash equivalents. Management reviews the capital structure on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company is not subject to externally imposed capital requirements. There were no changes to the Company's capital management during the three-month period ended July 31, 2023.

**9. FINANCIAL INSTRUMENTS AND RISK**

The Company's financial instruments consist of cash and cash equivalents, and trade and other payables. The fair value of the financial instruments approximates their carrying values, unless otherwise noted.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

**a) Credit risk**

The Company's credit risk is mainly attributable to its liquid financial assets: cash and cash equivalents. The Company deposits cash with high credit quality financial institutions and credit risk is considered to be minimal. The Company's maximum exposure to credit risk is \$9,851,086 which is the carrying value of the Company's cash and cash equivalents at July 31, 2023.

**b) Liquidity risk**

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at July 31, 2023, the Company had available a cash and cash equivalents balance of \$9,851,086 (April 30, 2023 - \$10,132,350) to settle current liabilities of \$3,302,970 (April 30, 2023 - \$4,308,225).

**c) Foreign exchange risk**

Foreign exchange risk is the risk that the Company's financial instruments will fluctuate in value as a result of movements in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. As at July 31, 2022, the Company is exposed to currency risk as some transactions and balances are denominated in Australian dollars. As at July 31, 2023, a 10% change of the Canadian dollar relative to the Australian dollar would have net financial impact of approximately \$426,000 (April 30, 2022 - \$330,000). The Company does not use derivative instruments to hedge exposure to foreign exchange rate risk.

## MANAGEMENT DISCUSSION AND ANALYSIS FOR THE THREE-MONTH PERIOD ENDED JULY 31, 2023

The following management’s discussion and analysis of financial conditions and results of operations (the “MD&A”) has been prepared by management and provides a review of the activities, results of operations, and financial condition of Benz Mining Corp. (the “Company” or “Benz”). This discussion dated September 13, 2023, complements and supplements the Company’s unaudited condensed interim financial statements and associated notes for the three-month periods ended July 31, 2023, and 2022. Please also refer to the cautionary statement of forward-looking information at the end of this document.

All financial information in this MD&A is prepared in accordance with International Financial Reporting Standards (“IFRS”) and reported in Canadian dollars unless otherwise noted. Additional information about the Company is available under the Company’s profile at [www.sedarplus.ca](http://www.sedarplus.ca) and [www.asx.com.au](http://www.asx.com.au).

### 1. COMPANY OVERVIEW AND OVERALL PERFORMANCE

Benz is an exploration and development stage company existing under the *Canada Business Corporations Act*. It was incorporated under the laws of the Province of British Columbia on November 9, 2011. The Company’s common shares trade on the TSX Venture Exchange under the symbol “BZ”, the Frankfurt Exchange under the trading symbol “1VU”, and commenced trading on the Australian Securities Exchange under the trading symbol “BNZ” on December 23, 2020.

On August 7, 2019, the Company entered into an option agreement with Eastmain Resources Inc. (“Eastmain” or the “Vendor”) to acquire a 100% interest in the former producing Eastmain Gold Project (the “Project”) located in James Bay District, Quebec for \$5,000,000 (“Option Agreement”). In April 2020, Benz entered into an amending agreement (“Amending Agreement”) in connection with the Eastmain Project pursuant to which it acquired a further option to earn a 100% interest in the Ruby Hill West and Ruby Hill East properties (“Ruby Hill Properties”), located west of the Eastmain Project.

Pursuant to the Option and Amendment Agreements, the Company retains the right and option to earn a 75% interest in the Eastmain Project and Ruby Hill Properties by issuing the following cash and common shares payments to the Vendor (the “Option Payments”):

	Option Payments Payable in Cash	Option Payments Payable in Cash or Shares
Option Agreement Effective date – October 23, 2019 (paid)	\$75,000	-
Amending Agreement approval date by TSX-V Exchange – May 21, 2020 (paid)	\$75,000	-
On or before the 1 <sup>st</sup> Anniversary of the Effective Date (paid)	\$150,000	\$100,000
On or before the 2 <sup>nd</sup> Anniversary of the Effective Date (paid)	\$150,000	\$110,000
On or before the 3 <sup>rd</sup> Anniversary of the Effective Date (paid)	\$200,000	\$110,000
On or before the 4 <sup>th</sup> Anniversary of the Effective Date	\$1,250,000	\$475,000
<b>Total Price*</b>	<b>\$1,900,000</b>	<b>\$795,000</b>

\* Total in cash and shares is \$2,695,000.

## **Management's Discussion and Analysis (continued)**

In addition to the Option Payments, the Company issued to the Vendor 3,000,000 common shares, with a value of \$255,000 on grant date. Per the terms of the Amending Agreement, in May 2020, Benz issued a further 2,000,000 common shares and 4,000,000 share purchase warrants, with a value of \$360,000 and \$539,078, respectively. Each warrant enabling the holder to purchase one common share of Benz at a price of \$0.12 per share until April 27, 2023.

The Project property expenditure schedule, as defined in the Option Agreement and updated in the Amending Agreement totals \$3,500,000 as follows:

	<b>Cash Spend</b>
On or before the 1 <sup>st</sup> Anniversary of the Effective Date	\$0
On or before the 2 <sup>nd</sup> Anniversary of the Effective Date (incurred)	\$1,000,000
On or before the 3 <sup>rd</sup> Anniversary of the Effective Date (incurred)	\$1,500,000
On or before the 4 <sup>th</sup> Anniversary of the Effective Date (Incurred)	\$1,000,000
<b>Total Property Expenditure</b>	<b>\$3,500,000</b>

If, and when, the Company has made the Option Payments, issued shares and warrants and incurred expenditures as described above, the Company will be deemed to have exercised the options and a 75% right, title and interest to the Project and Ruby Hill Properties. The Company has the right to accelerate expenditures at any time.

Following the exercise of the options, the Company will be obligated to make the following additional payments to the Vendor on the occurrence of the following events:

- \$1,000,000 within five (5) business days of the closing of project financing to place the Project or any part thereof into commercial production in accordance with a feasibility study completed by the Company within 24 months of the exercise of the option. With this payment, Benz will have acquired 100% of Eastmain's recorded and/or leasehold interest in the Project. If Benz fails to make this milestone payment, Eastmain will have the right to buy back Company's 75% interest in the Project for \$3,500,000, of which up to \$1,225,000 may be paid in common shares of Eastmain; and
- \$1,500,000 within five (5) business days of the commencement of commercial production.

The Company may, at its election, pay up to 25% of this payment in common shares of the Company. The number of common shares required to be issued will be determined by the share equivalent of such payment on the date of issuance.

Eastmain would retain a 2% Net Smelter Return ("NSR") royalty in respect of the Eastmain Project. The Company may, at any time, purchase one half of the NSR royalty, thereby reducing the NSR royalty to a 1% NSR royalty, for \$1,500,000.

Benz will have the right to earn an additional 25% interest in the Ruby Hill Properties by paying an additional \$100,000 to Eastmain by October 23, 2025, which can be paid in shares at the election of Eastmain based on the prevailing volume weighted average price ("VWAP") of the Company's shares up to a maximum of 500,000 shares.

Following the acquisition of a 100% interest in the Ruby Hill Properties, Eastmain will retain a 1% NSR royalty, of which one half may be purchased for \$500,000 thereby reducing it to a 0.5% NSR royalty. The NSR royalty is also offset by any pre-existing royalties which may reduce the royalty burden.

## ***Management's Discussion and Analysis (continued)***

In September 2022, the Company acquired an additional 124 claims on the Ruby Hill West property for cash totaling \$19,840. As at July 31, 2023 the total number of claims held on the Eastmain and Ruby Hill Properties totaled 545, covering 28,731.9 hectares (287.32 km<sup>2</sup>).

In September 2022, the Company acquired an additional 5 claims on the Windy Mountain property for cash totaling \$800. As at July 31, 2023, the total claims held on the property were 78, covering 4,109.7 hectares (41.10 km<sup>2</sup>).

### **2. GOING CONCERN UNCERTAINTY**

The Company's condensed interim financial statements have been prepared on a going concern basis, which assumes that the Company will realize its assets and discharge its obligations in the normal course of operations. As at July 31, 2023, the Company has a working capital surplus of \$7,019,768 (April 30, 2023 – \$6,608,469). The Company's ability to continue as a going concern is dependent on being able to obtain the necessary financing to satisfy its liabilities as they become due.

To date, the Company has not earned significant revenues and is considered to be in the exploration phase. The investment in, and expenditures on, exploration and evaluation assets comprise a significant portion of the Company's activities. Mineral exploration and development is highly speculative and involves inherent risks.

Management believes the Company's cash position will support all of its financial obligations and expected expenditures during the next twelve months. However, the Company expects that it will need to obtain further financing in order to continue exploration activities in the future. In addition, while the Company's future activities in relation to drilling on its mineral claims look promising, there can be no assurance that the results of its exploration activities will confirm the existence of economically viable quantities of ore or that the project will ultimately go into production. There can be no assurance that management will be successful in securing adequate financing. If adequate financing is not obtained, the Company may be required to delay or reduce the scope of any or all of its exploration and development projects.

The Company reported a net loss and total comprehensive loss in the three-month period ended July 31, 2023 of \$1,390,446 (year ended April 30, 2023 - \$4,776,962). These recurring losses and the need for continued financing to further successful exploration activities indicate the existence of a material uncertainty that may cast significant doubt as to the Company's ability to continue as a going concern.

The Company's financial statements do not give effect to any adjustments to the carrying values and classifications of assets and liabilities that might be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

### **3. OPERATIONS**

#### ***Eastmain Project Background***

The Eastmain Project is located approximately 750km northeast of Montreal and 316km northeast of Chibougamau and comprises 155 contiguous mining claims each with an area of approximately 52.7 ha, covering a total of 8,172.71 ha plus one industrial lease permit. It is accessible by road via the Route 167 extension, a permanent all-season road, and is serviced by an existing camp, all season gravel roads, and

## ***Management's Discussion and Analysis (continued)***

an airstrip. The Eastmain Project benefits from access to Chibougamau (population of 7,541) that serves as the main centre of communications and supplies for the area.

The Eastmain Project has a history of significant exploration that has been undertaken intermittently since Placer Development Limited's initial discovery of the Eastmain deposit in 1969/1970. At this time the gold-silver-copper bearing A Zone was intersected while drill-testing an airborne geophysical conductor. Subsequent drill testing of airborne conductors in the 1980's defined two additional gold-rich zones known as the B and C Zones. In 1987, the Placer and MSV Resources Inc. joint venture completed underground development on the Eastmain deposit including an 826.2 m decline, 226.2 m of sub-level drifting, and 95.5m of raising. In 1994 to 1995, MSV Resources Inc. mined 118,356 tonnes grading 10.58 g/t Au and 0.3% Cu by room and pillar mining. The mineralization was processed at the Copper Rand Mine in Chibougamau, and 40,000 oz of Au was recovered. Eastmain Resources Inc. ("Eastmain") acquired a 100% interest in the Eastmain Project from Campbell Resources Inc. in 2007.

On August 7, 2019, Benz entered into an exclusive option agreement with Eastmain (now named Fury Gold Mines Limited) to acquire a 100% interest in the Eastmain Project for approximate consideration of C\$5,000,000 ("Option Agreement"). On April 30, 2020, the Company announced that it had entered into an agreement amending the Option Agreement to acquire an option to earn up to a 100% interest in the Ruby Hill West and Ruby Hill East properties ("Amending Agreement").

### ***Ruby Hill Properties Background***

The Ruby Hill East and Ruby Hill West properties are 100% owned by Eastmain, with the Company having the option to earn up to a 100% interest under the terms of the Amending Agreement.

The Ruby Hill East property is located within the upper Eastmain greenstone belt of James Bay, Québec where the Eastmain Gold deposit is located. The Stornoway diamond mine is located about 80 km north of the property.

The Ruby Hill East property consists of 88 mineral claims (4,640 ha) in a single block contiguous to the west with the Eastmain Mine Project. Eastmain completed drill programs in 2008 and in 2016. In 2008, eight holes were drilled totalling 1,263 m. In 2016, five diamond drill holes were completed totalling 1,044 m.

The Ruby Hill West property is located approximately 800 km north of Montreal, 320 km north-northeast of Chibougamau and 160 km north of Temiscamie, Québec.

The Ruby Hill West property consists of 302 contiguous claim cells (15,919.18 ha) in a single block. The eastern boundary of the property is located approximately 18km west of the Eastmain Project and 10 km from highway 167 North. The Ruby Hill West property is helicopter accessible from the base camp on the Eastmain Project. Eastmain commenced exploration in 2005, completed a drill program testing airborne geophysical targets in 2008 and a surface prospecting program in 2016. In 2008, 21 holes were drilled totalling 3,648 m. The 2016 work program consisted of geological mapping and prospecting. A total of 237 outcrops were described and 158 grab samples were collected. From the 158 collected samples, seven returned gold values >100 ppb, amongst which four assayed >1 g/t gold. The best gold value obtained is 18.15 g/t.

In the western part of the Ruby Hill West property, samples of a spodumene-bearing pegmatite dyke returned values of 0.50% to 2.19% lithium with very anomalous tantalum, cesium and rubidium values.

## Management's Discussion and Analysis (continued)

### Exploration Activities at Eastmain Project

On May 23, 2023, the Company announced an updated independent Mineral Resource Estimate ("MRE") on the Eastmain Project. The updated MRE has been possible following extensive drilling campaigns on the Eastmain Mine Shear Zone during 2021/22.

The updated MRE for the Eastmain Project, prepared by P&E Mining Consultants Inc. ("P&E") has been estimated at 621 koz Inferred and 384 koz Indicated gold at respective grades of 5.1 and 9.0 g/t Au.

**Table 1: Eastmain Project Updated Mineral Resources at 2.5 g/t Au Cut-off.**

Classification	Tonnes (Mt)	Au (g/t)	Au (koz)
Indicated	1.3	9.0	384
Inferred	3.8	5.1	621

**Notes:**

1. The Mineral Resources described above have been prepared in accordance with the CIM Standards (Canadian Institute of Mining, Metallurgy, and Petroleum, 2014) and follow Best Practices outlined by CIM (2019).
2. Mineral Resources which are not Mineral Reserves do not have demonstrated economic viability. The estimate of Mineral Resources may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues.
3. The Inferred Mineral Resource in this estimate has a lower level of confidence than that applied to an Indicated Mineral Resource and must not be converted to a Mineral Reserve. It is reasonably expected that the majority of the Inferred Mineral Resource could be upgraded to an Indicated Mineral Resource with continued exploration.
4. The underground Mineral Resources in this estimate have been reported using a 2.5 g/t lower cut-off based on US\$1,800/oz Au, 0.77 US\$ FX, 95% process recovery and costs of C\$125/t mining, C\$40/t processing and \$15/t G&A. Up-dip cut-and-fill mining is envisioned for extracting mineralization at Eastmain.
5. The Eastmain Zones have been classified as Indicated and Inferred according to drill spacing and two grade estimation passes. Underground Mineral Resources have been classified manually within a constraining volume to remove isolated areas not satisfying reasonable prospects for eventual economic extraction ("RPEEE") and have been reported using an approximate 2 m minimum down hole intercept.
6. Historical workings were depleted from the Mineral Resource model.
7. The bulk density of 2.95 t/m<sup>3</sup> has been applied based on measurements taken on the drill core with Au values equal or greater than 2.0 g/t. This value was assigned to the block model.
8. The MRE is based on a block model with a parent block size in mineralized domains of 10 m x 10 m x 10 m with subcells as small as 0.5 m.
9. Tonnage and grades have been expressed in the metric system, and gold metal content has been expressed in troy ounces.
10. The tonnages have been rounded to the nearest 100 kt and the metal content has been rounded to the nearest 1 k ounces. Gold grades have been reported to one decimal place.

This MRE is an update from the previously reported NI 43-101 compliant MRE (2019) of 236.5 koz indicated and 139.3 koz of inferred at respective grades of 8.19 g/t Au and 7.48 g/t Au on the Eastmain Project. This updated MRE was prepared and is reported in accordance with NI 43-101 and JORC 2012 and is effective as of May 24, 2023. Benz engaged International Resource Solutions of Australia and P&E of Canada to prepare the updated MRE of the Eastmain Project. The updated MRE is based on 383 diamond drill holes totalling 103,444 m.

The Mineral Resource Estimate is sensitive to the selection of a reporting Au cut-off value, as demonstrated in Table 2.

## Management's Discussion and Analysis (continued)

**Table 2: Mineral Resource Estimate Sensitivity to Au Cut-off Grade.**

Cut-off Au (g/t)	Indicated			Inferred		
	Tonnes (Mt)	Au (g/t)	Au (koz)	Tonnes (Mt)	Au (g/t)	Au (koz)
4.5	1.0	10.5	351	1.6	7.4	370
4.0	1.1	10.0	362	2.1	6.6	444
3.5	1.2	9.6	371	2.6	6.0	510
3.0	1.3	9.3	380	3.3	5.5	576
<b>2.5</b>	<b>1.3</b>	<b>9.0</b>	<b>384</b>	<b>3.8</b>	<b>5.1</b>	<b>621</b>
2.0	1.4	8.6	392	4.7	4.6	685
1.5	1.5	8.4	393	5.5	4.1	733
1.0	1.5	8.3	394	6.0	3.9	755

*Notes 1 – 10 below Table 1 also above apply.*

Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. Mineral Resource Estimates do not account for mineability, selectivity, mining loss and dilution. Inferred Mineral Resources are normally considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as Mineral Reserves. There is also no certainty that Indicated Mineral Resources will be converted into Mineral Reserves, once economic considerations are applied; or that Inferred Mineral Resources will be converted to Measured and Indicated classifications through further drilling, or into Mineral Reserves, once economic considerations are applied.

During July 2023, the Company reported that 45 diamond drill holes were drilled for a total of 17,965m. The drilling program was designed to extend the gold deposit to the northern part of the property and to explore outside of the known mine area and along the northwestern trend that includes the Suzanna, Michel and Julien prospects whilst the Company was waiting for assays from additional drilling done over the zones the subject of the May 2023 resource upgrade.

The drilling program followed a strategy of targeting previously identified time domain electromagnetic anomalies at the Eastmain Mine area and Induced Polarisation at the Julien, Suzanna and Michel prospect areas, to follow the best geophysical response, interpreted to be caused by sulphide rich gold mineralisation.

The Company was pleased to report new high-grade discoveries on the Suzanna and Michel prospects, including a new copper-gold discovery, including:

- 4.85m at 7.50 g/t and 1.91% Cu from 76.65m (EM22-272); and
- 3.40m at 9.32 g/t from 264.10m at Suzanna (EM22-260).

Both holes are located in a wide-open area with very few drill holes at Michel (EM22-272) and Suzanna (EM22-260).

In addition, drilling at Zone E yielded several positive intersections that will result in the expansion of the gold mineralisation in that area. It is also anticipated that Zone NW will continue to expand with the new results indicating continuance towards the northwest and the north that will be investigated by further drilling.

## ***Management's Discussion and Analysis (continued)***

All the core samples from March 2023 onwards were sent to MSALABS located in Val d'Or for gold analysis by gamma-ray two-cycle analysis, a Chrysol PhotonAssay instrument, on a sample size of 500g. Multielement analysis is also done at MSA Labs by 4-acid ICP-AES/Ms, ultra trace levels with reanalysis of over the limit metals by 4-acid ICP-AES Ore grade.

### ***Exploration Activities at Ruby Hill Properties***

October 2021 confirmed the macroeconomic trend driven by strong demand for so called "battery materials". Benz, working through its database of previous exploration, had identified a lithium pegmatite occurrence at Ruby Hill West, approximately 40km to the west of the Eastmain Project camp.

Helicopter supported field work confirmed the presence of spodumene (lithium) bearing pegmatite at site and Benz teams collected samples from an area identified over 40m x 100m at Ruby Hill West.

Recognising the strong potential for the western end of the upper Eastmain Greenstone Belt, the Benz team conducted a review of regional geophysical datasets. From this review, it appeared that the extent of the greenstones had previously been poorly mapped and that a large portion of Archean greenstones at a site called Windy Mountain, to the north of Ruby Hill West, was not under claims.

Benz acquired 124 new claims from the Quebec authorities, representing an additional 65km<sup>2</sup> of land, prospective for base metals, gold and, more importantly, hosting the right lithostructural environment for late pegmatites including ultra-differentiated lithium-bearing pegmatites.

Assays from the rock chip samples collected by Benz field crews confirmed that the outcrop at Ruby Hill West was consistently made of lithium-bearing pegmatite with values such as:

- 1.9% Li<sub>2</sub>O, 3160ppm Rb, 3820ppm Cs, 274ppm Ta;
- 1.6% Li<sub>2</sub>O, 3470ppm Rb, 9170ppm Cs, 1650ppm Ta;
- 0.8% Li<sub>2</sub>O, 980ppm Rb, 4150ppm Cs, 965ppm Ta; and
- 0.5% Li<sub>2</sub>O, 3810ppm Rb, 6020ppm Cs, 324ppm Ta.

These analytical results, received in late 2021, prompted Benz to organise a drilling campaign at Ruby Hill West. As Ruby Hill West is 50km to the west of the Eastmain camp and does not have any infrastructure, drilling needed to be conducted with a helicopter portable drill rig and the support of a AstarB2 helicopter.

The weather conditions are an important factor when working with a helicopter in northern Quebec and, matching with contractor availability, the lithium pegmatite drilling program was executed during April 2022. The program consisted of 6 drillholes for approximately 1,200m of drilling.

The first three holes were drilled toward the southeast in a direction that was expected to intercept an extension of the outcrop at depth. All three holes intercepted small dykes of pegmatites but failed to identify any massive pegmatite intrusion.

A fourth hole was drilled as a scissor hole under the same outcrop and returned 200.0m of host basalt. Hole RHW22-005, drilled along strike from holes RHW22-001,002 and 003 returned similar results.

Hole RHW22-006, drilled from the RHW22-004 pad in the opposite direction, was expected to extend the cross section across the mineral system and give a better geological understanding of the mineralized system and successfully intersected 31.1m of spodumene bearing pegmatite starting just below surface. This hole intercepted:

- 31.1m at 0.9% Li<sub>2</sub>O, 323ppm Ta<sub>2</sub>O<sub>5</sub>, 1093ppm Cs, 1558ppm Rb<sub>2</sub>O from 2.6m including:

## ***Management's Discussion and Analysis (continued)***

- 26.4m at 1.01% Li<sub>2</sub>O, 355ppm Ta<sub>2</sub>O<sub>5</sub>, 980ppm Cs, 1601ppm Rb<sub>2</sub>O from 7.35m
- 12.7m at 1.29% Li<sub>2</sub>O, 423ppm Ta<sub>2</sub>O<sub>5</sub>, 600ppm Cs, 1156ppm Rb<sub>2</sub>O from 21m
- 3.7m at 2.61% Li<sub>2</sub>O, 579ppm Ta<sub>2</sub>O<sub>5</sub>, 441ppm Cs, 1057ppm Rb<sub>2</sub>O from 30m

At Ruby Hill West, a study was commissioned with Dahrouge to help with the targeting and a clear trend emerged from this work. A soil and prospecting campaign was planned in May and June 2023 to follow-up on their report. Upon the commencement of this summer exploration program, Benz geologists identified the Mikisiw outcrop a few days prior to the suspension of all work programs and evacuation of this area due to the well publicised bushfires that ceased exploration across all of the James Bay region.

Analysis of the initial grab samples taken at Mikisiw confirmed the presence of high-grade lithium with samples of 5.57%, 3.66%, 3.13%, 1.5%, 1.39% and 1.26% Li<sub>2</sub>O. This work programme resumed at the end of July 2023 where the discovery of a new area of outcropping spodumene bearing pegmatites was discovered along the 25km lithium-caesium-tantalum ("LCT") pegmatite trend. This new discovery, M-2, is located approximately 2km west of the recent Mikisiw discovery and 400m from a historical diamond drill hole (DDH 90-EM-003) drilled by Kingswood Explorations 1985 Limited in 1990 that intersected 30m of muscovite-bearing pegmatite from 140.5m – 171.7m depth and was not assayed for lithium.

Following the identification of the 25km pegmatite trend, the Company selected areas for soil sampling and further prospecting, including the Mikisiw M-1 and M-2 areas. All available datasets were compiled including historical drilling where the pegmatite intersections in DDH 90-EM-003 warranted further investigation in this area. The Company notes that the position of this drill hole is approximate.

Drilling on selected targets will commence in calendar Q4, 2023 with the Company recently confirming that it had secured a single diamond helicopter supported drill rig to undertake approximately 4,000m of drilling at its Ruby Hill West property.

## Management's Discussion and Analysis (continued)

### 4. REVIEW OF FINANCIAL RESULTS

#### Summary of Quarterly Results

	Jul. 31, 2023	Apr. 30, 2023	Jan. 31, 2023	Oct. 31, 2022	Jul. 31, 2022	Apr. 30, 2022	Jan. 31, 2022	Oct. 31, 2021
Interest Income	\$ 60,079	\$60,132	\$53,094	\$ 3,058	\$ 2,734	\$4,153	\$6,856	\$ 5,553
Operating loss	(1,743,637)	(3,561,977)	(1,243,739)	(717,977)	(1,348,978)	(5,798,739)	(4,780,003)	(4,774,032)
Net loss	(1,390,446)	(2,190,019)	(679,764)	(558,748)	(1,348,431)	(3,064,935)	(2,975,291)	(3,202,409)
Basic and diluted loss per share	(0.01)	(0.02)	(0.01)	(0.00)	(0.01)	(0.03)	(0.03)	(0.03)

During the three-month periods ended July 31, 2023 and 2022, exploration and evaluation costs consisted of the following:

	July 31, 2023	July. 31, 2022
Geology	492,658	176,123
Location/camp services	158,905	222,233
Drilling	266,545	315,170
Geochemical analysis	380,502	204,382
Geophysics	4,400	32,095
Environment	8,170	1,908
Health & safety	24,033	23,072
Property Maintenance	18,973	55,413
<b>Total exploration and evaluation costs</b>	<b>1,354,186</b>	<b>1,030,396</b>

#### Explanation of quarterly results

During the three months ended July 31, 2023, the Company recorded an operating loss of \$1,743,637 and net loss of \$1,390,446. Net loss was mainly comprised of exploration and evaluation costs of \$1,354,186, management & consulting fees of \$129,846, share-based payments of \$115,740, foreign exchange loss of \$48,888, offset by settlement of flow-through share premium liability of \$342,000 and interest income of \$60,079.

During the three months ended April 30, 2023, the Company recorded an operating loss of \$3,561,977 and net loss of \$2,190,019. Net loss was mainly comprised of exploration and evaluation costs of \$3,333,730, management & consulting fees of \$136,376, foreign exchange loss of \$54,026, offset by settlement of flow-through share premium liability of \$1,365,852 and interest income of \$60,132.

During the three months ended January 31, 2023, the Company recorded an operating loss of \$1,243,739 and net loss of \$679,764. Net loss was mainly comprised of exploration and evaluation costs of \$897,318, management & consulting fees of \$203,467, office and miscellaneous expense of \$65,728, offset by settlement of flow-through share premium liability of \$408,073, foreign exchange gain of \$102,808 and interest income of \$53,094.

During the three months ended October 31, 2022, the Company recorded an operating loss of \$717,977 and net loss of \$558,748. Net loss was mainly comprised of exploration and evaluation costs of \$383,532, management & consulting fees of \$203,279, office and miscellaneous expense of \$71,273, offset by settlement of flow-through share premium liability of \$124,688.

## ***Management's Discussion and Analysis (continued)***

During the three months ended July 31, 2022, the Company recorded an operating loss of \$1,348,978 and net loss of \$1,348,431. Net loss was mainly comprised of exploration and evaluation costs of \$1,030,396 and management & consulting fees of \$186,908.

During the three months ended April 30, 2022, the Company recorded an operating loss of \$5,798,739 and net loss of \$3,064,935. Net loss was mainly comprised of exploration and evaluation costs of \$5,376,547, management & consulting fees of \$182,140, bad or doubtful debt expense of \$116,184, offset by settlement of flow-through share premium liability of \$2,734,704.

During the three months ended January 31, 2022, the Company recorded an operating loss of \$4,780,003 and net loss of \$2,975,291. Net loss was mainly comprised of exploration and evaluation costs of \$4,442,430, management & consulting fees of \$195,343, office and miscellaneous expense of \$55,831, offset by settlement of flow-through share premium liability of \$1,809,874.

During the three months ended October 31, 2021, the Company recorded an operating loss of \$4,774,032 and net loss of \$3,202,409. Net loss was mainly comprised of exploration and evaluation costs of \$4,438,172, management & consulting fees of \$219,650, offset by settlement of flow-through share premium liability of \$1,551,434.

### **5. LIQUIDITY AND CAPITAL RESOURCES**

A summary of the Company's working capital balances is as follows:

	<b>July 31, 2023</b>	<b>April 30, 2022</b>
Cash and cash equivalents	9,851,086	10,132,350
Sales taxes recoverable	276,460	537,616
Other receivables	12,076	69,837
Prepaid expenses and deposits	183,116	176,891
Trade and other payables	(531,135)	(1,194,390)
Flow-through share premium liability	(2,771,835)	(3,113,835)
<b>Working Capital</b>	<b>7,019,768</b>	<b>6,608,469</b>

The changes in working capital are primarily due to operating activities, as discussed in the previous section, and investing and financing activities as detailed below.

#### ***Cash Used in Investing Activities***

##### Three-month periods ended July 31, 2023 and 2022

During the three-month periods ended July 31, 2023 and 2022, there were no cashflows arising from investing activities.

#### ***Cash from Financing Activities***

##### Three-month period ended July 31, 2023

During the three-month period ended July 31, 2023, the Company issued:

- 1,377,778 shares and 1,377,778 compensation warrants on the exercise of compensation units for proceeds of \$234,222, and
- 7,162,122 shares on the exercise of warrants and 1,377,778 shares on the exercise of compensation warrants for total proceeds of \$1,451,783.

## **Management's Discussion and Analysis (continued)**

Three-month period ended July 31, 2022

During the three-month period ended July 31, 2022, the Company issued 500,000 shares on the exercise of warrants for proceeds of \$60,000.

### **6. OFF-BALANCE SHEET ARRANGEMENTS**

The Company does not have any off-balance sheet arrangements other than those discussed above.

### **7. RELATED PARTY TRANSACTIONS**

Key management personnel include the members of the Board of Directors and officers of the Company, who have the authority and responsibility for planning, directing, and controlling the activities of the Company. The remuneration of directors and officers for three-month periods ended July 31, 2023 and 2022 was as follows:

	<b>July 31, 2023</b>	<b>July 31, 2022</b>
<b>Salaries, bonuses, fees and benefits</b>		
Management, director and consulting fees to the officers and directors of the Company	\$ 163,941	\$ 201,184
<b>Share-based payments</b>		
Officers and directors of the Company	38,580	-
	<b>\$ 202,521</b>	<b>\$ 201,184</b>

In the normal course of operations, the Company transacts with companies related to its directors or officers. The following amounts payable to related parties are unsecured, non-interest bearing, and due on demand:

	<b>July 31, 2023</b>	<b>April 30, 2023</b>
Management fees	\$ 62,010	\$ 48,240

### **8. PROPOSED TRANSACTIONS**

As is typical of the mining industry, the Company is continually reviewing potential merger, acquisition, investment and joint venture transactions and opportunities that could enhance shareholder value.

### **9. FINANCIAL INSTRUMENTS**

The Company's financial instruments consist of cash and cash equivalents, other receivables, and trade and other payables. The fair value of these financial instruments approximates their carrying value due to the relatively short-term maturity of these instruments. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant credit, liquidity, foreign exchange, interest and price risks arising from these financial instruments. For a summary of how the Company manages these risks, please refer to Note 10 of the audited annual financial statements for the year ended April 30, 2023.

## ***Management's Discussion and Analysis (continued)***

### **10. ADDITIONAL DISCLOSURES**

#### ***Additional Disclosure for Venture Issuers without Significant Revenue***

Detail regarding material items within general and administrative expenses has been provided throughout this document.

#### ***Outstanding Shares***

Authorized share capital consists of an unlimited number of common shares without par value and an unlimited number of preferred shares without par value.

As at the date of this MD&A, the Company had the following issued and outstanding common shares and unexercised stock options, warrants and agent compensation options:

	<b>Shares and Potential Shares</b>
Common shares outstanding	167,901,578
Stock options (weighted average exercise price \$0.42)	7,905,963
Warrants (weighted average exercise price - \$Nil)	-
Compensation units and warrants (weighted average exercise price \$0.64)	2,309,090
<b>Total common shares and potential common shares</b>	<b>178,116,631</b>

As at July 31, 2023, an amount of 222,857 common shares were held in escrow subject to an escrow agreement with Tusk Exploration Ltd. Due to unmet contractual obligations relating to the completion of an option purchase agreement that was relinquished in 2016, these shares continue to be held. The Company plans to cancel the shares held in escrow at a future date.

#### ***Internal Control over Financial Reporting***

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. Any system of internal control over financial reporting, no matter how well designed, has inherent limitations and may not prevent or detect misstatements. Therefore, even those systems determined to be effective can only provide reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

#### ***Critical Judgements and Estimates***

The financial statements are prepared in accordance with IFRS. The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period.

The critical judgments that the Company's management has made in the process of applying the Company's accounting policies that has the most significant effect on the amounts recognized in the Company's financial statements are the impairment of exploration and evaluation assets, the valuation of share-based payments and the valuation of deferred tax assets and liabilities.

For a summary of significant accounting judgements and estimates, please refer to Note 2 of the audited annual financial statements for the year ended April 30, 2023. Management believes it has made estimates that best reflect the facts and circumstances, however, actual results may differ from estimates.

## ***Management's Discussion and Analysis (continued)***

### ***Management Changes***

On September 30, 2021, Carlos Escribano resigned as Chief Financial Officer of the Company. He was replaced as CFO, effective October 1, 2021, by Simon Sharp.

On March 1, 2022, Christine Pankiw resigned as Corporate Secretary (Canada) and was replaced by Mathew O'Hara.

On September 30, 2022, Paul Fowler resigned as Head of Corporate Development (Canada).

On January 27, 2023, Xavier Braud resigned from his role as Chief Executive Officer and Head of Corporate Development (Australia). Evan Cranston, Executive Chairman, agreed to act as the Interim Chief Executive Officer until the Board makes a permanent appointment to the position.

On February 1, 2023, Daniella Tintor was appointed Corporate Secretary (Canada) replacing Mathew O'Hara.

## **11. RISKS AND UNCERTAINTIES**

Our business, operating, and financial condition could be harmed due to any of the following risks. The risks described below are not the only ones facing our Company. Additional risks not presently known, or that Benz currently deems immaterial, may also impair our business operations. If any such risks actually occur, the financial condition, liquidity, and results of operations of the Company as well as the ability of the Company to implement its growth plans could be materially adversely affected.

The following is a description of certain risks and uncertainties that may affect the business of the Company.

### ***Limited Operating History***

Benz is a relatively new company with limited operating history and no history of business or mining operations, revenue generation, or production history. Benz was incorporated on November 9, 2011 and has yet to generate a profit from its activities. The Company is subject to all the business risks and uncertainties associated with any new business enterprise, including the risk that it will not achieve its growth objective. The Company anticipates that it may take several years to achieve positive cash flow from operations.

### ***Exploration, Development, and Operating Risks***

The exploration for and development of minerals involves significant risks, which even a combination of careful evaluation, experience, and knowledge may not eliminate. Few properties, which are explored, are ultimately developed into producing mines. There can be no guarantee that the estimates of quantities and qualities of minerals disclosed will be economically recoverable. With all mining operations there is uncertainty and, therefore, risk associated with operating parameters and costs resulting from the scaling up of extraction methods tested in pilot conditions. Mineral exploration is speculative in nature, and there can be no assurance that any minerals discovered will be discovered in sufficient quantities to warrant commercial exploitation. The Company's operations will be subject to all of the hazards and risks normally encountered in the exploration, development, and production of minerals. These include unusual and unexpected geological formations, rock falls, seismic activity, flooding, and other conditions involved in the extraction of material, any of which could result in damage to, or destruction of, mines and other producing facilities, damage to life or property, environmental damage, and possible legal liability. Although precautions to minimize risk will be taken, operations are subject to

## ***Management's Discussion and Analysis (continued)***

hazards that may result in environmental pollution and consequent liability that could have a material adverse impact on the business, operations, and financial performance of the Company.

### ***Substantial Capital Requirements and Liquidity***

Substantial additional funds will be required and there can be no assurances given that the Company will be able to raise the necessary funds. To meet such funding requirements, the Company may undertake additional equity financing, which would be dilutive to shareholders. There is no assurance that additional financing will be available on terms acceptable to the Company, or at all. If the Company is unable to obtain additional financing as needed, it may be required to discontinue operations.

### ***Competition***

There is competition within the mining industry for the discovery and acquisition of properties considered to have commercial potential. The Company will compete with other mining companies, many of which have greater financial, technical, and other resources than the Company, for, among other things, the acquisition of minerals claims, leases, and other mineral interests as well as for the recruitment and retention of qualified employees and other personnel.

### ***Reliance on Management and Dependence on Key Personnel***

The success of the Company is currently largely dependent upon the performance of its directors and officers, and the ability to attract and retain its key personnel. The loss of the services of these persons may have a material adverse effect on the Company's business and prospects. Benz will compete with numerous other companies for the recruitment and retention of qualified employees and contractors. There is no assurance that the Company can maintain the service of its directors and officers or other qualified personnel required to operate its business. Failure to do so could have a material adverse effect on the Company and its prospects.

### ***Fluctuating Mineral Prices and Marketability of Minerals***

The market price of any mineral is volatile and affected by many factors beyond the Company's control, including but not limited to: international supply and demand, consumer product demand levels, international economic trends, commodity prices, operations costs, variations in mineral grade, fluctuations in the market price of minerals, currency exchange rate fluctuations, the level of interest rates, the rate of inflation, global or regional political events, and international events as well as a range of other market forces. Depending on the price of certain minerals, the Company may determine that it is impractical to continue its mineral exploration or development operations, if any. Sustained downward movements in mineral market prices could render less economic, or uneconomic, some or all of the mineral extraction and/or exploration activities to be undertaken by the Company. The marketability of minerals is affected by factors such as government regulation of mineral prices, royalties, allowable production, and the importation and exportation of minerals, the effect of which cannot be accurately predicted. There is no assurance that a profitable market will exist for the sale of minerals found, if any, on the Company's properties.

### ***No Mineral Reserves or Mineral Resources***

Mineral resources are estimates of the size and grade of deposits based on limited sampling and on certain assumptions and parameters. No assurance can be given that the anticipated tonnages and grades will be achieved or realized. Prolonged declines in the market price of silver, copper, lead or zinc may render mineral resources containing relatively lower grades of mineralization uneconomic and could materially reduce any estimate of resources. Should such declines occur, the Company could be required to take a material write-down of its investment in mining properties or the development of new projects, resulting in increased net losses.

## ***Management's Discussion and Analysis (continued)***

### ***Environmental Risks***

All phases of the mining business present environmental risks and hazards and are subject to environmental regulation pursuant to a variety of international conventions, local laws, and regulations. Environmental legislation provides for, among other things, restrictions and prohibitions on spills, releases or emissions of various substances produced in association with mining operations. The legislation also requires that operations be operated, maintained, abandoned, and reclaimed to the satisfaction of applicable regulatory authorities. Compliance with such legislation can require significant expenditures and a breach may result in the imposition of fines and penalties, some of which may be material. Environmental legislation is evolving in a manner expected to result in stricter standards and enforcement, larger fines and liability, and potentially increased capital expenditures and operating costs.

### ***Governmental Regulations and Processing Licenses and Permits***

The activities of the Company are subject to government approvals, various laws governing prospecting, development, land resumptions, production taxes, labour standards, and occupational health, mine safety, toxic substances, and other matters. Although the Company believes that its activities are currently carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules and regulations will not be enacted, or that existing rules and regulations will not be applied in a manner, which could limit or curtail production or development. Amendments to current laws and regulations governing operations and activities of exploration and mining, or more stringent implementation thereof, could have a material adverse impact on the business, operations, and financial performance of the Company. Further, the mining licenses and permits issued in respect of its projects may be subject to conditions which, if not satisfied, may lead to the revocation of such licenses. In the event of revocation, the value of the Company's investments in such projects may decline.

### ***Conflicts of Interest***

Certain directors and officers of the Company will be engaged in, and will continue to engage in, other business activities on their own behalf and on behalf of other companies (including mineral resource companies) and, as a result of these and other activities, such directors and officers of the Company may become subject to conflicts of interest. The Business Corporations Act of British Columbia ("BCBCA") provides that in the event that a director has a material interest in a contract or proposed contract or agreement that is material to the issuer, the director shall disclose his interest in such contract or agreement and shall refrain from voting on any matter in respect of such contract or agreement, subject to and in accordance with the BCBCA. To the extent that conflicts of interest arise, such conflicts will be resolved in accordance with the provisions of the BCBCA.

### ***Markets for Securities***

There can be no assurance that an active trading market in the Company's shares will be established and sustained. The market price for the Company's shares could be subject to wide fluctuations. Factors such as commodity prices, government regulation, interest rates, share price movements of the Company's peer companies and competitors, as well as overall market movements, may have a significant impact on the market price of the securities of Company. The stock market has from time-to-time experienced extreme price and volume fluctuations, particularly in the mining sector.

### ***Uninsurable Risks***

Exploration, development, and production operations on mineral properties involve numerous risks, including unexpected or unusual geological operating conditions, rock bursts, cave-ins, fires, floods, earthquakes, and other environmental occurrences. It is not always possible to obtain insurance against all such risks, and the Company may decide not to insure against certain risks as a result of high premiums

## ***Management's Discussion and Analysis (continued)***

or other reasons. Should such liabilities arise, they could have an adverse impact on the Company's results of operations and financial condition and could cause a decline in the value of the Company's shares. The Company does not intend to maintain insurance against environmental risks.

### ***Risks Relating to Infectious Diseases or Outbreaks of Viruses***

Global markets have been adversely impacted by emerging infectious diseases and/or the threat of outbreaks of viruses, other contagions or epidemic diseases, including the novel COVID-19. A significant outbreak could result in a widespread crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn which could adversely affect the Company's business and the market price of the Common Shares. Many industries, including the mining industry, have been impacted by these market conditions. If increased levels of volatility continue or in the event of a rapid destabilization of global economic conditions, it may result in a material adverse effect on commodity prices, availability of credit, investor confidence, and general financial market liquidity, all of which may adversely affect the Company's business and the market price of the Company's securities. In addition, there may not be an adequate response to emerging infectious diseases. There are potentially significant economic and social impacts, including labour shortages and shutdowns, delays and disruption in supply chains, social unrest, government or regulatory actions or inactions, including permanent changes in taxation or policies, decreased demand, declines in the price of commodities, delays in permitting or approvals, governmental disruptions or other unknown but potentially significant impacts. At this time, the Company cannot accurately predict what effects these conditions will have on its operations or financial results, including due to uncertainties relating to the ultimate geographic spread, the duration of the outbreak, and the length of restrictions or responses that have been or may be imposed by the governments. Given the global nature of the Company's operations, the Company may not be able to accurately predict which operations will be impacted. Any outbreak or threat of an outbreak of a contagions or epidemic disease could have a material adverse effect on the Company, its business and operational results.

## **12. APPROVAL**

The Board of Directors of the Company has approved the disclosure contained in this MD&A.

## **13. FORWARD LOOKING INFORMATION**

This MD&A is based on a review of the Company's operations, financial position, and plans for the future based on facts and circumstances as of September 13, 2023.

Certain statements contained in this MD&A may constitute "forward looking information" as such term is used in applicable Canadian securities laws. Forward-looking information is based on plans, expectations and estimates of management at the date the information is provided and is subject to certain factors and assumptions, including, that the Company's financial condition and development plans do not change as a result of unforeseen events and that the Company obtains regulatory approval. Forward-looking information is subject to a variety of risks and uncertainties and other factors that could cause plans, estimates and actual results to vary materially from those projected in such forward-looking information. Factors that could cause the forward-looking information in this news release to change or to be inaccurate include, but are not limited to, the risk that any of the assumptions referred to prove not to be valid or reliable, that occurrences such as those referred to above are realized and result in delays, or cessation in planned work, that the Company's financial condition and development plans change, and delays in regulatory approval, as well as the other risks and uncertainties applicable to the Company as set forth in the Company's continuous disclosure filings filed under the Company's profile at

## ***Management's Discussion and Analysis (continued)***

[www.sedarplus.ca](http://www.sedarplus.ca) and [www.asx.com.au](http://www.asx.com.au). The Company undertakes no obligation to update these forward-looking statements, other than as required by applicable law.

### **14. COMPETENT PERSON'S STATEMENT**

The information in this announcement that relates to the Mineral Resource Estimate was first reported under the JORC Code by the Company on May 24, 2023. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and confirms that all material assumptions and technical parameters underpinning the estimate continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this announcement that relates to historical exploration results was first reported to the ASX in accordance with ASX Listing Rule 5.7 on December 21, 2020 (Prospectus), February 3, 2022, June 7, 2022, October 27, 2022, July 27, 2023, August 3, 2023 and August 28, 2023. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements.
