QUARTERLY ACTIVITIES REPORT FOR THE PERIOD ENDED 30 SEPTEMBER 2023

Key Points

- Scoping study (Study) on the Gum Creek Project near surface open pit gold resources has commenced and is scheduled for completion Q1 CY2024.
- The Study will assess the potential to recommence production through a processing plant located at the previously permitted Gidgee mill site using the free milling portion of the current gold resource (**32.97Mt @ 1.22g/t Au for 1.30Moz**) which represents 61% of the total gold resource estimate.
- The Study is based on current free milling Whittle optimised in-pit gold resources and is considering 2Mt to 3Mt per annum processing throughputs supported by different mining schedules and economic cut-off grades.
- The Study is using established infrastructure wherever possible and evaluating the use of renewable power options as well as local grid power.
- Acquisition of 60.8 million shares in Alto Metals Limited (ASX:AME) which currently represents **8.5% of AME's issued capital**.
- Rights Issue announced to raise up to \$7.5 million with funds being directed towards the Gum Creek Gold Project scoping study, further resource drilling that is planned to commence in Q4 CY2023, the repayment of debt, and general working capital.

Horizon Gold Limited (ASX: **HRN**) (**Horizon** or the **Company**) is focused on progressing its exploration and development activities at the 100%-owned Gum Creek Gold Project (**Gum Creek** or the **Project**) located in the Mid-West Region of Western Australia (Figure 1). Gum Creek has historically produced more than 1 million ounces of gold and currently hosts a gold resource of **2.14 million ounces** (Table A). The Project covers 663km² of contiguous tenure over the highly prospective and underexplored Gum Creek greenstone belt, which contains 37 open pit and three underground gold mines.

Due to the ongoing exploration success and the definition of a **44.45Mt @ 1.50g/t Au for 2.14Moz** mineral resource estimate (MRE) including a **1.30 million ounce (33Mt @ 1.22g/t Au) free milling gold resource** at Gum Creek¹, Horizon has commenced a scoping study on near surface open pit gold resources to assess the potential to recommence production through a processing plant located at the

previously permitted Gidgee mill site using established infrastructure wherever possible (e.g. haul roads, tailings dam, in-pit water resources, ROM pad etc.).

The Study is based on free milling Whittle optimised in-pit gold resources and considers 2Mt to 3Mt per annum processing throughputs supported by different mining schedules and economic cut-off grades. Several consultants have been engaged including Auralia Mining Consulting, Sedgman Limited, Tetra Tech Coffey, ECG Engineering, MBS Environmental, and Peter O'Bryan & Associates. The Study is evaluating the use of renewable power options as well as local grid power and is scheduled for completion Q1 CY2024.

A detailed structural analysis and reinterpretation of the Swan and Swift deposit areas has also commenced. The analysis includes 3D modelling of all mineralised zones and structural relogging of selected post-2004 diamond core from both areas.

Corporate

Renounceable Entitlement Issue

On 4 October 2023, the Company announced a one for 5 Renounceable Entitlement Issue (“the Issue”) at \$0.30 per share, to raise up approximately \$7,500,000.

The remaining key dates for the Issue are:

Entitlement trading ends	30 October 2023
Closing Date and final time for receipt of Entitlement and Acceptance Forms and payment in full for New Shares	6 November 2023
Issue of New Shares	13 November 2023
Holding Statements dispatched to Shareholders and commencement of trading	14 November 2023

Major shareholder, Zeta Resources Limited and the Directors of Horizon, intend to take up their Entitlements in full for a combined amount of approximately \$5,700,000.

Funds are to be directed towards the Gum Creek Gold Project scoping study, further resource drilling that is planned to commence in Q4 CY2023, the repayment of debt, and general working capital.

Alto Metals Limited Share Purchase

On 17 July 2023 the Company acquired 60.8 million shares in Alto Metals Limited (ASX:AME) which currently represents 8.5% of AME’s issued capital. This strategic investment is part of Horizon’s broader aim of enhancing the value of the Gum Creek Gold Project (Figure 1).

Funding

In June 2023 Horizon secured a short-term funding facility of \$500,000, in July 2023 a further \$3.17 million and in September 2023 an additional \$300,000, all from Zeta Energy Pte Limited (a wholly owned subsidiary of Horizon’s major shareholder Zeta Resources Limited). The loan facilities are unsecured, can be drawn in tranches of not less than \$50,000 and interest is payable at 8.0% per annum. The funds will be repayable by no earlier than 31 December 2023.

The short-term funding facilitated the strategic purchase of AME shares and allowed Horizon time to prioritise its future strategic objectives before undertaking the Renounceable Entitlement Issue announced on 4 October 2023.

Annual General Meeting

The Company will be holding its Annual General Meeting on Thursday 23 November 2023 at 9.30am (AWST) in the Meeting Room of The Country Women’s Association of Western Australia, 1176 Hay Street, West Perth, WA 6005.

Additional ASX Listing Rule Disclosures

As required by ASX Listing Rule 5.3, the Company advises it spent \$455,000 on exploration and evaluation activities during the quarter. The expenditure is predominantly related to costs associated with gold resource estimation work within the Swan-Swift area, engineering and geotechnical consulting services, and ongoing tenement rents and rates.
