EXPLANATORY STATEMENT

This Explanatory Statement has been prepared to provide information which the Directors believe to be material to Shareholders in deciding whether or not to pass the Resolutions.

1. ☐ FINANCIAL STATEMENTS AND REPORTS

In accordance with the Corporations Act, the business of the Meeting will include receipt and consideration of the annual financial report of the Company for the financial year ended 30 June 2023 together with the declaration of the Directors, the Directors' report, the Remuneration Report and the auditor's report.

The Company will not provide a hard copy of the Company's annual financial report to Shareholders unless specifically requested to do so. The Company's annual financial report is available on its website at www.europeanlithium.com.

2. ☐ RESOLUTION 1 – ADOPTION OF REMUNERATION REPORT

2.1 ☐ General

The Corporations Act requires that at a listed company's annual general meeting, a resolution that the remuneration report to be adopted must be put to the shareholders. However, such a resolution is advisory only and does not bind the company or the directors of the company.

The remuneration report sets out the company's remuneration arrangements for the directors and senior management of the company. The remuneration report is part of the directors' report contained in the annual financial report of the company for a financial year.

The chair of the meeting must allow a reasonable opportunity for its shareholders to ask questions about or make comments on the remuneration report at the annual general meeting.

2.2 ☐ Voting consequences

A company is required to put to its shareholders a resolution proposing the calling of another meeting of shareholders to consider the appointment of directors of the company (**Spill Resolution**) if, at consecutive annual general meetings, at least 25% of the votes cast on a remuneration report resolution are voted against adoption of the remuneration report and at the first of those annual general meetings a Spill Resolution was not put to vote. If required, the Spill Resolution must be put to vote at the second of those annual general meetings.

If more than 50% of votes cast are in favour of the Spill Resolution, the company must convene a shareholder meeting (**Spill Meeting**) within 90 days of the second annual general meeting.

All of the directors of the company who were in office when the directors' report (as included in the company's annual financial report for the most recent financial year) was approved, other than the managing director of the company, will cease to hold office immediately before the end of the Spill Meeting but may stand for re-election at the Spill Meeting.

Following the Spill Meeting those persons whose election or re-election as directors of the company is approved will be the directors of the company.

2.3 Previous voting results

At the Company's previous annual general meeting the votes cast against the remuneration report considered at that annual general meeting were less than 25%. Accordingly, the Spill Resolution is not relevant for this Meeting.

3. RESOLUTION 2 – RE-ELECTION OF DIRECTOR – MR MICHAEL CARTER

3.1 General

Listing Rule 14.5 provides that an entity which has directors must hold an election of directors at each annual general meeting.

The Constitution sets out the requirements for determining which Directors are to retire by rotation at an annual general meeting.

Mr Michael Carter, who has served as a Director since 31 August 2023, and was last re-elected on 21 January 2022, retires by rotation and seeks re-election.

3.2 Qualifications and other material directorships

Mr Carter holds a Bachelor of Commerce, majoring in accounting and finance, University of Western Australia. Mr Carter has also completed a graduate diploma in Applied Finance and Investment at Finsia.

Mr Carter is experienced in structuring corporate transactions, focusing on junior resource companies, and has also worked in ongoing corporate advisory roles with numerous ASX listed entities over the last 18 years.

Mr Carter has been employed as a stockbroker since 1999 and was previously a director of Indian Ocean Capital. He is currently an associate director of CPS Capital Group.

3.3 Independence

If re-elected the Board considers Mr Carter will be an independent Director.

3.4 Technical information required by Listing Rule 14.1A

If Resolution 2 is passed, Mr Carter will be re-elected to the Board as a Non-Executive Director.

In the event that Resolution 2 is not passed, Mr Carter will not continue in their role as a Non-Executive Director. The Company may seek nominations or otherwise identify suitably qualified candidates to join the Company. As an additional consequence, this may detract from the Board and Company's ability to execute on its strategic vision.

3.5 Board recommendation

The Board has reviewed Mr Carter's performance since his appointment to the Board and considers that his skills and experience will continue to enhance the Board's ability to perform its role. Accordingly, the Board supports the re-election of Mr Carter and recommends that Shareholders vote in favour of Resolution 2.

4. □ **RESOLUTION 3 – APPROVAL OF 7.1A MANDATE**

4.1 □ **General**

Broadly speaking, and subject to a number of exceptions, Listing Rule 7.1 limits the amount of Equity Securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary securities it had on issue at the start of that period.

However, under Listing Rule 7.1A, an eligible entity may seek shareholder approval by way of a special resolution passed at its annual general meeting to increase this 15% limit by an extra 10% to 25% (**7.1A Mandate**).

An 'eligible entity' means an entity which is not included in the S&P/ASX 300 Index and has a market capitalisation of \$300,000,000 or less. The Company is an eligible entity for these purposes.

As at the date of this Notice, the Company is an eligible entity as it is not included in the S&P/ASX 300 Index and has a current market capitalisation of \$97,596,742 (based on the number of Shares on issue and the closing price of Shares on the ASX on 16 October 2023).

Resolution 3 seeks Shareholder approval by way of special resolution for the Company to have the additional 10% placement capacity provided for in Listing Rule 7.1A to issue Equity Securities without Shareholder approval.

For note, a special resolution is a resolution requiring at least 75% of votes cast by shareholders present and eligible to vote at the meeting in favour of the resolution.

If Resolution 3 is passed, the Company will be able to issue Equity Securities up to the combined 25% limit in Listing Rules 7.1 and 7.1A without any further Shareholder approval.

If Resolution 3 is not passed, the Company will not be able to access the additional 10% capacity to issue Equity Securities without Shareholder approval under Listing Rule 7.1A, and will remain subject to the 15% limit on issuing Equity Securities without Shareholder approval set out in Listing Rule 7.1.

4.2 □ **Technical information required by Listing Rule 7.1A**

Pursuant to and in accordance with Listing Rule 7.3A, the information below is provided in relation to Resolution 3:

(a) **Period for which the 7.1A Mandate is valid**

The 7.1A Mandate will commence on the date of the Meeting and expire on the first to occur of the following:

- (i) the date that is 12 months after the date of this Meeting;
- (ii) the time and date of the Company's next annual general meeting; and
- (iii) the time and date of approval by Shareholders of any transaction under Listing Rule 11.1.2 (a significant change in the nature or scale of activities) or Listing Rule 11.2 (disposal of the main undertaking).

(b) **Minimum price**

Any Equity Securities issued under the 7.1A Mandate must be in an existing quoted class of Equity Securities and be issued for cash consideration at a minimum price of 75% of the volume weighted average price of Equity Securities in that class, calculated over the 15 trading days on which trades in that class were recorded immediately before:

- (i) the date on which the price at which the Equity Securities are to be issued is agreed by the entity and the recipient of the Equity Securities; or
- (ii) if the Equity Securities are not issued within 10 trading days of the date in Section 4.2(b)(i), the date on which the Equity Securities are issued.

(c) **Use of funds raised under the 7.1A Mandate**

The Company intends to use funds raised from issues of Equity Securities under the 7.1A Mandate, having regard to the following factors:

- (i) the purpose of the issue;
- (ii) alternative methods for raising funds available to the Company at that time, including, but not limited to, an entitlement issue, share purchase plan, placement or other offer where existing Shareholders may participate;
- (iii) the effect of the issue of the Equity Securities on the control of the Company;
- (iv) the circumstances of the Company, including, but not limited to, the financial position and solvency of the Company;
- (v) prevailing market conditions; and
- (vi) advice from corporate, financial and broking advisers (if applicable).

(d) **Risk of Economic and Voting Dilution**

Any issue of Equity Securities under the 7.1A Mandate will dilute the interests of Shareholders who do not receive any Shares under the issue.

If Resolution 3 is approved by Shareholders and the Company issues the maximum number of Equity Securities available under the 7.1A Mandate, the economic and voting dilution of existing Shares would be as shown in the table below.

The table below shows the dilution of existing Shareholders calculated in accordance with the formula outlined in Listing Rule 7.1A.2, on the basis of the closing market price of Shares and the number of Equity Securities on issue or proposed to be issued as at 16 October 2023.

The table also shows the voting dilution impact where the number of Shares on issue (Variable A in the formula) changes and the economic dilution where there are changes in the issue price of Shares issued under the 7.1A Mandate.

Number of Shares on Issue (Variable A in Listing Rule 7.1A.2)		Shares issued – 10% voting dilution	Dilution		
			Issue Price		
			\$0.035	\$0.070	\$0.105
			50% decrease	Issue Price	50% increase
			Funds Raised		
Current	1,394,239,175	139,423,917	\$4,879,837	\$9,759,674	\$14,639,511
50% increase	2,091,358,763	209,135,876	\$7,319,756	\$14,369,511	\$21,959,267
100% increase	2,788,478,350	278,847,835	\$9,759,674	\$19,519,348	\$29,279,023

*The number of Shares on issue (Variable A in the formula) could increase as a result of the issue of Shares that do not require Shareholder approval (such as under a pro-rata rights issue or scrip issued under a takeover offer) or that are issued with Shareholder approval under Listing Rule 7.1.

The table above uses the following assumptions:

1. There are currently 1,394,239,175 Shares as at the date of this Notice.
2. The issue price set out above is the closing market price of the Shares on the ASX on 16 October 2023 (being \$0.07).
3. The Company issues the maximum possible number of Equity Securities under the 7.1A Mandate.
4. The Company has not issued any Equity Securities in the 12 months prior to the Meeting that were not issued under an exception in Listing Rule 7.2 or with approval under Listing Rule 7.1.
5. The issue of Equity Securities under the 7.1A Mandate consists only of Shares. It is assumed that no Options are exercised into Shares before the date of issue of the Equity Securities. If the issue of Equity Securities includes quoted Options, it is assumed that those quoted Options are exercised into Shares for the purpose of calculating the voting dilution effect on existing Shareholders.
6. The calculations above do not show the dilution that any one particular Shareholder will be subject to. All Shareholders should consider the dilution caused to their own shareholding depending on their specific circumstances.
7. This table does not set out any dilution pursuant to approvals under Listing Rule 7.1 unless otherwise disclosed.
8. The 10% voting dilution reflects the aggregate percentage dilution against the issued share capital at the time of issue. This is why the voting dilution is shown in each example as 10%.
9. The table does not show an example of dilution that may be caused to a particular Shareholder by reason of placements under the 7.1A Mandate, based on that Shareholder's holding at the date of the Meeting.

Shareholders should note that there is a risk that:

- (i) the market price for the Company's Shares may be significantly lower on the issue date than on the date of the Meeting; and
- (ii) the Shares may be issued at a price that is at a discount to the market price for those Shares on the date of issue.

(e) **Allocation policy under the 7.1A Mandate**

The recipients of the Equity Securities to be issued under the 7.1A Mandate have not yet been determined. However, the recipients of Equity Securities could consist of current Shareholders or new investors (or both), none of whom will be related parties of the Company.

The Company will determine the recipients at the time of the issue under the 7.1A Mandate, having regard to the following factors:

- (i) the purpose of the issue;
- (ii) alternative methods for raising funds available to the Company at that time, including, but not limited to, an entitlement issue, share purchase plan, placement or other offer where existing Shareholders may participate;
- (iii) the effect of the issue of the Equity Securities on the control of the Company;
- (iv) the circumstances of the Company, including, but not limited to, the financial position and solvency of the Company;
- (v) prevailing market conditions; and
- (vi) advice from corporate, financial and broking advisers (if applicable).

(f) **Previous approval under Listing Rule 7.1A**

The Company previously obtained approval from its Shareholders pursuant to Listing Rule 7.1A at its annual general meeting held on 20 January 2023 (**Previous Approval**).

During the 12 month period preceding the date of the Meeting, being on and from 29 November 2022, the Company has not issued any Equity Securities pursuant to the Previous Approval.

(g) **Voting Exclusion Statement**

As at the date of this Notice, the Company is not proposing to make an issue of Equity Securities under Listing Rule 7.1A. Accordingly, a voting exclusion statement is not included in this Notice.

5. RESOLUTIONS 4 TO 7 – APPROVAL TO ISSUE PERFORMANCE RIGHTS TO DIRECTORS

5.1 Background

The Company has agreed, subject to Shareholder approval being obtained at this Meeting, to issue a total of 45,000,000 Performance Rights under the European Lithium Incentive Scheme (**Performance Rights**) to all Directors as follows:

- (a) 20,000,000 Performance Rights to Okewood Pty Ltd, an entity associated with Mr Antony (Tony) Sage (the subject of Resolution 4);
- (b) 15,000,000 Performance Rights to Pixsell Pty Ltd ATFT Pixsell Unit Trust, an entity associated with Mr Malcolm Day (the subject of Resolution 5);

- (c) 5,000,000 Performance Rights to Michael Stanley Carter <The Carter Family A/C>, an entity associated with Mr Michael Carter (the subject of Resolution 6);
- (d) 5,000,000 Performance Rights to Mr Mykhailo Zhernov, (the subject of Resolution 7).

Messrs Sage, Day, Carter and Zhernov are herein referred to as the **Related Parties**.

The Performance Rights will vest into Shares upon the Company's undiluted market capitalisation being equal or greater than A\$350,000,000 for 20 consecutive trading days (based on the volume average weighted price of Shares for each trading day during that period) at any time prior to 31 December 2024.

5.2 **Director Recommendation**

Each Director has a material personal interest in the outcome of Resolutions 4 to 7 on the basis that all of the Directors (or their nominees) are to be issued Performance Rights should Resolutions 4 to 7 be passed. For this reason, the Directors do not believe that it is appropriate to make a recommendation on Resolutions 4 to 7 of this Notice.

5.3 **Chapter 2E of the Corporations Act**

Chapter 2E of the Corporations Act requires that for a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (a) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The issue of the Performance Rights to the Related Parties constitutes giving a financial benefit and each of the Related Parties is a related party of the Company by virtue of being a Director.

As the Performance Rights are proposed to be issued to all of the Directors, the Directors are unable to form a quorum to consider whether one of the exceptions set out in sections 210 to 216 of the Corporations Act applies to the issue of the Performance Rights. Accordingly, Shareholder approval for the issue of Performance Rights to the Related Parties is sought in accordance with Chapter 2E of the Corporations Act.

5.4 **Listing Rule 10.14**

Listing Rule 10.14 provides that an entity must not permit any of the following persons to acquire equity securities under an employee incentive scheme without the approval of the holders of its ordinary securities:

- 10.14.1 a director of the entity;
- 10.14.2 an associate of a director of the entity; or

- 10.14.3 a person whose relationship with the entity or a person referred to in Listing Rules 10.14.1 to 10.14.2 is such that, in ASX's opinion, the acquisition should be approved by security holders.

The issue of Performance Rights to the Related Parties falls within Listing Rule 10.14.1 in the case of Mr Zhernov and 10.14.2 in the case of Messrs Sage, Day, and Carter and therefore requires the approval of Shareholders under Listing Rule 10.14.

Resolutions 4 to 7 seek the required Shareholder approval for the issue of the Performance Rights under and for the purposes of Chapter 2E of the Corporations Act and Listing Rule 10.14.

5.5□ Technical information required by Listing Rule 14.1A

If Resolutions 4 to 7 are passed, the Company will be able to proceed with the issue of the Performance Rights to the Related Parties under the European Lithium Incentive Scheme within three years after the date of the Meeting (or such later date as permitted by any ASX waiver or modification of the Listing Rules). As approval pursuant to Listing Rule 7.1 is not required for the issue of the Performance Rights (because approval is being obtained under Listing Rule 10.14), the issue of the Performance Rights will not use up any of the Company's 15% annual placement capacity.

If Resolution 4 to 7 are not passed, the Company will not be able to proceed with the issue of the Performance Rights to the Related Parties under the European Lithium Incentive Scheme and the Company will seek to find alternative ways to incentivise the Related Parties, which may be less cost effective to the Company.

Resolution 4 to 7 are independent of one another and seek approval for separate issues of Performance Rights.

It should be noted that the issue of Performance Rights to Mr Carter pursuant to Resolution 6 is subject to Resolution 2 being passed with respect to Mr Carter's re-election as a Director of the Company.

5.6□ Technical information required by Listing Rule 10.15 and section 219 of the Corporations Act

- (b) the maximum number of Performance Rights to be issued to the Related Parties (being the nature of the financial benefit proposed to be given) is 45,000,000. The Performance Rights will be apportioned amongst the Related Parties as set out in Section 5.1 above.

 - (ii) it is not considered that there are any significant opportunity costs to the Company or benefits foregone by the Company in issuing the Performance Rights on the terms proposed;
- (f) the number of Performance Rights to be issued to each of the Related Parties has been determined based upon a consideration of:

 - (iii) incentives to attract and retain the service of the Related Parties who have appropriate knowledge and expertise, while maintaining the Company's cash reserves.

6.□ BACKGROUND TO RESOLUTIONS 8 AND 9

6.1□ General

On 27 March 2023, the Company announced that it had executed a binding Heads of Agreement with 2743718 Ontario Inc. (**Ontario**), a subsidiary of Richmond Minerals Inc. (TSX-V: RMD) (**Richmond Minerals**) (**HOA**), pursuant to which the Company has agreed to acquire 100% of the rights, title and interest in the Bretstein-Lachtal Project, Klementkogel Project and the Wildbachgraben Project (together, the **Austrian Lithium Projects**) (**Acquisition**).

The Austrian Lithium Projects consist of 245 exploration licenses covering a total area of 114.6 km² and are located approximately 80km from the Wolfsberg Lithium Project. The licenses cover ground that is considered prospective for lithium occurrences in the Styria mining district of Austria, approximately 70km north of the Company's Wolfsberg Project.

Consideration for the Acquisition comprised the following:

- (a) a cash payment of \$250,000;
- (b) 2,000,000 Shares at a deemed issue price of \$0.07 each (**Consideration Shares**); and
- (c) 2,000,000 unlisted Options with an exercise price of \$0.12 each expiring 26 June 2026 (**Consideration Options**).

The Consideration Shares and Consideration Options are together referred to as the **Consideration Securities**.

The HOA otherwise contains standard terms and conditions for an agreement of its nature.

The Company issued the Consideration Securities on 26 June 2023.

Resolution 8 seeks shareholder ratification for the prior issue of the Consideration Securities.

6.2□ Facilitator

The Company agreed to issue the broker, Tomrox GmbH, who facilitated the Acquisition consideration of 2,000,000 Shares and 2,000,000 unlisted Options on the same terms as the Consideration Options (**Facilitator Securities**).

The Facilitator Securities were issued on 26 June 2023.

Resolution 9 seeks shareholder ratification for the prior issue of the Facilitator Securities.

7.□ RESOLUTION 8 – RATIFICATION OF PRIOR ISSUE OF SHARES AND OPTIONS TO RICHMOND MINERALS

7.1□ General

Resolution 8 seeks shareholder ratification for the prior issue of the Consideration Securities. Refer to Section 6.1 for further information with respect to the Consideration Securities.

7.2 Listing Rule 7.1

Broadly speaking, and subject to a number of exceptions, Listing Rule 7.1 limits the amount of equity securities that a listed company can issue without the approval of its shareholders over any 12 month period to 15% of the fully paid ordinary securities it had on issue at the start of that 12 month period.

Under Listing Rule 7.1A, an eligible entity can seek approval from its members, by way of a special resolution passed at its annual general meeting, to increase this 15% limit by an extra 10% to 25%.

The Company obtained approval to increase its limit to 25% at the annual general meeting held on 30 January 2023.

The issue of the Consideration Securities does not fit within any of the exceptions set out in Listing Rule 7.2 and, as it has not yet been approved by Shareholders, it effectively uses up part of the 15% limit in Listing Rule 7.1, reducing the Company's capacity to issue further equity securities without Shareholder approval under Listing Rule 7.1 for the 12 month period following the date of issue of the Consideration Securities.

Listing Rule 7.4 allows the shareholders of a listed company to approve an issue of equity securities after it has been made or agreed to be made. If they do, the issue is taken to have been approved under Listing Rule 7.1 and so does not reduce the company's capacity to issue further equity securities without shareholder approval under that rule.

The Company wishes to retain as much flexibility as possible to issue additional equity securities in the future without having to obtain Shareholder approval for such issues under Listing Rule 7.1. Accordingly, the Company is seeking Shareholder ratification pursuant to Listing Rule 7.4 for the issue of the Consideration Securities.

Resolution 8 seeks Shareholder ratification pursuant to Listing Rule 7.4 for the issue of the Consideration Securities.

7.3 Technical information required by Listing Rule 14.1A

If Resolution 8 is passed, the Consideration Securities will be excluded in calculating the Company's combined 25% limit in Listing Rules 7.1 and 7.1A, effectively increasing the number of equity securities the Company can issue without Shareholder approval over the 12 month period following the date of issue of the Consideration Securities.

If Resolution 8 is not passed, the Consideration Securities will be included in calculating the Company's combined 25% limit in Listing Rules 7.1 and 7.1A, effectively decreasing the number of equity securities that the Company can issue without Shareholder approval over the 12 month period following the date of issue of the Consideration Securities.

It is noted that the Company's ability to utilise the additional 10% capacity provided for in Listing Rule 7.1A for issues of equity securities following this Meeting remains conditional on Resolution 3 being passed at this Meeting.

7.4 Technical information required by Listing Rule 7.5

Pursuant to and in accordance with Listing Rule 7.5, the following information is provided in relation to Resolution 8:

- (a) the Consideration Securities were issued to Richmond Minerals;

If Resolution 9 is not passed, the Facilitator Securities will be included in calculating the Company's combined 25% limit in Listing Rules 7.1 and 7.1A, effectively decreasing the number of equity securities that the Company can issue without

- (d) the Facilitator Securities were issued on 26 June 2023;
- (e) the issue price was nil per Share and nil per Option. The Company has not and will not receive any other consideration for the issue of the Facilitator Securities (other than in respect of funds received on exercise of the Options); and
- (f) the purpose of the issue of the Facilitator Securities was to fulfil the Company's obligations under an arrangement with the Tomrox GmbH. Refer to Sections 6.1 and 6.2 for further information with respect to the Acquisition and Tomrox GmbH.

9.3 ☐ Technical information required by Listing Rule 14.1A

SCHEDULE 1 – TERMS AND CONDITIONS OF THE PERFORMANCE RIGHTS

The following is a summary of the key terms and conditions of the Performance Rights:

(a) **Milestone**

The Performance Rights will vest into Shares upon the Company's undiluted market capitalisation being equal or greater than A\$350,000,000 for 20 consecutive trading days (based on the volume average weighted price of Shares for each trading day during that period) at any time prior to the Expiry Date.

(b) **Notification to holder**

The Company shall notify the holder in writing when the relevant Milestone has been satisfied.

(c) **Conversion**

Subject to paragraph (o), upon vesting, each Performance Right will, at the election of the holder, convert into one Share.

(d) **Lapse of a Performance Right**

A Performance Right will automatically lapse upon the earlier to occur of:

- (i) 31 December 2024 from the date of issue of the Performance Right (**Expiry date**); and
- (ii) the holder ceasing to be an officer (and employee, if applicable) or an employee of the Company (where they are not an officer at the time of issue), as applicable, unless otherwise determined by the Board at its absolute discretion.

(e) **Consideration**

The Performance Rights will be issued for nil consideration and no consideration will be payable upon the conversion of the Performance Rights into Shares.

(f) **Share ranking**

All Shares issued upon the vesting of Performance Rights will upon issue rank pari passu in all respects with other existing Shares.

(g) **Application to ASX**

The Performance Rights will not be quoted on ASX. The Company must apply for the official quotation of a Share issued on conversion of a Performance Right on ASX within the time period required by the ASX Listing Rules.

(h) **Timing of issue of Shares on conversion**

Within 5 business days after the date that the Performance Rights are converted, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Performance Rights converted;

- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the Official List of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the conversion of the Performance Rights.
- (iv) If a notice delivered under paragraph (h)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 business days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(i) **Transfer of Performance Rights**

The Performance Rights are not transferable.

(j) **Participation in new issues**

A Performance Right does not entitle a holder (in their capacity as a holder of a Performance Right) to participate in new issues of capital offered to holders of Shares such as bonus issues and entitlement issues without exercising the Performance Right.

(k) **Reorganisation of capital**

If at any time the issued capital of the Company is reorganised (including consolidation, subdivision, reduction or return), all rights of a holder will be changed in a manner consistent with the applicable ASX Listing Rules and the Corporations Act at the time of reorganisation.

(l) **Adjustment for bonus issues of Shares**

If the Company makes a bonus issue of Shares or other securities to the Company's existing shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment) the holder of Performance Rights is entitled, upon exercise of the Performance Rights, to receive an issue of as many additional Shares as would have been issued to the holder if the holder held Shares equal in number to the Shares in respect of which the Performance Rights are exercised.

(m) **Dividend and voting rights**

The Performance Rights do not confer on the holder an entitlement to vote (except as otherwise required by law) or receive dividends.

(n) **Change in control**

If a change of control event occurs, or the Board determines that such an event is likely to occur, the Board may in its discretion determine the manner in which any or all of the holder's Performance Rights will be dealt with, including, without

limitation, in a manner that allows the holder to participate in and/or benefit from any transaction arising from or in connection with the change of control event.

(o) **Deferral of conversion if resulting in a prohibited acquisition of Shares**

If the conversion of a Performance Right under paragraphs (c) or (n) would result in any person being in contravention of section 606(1) of the *Corporations Act 2001 (Cth)* (**General Prohibition**) then the conversion of that Performance Right shall be deferred until such later time or times that the conversion would not result in a contravention of the General Prohibition. In assessing whether a conversion of a Performance Right would result in a contravention of the General Prohibition:

- (i) holders may give written notification to the Company if they consider that the conversion of a Performance Right may result in the contravention of the General Prohibition. The absence of such written notification from the holder will entitle the Company to assume the conversion of a Performance Right will not result in any person being in contravention of the General Prohibition; and
- (ii) the Company may (but is not obliged to) by written notice to a holder request a holder to provide the written notice referred to in paragraph 0(i) within 7 days if the Company considers that the conversion of a Performance Right may result in a contravention of the General Prohibition. The absence of such written notification from the holder will entitle the Company to assume the conversion of a Performance Right will not result in any person being in contravention of the General Prohibition.

(p) **No rights to return of capital**

A Performance Right does not entitle the holder to a return of capital, whether in a winding up, upon a reduction of capital or otherwise.

(q) **Rights on winding up**

A Performance Right does not entitle the holder to participate in the surplus profits or assets of the Company upon winding up.

(r) **ASX Listing Rule compliance**

The Board reserves the right to amend any term of the Performance Rights to ensure compliance with the ASX Listing Rules.

(s) **No other rights**

A Performance Right gives the holder no rights other than those expressly provided by these terms and conditions and those provided at law where such rights at law cannot be excluded by these terms.

SCHEDULE 2 – VALUATION OF THE PERFORMANCE RIGHTS

16 October 2023

European Lithium Limited
32 Harrogate Street
West Leederville, WA 6007
Attention: Melissa Chapman

RE: Valuation of European Lithium Limited performance shares

Dear Melissa,

1. Introduction

You have requested that we determine the fair market value of one tranche of performance shares (the **Performance Shares**) in accordance with AASB 2 – Share Based Payment (the **Engagement**). The Performance Shares are proposed to be granted by European Lithium Limited (the **Company**) to directors of the Company following shareholder approval at the Company's next General Meeting. As a result, we undertook the valuation as at 13 October 2023 (**Valuation Date**), being the most recently concluded market day prior to the date of this report.

2. Summary of the Performance Shares

The tranches comprising the Performance Shares are summarised below and further detailed in Annexure 1.

Tranche	Summary of terms / vesting conditions
Tranche 1	Market Capitalisation of the Company exceeding \$350.0m

3. Valuation Methodologies

We have used the Monte Carlo Simulation (MCS) Methodology, which utilises the Binomial Option Pricing Model, to estimate the fair value of the Performance Shares. Our valuation of the Performance Shares takes into consideration:

- (1) The material terms of the Performance Shares..... Annexure 1
- (2) Methodology and key inputs of the MCS Annexure 2
- (3) Other considerations Annexure 3
- (4) Key relevant accounting standards Annexure 4

4. Valuation Conclusion

Based on the inputs and assumptions discussed in this letter (including annexures), the resulting fair value for the Performance Shares is summarised in Table 1 below.

Table 1: Valuation Conclusion

Tranche	# of equity instruments	Probability of achievement	Value per Performance Share	Concluded value
	(a)	(b)	(c)	(d) = (a)*(b)*(c)
Tranche 1	45,000,000	n/a	\$0.0030	\$135,000

Should you have any questions regarding anything contained in this letter please do not hesitate to contact me. Yours faithfully

Summary of the Performance Shares

Annexure 1 – Summary of the Performance Shares

- Table A1-1 below summarises the key terms of the Performance Shares:

Table A1-1: Summary of the Performance Shares

Tranche	# of Performance Shares	Valuation Date	Expiry Date	Term	Exercise Price	Vesting Period Start	Vesting Period End
Tranche 1	45,000,000	13-Oct-23	31-Dec-24	1.22 yrs	\$nil	13-Oct-23	31-Dec-24

- The grant of the Performance Shares is subject to shareholder approval at the Company's next General Meeting. As a result, we undertook the valuation as at 13 October 2023, being the most recently concluded market day prior to the date of this report.
- The Performance Shares are subject to the following vesting conditions:

Non-market-based vesting criteria

Tranche 1	no non-market-based vesting conditions
-----------	--

Market-based vesting criteria

Tranche 1	Market Capitalisation of the Company exceeding \$350.0m prior to 31 December 2024
-----------	---

- Each individual Performance Share is exercisable for one fully-paid ordinary share in the Company at the exercise prices listed in Table A1-1 above.
- We understand the Performance Shares are subject to a service condition, whereby the holder of the Performance Shares must remain employed by the Company until vesting.
- The Performance Shares are exercisable immediately upon vesting (subject to the exercise price) until expiry.
- The Performance Shares expire 1.22 years after their issue date (also the Valuation Date for the purpose of this valuation) and following which the Performance Shares lapse.
- We understand that dividends are not received by the holder of the Performance Shares prior to exercise.
- We understand that there are no restrictions on disposal of shares after exercise of the Performance Shares, and that there are no other market-based or non-market-based vesting conditions, or any other conditions that impact on the value of the Performance Shares.

Annexure 2

Methodology and Key Inputs of the MCS

Annexure 2 – Methodology and Key Inputs of the MCS

In determining the fair value of the Performance Shares we used the Monte Carlo Simulation (MCS) Methodology, which utilises the Binomial Option Pricing Model.

Specifically, we undertook the following process for each of 1,000,000 simulations, to determine the fair value of each tranche having regard to the market-based vesting condition of the market capitalisation performance hurdle:

1. We created a hypothetical price path using the principles of the Binomial model, on a daily basis, for an ordinary share in the Company for a duration equal to the term of each tranche as listed in Table A2-1 below.
2. At each day of the hypothetical price path, we compared the simulated market capitalisation – using the simulated share price and shares outstanding at the Valuation Date – against the performance hurdle (see Table A2-1 below). When the simulated market capitalisation exceeded the hurdle for 1 continuous day the performance condition was satisfied, and the tranche was considered to have vested.
3. In each simulation where the tranche vested, it was assumed that the tranche would be exercised immediately given the \$nil exercise price, and we discounted the value of an exercised performance share, being the difference between: (i) the simulated share price at vesting; and (ii) the exercise price, back to the Valuation Date – noting that the simulated share price must exceed the exercise price for the performance share to be exercised.
4. In simulations that did not result in the performance hurdle being met, or in the tranche being exercised (exercise price > share price), we assumed a value of \$nil for the simulation.
5. Finally, we averaged the results in points 2 – 4 above to determine the value of the tranche.

Table A2-1 below summarises the key inputs used in the MCS methodology, and is followed by an explanation of each of the key inputs and how they were determined.

Table A2-1: MCS Inputs

Input	Values at Valuation Date
	Tranche 1
i. Underlying share price	\$0.070
ii. Exercise price	\$nil
iii. Term	1.22 yrs
iv. Risk-free rate	4.175%
v. Dividend yield	Nil
vi. Volatility (rounded)	50.0%
vii. Market cap hurdle	≥\$350,000,000
viii. Shares outstanding	1,394,239,175

- Underlying share price
Being the price of the Company's shares at the close of the market on the Valuation Date.
- Exercise price
We have been provided with the exercise price of the Performance Shares as listed in Table A2-1 above.
- Term
Being the period from the Issue Date (assumed to be the Valuation Date for the purpose of this valuation) to the Expiry Date.

iv. Risk-free rate

The risk-free rate was determined to be the yield-to-maturity of an Australian government bond on the Valuation Date and with a term of equal duration to each tranche. The government bond interest rates were taken from data provider S&P Capital IQ for the government bonds quoted on the Australian Office of Financial Management website (<https://www.aofm.gov.au/securities/treasury-bonds>). As the term of the Performance Shares did not match the any term-to-maturity for the Australian government bonds as at the Valuation Date, linear interpolation was used to determine the risk-free rate.

v. Dividends

The dividend yield was assumed to be nil as no dividend has been recently paid by the Company and it was assumed that this trend would continue over the term of the Performance Shares.

vi. Volatility

In accordance with AASB 2 paragraph B22, Volatility was determined to be the annualised standard deviation of the continuously compounded change in price of the Company's shares. For each Tranche, the volatility was calculated using the daily, weekly, and monthly share prices for a period prior to the Valuation Date and of equal duration to the term of each tranche (or as long as the shares have been publicly traded). We also considered the volatility over difference calculation periods (from 6-months to 60-months) to determine an appropriate go-forward volatility. A summary of our volatility calculations is set out on the following page.

vii. Market cap hurdle

The Company's market capitalisation (measured as the share price multiplied by the shares outstanding) being at least equal to the hurdle listed in Table A2-1 above for 1 continuous day.

viii. Shares outstanding

Per the Company's ASX profile (<https://www2.asx.com.au/markets/company/EUR>) on the Valuation Date the total shares outstanding was 1,394,239,175

Based on the foregoing methodology and inputs, and before any other considerations discussed in the next section, we determined the value of the Performance Shares to be:

Tranche 1 - \$0.0030 per Performance Share

Other Considerations

Annexure 3 – Other Considerations

Non-market based vesting conditions

Per clause 19 and 20 of AASB 2, any non-market based vesting conditions are taken into account in the valuation of the Performance Shares by adjusting the number of equity instruments included in the measurement. The Company must estimate the probability of achievement of any non-market-based vesting condition (expressed as a % probability) and apply that percentage to the total number of instruments comprising the Performance Shares, to determine the number of equity instruments expected to vest as at the Valuation Date.

Given the employment condition described in Annexure 1 of this report, the Company should estimate the probability of achievement of this condition for each tranche and apply that percentage to the total number of Performance Shares comprising each tranche. For the purposes of this valuation, it was assumed that the likelihood of meeting the employment condition was 100%.

Annexure 4

Summary of AASB 2 Share-based Payment

Table A4-1 below sets out the pertinent clauses of AASB 2 – Share-based Payment as they relate to the Performance Shares.

Table A4-1: AASB 2 – Share Based Payment

AASB Paragraph	Comment
2 (a) <i>Applicable paragraph</i>	<p>An entity shall apply this Standard in accounting for all share-based payment transactions, whether or not the entity can identify specifically some or all of the goods or services received, including:</p> <ul style="list-style-type: none"> (a) equity-settled share-based payment transactions; (b) cash-settled share-based payment transactions; and (c) transactions in which the entity receives or acquires goods or services and the terms of the arrangement provide either the entity or the supplier of those goods or services with a choice of whether the entity settles the transaction in cash (or other assets) or by issuing equity instruments, <p>except as noted in paragraphs 3A-6. In the absence of specifically identifiable goods or services, other circumstances may indicate that goods or services have been (or will be) received, in which case this Standard applies.</p>
22 Corporate Advisory comment	<p>The Performance Shares are equity-settled share-based payment transactions, in which the entity (European Lithium Limited) receives goods or services (employment services of the grantee) as consideration for equity instruments of the entity (including shares or share options).</p>
10 & 11	<p>For equity-settled share-based payment transactions, the entity shall measure the goods or services received, and the corresponding increase in equity, directly, at the fair value of the goods or services received, unless the fair value cannot be estimated reliably. If the entity cannot estimate reliably the fair value of the goods or services received, the entity shall measure their value, and the corresponding increase in equity, indirectly, by reference to the fair value of the equity instruments granted.</p> <p>To apply the requirements of paragraph 10 to transactions with employees and others providing similar services, the entity shall measure the fair value of the services received by reference to the fair value of the equity instruments granted, because typically it is not possible to estimate reliably the fair value of the services received, as explained in paragraph 12. The fair value of those equity instruments shall be measured at grant date.</p> <p>We believe that the entity cannot reliably measure the goods or services received along with the corresponding increase in equity. Accordingly, per clause 10, we have defaulted to measuring the goods or services received and the corresponding increase in equity, indirectly, by reference to the fair value of the equity instruments granted.</p> <p>Given that the Performance Shares essentially allow the holder to receive a fully-paid ordinary share in the Company (whose value can be reliably estimated), subject to certain vesting criteria, we are of the view that the fair value of the equity instruments granted can be reliably estimated causing AASB 2 clauses 24 – 25 to be irrelevant.</p>
14, 15	<p>If the equity instruments granted vest immediately, the counterparty is not required to complete a specified period of service before becoming unconditionally entitled to those equity instruments. In the absence of evidence to the contrary, the entity shall presume that services rendered by the counterparty as consideration for the equity instruments</p>

Table A4-1: AASB 2 – Share Based Payment

AASB Paragraph	Comment
	<p>have been received. In this case, on grant date the entity shall recognise the services received in full, with a corresponding increase in equity.</p> <p>If the equity instruments granted do not vest until the counterparty completes a specified period of service, the entity shall presume that the services to be rendered by the counterparty as consideration for those equity instruments will be received in the future, during the vesting period. The entity shall account for those services as they are rendered by the counterparty during the vesting period, with a corresponding increase in equity. For example:</p> <p>(a) If an employee is granted share options conditional upon completing three years' service, then the entity shall presume that the services to be rendered by the employee as consideration for the share options will be received in the future, over that three-year vesting period.</p> <p>(b) If an employee is granted share options conditional upon the achievement of a performance condition and remaining in the entity's employ until that performance condition is satisfied, and the length of the vesting period varies depending on when that performance condition is satisfied, the entity shall presume that the services to be rendered by the employee as consideration for the share options will be received in the future, over the expected vesting period. The entity shall estimate the length of the expected vesting period at the grant date, based on the most likely outcome of the performance condition. If the performance condition is a <u>market condition</u>, the estimate of the length of the expected vesting period shall be consistent with the assumption used in estimating the fair value of the options granted, and shall not be subsequently revised. If the performance condition is <u>not a market condition</u>, the entity shall revise its estimate of the length of the vesting period, if necessary, if subsequent information indicates that the length of the vesting period differs from previous estimates.</p> <p>We understand the Performance Shares to have a service condition (i.e. holder must remain employed by the Company until vesting). As such, we consider the Company should account for the services rendered by the holder of the Performance Shares over the expected vesting period of the Performance Shares, with a corresponding increase in equity. The Company should estimate the length of the expected vesting period as at the grant date, based on the most likely outcome of the performance condition.</p> <ul style="list-style-type: none"> ► For instruments with only a service condition, the vesting period should be equal to the period of required service. ► For instruments with market-based vesting criteria, the length of the expected vesting criteria should be consistent with the assumptions used in estimating their fair value and should not be subsequently revised. ► For instruments with non-market-based vesting criteria, the Company should revise its estimate, if necessary, if subsequent information indicates that the length of the vesting period differs from previous estimates. <p>We note that these accounting treatments should be confirmed with the Company's auditors.</p>
16	<p>For transactions measured by reference to the fair value of the equity instruments granted, an entity shall measure the fair value of equity instruments granted at the measurement date, based on market prices if available, taking into account the terms and</p>

Table A4-1: AASB 2 – Share Based Payment

AASB Paragraph	Comment
	<p>conditions upon which those equity instruments were granted (subject to the requirements of paragraphs 19-22).</p> <p>We have used the closing share price on the Valuation Date as accurately reflecting the per share price of a fully-paid ordinary share in the Company as at the Valuation Date.</p>
19	<p>A grant of equity instruments might be conditional upon satisfying specified <i>vesting conditions</i>. For example, a grant of shares or share options to an employee is typically conditional on the employee remaining in the entity's employ for a specified period of time. There might be performance conditions that must be satisfied, such as the entity achieving a specified growth in profit or a specified increase in the entity's share price. Vesting conditions, other than market conditions, shall not be taken into account when estimating the fair value of the shares or share options at the measurement date. Instead, vesting conditions shall be taken into account by adjusting the number of equity instruments included in the measurement of the transaction amount so that, ultimately, the amount recognised for goods or services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest. Hence, on a cumulative basis, no amount is recognised for goods or services received if the equity instruments granted do not vest because of failure to satisfy a vesting condition, for example, the counterparty fails to complete a specified service period, or a performance condition is not satisfied, subject to the requirements of paragraph 21.</p> <p>The granting of shares from exercise of the Performance Shares is conditional upon achievement of share price appreciation above the exercise price, and Market Capitalisation Hurdle, which will be taken into account when determining the fair value of the Performance Shares.</p> <p>Any non-market-based vesting conditions will be taken into account by estimating their probability of achievement and adjusting the number of equity instruments included in the measurement of the transaction.</p> <p>Any market-based vesting conditions will be taken into account when determining the fair value of the Rights.</p>
20	<p>To apply the requirements of paragraph 19, the entity shall recognise an amount for the goods or services received during the vesting period based on the best available estimate of the number of equity instruments expected to vest and shall revise that estimate, if necessary, if subsequent information indicates that the number of equity instruments expected to vest differs from previous estimates. On vesting date, the entity shall revise the estimate to equal the number of equity instruments that ultimately vested, subject to the requirements of paragraph 21.</p> <p>The Company must estimate the probability of achievement of each non-market-based vesting condition (expressed as a % probability) and apply that percentage to the total number of instruments comprising the Performance Shares, to determine the number of equity instruments expected to vest as at the Valuation Date.</p>
21	<p>Market conditions, such as a target share price upon which vesting (or exercisability) is conditioned, shall be taken into account when estimating the fair value of the equity instruments granted. Therefore, for grants of equity instruments with market conditions, the entity shall recognise the goods or services received from a counterparty who</p>

Table A4-1: AASB 2 – Share Based Payment

AASB Paragraph	Comment
	<p>satisfies all other vesting conditions (e.g. services received from an employee who remains in service for the specified period of service), irrespective of whether that market condition is satisfied.</p> <p>We have determined that exercisability of the Performance Shares is subject to market conditions (share price appreciation above the exercise price, and Market Capitalisation Hurdle) and therefore these market conditions must be taken into account when estimating the fair value of the Performance Shares.</p> <p>Based on information provided, there are no other market conditions upon which vesting is conditioned.</p>
AG B4	<p>For share options granted to employees, in many cases market prices are not available, because the options granted are subject to terms and conditions that do not apply to traded options. If traded options with similar terms and conditions do not exist, the fair value of the options granted shall be estimated by applying an option pricing model.</p> <p>We have used the Monte Carlo Simulation (MCS) Methodology, which utilises the Binomial Option Pricing Model, to estimate the fair value of the Performance Shares. The valuation under the MCS methodology is discussed in Annexure 2.</p>
AG B5	<p>The entity shall consider factors that knowledgeable, willing market participants would consider in selecting the option pricing model to apply. For example, many employee options have long lives, are usually exercisable during the period between vesting date and the end of the options' life, and are often exercised early. These factors should be considered when estimating the grant date fair value of the options. For many entities, this might preclude the use of the Black-Scholes-Merton formula, which does not allow for the possibility of exercise before the end of the option's life and may not adequately reflect the effects of expected early exercise. It also does not allow for the possibility that expected volatility and other model inputs might vary over the option's life. However, for share options with relatively short contractual lives, or that must be exercised within a short period of time after vesting date, the factors identified above may not apply. In these instances, the Black-Scholes-Merton formula may produce a value that is substantially the same as a more flexible option pricing model.</p> <p>Given that the Performance Shares can be exercised for nil consideration, we consider that they would be exercised immediately after satisfaction of the vesting criteria, being achievement of the performance hurdle, which could occur at any point before expiry.</p> <p>Consequently, we consider the MCS Methodology to be the most appropriate method to value the Performance Shares as it allows more flexibly to: (i) examine the impact around the potential of early exercise; and (ii) evaluate the performance hurdle during the vesting period, and not just at expiry of the Performance Shares.</p>
AG B6	<p>All option pricing models take into account, as a minimum, the following factors:</p> <ul style="list-style-type: none"> (a) the exercise price of the option; (b) the life of the option; (c) the current price of the underlying shares; (d) the expected volatility of the share price;

Table A4-1: AASB 2 – Share Based Payment

AASB Paragraph	Comment
	<p>(e) the dividends expected on the shares (if appropriate); and</p> <p>(f) the risk-free interest rate for the life of the option.</p> <p>The above factors are taken into account in the valuation of the Performance Shares (See Annexure 2).</p>
AG B7	<p>Other factors that knowledgeable, willing market participants would consider in setting the price shall also be taken into account (except for vesting conditions and reload features that are excluded from the measurement of fair value in accordance with paragraphs 19-22).</p> <p>Based on our instructions, there are no other factors a knowledgeable, willing market participant would consider in setting the price of the Performance Shares.</p>
	<p><u>Expected volatility – Unlisted Entities</u></p>
AG B27 – B29	<p>An unlisted entity will not have historical information to consider when estimating expected volatility. Some factors to consider instead are set out below.</p> <p>In some cases, an unlisted entity that regularly issues options or shares to employees (or other parties) might have set up an internal market for its shares. The volatility of those share prices could be considered when estimating expected volatility.</p> <p>Alternatively, the entity could consider the historical or implied volatility of similar listed entities, for which share price or option price information is available, to use when estimating expected volatility. This would be appropriate if the entity has based the value of its shares on the share prices of similar listed entities.</p> <p>As the Company is listed this clause is not applicable to the Performance Shares. See Annexure 2 for our discussion on volatility.</p>
AG B34 & B35	<p>Conversely, if the employees are not entitled to dividends or dividend equivalents during the vesting period (or before exercise, in the case of an option), the grant date valuation of the rights to shares or options should take expected dividends into account. That is to say, when the fair value of an option grant is estimated, expected dividends should be included in the application of an option pricing model. When the fair value of a share grant is estimated, that valuation should be reduced by the present value of dividends expected to be paid during the vesting period.</p> <p>Option pricing models generally call for expected dividend yield. However, the models may be modified to use an expected dividend amount rather than a yield. An entity may use either its expected yield or its expected payments. If the entity uses the latter, it should consider its historical pattern of increases in dividends. For example, if an entity's policy has generally been to increase dividends by approximately 3 per cent per year, its estimated option value should not assume a fixed dividend amount throughout the option's life unless there is evidence that supports that assumption.</p> <p>The Company has not paid any dividends recently and is assumed to continue this trend for the term of the Performance Shares. As such, this clause is not applicable to the valuation of the Performance Shares.</p>

SCHEDULE 3 - MATERIAL TERMS AND CONDITIONS OF THE EUROPEAN LITHIUM INCENTIVE SCHEME

A summary of the material terms of the European Lithium Incentive Scheme (**Plan**) is set out below.

Eligible Participant	Eligible Participant means a person that is a 'primary participant' (as that term is defined in Division 1A of Part 7.12 of the Corporations Act) in relation to the Company or an Associated Body Corporate (as defined in the Corporations Act) and has been determined by the Board to be eligible to participate in the Plan from time to time.
Purpose	<p>The purpose of the Plan is to:</p> <ul style="list-style-type: none"> (a) assist in the reward, retention and motivation of Eligible Participants; (b) link the reward of Eligible Participants to Shareholder value creation; and (c) align the interests of Eligible Participants with shareholders of the Group (being the Company and each of its Associated Bodies Corporate), by providing an opportunity to Eligible Participants to receive an equity interest in the Company in the form of Options, Performance Rights and Shares (Securities).
Plan administration	The Plan will be administered by the Board. The Board may exercise any power or discretion conferred on it by the Plan rules in its sole and absolute discretion (except to the extent that it prevents the Participant relying on the deferred tax concessions under Subdivision 83A-C of the <i>Income Tax Assessment Act 1997</i> (Cth)). The Board may delegate its powers and discretion.
Eligibility, invitation and application	<p>The Board may from time to time determine that an Eligible Participant may participate in the Plan and make an invitation to that Eligible Participant to apply for any (or any combination of) the Securities provided under the Plan on such terms and conditions as the Board decides.</p> <p>On receipt of an invitation, an Eligible Participant may apply for the Securities the subject of the invitation by sending a completed application form to the Company. The Board may accept an application from an Eligible Participant in whole or in part.</p> <p>If an Eligible Participant is permitted in the invitation, the Eligible Participant may, by notice in writing to the Board, nominate a party in whose favour the Eligible Participant wishes to renounce the invitation.</p>
Grant of Securities	The Company will, to the extent that it has accepted a duly completed application, grant the Participant the relevant number and type of Securities, subject to the terms and conditions set out in the invitation, the Plan rules and any ancillary documentation required.
Rights attaching to Convertible Securities	<p>A Convertible Security represents a right to acquire one or more Plan Shares in accordance with the Plan (for example, an Option or a Performance Right).</p> <p>Prior to a Convertible Security being exercised, the holder:</p> <ul style="list-style-type: none"> (a) does not have any interest (legal, equitable or otherwise) in any Share the subject of the Convertible Security other than as expressly set out in the Plan; (b) is not entitled to receive notice of, vote at or attend a meeting of the shareholders of the Company;

	<p>(c) is not entitled to receive any dividends declared by the Company; and</p> <p>(d) is not entitled to participate in any new issue of Shares (see Adjustment of Convertible Securities section below).</p>
Vesting of Convertible Securities	Any vesting conditions which must be satisfied before Convertible Securities can be exercised and converted to Shares will be described in the invitation. If all the vesting conditions are satisfied and/or otherwise waived by the Board, a vesting notice will be sent to the Participant by the Company informing them that the relevant Convertible Securities have vested. Unless and until the vesting notice is issued by the Company, the Convertible Securities will not be considered to have vested. For the avoidance of doubt, if the vesting conditions relevant to a Convertible Security are not satisfied and/or otherwise waived by the Board, that Convertible Security will lapse.
Exercise of Convertible Securities and cashless exercise	<p>To exercise a Convertible Security, the Participant must deliver a signed notice of exercise and, subject to a cashless exercise of Convertible Securities (see next paragraph below), pay the exercise price (if any) to or as directed by the Company, at any time following vesting of the Convertible Security (if subject to vesting conditions) and prior to the expiry date as set out in the invitation or vesting notice.</p> <p>An invitation may specify that at the time of exercise of the Convertible Securities, the Participant may elect not to be required to provide payment of the exercise price for the number of Convertible Securities specified in a notice of exercise, but that on exercise of those Convertible Securities the Company will transfer or issue to the Participant that number of Shares equal in value to the positive difference between the Market Value of the Shares at the time of exercise and the exercise price that would otherwise be payable to exercise those Convertible Securities.</p> <p>Market Value means, at any given date, the volume weighted average price per Share traded on the ASX over the 5 trading days immediately preceding that given date, unless otherwise specified in an invitation.</p> <p>A Convertible Security may not be exercised unless and until that Convertible Security has vested in accordance with the Plan rules, or such earlier date as set out in the Plan rules.</p>
Timing of issue of Shares and quotation of Shares on exercise	As soon as practicable after the valid exercise of a Convertible Security by a Participant, the Company will issue or cause to be transferred to that Participant the number of Shares to which the Participant is entitled under the Plan rules and issue a substitute certificate for any remaining unexercised Convertible Securities held by that Participant.
Restrictions on dealing with Convertible Securities	<p>A holder may not sell, assign, transfer, grant a security interest over or otherwise deal with a Convertible Security that has been granted to them unless otherwise determined by the Board. A holder must not enter into any arrangement for the purpose of hedging their economic exposure to a Convertible Security that has been granted to them.</p> <p>However, in Special Circumstances as defined under the Plan (including in the case of death or total or permanent disability of the Participant) a Participant may deal with Convertible Securities granted to them under the Plan with the consent of the Board.</p>
Listing of Convertible Securities	A Convertible Security granted under the Plan will not be quoted on the ASX or any other recognised exchange. The Board reserves the right in its absolute discretion to apply for quotation of an Convertible Security granted under the Plan on the ASX or any other recognised exchange.
Forfeiture of Convertible Securities	Convertible Securities will be forfeited in the following circumstances:

	<p>(a) where a Participant who holds Convertible Securities ceases to be an Eligible Participant (e.g. is no longer employed or their office or engagement is discontinued with the Group), all unvested Convertible Securities will automatically be forfeited by the Participant;</p> <p>(b) where a Participant acts fraudulently or dishonestly, negligently, in contravention of any Group policy or wilfully breaches their duties to the Group;</p> <p>(c) where there is a failure to satisfy the vesting conditions in accordance with the Plan;</p> <p>(d) on the date the Participant becomes insolvent; or</p> <p>(e) on the Expiry Date.</p>
Change of control	<p>If a change of control event occurs, or the Board determines that such an event is likely to occur, the Board may in its discretion determine the manner in which any or all of the holder's Convertible Securities will be dealt with, including, without limitation, in a manner that allows the holder to participate in and/or benefit from any transaction arising from or in connection with the change of control event.</p>
Adjustment of Convertible Securities	<p>If there is a reorganisation of the issued share capital of the Company (including any subdivision, consolidation, reduction, return or cancellation of such issued capital of the Company), the rights of each Participant holding Convertible Securities will be changed to the extent necessary to comply with the Listing Rules applicable to a reorganisation of capital at the time of the reorganisation.</p> <p>If Shares are issued by the Company by way of bonus issue (other than an issue in lieu of dividends or by way of dividend reinvestment), the holder of Convertible Securities is entitled, upon exercise of the Convertible Securities, to receive an issue of as many additional Shares as would have been issued to the holder if the holder held Shares equal in number to the Shares in respect of which the Convertible Securities are exercised.</p> <p>Unless otherwise determined by the Board, a holder of Convertible Securities does not have the right to participate in a pro rata issue of Shares made by the Company or sell renounceable rights.</p>
Plan Shares	<p>The Board may, from time to time, make an invitation to an Eligible Participant to acquire Plan Shares under the Plan. The Board will determine in its sole absolute discretion the acquisition price (if any) for each Plan Share which may be nil. The Plan Shares may be subject to performance hurdles and/or vesting conditions as determined by the Board.</p> <p>Where Plan Shares granted to a Participant are subject to performance hurdles and/or vesting conditions, the Participant's Plan Shares will be subject to certain restrictions until the applicable performance hurdles and/or vesting conditions (if any) have been satisfied, waived by the Board or are deemed to have been satisfied under the Rules.</p>
Rights attaching to Plan Shares	<p>All Shares issued or transferred under the Plan or issued or transferred to a Participant upon the valid exercise of a Convertible Security, (Plan Shares) will rank equally in all respects with the Shares of the same class for the time being on issue except for any rights attaching to the Shares by reference to a record date prior to the date of the allotment or transfer of the Plan Shares. A Participant will be entitled to any dividends declared and distributed by the Company on the Plan Shares and may participate in any dividend reinvestment plan operated by the Company in respect of Plan Shares. A Participant may exercise any voting rights attaching to Plan Shares.</p>

Disposal restrictions on Plan Shares	<p>If the invitation provides that any Plan Shares are subject to any restrictions as to the disposal or other dealing by a Participant for a period, the Board may implement any procedure it deems appropriate to ensure the compliance by the Participant with this restriction.</p> <p>For so long as a Plan Share is subject to any disposal restrictions under the Plan, the Participant will not:</p> <ul style="list-style-type: none"> (a) transfer, encumber or otherwise dispose of, or have a security interest granted over that Plan Share; or (b) take any action or permit another person to take any action to remove or circumvent the disposal restrictions without the express written consent of the Company.
General Restrictions on Transfer of Plan Shares	<p>If the Company is required but is unable to give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, Plan Shares issued under the Plan (including on exercise of Convertible Securities) may not be traded until 12 months after their issue unless the Company, at its sole discretion, elects to issue a prospectus pursuant to section 708A(11) of the Act.</p> <p>Restrictions are imposed by Applicable Law on dealing in Shares by persons who possess material information likely to affect the value of the Shares and which is not generally available. These laws may restrict the acquisition or disposal of Shares by you during the time the holder has such information.</p> <p>Any Plan Shares issued to a holder under the Plan (including upon exercise of Convertible Securities) shall be subject to the terms of the Company's Securities Trading Policy.</p>
Buy-Back	<p>Subject to applicable law, the Company may at any time buy-back Securities in accordance with the terms of the Plan.</p>
Employee Share Trust	<p>The Board may in its sole and absolute discretion use an employee share trust or other mechanism for the purposes of holding Convertible Securities for holders under the Plan and delivering Shares on behalf of holders upon exercise of Convertible Securities.</p>
Maximum number of Securities	<p>The Company will not make an invitation under the Plan which involves monetary consideration if the number of Plan Shares that may be issued, or acquired upon exercise of Convertible Securities offered under an invitation, when aggregated with the number of Shares issued or that may be issued as a result of all invitations under the Plan during the 3 year period ending on the day of the invitation, will exceed 5% of the total number of issued Shares at the date of the invitation (unless the Constitution specifies a different percentage and subject to any limits approved by Shareholders under Listing Rule 7.2 Exception 13(b)).</p>
Amendment of Plan	<p>Subject to the following paragraph, the Board may at any time amend any provisions of the Plan rules, including (without limitation) the terms and conditions upon which any Securities have been granted under the Plan and determine that any amendments to the Plan rules be given retrospective effect, immediate effect or future effect.</p> <p>No amendment to any provision of the Plan rules may be made if the amendment materially reduces the rights of any Participant as they existed before the date of the amendment, other than an amendment introduced primarily for the purpose of complying with legislation or to correct manifest error or mistake, amongst other things, or is agreed to in writing by all Participants.</p>

Plan duration

The Plan continues in operation until the Board decides to end it. The Board may from time to time suspend the operation of the Plan for a fixed period or indefinitely and may end any suspension. If the Plan is terminated or suspended for any reason, that termination or suspension must not prejudice the accrued rights of the Participants.

If a Participant and the Company (acting by the Board) agree in writing that some or all of the Securities granted to that Participant are to be cancelled on a specified date or on the occurrence of a particular event, then those Securities may be cancelled in the manner agreed between the Company and the Participant.

**Income Tax
Assessment Act**

The Plan is a plan to which Subdivision 83A-C of the *Income Tax Assessment Act 1997* (Cth) applies (subject to the conditions in that Act) except to the extent an invitation provides otherwise.
