- Australian ecommerce sales for October surpassed \$70k, up 82% vs September.
- Consolidated ecommerce daily sales run rate has now reached an average of over \$6000/day based in October figures and is growing strongly in all channels.

**CEO Anthony Noble** said, "These ecommerce figures demonstrate the growing demand for kava on a global basis and successful execution of our first sales growth pillar; focussing on ecommerce. This is also our highest margin sales channel. With our robust and modernised supply chain in Fiji and strong distribution partners, we are in a position to leverage the global growth in demand. We continue to be the number one instant kava product on Amazon and our own proprietary flagship ecommerce stores have recorded exciting sales growth in the past month. Our ecommerce strategy now extends to China where we have launched on Alibaba's Tmall platform utilising specific China market influencers and social media promotion. It is also noteworthy that retail sales in Coles Australia, which importantly builds the high quality profile of our FijiKava brand, saw record sales in Q1 this year driven by the synergies in social media and online marketing activities with retail distribution."

**Global ecommerce daily sales, Amazon daily sales and Australia ecommerce daily sales all grew strongly across Q1 and have further accelerated in October under The Calmer Co management.**

This announcement has been approved by the board of directors.
