

Heritage Survey Completed at Claw Gold Project with Drilling Set to Commence in January

- Final piece of drill permitting accomplished with the successful completion of the Heritage Survey with members of the Badimia.
- Program of Work (PoW) recently granted to allow for an extensive ~10,000m Aircore (AC) and Reverse Circulation (RC) drilling program commencing in January 2024.
- Claw is immediately along strike of Capricorn Metals recently upgraded 3.24Moz¹ Mt Gibson Gold Project (Fig. 1).
- Drill Contractor secured and scheduled to commence in late January testing several targets as part of the program including:
 - **Louie Prospect** - Gold in regolith anomaly located on the tenement boundary ~500m from Capricorn's recent exploration/resource drilling.
 - **Chickie Prospect** - ~1000m long, gold in regolith anomaly with multiple holes finishing in mineralisation.
 - Regional structural targets identified from magnetic processing and targeting exercise undertaken by Dr. Barry Murphy (ASX: PDI, NYSX: KL)

Badimia and BPM

Commenting on the PoW and upcoming drilling program, BPM CEO Oliver Judd:

"Very pleased to have completed the final piece of permitting at the claw gold project, a drill contractor is now secured, and drilling will commence towards the end of January once site preparations are completed. We'd like to thank the Badimia group for competing the survey so late in the year. Claw is an exciting, drill-ready greenfields project, immediately along strike from one of Western Australia's next major gold mines. Supported by our strong >\$3m cash position and with an AUD\$3,000 gold price, BPM is well positioned to make a new gold discovery in a revitalised gold camp."

¹CMM ASX Announcement - Mt Gibson Gold Resource Increases to 3.24 Million Ounces (12th December 2023)

Claw Gold Project Exploration Timeline

- November 2023 - PoW Granted by DMIRS ✓
- 11-15th December 2023 - Heritage Survey with Badimia Native Title Claimant group ✓
- Early January 2024 - Final report and drilling approval from Badimia
- Mid-January 2024 - Site preparations
- Late January 2024 - Commencement of 10,000m AC/RC drilling program
- January 2024 - Results of soil sampling programs within free-hold land
- March 2024 - First assay results from drilling

- END -

This release is authorised by the Board of Directors of BPM Minerals Limited.

Competent Persons Statement

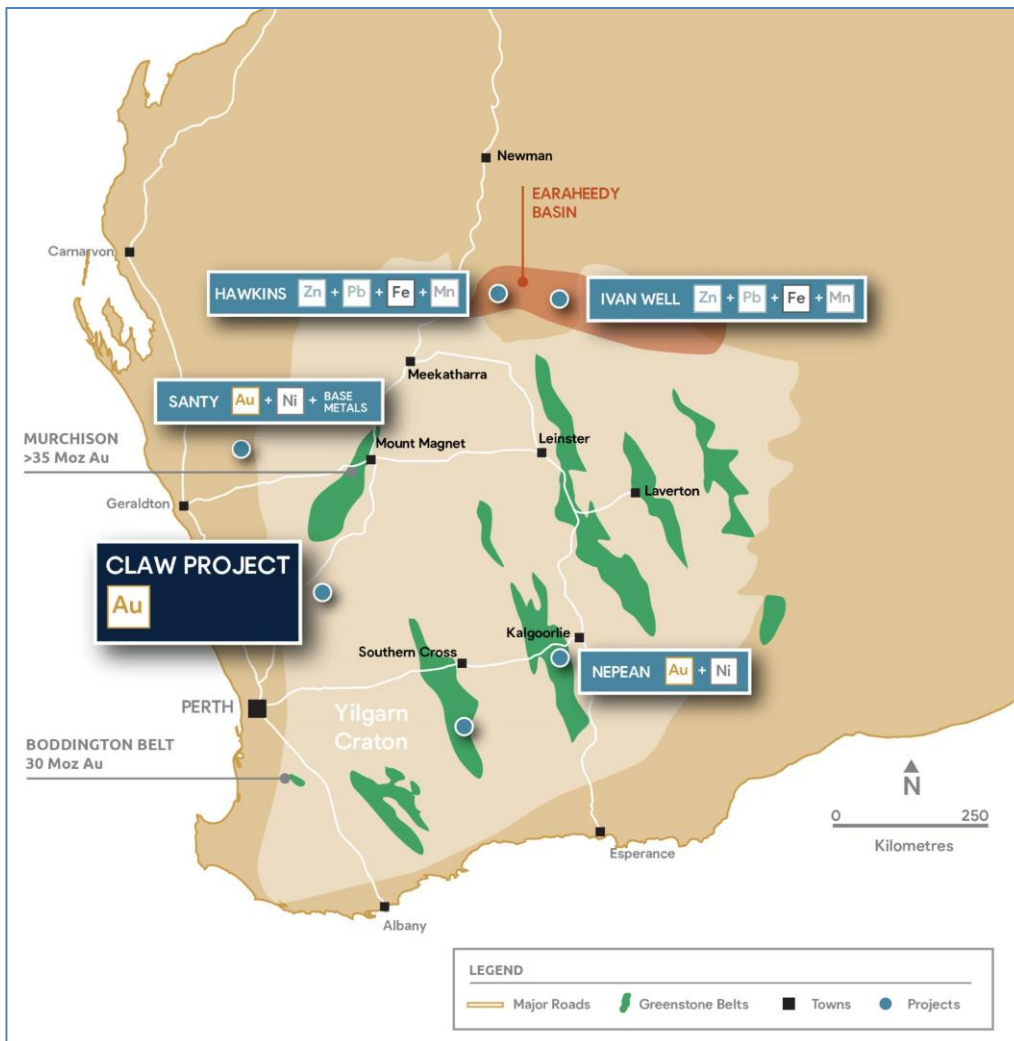

The information in this announcement that relates to Exploration Results is based on information compiled by Oliver Judd, who is a Member of AusIMM and who has more than five years’ experience in the field of activity being reported on. The information in the market announcement is an accurate representation of the available data.

Mr. Judd has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr. Judd consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

About BPM Minerals

BPM Minerals Limited (ASX:BPM) is a Perth-based gold, nickel and base-metal explorer with a portfolio of projects located across some of Western Australia’s most prolific greenstone belts. The Company seeks to build its landholdings within Tier-1 mining locations, close to existing deposits and world-class infrastructure. The company is focussed upon its Claw Gold Project (adjacent to Capricorn Metals Ltd.’s Mt Gibson Gold Project), a highly prospective greenfield opportunity on the doorstep of West Australia’s next major mining operations.

The management and exploration teams are well supported by an experienced Board of Directors who have a strong record of funding and undertaking exploration activities which have resulted in the discovery of globally significant deposits both locally and internationally.
