

ASX ANNOUNCEMENT

19 January 2024

NRW is pleased to advise that it has been named **Preferred Proponent** for the Reid Highway Interchanges project - Altone Road and Drumpellier Drive / Daviot Road.

Main Roads is building two new free-flowing interchanges on Reid Highway at Altone Road and Drumpellier Drive / Daviot Road to improve safety, traffic flow and urban amenity for residents and tourists, while facilitating more efficient and reliable movement of freight.

Reid Highway is a strategic east-west route in Perth's north between Marmion Avenue and Roe Highway. These new interchanges will remove two of the five remaining signalised intersections on Reid Highway.

The project scope includes:

- A new bridge on Reid Highway, passing over Altone Road intersection, with connectivity between Altone Road and Reid Highway to be maintained.
- A new bridge over Reid Highway connecting Drumpellier Drive with Daviot Road, with entry and exit ramps onto Reid Highway.
- Modifications to Reid Highway from Altone Road to Arthur Street to support the new interchanges.
- Modifications to the existing Tattler Way roundabout to provide south-bound left in / left out access to residential area.
- A Principal Shared Path (PSP) bridge for cyclists and pedestrians passing over the Altone Road on ramp and new PSP underpasses beneath the Altone Road off ramp and Daviot Road.
- Additional noise and screening walls in various locations along Reid Highway

This \$225 million project is jointly funded (50% each) by the Australian and State Governments.

This ASX Announcement has been approved in accordance with the Company's published continuous disclosure policy and authorised for release by the Chief Executive Officer of NRW Holdings Limited.

About NRW Holdings Limited:

NRW is a leading provider of diversified contract services to the resources and infrastructure sectors. With extensive operations across all of Australia, and engineering offices in Canada and the USA, NRW's geographical diversification is complemented by its ability to deliver a wide range of services. NRW's Civil and Mining businesses provide civil construction, including bulk earthworks, road and rail construction and concrete installation, together with contract mining and drill and blast services. The Minerals, Energy & Technologies (MET) operating unit offers tailored mine to market solutions, specialist maintenance (shutdown services and onsite maintenance), non-process infrastructure, innovative materials handling solutions, Build-Own-Operate (BOO) process plant solutions, and complete turnkey design, construction and operation of minerals processing and energy projects. NRW also offers a comprehensive Original Equipment Manufacturer (OEM) capability, providing refurbishment and rebuild services for earthmoving equipment and machinery. NRW has a workforce of around 7,200 people supporting projects around Australia for clients across the resources, renewable energy, infrastructure, industrial engineering, maintenance and urban subdivision sectors.
