Group ARR up 3% on prior quarter and up 12% year on year (vs Q2 FY23), with:

- › Complii up 3.7% on Q1 FY24 and up 5.7% on Q2 FY23
- › PrimaryMarkets up 10.5% on Q1 FY24 and up 11.7% on Q2 FY23

Having strongly reduced our underlying cost basis, our focus is back on growing revenue and ARR through both cross-selling to our expanded client base and customer acquisition, further cost reduction, and integration of the businesses we have acquired.

In addition, regarding our main business units:

Complii

- › Complii has achieved ISO/IEC 27001:2022 certification in December 2023. These international standards address growing global cybersecurity challenges and improve digital trust. The world's best-known standard on information security management helps organisations secure their information assets – which is vital in today's increasingly digital world. Our core security principle is to ensure the confidentiality, integrity and availability of the information we manage on behalf of our customers and business partners, as well as our own information. This “stamp of quality” is the proof of our commitment to customer service, attention to detail and our ongoing focus on security and compliance. This major milestone will help attract larger customers, both in Australia and internationally.
- › During Q2 FY24, c. \$1.97B new capital funds were raised on the Complii platform across 817 unique offerings from numerous AFSL client firms using Complii's proprietary Capital Raising System (“Adviser Bid/Corporate Highway”).
- › Complii signed 3 new AFSL clients over the quarter, including Bell Potter, and 2 more AFSL's in January 2024 alone. We also had existing customers taking additional modules, as we see increased demand for our products and services.

 - › Staff Trading module enhancements and broad launch to existing customer base and into new industries.
 - › Account Opening and Rescreening Enhancements.

Outlook

Operations

Complii

Complii was ISO/IEC 27001:2022 certified in December 2023, showing Complii's strong commitment to quality and compliance, particularly on information security, cybersecurity and privacy protection.

This certification is an important step forward, both operationally and commercially, as these international standards will help gain the trust of large Australian and international customers. While the expense for this certification is behind us, the recognition of its importance and increased revenue will be seen in H2 FY24 and beyond.

Complii continued work on new modules and current product improvements. Complii is also continuing custom work with our larger customers on future major enhancements and developments, which will then be standardised and offered to our broader customer base.

Product updates include Staff Trading, Account Opening and rescreening, Canadian account opening and capital raising as well as work on integration of MIntegrity's RegsWeb and the PrimaryMarkets' Platform.

We are nearing completion and deployment of the next generation of our Corporate Highway offer and a new portfolio modelling and rebalancing tool, scheduled for release in Q3 FY24.

The roadmap also includes new products to be launched, such as a specialised CRM.

PrimaryMarkets

PrimaryMarkets continues to cement itself as an industry defining leader in unlisted trading with the development of the new technological enhancements for the platform.

Several important milestone improvements to trading settlements, management, and overall user experience are currently in development and expected to be rolled out towards the beginning of Q4 FY24.

Several other new technical enhancements to support the current and future onboarding of trading hubs pivotal to PrimaryMarkets growth strategy have taken priority and expected to be complete within Q3 FY24.

PrimaryMarkets is also in discussion with share registries on how to better streamline and improve the overall experience for customers and will be making this an important initiative over the current year.

PrimaryMarkets' focus continues to be the direct asset ownership for their customers.

Complii Group

Across the Group we are focused on cross-selling opportunities and leveraging our unique ecosystem of solutions.

The cross-sell continues to produce ARR growth across our product suite, endorsing our acquisition and growth strategy to date.

Integrating our other business units' solutions, the Complii group offers the only end-to-end platform for managing corporate activity from inception of a Company, pre-IPO trading/liquidity, new capital raising efficiencies through to registry services, as well as providing compliance and efficiency tools along each step of the journey, whether it be from the company or a broker. Complii is continuing to focus its resources to realise this opportunity.

Outlook continued

Growth

- Complii signed 3 new AFSL clients over the quarter, including Bell Potter, and 2 more AFSL's in January 2024 alone. Complii has a strong pipeline of opportunities for H2 FY24.
- Complii entered into a strategic partnership with Praemium (ASX:PPS), including a new cross-referral agreement. This partnership is gaining traction, supported by strong collaboration between the firms.
- PrimaryMarkets has signed a mandate with Splitit which has been announced in their ASX delisting announcements. Splitit delisted from the ASX in December 2023 and are setting up a Trading Hub with PrimaryMarkets in February 2024.

The Group remains committed to looking for partnership opportunities which complement the Group's organic growth strategy.

Overall, the Complii group has been continuing to invest behind building a differentiated, end-to-end ecosystem and the required go-to-market capabilities, positioning itself for more cross-selling opportunities. Following a strong reduction in costs, the Group will focus on further decreasing the cost of acquisition (CAC) whilst increasing customer ARR and lifetime value through cross-selling, to accelerate organic growth and reach profitability.

We have steadily been growing our total addressable market (TAM) as well as increasing the potential share of wallet through cross-selling of our solutions, as most companies want to work with end-to-end vendors instead of a roster, as it is both simpler and more cost-effective. This makes our offer both differentiated and sticky.

We continue to build on the group's ambition to become the backbone for equity capital markets, with a unique offering covering cost-effective capital raising, absolute compliance assurance, operating risk mitigation and customer servicing efficiency.

Summary Q2 FY24

- Complii Group saw a net outflow of (\$536k) of cash from operations for the quarter vs (\$1,656k) for Q1 FY24, a 68% improvement.
- As at 31st December 2023, Complii has total funds of \$3.484m, being \$3.306m cash at bank and \$0.178m on term deposit, with the Group having no debt and no new equity placements since December 2020.
- Complii has outstanding customer receipts of \$0.737m at 31 December 2023.
- Strong Group ARR growth 3% vs Q1 FY24 and 12% vs Q2 FY23, supported by strong sales and marketing efforts and further integration of acquired businesses.
- The Group focus remains on client acquisition, cross-selling, cost reduction and broader operational efficiency.
- The Complii Group remains well-funded and well-resourced to deliver on its vision of becoming the financial services industry standard in operational risk, financial services compliance and business technology firm as well as offer investment and trading opportunities.

Outlook continued

Complii Executive Chairman Craig Mason commented:

“ We are pleased to report on the Group’s Q2 FY24 activities. We continue to build a unique ecosystem delivering incremental ARR growth and strong cash flow, supported by solid cash at bank.

Having invested to build a unique ecosystem, we will continue to drive organic growth through new products, cross-selling and partnerships such as the agreement with Praemium, increasing our share of our addressable market.

Our Group’s cross-selling capabilities continue to provide an expected upside for organic growth within our Group.

We are also focused on further improving efficiency in our operations, particularly our cost structure and our commercial capabilities, aiming to improve profitability.

With many new or improved products, a strong roadmap and a strong pipeline, I am confident we have started to turn the corner and will see our results improve further in Q3 FY24.

Complii is well positioned to give our shareholders a strong trajectory into the rest of FY24 and beyond. ”
