ASX RELEASE

29 January 2024

QUARTERLY ACTIVITY REPORT AND APPENDIX 4C

4DS Memory Limited (ASX:4DS) (4DS) (the **Company**), is pleased to provide its Quarterly Activity Report and Appendix 4C for the Quarter ended 31 December 2023.

Company Update

On 10 and 11 October 2023, following the success of 4DS's Fourth Platform Lot in the September 2023 quarter, where the Company showed for the first time a fully functioning megabit array with 60nm memory cells, access transistors and write circuitry, 4DS' Board members and Chief Technology Officer met with imec's Chief Operating Officer and a number of senior imec personnel in Belgium for lengthy strategic discussions and a tour of imec's facilities.

On 29 November 2023, 4DS and imec finalised the terms of the collaboration extension which commenced on 1 January 2024 and runs to the end of the same year. 4DS and imec agreed to additional collaboration activities to be undertaken during 2024. The consideration for all collaboration activities is 1.92 million Euro.

Also on 29 November 2023, 4DS announced that process optimization and short loop analysis will take place into early 2024. The Fifth and Sixth Platform Lots will again be manufactured on imec's unique Dory platform on 60nm and significantly for the first time 20nm memory cells. Manufacturing of the Fifth and Sixth Platform Lots will commence during Q1 2024 and Q2 2024 respectively with delivery to 4DS expected during Q3 2024. The Fifth Platform Lot is seeking to further optimise the unique characteristics of the results already seen on the 60nm memory cells prior to undertaking manufacturing of the Sixth Platform Lot on 20nm memory cells.

Activities for these Platform Lots have commenced. imec has ordered all hardware, materials and additional CMOS wafers necessary for manufacture of these lots. Detailed technical planning and activities have also commenced.

On 1 December 2023, Mr Peter Himes was appointed as a strategic advisor to the 4DS Board. Peter is an experienced senior executive in high growth technology firms, with extensive general management responsibilities. He is agile at building winning teams, defining and addressing new markets, building key relationships and partnerships all across the value chain, and promoting and evangelizing for business opportunities. Peter is consistently recognized as a thought leader across multiple industries with a strong focus on innovation systems and strategic alliances over the past 10 years. Peter will be a valued member of the 4DS team and a critical decision maker in how the Company determines commercialisation strategies on the back of potential positive results in 2024 on both 60nm and 20nm memory cells.

COVID-19 Update

Currently, there are no COVID related restrictions significantly affecting the Company's operations in Australia, the USA or Belgium. All 4DS employees are fully vaccinated.
