

ASX Release 30 January 2024

# QUARTERLY ACTIVITIES REPORT for the period ending 31 December 2023

#### Graphite Bull Project (100% BUX)

- Dual-stream electrochemical testwork to test multiple process options continued with ProGraphite and Dorfner Anzaplan GmbH
- Loupe Ground EM survey reveals numerous graphite targets for shallow resource extension

#### Copper Wolf Project; Arizona USA (100% BUX, IGO option to earn 70%)

- Assay results reported from CPW0002DD, including 405.38m @ 0.35% Cu and 0.05% Mo.
- Site visit by an independent expert, which confirmed a large, mineralised porphyry Cu-Mo system

#### Dogleg Prospect, West Kimberley JV (16% BUX)

High-grade nickel sulphide assays (13.85m at 4.35% Ni, 0.34% Cu and 0.15% Co) confirm significant magmatic nickel sulphide discovery 13km along strike from Merlin

#### Narryer Project (100% BUX)

 Coincident soil sample anomalies (Ni/Cu) over gravity high along strike from existing ground EM conductor at Ranger

#### Centurion Project (100% BUX)

• Agreements signed with three Native Title groups to allow for heritage surveys and track construction in 2024 field season.

#### Corporate

- AGM held 17 November 2023, all resolutions that were put to shareholders were passed by a poll
- Cash balance (31 December 2023) of approximately \$1.6 million
- \$579k Copper Wolf exploration cash call received from IGO Limited post balance date (and not included in the Appendix 5B)

**Buxton Resources Limited (ASX: BUX or "Buxton")** is pleased to release the Quarterly activities report and Appendix 5B for the period ended 31 December 2023 (the Quarter).

### **Graphite Bull Project (BUX 100%)**

The Graphite Bull Project (Exploration License E09/1985) is located 280 km East of Carnarvon in the Murchison Region of Western Australia. In 2014, Buxton released an updated, JORC 2012 compliant, Mineral Resource Estimate for the main zone of graphite mineralisation. The Inferred Mineral Resource is 4.0Mt @ 16.2% TGC, using a 4% TGC cut-off (see ASX announcement 24th October 2014).

During the Quarter, continued the dual-stream electrochemical testwork aimed at evaluating multiple process options for the Graphite Bull concentrate material.

Initial results from ProGraphite on the first bulk concentrate sample directed toward the assessment of Li-ion battery quality benchmarks were exceeded by simple caustic bake purification achieving 99.97% TGC. Spheronising gave excellent shape and size distribution, yield also above average. Concentrate micronised well with relatively little energy input – see <u>ASX Announcement 7<sup>th</sup> August 2023</u> for further details.

During the Quarter Buxton announced the results of an extensive high-resolution ground EM survey (Loupe EM) which detected <u>numerous shallow conductors which</u> <u>represent shallow targets for additional graphite resources</u>.

During the Quarter a heritage survey scheduled for early November was deferred due to a death in the community. Buxton continues to engage with the Wajarri Yamaji Aboriginal Corporation and the Burringurrah Land Committee with a view to undertaking this survey in H1, 2024.

# Copper Wolf Project (BUX 100% / IGO option to earn 70%)

Buxton's Copper Wolf Project consists of Lode Mining Claims and Mineral Exploration Permits in Yavapai County, Arizona. The Copper Wolf Project has multiple historical resource estimates available that confirm the presence of a large Laramide porphyry Cu-Mo system (see ASX Announcement 25 October 2021).

Porphyry Cu-Mo mineralisation at Copper Wolf is largely concealed by a post-mineral (Tertiary) sequence of volcanic and sedimentary rocks. The Project is located within one of the most prolifically endowed copper belts in the world, yet it has not seen any drilling since the early 1990s. Buxton's 2022 airborne magnetic survey was the first geophysical work undertaken since the early 1960s. Historic exploration has consisted of relatively wide spaced drilling which focussed on significant supergene copper mineralisation. Buxton is targeting high grade, underground bulk mineable copper-molybdenum mineralisation.

On the 4<sup>th</sup> October August 2022, Buxton received shareholder approval for Buxton and IGO to enter into an earn-in and joint venture agreement for the Copper Wolf Project (Arizona, USA).

During the Quarter Buxton completed the first drilling campaign in the Project in over 30 years and <u>reported assay results from CPW0002DD</u>, including 405.38m @ 0.35% Cu and 0.05% Mo.

Also during the Quarter, a site visit was undertaken by an independent expert, which confirmed a large, mineralised porphyry Cu-Mo system, the hypogene Cu-Mo grades equalling or higher than those reported by previous explorers and recognition of multiple Cu-Mo mineralising vein events and associated potassic alteration over a vertical extent of >600 m. The scale and continuity of mineralisation provides evidence of a large multi-phase porphyry copper-molybdenum mineral system.

## Narryer Project (BUX 100%)

The Narryer Project is targeting magmatic Ni-Cu-PGE sulphide mineralisation along the Yilgarn Craton margin within the Murchison Region of WA. The Narryer Project consists of four ELs covering > 1800 km<sup>2</sup>. Buxton has completed substantive systematic exploration programs since 2021.

During the Quarter Buxton received results from the soil sampling program undertaken in the previous Quarter. A soil sample anomaly was detected coincident with a gravity high and along strike from existing ground EM conductor at Ranger.

An additional MLEM program to cover this gravity high is scheduled for Q1 2024.

## West Kimberley Project (BUX / IGO JV)

The West Kimberley Project is targeting Nova-style magmatic Ni-Cu sulphide mineralisation in Proterozoic belts of the West Kimberley Region of Western Australia. Buxton have Farm-In and JV agreements over three separate Project areas (Merlin Project, Quickshears Project and West Kimberley Regional Project) which fall within the overall West Kimberly Project.

During the Quarter, IGO <u>intersected massive sulphides in the maiden drillhole at the Dogleg prospect</u>. A second hole <u>intersected semi-massive sulphides</u>.

Assays received for the first Dogleg hole contained 13.85m (true width 13.24m) at 4.35% Ni, 0.34% Cu, 0.15% Co from 177.34m, including: 5.86m (true width 5.60m) at 7.47% Ni, 0.31% Cu, 0.25% Co from 179.08m.

Assay results for the second hole are pending.

## Fraser Range Project (BUX 10% / IGO 90%)

Exploration The Fraser Range Project is targeting magmatic Ni-Cu sulphide mineralisation along strike from IGO's operating Nova mining operation. During the Quarter IGO have continued their thorough exploration of these licenses. Buxton remain free carried until completion of a feasibility study with Buxton retaining an exclusive right to explore and develop iron ore on the Tenements.

During the Quarter, IGO reported having undertaken the following work programs;

- interpretation of pseudo-3D seismic data within E28/2201 to generate potential drill targets.
- completed MLEM program was completed at Valetudo, in the northern portion of tenement E28/1959.
- Geophysical review of V5 Mag target within E28/2201.

## Centurion Project (BUX 100%)

The Centurion Project consists of Exploration License E80/5579 located approximately 180 km south-southwest of Balgo Western Australia on unclaimed crown land and accessible via shire roads and several 1960s-1980s seismic lines. This

license covers a prominent dipolar and offset magnetic and gravity gradiometer anomalies characteristic of Iron Oxide Copper Gold deposits including Olympic Dam and Prominent Hill. Magnetic data indicate that the target is located approximately 700 metres beneath ground level under post mineral cover sequences of the Canning Basin.

During the Quarter, Buxton executed three native title agreements to allow for heritage surveys to be undertaken during the 2024 field season.

### Shogun & Royale Projects (BUX 100%)

The Shogun and Royale Projects form a contiguous package covering 2617 km2 located in the Paterson Region of Western Australia. Exploration on the two (2) Shogun Project ELA 45/6533 and 45/6534 is targeting magmatic Ni-Cu-Co-PGE sulphide deposits. The five (5) Royale Project ELAs (E45/6228 through E45/6232) cover exploration targets for hydrothermal Cu +/- Au – Mo deposits.

During the Quarter, Buxton continued to undertake negotiations with the Native Title group with a view to executing a Heritage Agreement.

## Lateron Project (BUX 100%)

The Lateron Project consists of Exploration License E80/5545 located on unclaimed crown land close to the Tanami Road, approximately 10 km East of Billiluna and 150 km South of Halls Creek in Western Australia. During the Quarter Buxton received the results of petrological analysis on fragments of diamond drill core recovered from the site of AFMECO's 1982 diamond drillhole S19. The report indicates the core fragments consist of "biotite hornblende quartz diorite, with coarse titanite and sericite / muscovite pyrite-magnetite-chalcopyrite overprint" – such rocks are typically associated with magmatic-hydrothermal Cu-Au mineralisation. Airborne mag indicates these intrusive rocks cover > 7 km².

During the Quarter Buxton commenced negotiations with the new Native Title Representative Body for the Tjurabalan (Jura-palan) People with a view to executing a Heritage Agreement.

### Corporate

The Company's Quarterly Cashflow Report (Appendix 5B) follows this activities report. The Company had \$1.583 million in cash as 31 December 2023. A further \$0.579 million was received from IGO Limited in January 2024 and is not included in the Appendix 5B. Exploration Expenditure for the Quarter was \$0.733 million with most of this expenditure being associated with field work in support of the Copper Wolf Project, metallurgical studies in support of the Graphite Bull Project, along with other ongoing project assessment. Buxton is also continuing to actively pursue copper and other commodity opportunities in the USA.

The aggregate amount of payments to related parties and their associates included in the current Quarter cash flows from operating activities were approximately \$47k comprising directors fees, salaries and superannuation. Corporate and other administration expenditure was \$222k for the Quarter which represents general costs associated with running the Company, including ASX fees, legal fees, rent, marketing, etc. Cash outflows for the Quarter were in line with management expectations. The company is adequately funded to continue its current activities and will continue to demonstrate appropriate fiscal management.

#### **Annual General Meeting**

On 17 November 2023, Buxton held its Annual General Meeting of Shareholders at Suite 1, First Floor 14 - 16 Rowland Street, Subiaco, Western Australia. All resolutions that were put to shareholders were passed by a poll.

#### Resignation of Non-Executive Director

Subsequent to the end of the Quarter, Buxton announced that non-executive director, Eamon Hannon, had resigned from the Board with effect from 15 January 2024.

This announcement is authorised by the Board.

| 7.1 | Loan facilities                                                                                                                                                                                                                                                                                                                             | -                                                     | -                                         |
| 7.2 | Credit standby arrangements                                                                                                                                                                                                                                                                                                                 | -                                                     | -                                         |
| 7.3 | Other (please specify)                                                                                                                                                                                                                                                                                                                      | -                                                     | -                                         |
| 7.4 | Total financing facilities                                                                                                                                                                                                                                                                                                                  | -                                                     | -                                         |
| 7.5 | Unused financing facilities available at quarter end -                                                                                                                                                                                                                                                                                      |                                                       |                                           |
| 7.6 | Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well. |                                                       |                                           |
|     |                                                                                                                                                                                                                                                                                                                                             |                                                       |                                           |

| 8.  | Estimated cash available for future operating activities                                 | \$A'000 |
|-----|------------------------------------------------------------------------------------------|---------|
| 8.1 | Net cash from operating activities (item 1.9)                                            | (718)   |
| 8.2 | (Payments for exploration & evaluation classified as investing activities) (item 2.1(d)) |         |
| 8.3 | Total relevant net cash inflow (item 8.1 + item 8.2)                                     | (718)   |
| 8.4 | Cash and cash equivalents at quarter end (item 4.6)                                      | 1,583   |
| 8.5 | Unused finance facilities available at quarter end (item 7.5)                            | -       |
| 8.6 | Total available funding (item 8.4 + item 8.5)                                            | 1,583   |
| 8.7 | Estimated quarters of funding available (item 8.6 divided by item 8.3)                   | 2.20    |

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

#### Answer:

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

#### Answer:

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

#### Answer:

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

#### **Compliance statement**

- This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

#### Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
