## Comments from Chairman, Mr John Bentley

*"Invictus has had an extremely active and successful period of growth that culminated with the Mukuyu-2 dual gas discovery we announced to the ASX during December."*

*"The Mukuyu-2 hydrocarbon discovery has the potential to materially transform the energy market in Zimbabwe and the wider region. The well builds on the earlier Mukuyu-1 well which is now also recognised as a discovery and thereby demonstrates the enormous potential of this totally untapped sedimentary basin which is wide open for development."*

*"Given the critical shortage of power in the region and growing demand your company is exceptionally well placed to benefit from multiple commercialisation opportunities. Moreover, Invictus has a dominant acreage position in the Cabora Bassa basin which provides it with the ability to aggressively pursue the substantial portfolio of drill-ready prospects and leads."*

*"On behalf of the Invictus Board I am confident that we have unlocked a tremendous asset and with the recent Placement and this Entitlement Offer we have the financial strength and the team in place to accelerate the growth of the Company. I thank both our long term and recent investors for their continued support as we enter another exciting year for the Company."*

(i) IVZO options are a quoted security that has traded on the ASX since July 2023 and has traded between \$0.03 and \$0.17, with an expiry date of 7 June 2026 and exercise price of \$0.20.
