International Offtake Products Revenue & Market Development

The Company (Entyr Limited) and its controlled entities (the "Group") entered into a long-term partnership with Trafigura, a global commodities trader, signing both formal Offtake and Collaboration agreements. These agreements are a key strategic milestone for the Group with a market leader in the global commodities industry, sharing a commitment to innovation, growth and delivering exceptional value to customers and shareholders.

The Group expects the agreements to provide access to a global market for rCB (recovered carbon black) and TDO (tyre derived oil) sales which will underpin the financial performance of the Stapylton facility when fully operational and future Group owned facilities domestically and internationally. Key benefits of the agreements include, a Global marketing and logistics platform, a focus on technology and product development, investment opportunities, enhanced flexibility, market feedback and efficient corporate overheads.

Operating Revenue – Record for both Volume and Price

Momentum continued with growth of the Group's customer base to deliver annual feedstock volume of end-of-life tyres of approximately 20,000 tonnes, essential for operations at full capacity. Additionally, the Group continued pricing optimisation strategies and made substantial progress in improving logistical capabilities and efficiency.

Infrastructure Installation

A significant infrastructure program was commenced during the period consisting of 16 projects with a planned spend totalling approx. \$5.5m. The projects include a new milling and bagging unit, electrical, pneumatic and hydraulic upgrades to the thermal desorption units, enhancements to the gas management system, a new Distribution Control System (DCS), inhouse laboratory and safety guarding and other safety enhancements. When complete, these projects will increase site capacity to approximately 20,000 tonnes. Completion of the projects is expected around May - June 2024. This investment is in addition to the \$6.5m capital spent in the last 2 years on infrastructure including the tank farm, shredder, rasper and yard infrastructure improvements.

Successful product trials with potential International rCB Markets

Successful product trials have enabled the Group to successfully produce recovered carbon black (rCB) and tyre derived fuel oil (TDFO) samples utilising specific and controlled feed stock requirements at the request of potential international offtake clients to meet their individual market specification.

Innovation Award

The Group received national recognition at the Waste Innovation and Recycling Awards gala dinner held in Melbourne on the 25th of October 2023. The Group received the Innovation Award for its world-leading thermal conversion process for end-of-life tyres.

Operations Report (continued)

Pottinger engagement

Investment banking and strategic advisory firm, Pottinger, has been engaged to work with the Company to assess and execute on strategic initiatives with the objective of optimising shareholder value. Pottinger had earlier in the period completed an extensive global market & technology review for the board. With global operations, an aligned focus on sustainability and access to an array of international stakeholders, Pottinger is the right partner to assist with Entyr's long-term growth trajectory.

Outlook

The Group's near-term focus continues to be on completing the installation of the minimum required infrastructure at Stapylton and then operating the site at commercial volumes to take advantage of the Trafigura agreement and the opportunities that it provides. Engagement with both state and federal government continues with the aim of accessing financial support for further infrastructure at Stapylton and for expansion opportunities.

Directors' Report

Principal Activities

Entyr Limited and its controlled entities (ASX:ETR) is an Australian listed Group with unique technology that has the potential to play a significant role in solving the global waste tyre problem. The patented thermal desorption technology cleanly converts end-of-life tyres into valuable products (oil, carbon, steel) using heat in an oxygen free environment. Entyr is a complete environmental and circular solution for one of the world's largest waste and environmental problems.

Significant Changes to Activities

There were no significant changes in the nature of the Group's principal activities during the half year.

Review of Operations

The consolidated loss after tax of the Group for the half year was \$4,540k (2022: loss \$7,147k). The review of operations for the half year is discussed in the section headed 'Operations Report.'

Dividends

No dividends have been paid or declared and no dividends have been recommended by the Directors.

Environmental Regulation and Performance

The Group's activities in Australia are subject to State and Federal laws, principally the Environmental Protection Act and associated regulations in each State of operation. There have been no material breaches of these environmental regulations by the Group during the reporting period.

Events after the Reporting Period

No matters or circumstances have arisen since the end of the half year which significantly affected or could significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

Directors

The directors of the Company in office at any time during or since the end of the half year are:

Name	Position
Michael Barry	Non-Executive Chairman
Lindsay Barber	Non-Executive Director
Teresa Dyson	Non-Executive Director
Leanne Bond	Non-Executive Director

Note: The directors were in office for the entire period unless otherwise stated.

Directors' Report (continued)

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001*, for the half year ended 31 December 2023 has been received and be found on page 7.

Rounding of amounts

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding off'. Amounts in the Directors Report and Financial Report have been rounded to the nearest thousand dollars.

This report is signed in accordance with a resolution of the Directors.

Notes to the Condensed Financial Statements

1. General Information

The interim financial statements cover Entyr Limited as a Group consisting of Entyr Limited and the entities it controlled at the end of or during the half year reporting period. The financial statements are presented in Australian dollars, which is Entyr Limited's functional and presentation currency.

Entyr Limited is a listed public company limited by shares, incorporated, and domiciled in Australia.

A description of the nature of the Group's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 26 February 2024. The directors have the power to amend and reissue the financial statements.

2. Material Accounting Policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group.

(b) New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory have not been early adopted by the Group.

(c) Basis of Preparation

These general purpose financial statements for the half year reporting period have been prepared in accordance with the Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the *Corporations Act 2001*, as appropriate for for-profit orientated entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2023 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

(d) Rounding of Amounts

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relation to the 'rounding-off'. Amounts in this Directors Report and Financial Report have been rounded to the nearest thousand dollars.

Notes to the Condensed Financial Statements (continued)

(e) Going Concern

The directors have prepared the financial statements on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business.

The Group incurred a loss after tax for the half year ended 31 December 2023 of \$4.5 million (31 Dec 2022: \$7.1 million loss) and reported operating cash outflows, excluding receipts from government R&D grants, of \$5.8 million (31 Dec 2022: \$7.8 million outflow). At 31 December 2023 the Group held cash and cash equivalents of \$5.1 million (31 Dec 2022: \$0.9 million) and net assets were \$13.7 million (31 Dec 2022: \$9.6 million).

There is material uncertainty based on the results for the reporting period that may cast significant doubt about the Group's ability to continue as a going concern.

While the infrastructure upgrade is still underway, the Group has continued to grow tyre feedstock customers and had increasing interest and demand in the Group's tyre derived products including the recent announcement of a 20-year offtake agreement and a collaboration agreement with Trafigura on further product development opportunities. The Group continues to work with Government and regulatory bodies for additional grants and opportunities over and above the current R&D tax offset.

The Group continues to manage operating cash flow and capital expenditures in line with available funds while looking at strategic partnership opportunities.

Based on the cash flow forecasts and other factors referred to above, the Directors are satisfied that the going concern basis of preparation is appropriate. In particular, given the Group's history of raising capital to date, the Directors are confident of the ability to raise additional funds as and when they are required.

In the event the above matters are not achieved, the Group will seek to raise further funds for working capital from debt or equity sources.

Management have prepared a cash flow forecast, which indicates that the Group will have sufficient cash flows to meet all commitments and working capital requirements for the 12-month period from the date of signing this financial report. Should the Group be unable to continue as a going concern it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different to those stated in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or to the amount and classification of liabilities that might result should the Group be unable to continue as a going concern and meet its debts as and when they fall due.

Notes to the Condensed Financial Statements (continued)

3. Revenue and other income

During the half-year ended 31 December 2023 and 31 December 2022, operating revenue from the collection of tyres and the sale of tyre-derived products and other income were recognised at a point in time.

<i>Revenue from contracts with customers earned at a point in time.</i>	31 Dec 2023	31 Dec 2022
	\$'000 AUD	\$'000 AUD
Revenues from collection of end-of-life tyres	3,138	2,259

Other grants and subsidies	11	-
Interest income	109	8
Fuel tax credits	27	59
Other	42	-
Total other income	2,858	118

* The Government R&D grant income for the current half-year has been recognised because information supporting this estimate is available. During the comparative half-year this income was uncertain, and as a result no income estimate was recognised.

4. Earnings per share and dividends

Earnings per share

Both the basic and diluted loss per share have been calculated using the loss attributable to the shareholders of Entyr Limited as the numerator (i.e., no adjustments to profit were necessary in 2023 or 2022).

The reconciliation of the weighted average number of shares for the purposes of diluted loss per share to the weighted average number of ordinary shares used in the calculation of basic loss per share is as follows:

<i>Loss (AUD)</i>	31 Dec 2023	31 Dec 2022
	\$'000 AUD	\$'000 AUD
(a) Basic loss per share:		
Loss from continuing operations attributable to owners of Entyr Limited used to calculate basic loss per share	(4,540)	(7,147)
(b) Diluted loss per share		
Loss from continuing operations attributable to owners of Entyr Limited used to calculate diluted loss per share	(4,540)	(7,147)

Notes to the Condensed Financial Statements (continued)

4. Earnings per share and dividends (continued)

Number of shares	2023 Number #	2022 Number #
Weighted average number of ordinary shares used as a denominator in calculating basic and diluted loss per share	1,964,165,177	1,079,637,570
Loss per share attributable to owners of Entyr Limited:		
Basic and diluted loss per share (cents per share) *	(0.23)	(0.66)

* Options, being potential shares, are not considered dilutive as the Group has recorded a loss during the period, which results in potential shares being anti-dilutive.

Dividends and franking credits

No dividends have been paid or declared, and no dividends have been recommended by the directors. The Company has no franking credits as its recorded losses to date and, hence, has not paid any tax.

5. Tax expense

Contractual life of options

The weighted average remaining contractual life of options outstanding at the end of the half year was 2.5 years (30 June 2023: 2.5 years).

Terms and conditions

Options granted as part of an Employee Incentive Plan approved by shareholders in November 2022. A total of 46 million options vesting over 5 years in tranches at each of grant date, 12, 24, 36, and 48 month anniversary with exercise period to be 12 months after the vesting date. In the event that employment is terminated including voluntary termination, the employee will have 3 months from the termination date to exercise any outstanding options that have already vested. No further options will vest. In the event of a change of control of the Group, whereby a shareholder obtains 50.1% or greater of the issued capital of the Group, all outstanding options will immediately vest for the employee. No other terms and conditions are attached to the share options granted apart from those disclosed above.

Fair value of options

The fair value of the options granted during the half year is determined at grant date and is recognised as an employee benefits expense on a straight-line basis over the period during which the employee options vest. We determine the fair value using the Black Scholes Valuation Model inputs which takes into account inputs such as exercise price, the term of the option, the share price at grant date and expected volatility of the underlying share, the expected dividend yield, and the risk-free interest rate for the term of the option. Refer to note 15 for share-based payment expense.

16. Contingent assets and liabilities

The directors are not aware of any contingent liabilities or contingent assets of the Group.

17. Events after the Reporting Period

No matter or circumstance has arisen since 31 December 2023 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Directors Declaration

In the opinion of the directors of the Company:

1. The consolidated interim financial statements and notes are in accordance with the *Corporations Act 2001*, including:
 - (a) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the half year ended on that date; and
 - (b) complying with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the *Corporations Regulations 2001*; and
2. There are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors pursuant to section 303(5)(a) of the *Corporations Act 2001*.

Independent Auditor's Review Report to the Members of Entyr Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Entyr Limited, (the "Company") and its controlled entities (the "Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2023, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of material accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Entyr Ltd does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Material Uncertainty Related to Going Concern

We draw attention to Note 2(e) in the financial report, which indicates that the Group incurred a net loss after tax for the half-year ended 31 December 2023 of \$4,540,000 (2022: \$7,147,000). For the half-year ended 31 December 2023 the Group reported an operating cash outflow, excluding receipt of government R&D grant, of \$5,802,000 (2022: \$7,777,000). These events or conditions, along with other matters as set forth in Note 2(e), indicate that material uncertainty exists that may cast significant doubt over the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
