#### **PRINCIPAL ACTIVITIES**

Botanix Pharmaceuticals Limited (ASX:BOT) is a clinical dermatology company based in Philadelphia and Phoenix (US) which is progressing its lead product Sofpironium Bromide gel, 15% ("Sofdra™"), for the treatment of primary axillary hyperhidrosis, through FDA approval. Approval of Sofdra is expected at the end of Q2 CY2024, with launch to occur shortly thereafter. Sofdra is positioned to become a leading therapy for both first line and second line use and is expected to represent a safe and effective new option for patients.

Sofdra contains Sofpironium Bromide, the first and only new chemical entity developed to treat "primary axillary hyperhidrosis"—a medical condition which results in excessive underarm sweating. Sofdra achieved statistical significance on all primary and secondary endpoints and was found to have a favourable safety profile in Phase 3 pivotal studies and in a 48-week long-term safety study.

The Company also has a pipeline of other products in late-stage clinical studies which are currently on hold as Sofdra remains the core focus for the Company.

#### **RESULTS**

The Company incurred a net loss after income tax for the six months ended 31 December 2023 of \$5,467,164 (2022: loss of \$4,596,985) as a result of the continued advancement of its lead dermatology asset Sofdra and the preparation of the product for launch in 3Q 2024. During the half year, Botanix spent \$978,208 in direct costs on its research and development program.

#### **REVIEW OF OPERATIONS AND RESULTS**

For the six-month reporting period ending on 31 December 2023 (H1 FY24), Botanix has made significant progress with its Sofdra lead asset which, after a short delay, was successfully resubmitted for FDA approval in late December and subsequently accepted by FDA as complete

response in late January 2024. FDA has confirmed that the resubmission of the Sofdra NDA is a 'Class 2 response' (i.e., a 6-month review period from resubmission), with the result that approval remains targeted for late June 2024. Now that the Company has clarity on the acceptability of the resubmission of the NDA for Sofdra, the team has turned its focus towards minimising the period between successful approval and launch.

### Sofdra (Sofpironium Bromide) gel, 15%

Botanix's lead asset is Sofdra, a topically applied gel for the treatment of primary axillary hyperhidrosis (a medical condition that causes excessive underarm sweating), which affects 10 million individuals in the US alone. Phase 3 clinical studies have been completed successfully, with primary and secondary efficacy endpoints achieved, with a high degree of statistical significance.

Sofdra regulates sweating at the site of application, by binding to the primary sweat receptor and thereby blocking the sweat signal. The gel is delivered to the underarms using a patented applicator, which is similar to the 'roll on' commonly used in antiperspirants, which allows the patient to avoid direct drug contact with their hands. The drug is designed to be rapidly metabolized by the body as it passes through into the blood stream, (rather than traveling around the body and affecting other organs), and this helps to reduce incidence, severity, and duration of side effects of the drug, compared to other compounds in the class.

Approximately 85% of patients using the gel in Phase 3 clinical studies, experienced a clinically meaningful improvement in their condition. More than 700 patients were enrolled in the two Phase 3 studies and approximately 300 patients participated in a separate 48-week safety study of Sofdra. The majority of adverse events were mild to moderate and transient in nature. Based on these studies, the Company believes that Sofdra has the potential to be the best-in-class treatment for axillary hyperhidrosis, as existing therapies are less than ideal, either because of the lack of efficacy, an unfavourable side effect profile, present the risk of drug exposure, or produce pain from invasive injection procedures or severing of the nerves through surgery.

In the US, there are approximately 10 million subjects who suffer from primary axillary hyperhidrosis, which is the patient population in which the successful Phase 3 studies were conducted. Of those subjects, approximately 3.7 million subjects are actively seeking treatment. Even assuming a modest penetration of this population at the current price of competitive treatments (i.e., approximately US\$7,200 per year), this provides a significant market opportunity for Sofdra.<sup>1</sup>

In September 2023, 12 months after submission of the new drug application (NDA) for Sofpironium Bromide, Botanix received a "Complete Response" letter from FDA that solely focused on a deficiency in the Instructions for Use ("IFU") document. The IFU is a paper insert in

<sup>&</sup>lt;sup>1</sup> Source: Reports and Data, "Hyperhidrosis Treatment Market By Treatment Type, By Disease Type, By End-User, By Regional Outlook, and Segment Forecasts, 2022.

the product carton that instructs the patient how to use the product safely and effectively. Following rapid completion of revised Instructions for Use for Sofdra and the required human factors validation study that assessed those instructions, the Company successfully achieved an earlier than expected resubmission of the NDA for Sofdra in late December 2023.

These resubmission materials were limited to the revised patient IFU, the new human factors validation study protocol and report; an updated use-related risk analysis and updated draft prescribing information, carton, and container labels; and the conditionally approved proprietary name ("Sofdra") submission. Botanix also brought forward the annual safety update to FDA, including the pharmacovigilance report from Japan and any new safety findings reported in the scientific literature (which would otherwise usually be filed in March each year).

Botanix's resubmission has been accepted by FDA as a 'complete response', and FDA confirmed that the resubmission of the Sofdra NDA is a 'Class 2 response' (i.e., a 6-month review period from resubmission), with the result that approval remains targeted for late June 2024.

In July 2023 Botanix paid US\$8.25m to Fresh Tracks Therapeutics Inc (previously known as Brickell Biotech) to extinguish the contracted future milestone and royalty payments due to Fresh Tracks under the Asset Purchase Agreement. The Company will retain an obligation to the head licensor, Bodor Laboratories, to pay a 5% royalty on net sales made by Botanix.

The Company continues to ramp up commercial launch preparation activities for Sofdra and has focused on engaging US payers (insurers) around contracting and pricing for the product, as well as preparing patient and physician-focused launch marketing and sales materials, testing telemedicine and supply chain elements, and finalising sales strategies. Having successfully launched more than 25 dermatology products between them, Botanix's management team and Board have an unrivalled track record in commercializing products and exiting dermatology companies to larger partners.

## Pipeline development

Botanix's clinical development pipeline includes dermatology and antimicrobial programs which leverage the Company's novel skin delivery technology (Permetrex™), utilizing proprietary drug mechanisms of action such as the anti-inflammatory and antimicrobial properties of synthetic cannabidiol (CBD). The Company is currently reviewing the status of the pipeline in light of the planned launch of Sofdra in order to devote appropriate resources to ensure the successful commercialization of our lead product.

#### Corporate

Two capital raisings were completed by Botanix in the first half of the financial year, totalling A\$26 million. The first of these placements totalled A\$12.5 million from new and existing institutional and sophisticated investors. Proceeds of US\$8.25 million from this placement was used to extinguish future milestone and royalty payments due to the Company's partner Fresh Tracks—a move that could save up to \$160 million and prime the Company for potential M&A or partnership activity.

In December, Botanix finalised the placement of A\$13.5 million in new shares, which was led by Botanix's existing institutional shareholders and included a significant number of new institutional investors. Proceeds from this placement will be applied towards preparation for commercial launch activities of Sofdra in the United States, as well as general working capital purposes and costs. The Company is well funded through anticipated approval.

### **EVENTS SINCE THE END OF THE FINANCIAL PERIOD**

Subsequent to 31 December 2023, the Company received notification that Botanix's resubmission has been accepted by FDA as a 'complete response', and FDA confirmed that the Sofdra NDA will have a 6-month review period from resubmission culminating in a target approval date in late June 2024.

The Auditor's Independence Declaration is set out on page 8 and forms part of the Directors' Report for the half year ended 31 December 2023.

Signed in accordance with a resolution of the Directors.

#### NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2023

#### **NOTE 1: SIGNIFICANT ACCOUNTING POLICIES**

- The half-year financial report is a general-purpose financial report prepared in accordance with AASB 134 'Interim Financial Reporting' and the Corporations Act 2001.
- The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity. The half-year financial report should be read in conjunction with the annual financial report of Botanix Pharmaceuticals Limited as at 30 June 2023 which was prepared in accordance with the requirements of the Corporations Act 2001 and applicable Australian Accounting Standards. It is also recommended that the half-year financial report be considered together with any public announcements made by the company during the period 1 July 2023 to the date of this report in accordance with the continuous disclosure obligations of the ASX listing rules.

### **Basis of Accounting**

The half-year financial report has been prepared on the basis of historical cost, except where stated. For the purpose of preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

The half-year financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

### **Going Concern**

The financial statements for the period ended 31 December 2023 have been prepared on the basis that the Group is a going concern and therefore, contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business.

During the period, the Group recorded a net loss after tax of \$5,467,164 (31 December 2022: \$4,596,985). The Group had a net working capital surplus of \$19,483,459 at 31 December 2023 (30 June 2023: \$12,093,632) and experienced net cash outflows from operating activities for the period of \$3,760,242 (31 December 2022: \$5,730,333).

#### NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2023

### NOTE 1: SIGNIFICANT ACCOUNTING POLICIES (continued)

The Directors believe the Group will continue as a going concern based on the following considerations:

- Notwithstanding the above, the Group had a net working capital surplus of \$19,483,459 on 31 December 2023 (30 June 2023: \$12,093,632).
- On 27 July 2023, the Company announced that it successfully completed a capital raising from new and existing institutional and sophisticated investors for the placement of 104,166,667 fully paid ordinary shares at A\$0.12 to raise \$12.5m in gross proceeds in an oversubscribed placement to acquire outstanding royalty, milestone, and other financial obligations to Fresh Tracks Inc.
- On 1 December 2023, the Company announced that it successfully completed a capital raising from new and existing institutional and sophisticated investors for the placement of 103,846,155 fully paid ordinary shares at A\$0.13 per new share to raise \$13.5m in gross proceeds in an oversubscribed placement.

### **Segment Reporting**

Operating segments are reported in a manner that is consistent with the internal reporting provided to the Board of Directors. The Board, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the strategic steering committee.

### Impact of standards issued but not yet applied by the entity

There were no new standards issued since 30 June 2023 that have been applied by the Company. The 30 June 2023 annual report disclosed that the Company anticipated no material impacts (amounts recognised and/or disclosed) arising from initial application of those standards issued but not yet applied at that date, and this remains the assessment as at 31 December 2023.

### **Significant Judgments**

Capitalisation of internally developed project development

Distinguishing the research and development phases of a new project development and determining whether the recognition requirements for the capitalisation of development costs are met requires judgement. The Directors have considered the development phase of the Sofpironium Bromide project and acknowledge that regulatory approval has not yet been received, however, the Directors have made a judgment that the Company meets the technical feasibility criteria. After capitalisation, management monitors whether the recognition requirements continue to be met and whether there are any indicators that capitalised costs may be impaired.

The Directors are not aware of any other contingent assets or liabilities that may arise from the Group's operations as of 31 December 2023.

### **NOTE 9: EVENTS OCCURRING AFTER THE REPORTING PERIOD**

Subsequent to 31 December 2023, the Company received notification that Botanix's resubmission has been accepted by FDA as a complete response, and FDA confirmed that the Sofdra NDA will have a 6-month review period from resubmission culminating in a target approval date in late June 2024.

There are no other matters or circumstances which have arisen since the end of the period which significantly affects or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial periods.

### **DIRECTORS' DECLARATION**

In the opinion of the Directors of Botanix Pharmaceuticals Limited:

- 1. The attached financial statements and notes thereto are in accordance with the Corporations Act 2001 including:
  - a) complying with Accounting Standards AASB 134: 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
  - b) giving a true and fair view of the Group's financial position as of 31 December 2023 and of its performance for the half year then ended.
- 2. There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is signed in accordance with a resolution of the Board of Directors made pursuant to s.303 (5) of the Corporations Act 2001.

### INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Botanix Pharmaceuticals Limited

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Botanix Pharmaceuticals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2023 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

### Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

### Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
