

AZL TO ATTEND THE 2024 BMO GLOBAL METALS, MINING & CRITICAL MINERALS CONFERENCE

Arizona Lithium Limited (ASX: AZL, AZLO, AZLOA, OTC: AZLAF) (“Arizona Lithium”, “AZL” or “the Company”), a company focused on the sustainable development of two large lithium development projects in North America, the Big Sandy Lithium Project (“**Big Sandy**”) and the Prairie Lithium Project (“**Prairie**”), is pleased to announce its participation in the 33rd Annual BMO Global Metals, Mining & Critical Minerals Conference in Florida, United States.

Arizona Lithium Executive Director, Matt Blumberg, will be hosting one-on-one meetings during the conference with US institutional investors and OEM’s, which runs from 25-28 February 2024. Investors interested in a meeting should contact their BMO Capital Markets representation or the Company directly.

This is one of the industry’s leading institutional investment conferences and hosted by BMO Metals & Mining with a record attendance expected of over 1,600 global institutional investors and experts from the sector.

BMO Capital Markets has been advising companies in the metals and mining industry for more than a century and has been recognized for 14 consecutive years by Global Finance as the best investment bank for metals and mining in the world.

This ASX announcement is authorised for release by the Board.
