**Emerald’s Managing Director, Morgan Hart, said:**

“Emerald’s first half performance for FY24 has been exceptional across all parts of the Company’s operations.

“We have continued to meet production and AISC guidance off the back of strong gold production. The upward trending gold price has strengthened our balance sheet and at 31 December 2023 Emerald’s cash and bullion totalled A\$137.7 million, a 53% increase on the 30 June 2023 position.

“These outstanding results have been bolstered with our exploration results in Cambodia at the Okvau Gold Project extending the life of mine and Memot maiden resource. We are also excited about the prospects for our North Laverton Gold Project in Western Australia with the current exploration program directed to releasing an Emerald maiden resource ahead of ultimately commencing mining.

“We are focussed on ensuring that the Company’s growth trajectory is sustainable, with a pipeline of projects underpinning a long-term future as a mid-tiered gold producer and explorer with projects in two continents.”
