

Growing the major lithium discovery at Tabba Tabba, WA

Euroz Hartleys Rottnest Institutional Conference March 13, 2024

Disclaimer

This presentation has been prepared by Wildcat Resources Ltd (WC8 or the Company). It contains general information about the Company's activities current as at the date of the presentation. The information is provided in summary form and does not purport to be complete. This presentation is not to be distributed (nor taken to have been distributed) to any persons in any jurisdictions to whom an offer or solicitation to buy shares in the Company would be unlawful. Any recipient of the presentation warrants to the Company that the receipt of the presentation is not unlawful. It should not be considered as an offer or invitation to subscribe for or purchase any securities in the Company or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation or any information, opinions or conclusions expressed in the course of this presentation.

This presentation is not a prospectus, product disclosure document or other offering document under Australian law or under any other law. It has been prepared for information purposes only. This presentation contains general summary information and does not take into account the investment objectives, financial situation and particular needs of any individual investor. It is not financial product advice and investors should undertake their own due diligence and obtain their own independent advice from qualified professional advisors having regarding to their objectives, financial situation and needs. Neither WC8 nor any of its related bodies corporate is licensed to provide financial product advice.

This presentation and information, opinions or conclusions expressed in the course of this presentation contains forecasts, projections and opinions which constitute forward looking statements. Forward looking statements include, but are not limited to, statements concerning the Company's exploration programme, outlook and target sizes. They include statements qualified by words such as "potential", "target", "scheduled", "planned", "estimate", "possible", "future", "prospective" and similar expressions. Such forward looking statements are not a guarantee of future performance, and are subject to numerous risks, uncertainties and other factors, including unknown ones. Actual results and developments will almost certainly differ materially from those expressed or implied. There are a number of risks, both specific to WC8 and of a general nature which may affect the future operating and financial performance of WC8 and the value of an investment in WC8 including but not limited to title risk, renewal risk, economic and general market conditions, stock market fluctuations, price movements, regulatory risks, operational risks, reliance on key personnel, uncertainties relating to interpretation of exploration results, geology and resource estimations, native title risks, foreign currency fluctuations, uncertainties relating to the availability of/access to additional capital, infrastructure or environmental approvals, and mining development, construction and commissioning risk. WC8 expressly disclaims any intention or obligation to update or revise any forward looking statements whether as a result of new information, future events, or otherwise.

To the maximum extent permitted by law, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted, by the Company or any of its officers, employees, agents or consultants or any other person, as to the adequacy, accuracy, completeness or reasonableness of the information in this presentation. An investment in the shares of the Company is to be considered highly speculative.

The exploration targets or conceptual exploration targets in this presentation or expressed during the course of this presentation are subject to completion of the necessary feasibility studies, permitting and execution of all necessary infrastructure agreements. In relation to any statements pertaining to future exploration targets or conceptual exploration targets, the nature of the exploration target means that the potential quantity and grade is conceptual in nature. This presentation and information, opinions or conclusions expressed in the course of this presentation should be read in conjunction with WC8's other periodic and continuous disclosure announcements lodged with the ASX, which will be available on the WC8 website.

The information in this report that relates to Exploration Results and Mineral Resources for the Mount Adrah, Bolt Cutter, and Tabba Tabba Projects is based on, and fairly represents, information compiled by Mr Samuel Ekins, a Competent Person who is a Member of the Australian Institute of Mining and Metallurgy (AusIMM). Mr Ekins is the Technical Director of Wildcat Resources Limited, the owner of the Mount Adrah, Bolt Cutter and Tabba Tabba Projects.

Mr Ekins has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Mr Ekins consents to the inclusion in the document of the matters based on his information in the form and context in which it appears.

This presentation contains information extracted from the following ASX market announcements which are available on the Company's website at <u>www.wildcatresources.com.au</u>

ASX Listing Rule Information

The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the original market announcements continue to apply and have not materially changed. The company confirms that the form and context in which the competent persons findings have not been materially modified from the original announcement.

Forward-Looking Statements

This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Wildcat Resources Group Limited's planned exploration program and other statements that are not historical facts. When used in this document, the words such as "could," "plan," "estimate," "expect," "intend," "may", "potential," "should," and similar expressions are forward-looking statements. Although Wildcat Resources Limited believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.

Board of Directors and Management

Jeff Elliott

Non-Executive Chairman

- +30 yrs exploration, mining and business management experience
- Former MD of international mining consultants CSA Global
- Co-founder of successful private companies across mining services, technology and mineral exploration

AJ Saverimutto Managing Director

- 25+ yrs of Corporate and Mining
 Operational experience
- Former Mine Manager of the giant Grasberg project
- Mining Engineer and Accountant
- Extensive involvement in ASX companies and NED of Grange Resources

Matthew Banks Executive Director

- Joint founder of Wildcat Resources
- Been involved with many value add transactions within the junior resource industry
- Joint founder of Rumble Resources
- Background in Finance and key market facing executive

Technical Director

 Geologist and experience with senior roles at Evolution Mining

DCAT

- Lead the technical team to the Tabba Tabba lithium discovery
- Involved in Business Development and key executive with Widcat Resources

Tim Manners

Chief Financial Officer

- 25+ yrs of Finance experience
- Involved in many ASX companies but most recently at Ramelius Resources
- Involved in over 15 M&A transactions
- Market facing executive
- Non-Executive Director of Delta
 Lithium

Torrin Rowe Geology Manager

- Experienced geologist with specialised experience in progressing greenfields projects to pre-mining in several jurisdictions.
- Lead the technical team to the Tabba Tabba lithium discovery
- Completing Masters in LCT mineralisation in the Pilbara

- Geologist with 10+ yrs of experience in Geology with Newmont and Kidman Resources.
- Experienced in Lithium with Mt Holland and Covalent Lithium project.
- Taken Lithium projects from discovery to development.

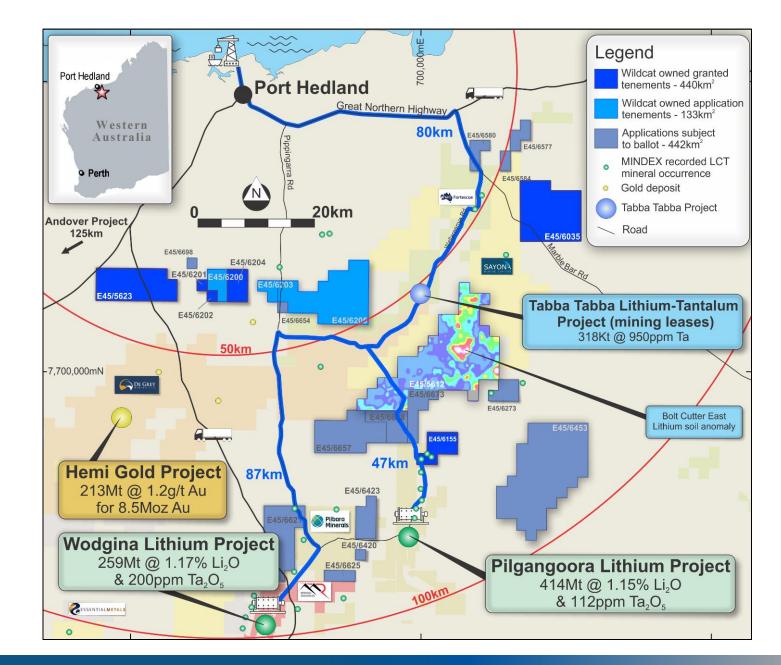

- Corporate advisor and Charted Secretary
- NED and Company secretary to a number of ASX companies
- Member of the Governance Institute of Australia and holds a Graduate Diploma of Applied Finance and a Bachelor of Commerce degree

Location

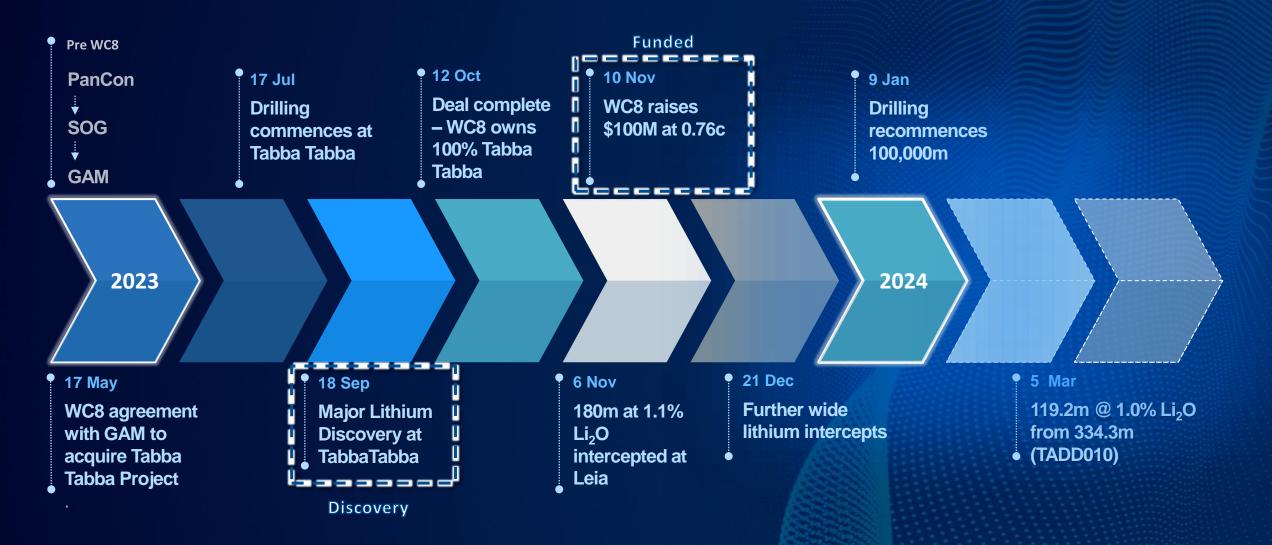

Tabba Tabba Lithium Project

- Pilbara #1 Location in the world
 - 80km from Port Hedland
 - ~ 20% global lithium supply
- Close to Pilgangoora (47km) and Wodgina (87km)
- Granted Mining Lease
 - Previously approved for mining in 2015
- Large-scale Leia discovery
 - Outcropping for 1km
 - Up to 180m wide, 2.2km strike
 - In large pegmatite field
- Spodumene dominant mineralisation
- 100,000m of drilling 6 months

History Discovery of Tabba Tabba

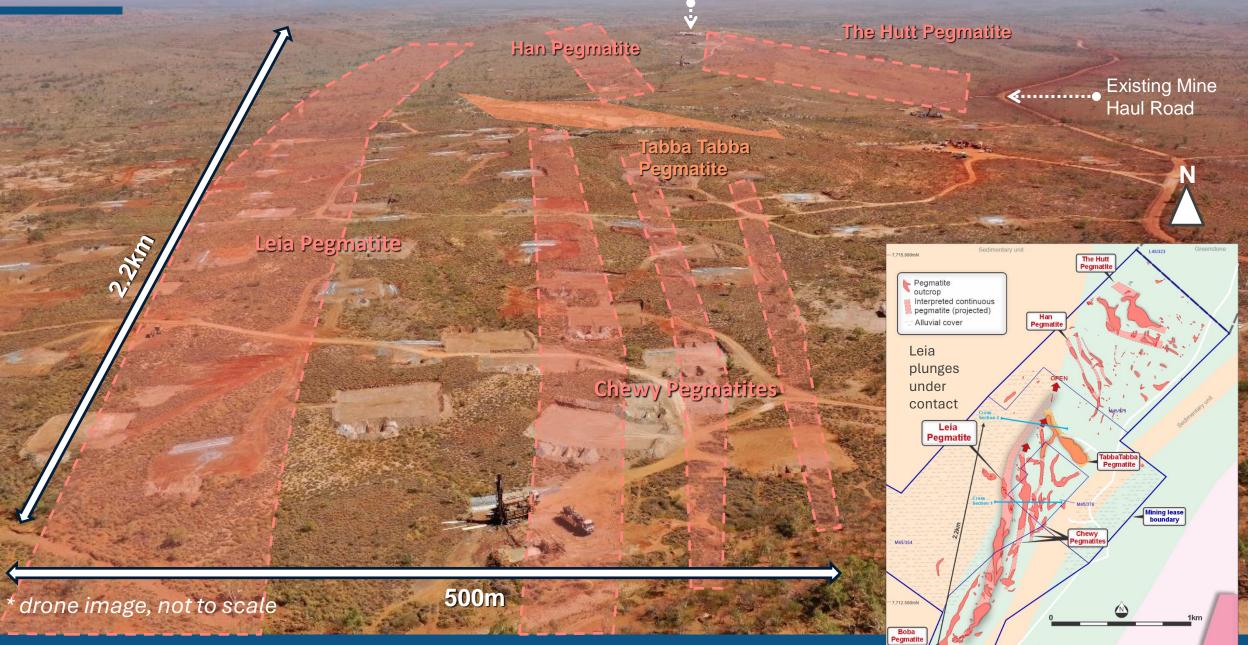

Leia Pegmatite Tier 1 potential – assay results

180m @ 1.1%	Li ₂ O from 206m (TARC148) (est. true width) including 21m at 1.4% Li₂O from 209m 	 99m @ 1.2% Li₂O from 207.0m (TARC234D) (est. true width) within 135m at 0.9% Li₂O from 179.0m)
119.2m @ 1.0%	Li ₂ O from 334.4m (TADD010) (est. true width) including 31m at 1.7% Li₂O from 336m 	70m @ 1.0% Li ₂ O from 183m (TARC145) (est. true width) • including 47m at 1.5% Li ₂ O from 183m	
85m @ 1.5%	Li ₂ O from 133m (TARC128) (est. true width) including 9m at 3.0% Li₂O from 199m 	69.9m @ 1.2% Li ₂ O from 399m (TARC245D) (est. true width) • within 123.4m at 0.9% Li ₂ O from 350.7m	
85m @ 1.3%	Li ₂ O from 167m (TARC144) (est. true width) including 10m at 2.5% Li₂O from 175m 	60.3m @ 1.4% Li ₂ O from 297.8m (TARC161AD) (est. true width) • within 111.4m at 0.9% Li ₂ O from 246.6m

Key Value Drivers

The Right Location

- Pilbara produces 20% of the world's spodumene lithium
- 80km from port
- Approved Mining Lease

The Right Asset

- Impressive size and scale
- Extensive 100,000m of drilling now underway
- Funded for exploration, res. drilling & studies

The Right Team

- Discoverers of Tabba Tabba
- Extensive exploration
 experience
- Development experience
 and track record

Thank you
