## PRINCIPAL ACTIVITIES

The company is a mineral exploration company which is presently focused on the exploration of battery minerals such as lithium, copper, germanium and zinc in Canada, Morocco and Austria.

## SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

In the opinion of the Directors, other than those items outlined in the Review of Operations, there were no other significant changes in the state of affairs of the Group which have not been disclosed elsewhere in this report.

## REVIEW OF OPERATIONS

During the half-year ended 31 December 2023 the Company's primary activities included:

- Rapid advancement of the Falcon Lake Lithium Project in Ontario, Canada including:
  - Completion of successful Falcon Lake summer exploration program resulting in the identification of 30 high priority drill targets across a 5km prospective corridor
  - Secondary Drilling Permit approved, enabling Phase 2 exploration drilling across the highly prospective 5km corridor at Falcon Lake
  - Falcon Lake Phase 2 Drilling commenced at Falcon Lake Lithium Project in Ontario, Canada including:
    - Multiple high-grade assay results received from recent drilling at Falcon East Extension, confirming the presence of significant lithium mineralisation from surface.
      - 9,286m drilled since drilling operations commenced in June 2023.
      - Thick, shallow, high-grade intercepts including assays of up to 31.75m @ 1.45% Li<sub>2</sub>O;
      - Multiple significant intercepts over 20m drilled during December quarter including 20.65 metres @ 1.48% Li<sub>2</sub>O from 66.6m down-hole, 23FL-081.
- Strategic acquisition of Falcon Extension property expands exploration potential.
  - Amalgamation of Falcon Main and Falcon North properties through acquisition of adjacent extensional properties adds 20km<sup>2</sup> of highly prospective exploration ground to the Falcon Lake project package totalling 51km<sup>2</sup>.
- The Company received a total of CAD\$200,000 under the Ontario Junior Explorer Program (OJEP) grant funding scheme

# BATTERY AGE MINERALS LTD

NOTES TO THE CONSOLIDATED FINANCIAL REPORT  
For the half-year ended 31 December 2023

- Planning commenced for maiden drill programme at the Tidili Copper Project in Morocco.
- Discussions significantly progressed with governmental organisations in Austria to progress works on the Bleiberg Zinc-Lead-Germanium Project and BM8 Austrian entity Battery Age Minerals GmbH established.
- Highly experienced finance professional Paul Hughes appointed as CFO.
- Successful capital raising of \$6.4M to accelerate the Falcon Lake Exploration Programme.
- Gerard O'Donovan resigned as Managing director with Nigel Broomham (General Manager Exploration) promoted to Interim CEO

## Falcon Lake Project

Lithium, Ontario Canada (90% Interest)

### Falcon Lake – Highlights to date

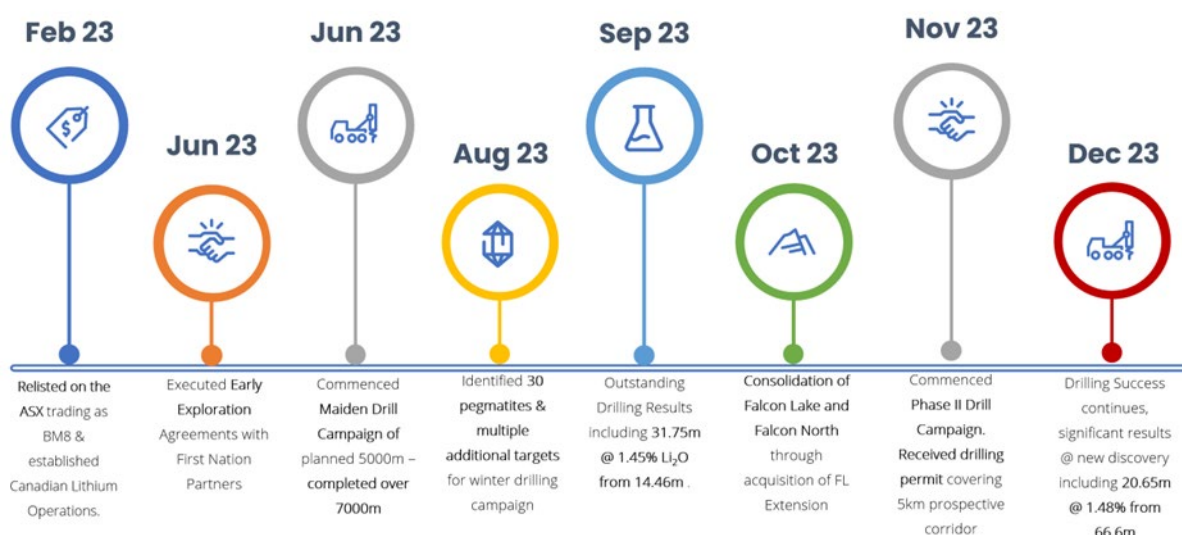

Figure 1 – Falcon Lake achievements to date.

The Company's Phase 1 drill programme was completed in the September quarter with more than 7,000m safely drilled by Rodren Drilling with support from Battery Age exploration personnel as well as geological support from Coast Mountain Geological.

On completion of the Company's maiden drill program, the strategic acquisition of the Falcon Extension property expanded the exploration potential at Falcon Lake project through the consolidation of Falcon Main and Falcon North properties, adding ~20km<sup>2</sup> of highly prospective exploration ground. The Falcon Lake project now comprises a total land package of ~51km<sup>2</sup> (refer to ASX announcement 10 October 2023 for further details and transaction terms).

## NOTES TO THE CONSOLIDATED FINANCIAL REPORT

For the half-year ended 31 December 2023

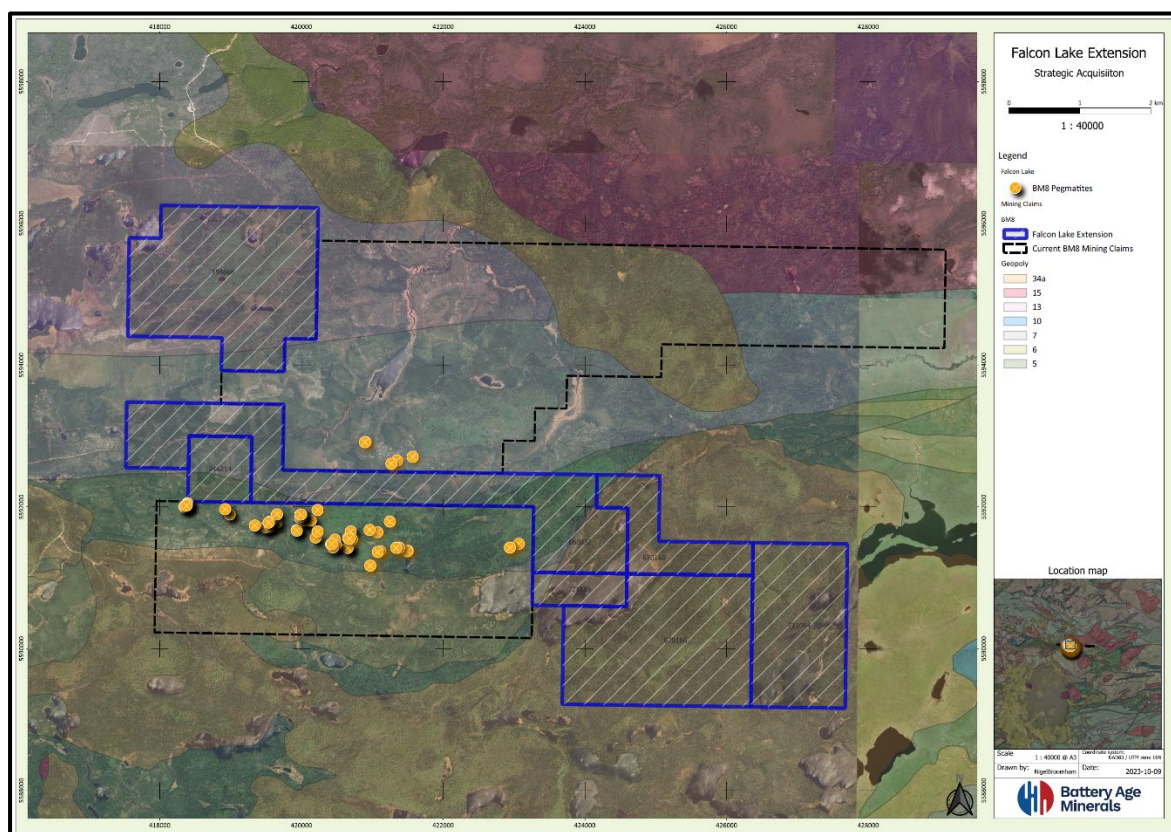

Figure 2 – Acquired Falcon Extension shown in blue outline adjacent to Falcon Main and Falcon North with mapped pegmatites in yellow.

Following a brief pause during the hunting season to respect the wishes of the Company's First Nations partners, Battery Age remobilised personnel to Falcon Lake to commence Phase 2 drilling.

Battery Age was pleased to announce that this drilling programme will be carried out by the newly formed Rodren Drilling Whitesand First Nation Joint Venture, a JV between the Company's incumbent drilling contractor, Rodren, and one of the local First Nation groups, Whitesand.

The 10,000m – 20,000m program re-commenced at the recently discovered step-out zone at Falcon East and is designed to test new pegmatite discoveries within over 30 high-priority targets generated from the results of the summer field work programme.

An additional 1,905m were completed in the December quarter bringing the total metres drilled in 2023 to 9,286m, all since mobilising in June 2023. Significant intercepts from Phase 2 drilling highlights the potential for scale at Falcon Lake with multiple high-grade assay results received from Falcon East Extension, confirming the presence of significant lithium mineralisation from surface.

Falcon East Extension is the first of the 30+ targets generated from the 2023 summer field campaign at Falcon Lake to be drill tested and has emerged as a priority focus for drilling in 2024, with shallow mineralisation confirmed at the first of 30 targets to be tested as part of the Phase 2 drilling program.

The results cap off a very busy year for the exploration team at Falcon Lake, with significant results generated in rapid time since mobilising the team in June this year. Drilling has paused over the holiday season with the commencement of drilling operations currently in the planning stages.

NOTES TO THE CONSOLIDATED FINANCIAL REPORT  
For the half-year ended 31 December 2023

## Falcon Lake Lithium Project Geological Plans and Sections – Falcon East Extension

Battery Age continued its baseline fieldwork program at the Falcon Lake Lithium Project in Canada, with Wabadowgang Noopming Management conducting baseline terrestrial and fisheries field programs as part of the assessment process.

The Company is committed to adhering to best practices in environmental stewardship and ensuring the preservation of the natural ecosystems surrounding Falcon Lake.

### Bleiberg Project

Lead-Zinc Germanium, Austria (15% interest with Earn in of up to 80%)

Following early desktop assessments, the Company identified a trend hosting potential extensions of the mineralisation to the west north-west of the old Bleiberg mine workings and expanded the Company’s land position by pegging additional exploration licences. This land is 100%-owned.

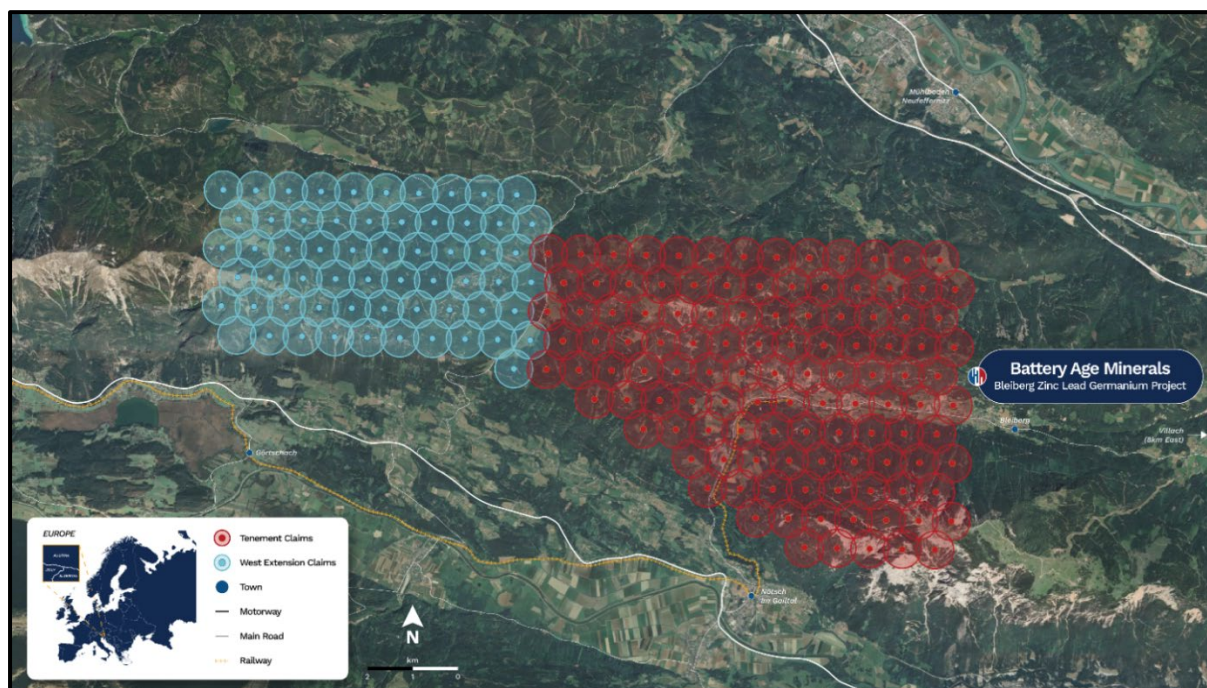

Figure 3 –100% staked claims identified in blue and existing earn-in claims shown in red

# BATTERY AGE MINERALS LTD

NOTES TO THE CONSOLIDATED FINANCIAL REPORT  
For the half-year ended 31 December 2023

Battery Age has progressed discussions significantly with Austrian regulatory bodies during the December quarter regarding working together collaboratively to further progress the Bleiberg Project and expects to be able to commence exploration activities during 2024.

The Company's project claims are located adjacent to the historical Bleiberg mine, which has some of the world's highest reported Germanium grades (200g/t) as well as proven Gallium mineralisation (90-110g/t).

## Tidili Project

Copper Gold, Morocco (85% Interest)

Following on from the encouraging assay results reported from surface samples collected at the 85%-owned Tidili Copper Project in Morocco in April, Battery Age management have completed drill program planning activities prior to final approval of the Company's maiden drill campaign at Tidili.

## King Tut & Bloom Lake Projects

Gold, Argentina (100% interest); Copper Cobalt, Canada (100% interest)

The Company continued to meet the minimum expenditure requirements which included maintenance and administrative costs for these projects during the 6 months ended 31 December 2023.

## FINANCIAL RESULTS

The Group made a loss for the six months ended 31 December 2023 of \$1,045,265 (31 December 2022: loss \$1,265,674). As at balance date 31 December 2023, the Group had capitalised exploration costs totalling \$8,217,182 (30 June 2023: \$3,947,317), cash and cash equivalents of \$3,075,633 (30 June 2023: \$3,200,425), and net assets of \$15,411,822 (30 June 2023: \$11,681,411).

## CORPORATE ACTIVITIES

### Shareholder Meeting

On 27 November 2023, the Company held its 2023 Annual General Meeting at which, all resolutions as presented to shareholders in the Notice of Meeting dated 26 October 2023 were approved.

### Capital Raise – Flow Through

During the September Quarter, the Company raised A\$5.4M (C\$4.7M) utilising the "flow-through shares" provisions under Canadian tax law, with the flow-through shares placed at A\$0.46 per share, which represented an 11% premium to Battery Age's last closing price prior to the announcement of the capital raise.

The funds raised will underpin continued exploration activities and up to ~15,000m drilling at the Falcon Lake Lithium Project.

An additional A\$1m was raised for working capital requirement from institutional placements.

### Key Management Changes

- Mr Nigel Broomham, the Company's General Manager of Exploration, was appointed Interim CEO in November 2023, following the resignation of Mr Gerard O'Donovan as Managing Director and Chief Executive Officer, effective 11 November 2023.
- Appointment of Mr Paul Hughes as Chief Financial Officer, effective 17<sup>th</sup> July 2023.

For the half-year ended 31 December 2023

## 1. CORPORATE INFORMATION

Battery Age Minerals Ltd, formerly Pathfinder Resources Ltd ("Battery Age Minerals" the "Company" or the "Group") is a company domiciled in Australia. The address of the Company's registered office is Level 50, 108 St Georges Terrace, Perth WA 6000.

The company is a for-profit entity and is primarily involved in identifying and investing in mineral exploration assets and conducting exploration activities on those assets.

## 2. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

### *Statement of Compliance*

The financial statements are general-purpose financial statements prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standards ("AASBs") adopted by the Australian Accounting Standards Board ("AASB").

The financial statements comply with International Financial Reporting Standards (IFRSs) adopted by the International Accounting Standards Board (IASB).

### 2.1. Basis of Preparation

These general-purpose financial statements for the half-year reporting period ended 31 December 2023 have been prepared in accordance with Australian Accounting Standard 134: Interim Financial Reporting and the Corporations Act 2001. Compliance with AASB 134 ensures compliance with IAS 34 Interim Financial Reporting.

These half-year financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Group as the full financial statements. Accordingly, these half-year financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2023 and any public announcements made by Battery Age Minerals Ltd during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001 and the ASX Listing Rules.

The half-year report has been prepared on an accruals basis and is based on historical costs. Cost is based on the fair value of the consideration given in exchange for assets.

For the purpose to preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

The accounting policy for flow-through premium liability balance is related to the share placement of flow-through shares as defined under the Income Act of Canada. The Company incurs qualifying Canadian exploration expenses as defined under the Income Act, Canada ("Qualifying CEE") in the amount of in an amount equal to the gross proceeds raised in connection with the flow-through share placement. Pursuant to the terms of the flow through share agreements, the tax deductions associated with the exploration expenditures are renounced to the subscribers. The difference between the value ascribed to flow through shares issued and the value that would have been received for shares with no tax attributes is initially recognised as a liability. When the expenditures are incurred, the liability is reduced and other income is recognised in the statement of profit or loss and other comprehensive income.

All other accounting policies and methods of computation are the same as those adopted in the most recent annual financial statements. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

### *Standards and Interpretations applicable to 31 December 2023*

In the half-year ended 31 December 2023, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the half-year reporting periods beginning on or after 1 July 2023.

# BATTERY AGE MINERALS LTD

NOTES TO THE CONSOLIDATED FINANCIAL REPORT  
For the half-year ended 31 December 2023

As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Company and therefore no material change is necessary to Company accounting policies.

## *Standards and Interpretations in issue not yet adopted*

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

## *Significant accounting judgments and key estimates*

The preparation of half-year financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this half-year financial report, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated annual financial report for the year ended 30 June 2023.

## 2.2. Going Concern Basis

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the six months ended 31 December 2023 the Group incurred cash outflow from operating and investing activities of \$6,180,195 (December 2022: \$776,053) for the half-year ended 31 December 2023. The Group made a loss for the period of \$1,045,265 (loss in 31 December 2022: \$1,265,674). At balance date, working capital netted to \$1,901,395 (30 June 2023: \$2,149,943) and Cash reserves were \$3,075,633 (30 June 2023: \$3,200,425).

The Directors are mindful of the Company's working capital requirements and cognisant of its developed capital management program that will provide funding to maximize the potential of its current asset and provide a strong base for increasing shareholder value. Based on cash flow forecasts, subsequent successful capital raise of \$6.4 million on 24 August 2023 and the 36.5% investment in Equinox Resources (EQN) the Directors consider the basis of going concern to be appropriate.

No dividends were paid or declared by the Company to members since the end of the previous financial year and the Directors do not recommend the payment of a dividend at this time.

At shareholders' meetings each ordinary share is entitled to one vote in proportion to the paid-up amount of the share when a poll is called, otherwise each shareholder has one vote on a show of hands.

## 7. SEGMENT INFORMATION

The entity has five operating segments; Australia, Canada, Argentina, Austria and Morocco. The entities are managed primarily on the basis of geographical area of interest. Each geographical area has different risk profiles and performance assessment criteria. Operating segments are therefore determined on the same basis. The Board of Directors (the chief operating decision maker) reviews internal reports of each operating segment at least quarterly.

Information related to each operating segment for the period ended 31 December 2023 is set out below.

- Continuous Service: Performance Rights to be converted into shares, subject to the employee continuous service until 27 January 2025

## Performance Rights Valuation

The fair value of the services received in return for PRs granted are measured by reference to the fair value of the PRs granted. The fair value of the services is recognised as an expense on a straight-line basis over the vesting period and is determined by multiplying the fair value per PR by the number of PRs expected to vest.

The probability of achieving market performance conditions is incorporated into the determination of the fair value per PR. No adjustment is made to the expense for PRs that fail to meet the market condition. The number of PRs expected to vest based on achievement of operational conditions, are adjusted over the vesting period in determining the expense to be recognised in the consolidated income statement. In order to convert PRs, the holders are required to be continually engaged with the Group at the time of achieving the performance hurdles.

In determining the fair value of PRs granted during the six months ended 31 December 2023, for those PRs with market-based vesting conditions, the Company has applied up-and-in Trinomial pricing, where the PRs are based on non-market based vesting conditions (tranche d & e), the share price as per the issue price has been utilised. Other inputs in relation PRs are:

## INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Battery Age Minerals Limited

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Battery Age Minerals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2023 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

#### Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility for the review of the financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
