## APPOINTMENT OF STRATEGIC ADVISOR IN GREENLAND

---

**ENERGY TRANSITION MINERALS LTD (ASX: ETM)** (“ETM or “the Company”) is pleased to announce the appointment of highly regarded Greenland-based businessman, entrepreneur and former political adviser **Svend Hardenberg** as the Company’s new Greenland Strategic Advisor to the Board.

This important appointment marks a significant step towards the Company’s objective of deepening its engagement and operations in Greenland, particularly in the realms of renewable energy and sustainable development, to support the future development of its Kvanefjeld rare earth element (“REE”) Project.

Mr Hardenberg is a highly respected and well-known figure in Greenland, with a track record of successful engagement and positive achievements in both the public and private sectors. Born in 1969 and residing primarily in Nuuk, he has made substantial contributions to Greenland’s economic and social development as well as in helping the nation achieve global recognition.

His extensive experience includes serving as the Permanent Secretary at the Premier’s Office under the leadership of Alleqa Hammond of the Siumut Party, where he contributed to significant national projects and policy development.

His expertise extends into the telecommunications sector as a former board member of Tele Greenland A/S, the Government-owned telecommunications company, highlighting his deep connections within the Greenlandic community and his proficiency in navigating complex corporate and governmental landscapes.

Moreover, Mr Hardenberg has demonstrated a strong commitment to local communities and economic development as the Chief of the Qaasuitup Municipality, home to 17,000 people, where he played a key role in regional planning and development.

His entrepreneurial spirit is evident through his involvement in various initiatives, particularly in the renewable energy sector, where he is actively engaged in developing hydro infrastructure across Greenland.

An advocate for sustainable development, Mr Hardenberg champions the Tasersiaq hydroelectric power project, which aims to harness Greenland’s considerable renewable energy potential. His leadership and advocacy in this area align with ETM’s values and strategic goals, emphasizing the importance of sustainable and responsible business practices.

In his role as Greenland Strategic Advisor, Mr Hardenberg will bring invaluable insights, networks, and expertise to ETM. He will play a crucial role in guiding the Company’s strategic initiatives and enhancing its relationships within Greenland, helping to secure access to senior levels within the business and government communities.

**Commenting on the appointment, ETM Managing Director and CEO, Daniel Mamadou, said:** *“Svend is an exceptional individual who is extremely well regarded in Greenland. “We are very fortunate to have secured his agreement to join the ETM team as our Greenland Strategic Advisor, and are excited to have him help us advocate for the strategic importance of the Kvanefjeld Project as a potential source of essential critical minerals for the global energy transition for many decades to come.*

*“His appointment reflects our commitment to respectful and informed engagement with the Greenlandic community and our dedication to contributing positively to the region's economic and environmental well-being.*

*“We are confident that Svend's leadership and vision will greatly contribute to our continued success, helping to open important doors for the Company in Greenland and acting as a senior representative of our subsidiary, Greenland Minerals A/S, in Nuuk, where the political community is concentrated.*

*“I am confident that Svend will make a major positive contribution to our operations in Greenland and help us to forge a sustainable and prosperous future for ETM in Greenland and beyond. We look forward to welcoming him on board.”*
