## **Principal activities**

The principal activities of the Company and its subsidiaries are the acquisition, exploration and development of commercially significant resource projects in Chile, with a focus on gold. The Company currently holds interests in Chile, namely the El Zorro Gold Project, which is prospective for gold.

## **Operating results**

The net profit after tax and non-controlling interest, attributable to the Group for the financial half-year ended 31 December 2023, amounted to \$636,077 (2022: net loss after tax of \$1,504,202).

#### **Review of Operations**

Tesoro is focused on exploration and development of the El Zorro Gold Project (**El Zorro** or the **Project**) located in Northern Chile. El Zorro is proximate to well established infrastructure and is 140km from the city of Copiapo and approximately 800km north of the Chilean capital, Santiago (refer Figure 1). Successful exploration at the Project has resulted in the definition of the 1.46 Moz Au Ternera Gold Deposit (**Ternera** or the **Deposit**) Mineral Resource Estimate (**MRE**) (refer Table 1 and Figure 2). The combination of highly prospective geology and positive results from regional exploration have confirmed El Zorro as a new Chilean gold district.

Ternera was the subject of a Phase 1 Scoping Study (**Scoping Study**) which demonstrated the potential development of a gold mining and processing operation. The Scoping Study considered an initial development of a Phase 1 open pit mining operation on the upper 200m of the Deposit to feed a 2.4 Mtpa gold processing plant. Key outcomes highlighted the ability of the Deposit to support the estimated capital required for the development of the Project at a scale that would result in an annual average gold production of between 90 and 100 Koz per annum (refer Table 2).

During the current period, the Company further increased its ownership in El Zorro, successfully delineated several new large outcropping gold anomalies and progressed activities to grow and advance Ternera.

# **Ternera Gold Deposit**

## Growth and advancement

During the period a detailed mapping and continuous surface channel sampling program followed up previously announced shallow, high-grade Ternera South drilling results (refer ASX Announcements 11 May 2023 and 21 June 2023). The program was designed to better define the southern extensions of the Ternera Deposit.

On 18 September 2023, Tesoro announced the definition of shallow, high-grade gold zones, with multiple mineralised fault zones returning high-grade results. Assay results confirmed surface gold mineralisation to 380m south of the existing MRE suggesting the potential for a significant southern extension to Ternera. Key results included;

- 4.00m @ 13.31g/t Au (EZTR004143);
- 13.00m @ 9.67g/t Au (EZTR004207) including;
  - 6.00m @ 20.02g/t Au; and
  - 3.00m @ 30.80g/t Au.
- 9.00m @ 4.60g/t Au (EZTR004208) including;
  - 3.00m @ 12.60g/t Au.
  - 3.00m @ 4.70g/t Au (EZTR004209).

## Project advancement

The Company continued preliminary project development workstreams during the period. This work included power and water studies, metallurgical testwork program design, and preliminary financial and engineering modelling.

## **Regional exploration**

El Zorro's permitted tenure covers an area of over 570km², with less than 5% of the ground drilled to date. Through H2 FY23, previously identified regional anomalies were further investigated with the new Drone Hill target defined.

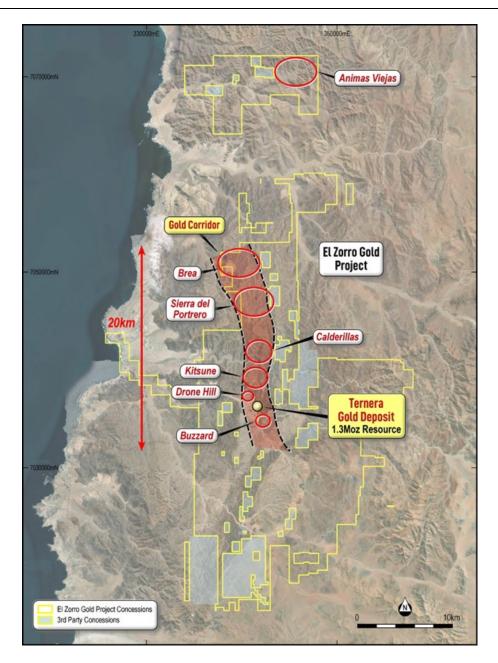

Figure 3: El Zorro Gold Project Ternera District Map and targets showing large scale gold corridor and location of high priority gold targets defined from mapping and sampling. Datum PSAD56 19S.

# Drone Hill target

Detailed, systematic mapping and sampling work conducted at Drone Hill identified a broad, continuous zone of outcropping gold mineralisation associated with a northwest trending fault system within sedimentary rocks. Positive results from surface sampling conducted west of Ternera were reported on 19 October 2023. These assay results delineated a new large outcropping gold anomaly which has never been drilled, with wide surface sample intersections of up to 47m returned, including:

- 47m @ 1.40g/t Au (EZTR004255) including;
  - 9m @ 4.66g/t Au
- 15m @ 0.53g/t Au (EZTR004132)
- 3m @ 1.88g/t Au (EZTR004110)
- 2m @ 5.21g/t Au (EZTR4108)
- 3m @ 2.11g/t Au (EZTR004282).

A number of El Zorro Tonalite (EZT) intrusive dykes outcrop to the west of the northwest trending fault system and the intersection of faults with the EZT, presenting high-priority drill targets for the next stage of work at Drone Hill (refer Figures 4 and 5). Surface mineralisation is now confirmed to extend at least 750m west and 380m south of the Ternera Gold Deposit (refer ASX announcement 18 September 2023 and 12 February 2024).

Drilling of the Drone Hill target is planned to commence in during the first quarter of 2024.

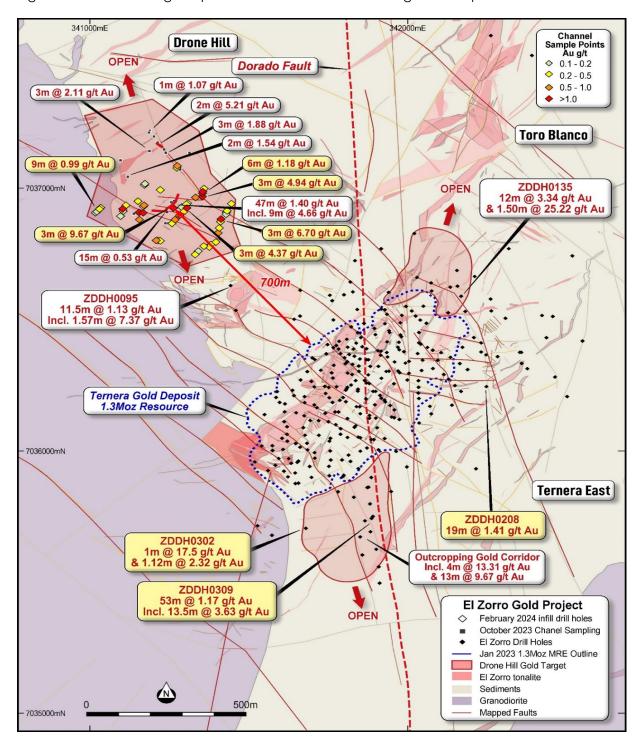

Figure 4: Geology map and surface sample locations at Drone Hill showing proximity to the Ternera gold Deposit. Datum PSAD56 19S. Refer ASX Announcement 12 February 2024.

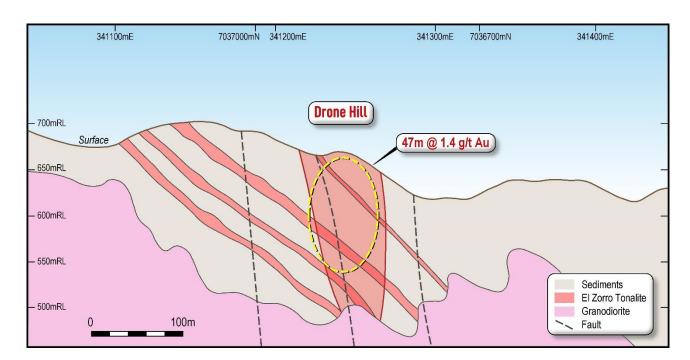

Figure 5: Drone Hill Section looking Northeast showing prospective gold zone associated with faulting and EZT intrusive units and large channel sampling gold anomaly at surface (refer ASX Announcement 18 October 2023) – Drilling planned for early 2024.

## Kitsune Target

Results received for the initial eight (8) scout drill holes from the Kitsune Targets confirm the prospectivity of the area to host additional gold mineralisation within a similar geological setting to Ternera. All initial holes intersected the target EZT lithology adjacent to the Dorado fault, which are the main gold host rocks at the Ternera Gold Deposit. Due to accessibility and operational challenges with the drilling contractor, the highest priority holes at Kitsune are yet to be drilled. Kitsune warrants additional drilling to fully test the extensive surface gold anomaly defined by mapping and sampling.

## Calderillas Target

The Calderillas Target area occurs approximately 5km north of Ternera and immediately north of Tesoro's untested Kitsune Target. The proximity of Ternera, Calderillas and Kitsune (refer Figure 3) combined with the presence of identified widespread outcropping gold occurrences, indicates the potential for a large scale, linked mineralised system.

## Capital Raising to Advance Gold Exploration

On 13 November 2023, Tesoro announced an equity placement to raise approximately A\$3.0 million (before costs). Funds raised from the placement have and will be deployed towards drilling at Drone Hill, Ternera and district targets, to advance project studies, metallurgical testing and for new target generation. The placement comprised the issue of approximately 166.7 million new fully paid ordinary shares (no options were issued) in the Company to professional and sophisticated investors at an issue price of \$0.018 per share comprising:

- Tranche 1: Approximately \$1,752,800 via the issue of 97,377,778 shares within the Company's placement capacity under ASX Listing Rule 7.1 and 7.1A (4,016,521 shares under Listing Rule 7.1 and 93,361,257 under Listing Rule 7.1A); and
- Tranche 2: Approximately \$1,247,200 via the issue of 69,288,889 shares to Corporate International Holdings BV, a wholly owned subsidiary of Gold Fields Limited, which were subject to obtaining shareholder approval at an Extraordinary General Meeting held on 15 January 2024.

## Salary Sacrifice Plan

On 1 August 2023 and 19 October 2023, the Company issued 277,777 and 380,570 share rights respectively, to Executive Director, Mr Linton Putland in lieu of approximately \$7,500 of remuneration for each issue, pursuant to the Company's Salary Sacrifice Plan as approved by shareholders at the Annual General Meeting held on 25 November 2022. The Salary Sacrifice Plan enables executives, employees and directors of Tesoro to receive share rights in the Company, in lieu of remuneration or fees. The Salary Sacrifice Plan has been designed to further align participants (being executives, employees and directors of the Company) with shareholder interests whilst being an effective way for the Company to conserve capital.

## El Zorro S.C.M. Capital Increase and Joint Venture with Wanaco SpA

On 3 July 2023, Tesoro announced that its 95%-owned Chilean subsidiary, Tesoro Mining Chile SpA (TMC) had increased its ownership of the Joint Venture company that holds the El Zorro concessions, El Zorro S.C.M. to approximately 94.42% (from 85%). At a Shareholder Meeting of El Zorro S.C.M. held on 7June 2023, it was resolved to increase the capital base via contribution on a pro-rated basis. TMC subscribed its pro-rate shares for an amount equal to CLP12,120,334,847 (approximately A\$22.4 million), which reflects its funding of exploration and development activities at El Zorro since March 2021. The minority shareholder in El Zorro S.C.M., being Wanaco SpA (Wanaco), declined to participate in the capital increase, resulting in TMC increasing its ownership in El Zorro S.C.M. to approximately 94.42%. Tesoro's underlying ownership interest in El Zorro is now approximately 89.1%.

As previously announced Wanaco is disputing the valuation and procedure followed for the capital increase approved in the Shareholders Meeting of El Zorro S.C.M. held on 11 February 2021. The initial proceedings brought by Wanaco were dismissed by the Court as they were deemed to have been incorrectly brought, requiring correction. On 13 October 2021, the proceedings were brought in the correct manner. During February and March 2023, several procedural hearings were conducted whereby all parties were provided the opportunity to present evidence and expert witnesses for consideration by the Court. These hearings were to assess if the proceedings brought by Wanaco warranted progression to a trial.

Tesoro maintains its position that all capital increases were properly valued and duly approved under Chilean Corporate Regulations and that Wanaco's claim is spurious.

#### Significant changes in the state of affairs

On 29 January 2024, the Company announced results from surface sampling which identified two new outcropping gold anomalies along the Dorado Fault Zone, within a 20km long, highly prospective gold corridor situated approximately 15km north of Ternera. Results from the newly defined Le Brea prospect included: 2m @ 12.00g/t Au (EZTR004533), 2m @ 4.14g/t Au (EZTR004558) and 3m @ 3.07g/t Au (EZTR004525). The newly defined Sierra del Portrero prospect returned results that included: 1m @ 43.20g/t Au (EZTR004503) and 1m @ 4.33g/t Au (EZTR004507).

On 1 February 2024, Executive Director Linton Putland was issued 253,378 of Share Rights to settle salary sacrificed under the Company's Salary Sacrifice Plan.

On 12 February 2024, Tesoro reported further positive results from systematic infill and extensional surface sampling at the Drone Hill target 550m northwest of Ternera. High grades of up to 9.67g/t gold were returned, with results expanding the large outcropping anomaly to over 750m long by 250m wide.

On 16 February 2024, the Company appointed Ms Sue Wong as Company Secretary, following the resignation of Ms Sarah Wilson.

On 8 March 2024, Class C performance rights of 20,030,000 held by Directors Zeffron Reeves and Geoff McNamara, lapsed.

Other than the above, there are no matters or circumstances that have arisen since the end of the period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group.

## Note 1. Statement of Significant Accounting Policies

#### Statement of compliance

The half-year consolidated financial statements are general purpose financial statements prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134: Interim Financial Reporting, Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

The consolidated half-year report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2023 and any public announcements made by Tesoro Gold Limited during the half-year in accordance with continuous disclosure requirements arising under the Corporations Act 2001 and ASX Listing Rules.

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

## New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

## **Going Concern**

The financial statements have been prepared on the basis of going concern which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

As disclosed in the financial statements, the Group held cash and cash equivalents of \$1,196,906, had a net current asset surplus of \$2,199,518 and generated a profit of \$696,302 and had net cash outflows from operating and investing activities of \$759,953 and \$2,380,049 respectively for the half-year ended 31 December 2023.

The Group has not generated revenues from operations and is principally dependent upon the ability of the Group to meet its working capital requirement by raising additional funds from equity markets and potential investors and curtailing corporate, administration expenses and overhead cash outflows until such time as it attains positive cash flows from operating activities.

The Directors believe that it is reasonably foreseeable that the Group will be able to continue as a going concern, after consideration of the following factors:

- Post 31 December 2023, the Group completed a placement, raising \$1,247,200 (after costs) and the Group was refunded approximately \$1,250,000 of VAT from the Chilean government (Note 10);
- The ability of the Group to issue additional equity securities to raise further working capital; and
- The ability to curtail corporate and administration expenses and overhead cash outflows as and when required.

On this basis, the Directors are of the opinion that the financial statements should be prepared on a going concern basis and that the Group will be able to pay its liabilities as and when they fall due and payable.

## Note 6. Contingent assets

All purchases in Chile are subject to the payment of the Impuesto al Valor Agregado ("IVA") which is a Value Added Tax ("VAT"). On 2 August 2023, the company was notified by the relevant Chile tax authority that the company has met its VAT recoverability conditions. As at 31 December 2023, the Company has a gross IVA receivable of \$3,087,200 (30 June 2023: \$4,561,657).

As discussed in Note 10, the Company received a portion of its refundable IVA of approximately \$1,250,000 on 5 January 2024. However, there have been no other refunds received since the Company was notified of its eligibility to receive VAT refunds back on 2 August 2023. For this reason, the Company has fully provided for the amounts in excess of the \$1,250,000 of which it collected post balance date. For the 31 December 2023 period, the Company has recognised a net reversal of the provision equal to \$1,082,296 (31 December 2022: \$140,764). An amount of \$1,239,682 is included in *Trade and Other Receivables* as at 31 December 2023 (31 December 2022: \$nil) representing the VAT amounts collected on 5 January 2024.

Under the terms of the VAT refund payment, the Group has until 30 June 2030 to meet certain export targets. The Group also has the right to extend this term. In the event that the Group does not meet certain export targets and the term is not extended, the Group will be required to re-pay the VAT refund payments to the Chilean Tax Authority subject to certain terms and conditions.

## Note 7. Contingent liabilities

On 26 August 2021, Tesoro advised it had been served notice of dispute initiated by the Company's El Zorro Joint Venture partner, Wanaco SpA (Wanaco), lodged with the 7th Civil Court de Santiago de Chile.

Wanaco is disputing the valuation and the procedure followed for the capital increase approved in the Shareholders Meeting of El Zorro S.C.M held on 11 February 2021. El Zorro S.C.M is the El Zorro Gold Project joint venture company of which Tesoro's 95% owned Chilean subsidiary, Tesoro Mining Chile SpA (Tesoro Chile) currently owns 85% (see ASX announcement on 24 March 2021).

At a Shareholder Meeting of El Zorro S.C.M. held on 7June 2023, it was resolved to increase the capital base via contribution on a pro-rated basis. Tesoro Chile subscribed its pro-rata shares for an amount equal to CLP12,120,334,847 (approximately A\$22.4 million), which reflects its funding of exploration and development activities at El Zorro since March 2021. The minority shareholder in El Zorro S.C.M., Wanaco declined to participate in the capital increase, resulting in Tesoro Chile increasing its ownership in El Zorro S.C.M. to approximately 94.42%.

Tesoro is confident that all capital increases were properly valued and duly approved under Chilean corporate and mining law and the dispute initiated by Wanaco is vexatious and with no legal basis. As at the signing date of this financial report, the dispute has not progressed through to a stage of arbitration, settlement discussions or otherwise court proceedings. The Company estimates \$nil financial effect other than future legal fees should the matter proceed through to further stages of legal proceedings.

Contingent VAT refund payment (refer to Note 6).

There are no other contingent liabilities as at 31 December 2023.

# Note 8. Commitments

Total	762,940	851,418

Exploration commitments consist of annual rents payable on mineral concessions.

## Note 9. Exchange differences on translation of foreign operations

The Group's foreign subsidiaries have a functional currency of Chilean Pesos. At each reporting period end, the Group translates the net assets of its foreign subsidiaries from Chilean Pesos to Australian dollars (the Group's presentation currency) using the spot rate at period end. The adjustment required as a result of this translation is through the Company's Other Comprehensive Income and in Equity via its Foreign Currency Reserve.

In the current period, the resulting adjustment was a net *Comprehensive Loss* of \$4,530,963 (31 December 2022: gain of \$3,008,748). This was a direct result of a significant devaluation of Chilean Pesos during the period. At the beginning of the period, the spot rate was \$0.00188 Australian Dollars per Chilean Pesos. At the end of the period, the spot rate was \$0.00167 Australian Dollars per Chilean Pesos.

Comparatively, during the 31 December 2022 period, there was a significant increase in the value of the Chilean Pesos relative to the Australian Dollar. At the beginning of the comparative period, the spot rate was \$0.00159 Australian Dollars per Chilean Pesos. At the end of the comparative period, the spot rate was \$0.00188 Australian Dollars per Chilean Pesos.

The Company estimates the spot rate at each period end using a third-party provider of foreign exchange information: Oanda FX Data Services.

## Note 10. Events after reporting period

On 10 January 2024, Tesoro advised of the refund of CLP745,796,841 (approximately A\$1.25 million) in historically paid Value Added Tax (VAT). Tesoro's 95%-owned Chilean subsidiary, Tesoro Mining Chile SpA (TMC), owns 94.42% of El Zorro S.C.M. the joint venture company that holds the El Zorro Gold Project concessions. As previously announced (refer ASX announcement 18 September 2023), El Zorro S.C.M. was approved for exporter status allowing the recovery of historical VAT made on project expenditure since 2017. Payment of the outstanding VAT tax credit balance of CLP1,485,063,149 (approximately A\$2.5 million) is expected to be made by the Chilean tax authority during H1 CY24.

On 16 January 2024, 9,301,470 of ordinary shares were issued to employees as a result of exercise of their performance rights (exercised at zero price).

On 16 January 2024, the Company completed tranche 2 of its \$3 million Placement initiated during the 31 December 2023 period by receiving \$1,247,200 before costs and issuing 69,288,889 ordinary shares. Further, 2,000,000 options, exercisable at \$0.027 and expiring on 16 January 2024, were issued to the Lead Manager (no other options were issued as part of the placement) upon completion of tranche 2.

On 29 January 2024, the Company announced results from surface sampling which identified two new outcropping gold anomalies along the Dorado Fault Zone, within a 20km long, highly prospective gold corridor situated approximately 15km north of Ternera. Results from the newly defined Le Brea prospect included: 2m @ 12.00g/t Au (EZTR004533), 2m @ 4.14g/t Au (EZTR004558) and 3m @ 3.07g/t Au (EZTR004525). The newly defined Sierra del Portrero prospect returned results that included: 1m @ 43.20g/t Au (EZTR004503) and 1m @ 4.33g/t Au (EZTR004507).

On 1 February 2024, Executive Director Linton Putland was issued 253,378 of Share Rights to settle salary sacrificed under the Company's Salary Sacrifice Plan.

## Note 10. Events after reporting period (continued)

On 12 February 2024, Tesoro reported further positive results from systematic infill and extensional surface sampling at the Drone Hill target 550m northwest of Ternera. High grades of up to 9.67g/t gold were returned, with results expanding the large outcropping anomaly to over 750m long by 250m wide.

On 16 February 2024, the Company appointed Ms Sue Wong as Company Secretary, following the resignation of Ms Sarah Wilson.

On 8 March 2024, Class C performance rights of 20,030,000 held by Directors Zeffron Reeves and Geoff McNamara, lapsed.

Other than as discussed above, no other matter or circumstance has arisen since 31 December 2023 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

#### Note 11. Dividends

No dividends have been proposed or paid during the financial half-year.

## Note 12. Operating segments

The Group operates as one segment, which is the exploration and evaluation of mineral resources in Chile.

In the opinion of the Directors of Tesoro Gold Limited ("the Company"):
