

Quarterly Activities Report

For Quarter ending 31 March 2024

Critical metals explorer **Leeuwin Metals Ltd** (**Leeuwin** or the **Company**) (**ASX: LMI**) is pleased to present its Quarterly Activities report for the period ending 31 March 2024.

HIGHLIGHTS

Cross Lake Lithium Project, Manitoba, Canada

- Drill permit well advanced, with drilling expected to commence in the coming months to test multiple spodumene pegmatites.
- Drilling is planned to expand the project from the shallow high-grade lithium historical drill holes which returned on 15 November 2023 assays such as:
 - **24.96m at 1.09% Li₂O** from 6m,
 - **9.79m at 1.18% Li₂O** from 75.55m; and
 - **7.21m at 1.94% Li₂O** from 19m
- Channel sampling as reported on December 13, 2023 delineated a 4.7km LCT mineralised trend, with assays up to 4.31% Li₂O.
- Leeuwin remains the single largest landholder within the highly prospective Cross Lake Greenstone Belt, holding over 2,000 km² of tenure.

William Lake Nickel Project, Manitoba, Canada

- Review underway with Glencore to assess high-grade Nickel and Platinum Group Elements.

Western Australian Projects

- Interpretation of a 9.5km trend of elevated REE anomalism at the Gascoyne Project.
- Applications have been made for additional tenure in the Gascoyne, Pilbara and other areas prospective for Lithium, Gold, Iron and REE's.

Corporate

- Received C\$150k government grant and submitted an application for a further C\$300k.
- \$2.1m in cash and cash equivalents at 31 March 2024.

Managing Director, Christopher Piggott, commented:

"During the quarter, our primary focus has been on advancing the drill permit at the Cross Lake lithium project where there is significant potential for the Company to define a large-scale lithium system. Additionally, I've had the opportunity to spend time in Manitoba, engaging with local community members and further solidifying our relationship as we move forward with the project. Leeuwin is well placed to advance exploration activities with a strong cash balance and a focused team executing the exploration programs in Canada and Western Australia."

Cross Lake Lithium Project – Manitoba, Canada

Cross Lake Lithium Project (**Cross Lake**) is a significant large-scale opportunity with mapped pegmatite swarms over +6km of strike.

During the quarter Leeuwin has been actively preparing to take the next step in exploring Cross Lake with plans to launch a 2,500m Phase 1 drill program to test the spodumene-bearing pegmatites in the coming months.

Leeuwin has engaged and identified drill contractors and has already completed design of the drill program refer figure 1, which will test the shallow mineralisation and down dip extents of the system with hole depths planned between 50m to 200m.

The Company will also carry out mapping and geochemical testing over the 4.7km trend, refer figure 2. Additionally, Leeuwin will carry out summer field work to advance regional targets within the project tenure over +70km strike of the greenstone belt. This work will include field mapping, sampling and spectral analysis from the middle of this year.

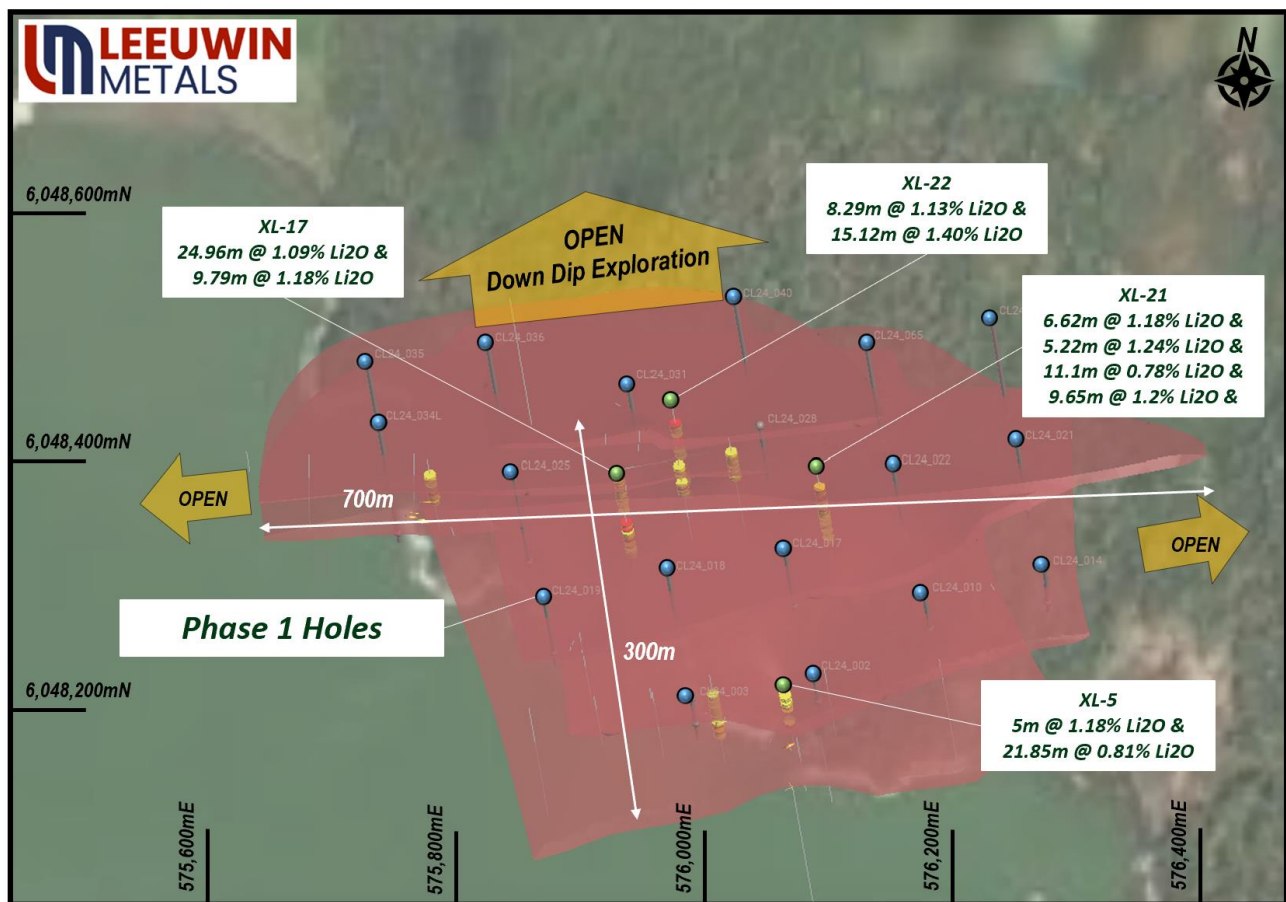

Figure 1 Phase 1 drill plan at the Cross Lake Lithium Project, for full results refer ASX 15 November 2023.

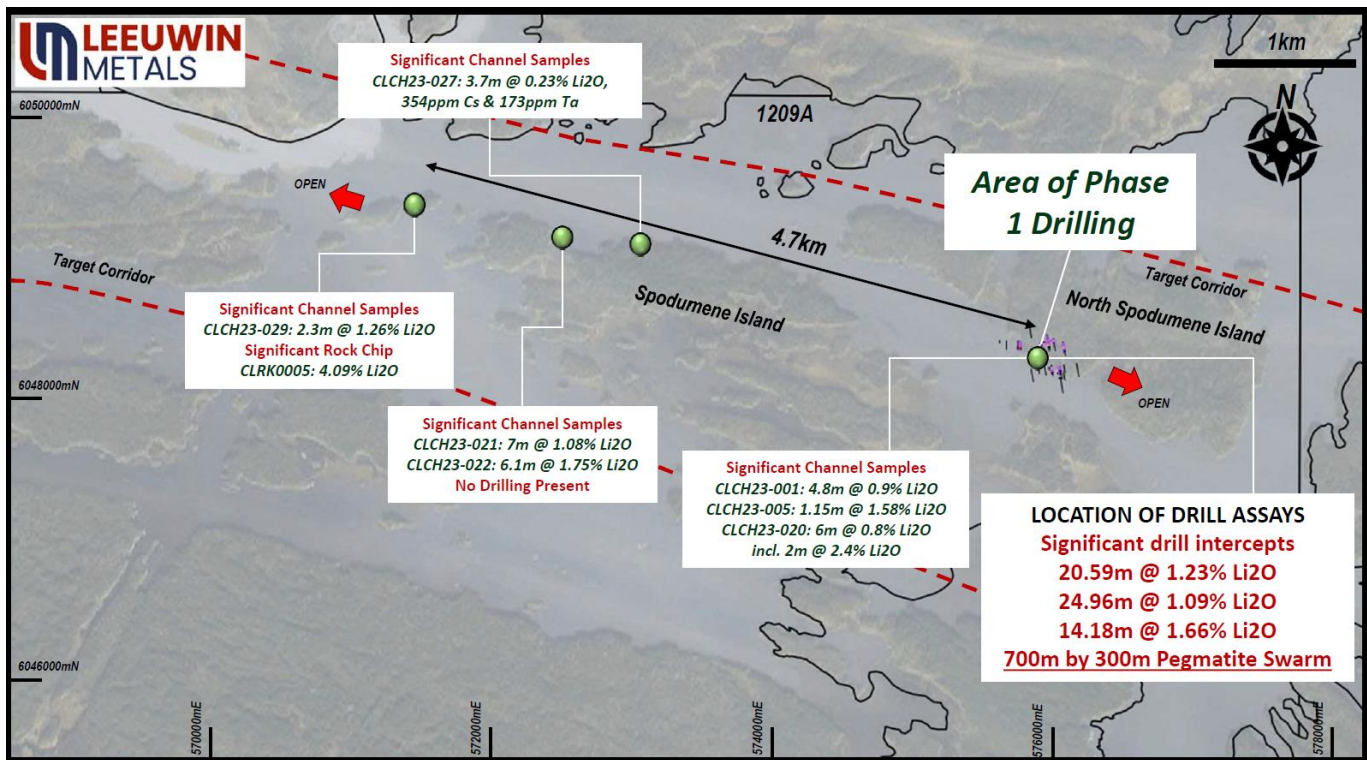

Figure 2: Leeuwin Sampling at the Spodumene and Metis Island Prospect area as reported on 15 November 2023 and 13 December 2023.

Drill Permitting

The drill permitting process remains on schedule for the first half of 2024 with the submission of a permit application to the Manitoba Department of Economic Development, Investment and Trade. Leeuwin has an experienced permitting team that has facilitated the Company's proactive advancement of the permit approval process. The permit enables the execution of the proposed 2024 drill program, and future drill programs for up to three years following approval. The drill permit submission allows for the Company to expedite exploration on the Project with the scope of the permit allowing for 10,000m of drilling.

As part of the drill permit application a precursor to commencing exploration at Cross Lake, the Company is advancing an exploration agreement with the Cross Lake Band of Indians and Pimicikamak Cree Nation (First Nations) on whose traditional territory the Project is located.

Once the Company receives First Nations endorsement, the Manitoba permitting office will do a final review, which is expected to take two weeks. The Company anticipates that the permit will be issued thereafter.

Community Engagement

Leeuwin is committed to a mutually beneficial relationship and is working closely with First Nations stakeholders to facilitate positive communication and respectful consultation process. The aim is to preserve and boost the knowledge base used by First Nations to enhance effective decision making for the benefit of all parties and ensuring First Nations culture and traditional activities are respected.

William Lake Nickel Project – Manitoba, Canada

During the quarter, the Company is focused on the completing low-cost value-added activities at the William Lake Nickel Sulphide Project. Leeuwin is currently carrying out a technical review with Glencore of its high-grade nickel and platinum group elements (PGE).

Key activities focused on compiling and interpretation of Leeuwin’s drilling completed in 2023, which returned results such as **21.9m at 1.02% nickel** from 206.65m (WL23-367) and **6.5m at 2.56% nickel** from 439.2m (WL23-365) for full results refer ASX, 4 September 2023. Results unlocked by Leeuwin identified high-grade nickel zones and extended known mineralisation over a 2km trend.

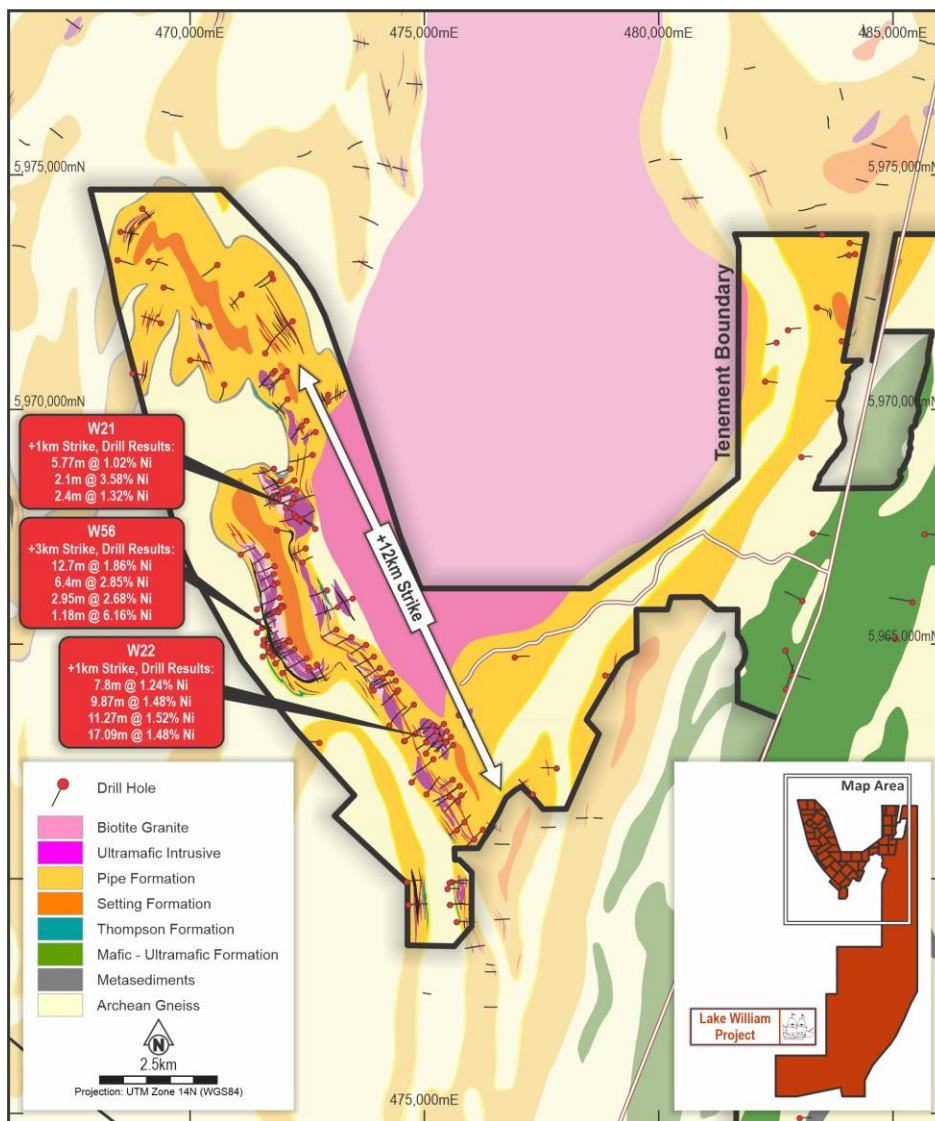

Figure 3: Plan map of the William Lake Project area showing priority target areas, extent of previous drilling and interpreted geology (Coordinates in UTM NAD83 z14N) as at 4 September 2023.

Ignace Lithium Project – Ontario, Canada

The Ignace Project (Ignace) is a greenfields lithium project in in the Kenora Mining District of Ontario, Canada. Ignace is proximal to Grid Metals Corp (TSXV:GRDM) which holds the Campus Creek Lithium Project.

Strategic review of Ignace is ongoing, with no exploration activities conducted during the March Quarter.

Western Australia Projects

Field activities commenced in early 2024 comprising reconnaissance field inspections and sampling on exploration ground in the Goldfields and Gascoyne regions of Western Australia. The results as reported on 23 April 2024 identified from soil sampling an encouraging 9.5km Rare Earth Elements (REE) soil anomaly in the Gascoyne.

The Company continues to monitor open ground in the Gascoyne and recently applied for additional tenure along strike of the current licences that Leeuwin holds in the Gascoyne region. Fieldwork occurred in the March quarter of 2024, following up on the multi-line soil anomaly with mapping and surface sampling; assays are currently pending.

Figure 3: Large scale REE anomaly at the Gascoyne Project, soils have defined a multi-line anomaly over a 9.5km strike refer ASX 23 April 2024.

During the quarter Leeuwin also applied for tenements in the Pilbara, exploration leases in the southern extension of the Southern Cross greenstone belt and open ground in the Ravensthorpe area where the Company is exploring for lithium and gold.

Corporate

During the quarter the Company received CAD \$150,000 from the Manitoba Mineral Development Fund (MMDF).

In addition the Company has applied for further funding of CAD \$300,000 from the Manitoba Mineral Development Fund (MMDF) to support the drilling at the Cross Lake Lithium Project. The outcome of this is expected to be known in the June quarter of 2024. The MMDF is aimed at supporting mineral exploration in the province of Manitoba by making available funding to applicable projects in the province.

Financial Information

The Company's cash position as at 31 March 2024 totalled \$2.1m, and in addition a cash receivable of \$197k from the 2023 Annual GST return is anticipated to be received June quarter of 2024.

Refer to Appendix 5B report provided separately for principal movements in consolidated cash for the quarter. Information as disclosed in the Cash Flow Report:

- Exploration and Evaluation Expenditure (capitalised) during the quarter was \$423k. Expenditure included drill permitting, first nations consultation, claim staking, desktop studies, field exploration, ground geophysics, and laboratory analysis.
- Grant of \$169k was received during the quarter from the from the Manitoba Mineral Development Fund.
- There were no mining production and development activities during the quarter.
- As per ASX Listing Rule 5.3.5 and as disclosed in Sections 6.1 and 6.2 of the Appendix 5B, the company paid to related parties of the Company and their associates during the quarter was \$86k, which relates to the executive director's salary, non-executive directors' fees and superannuation.

Securities Information

The Company's issued capital at the date of this announcement is:

Fully Paid Ordinary Shares*	Unlisted Options (Various expiry dates and exercise prices)	Unlisted Performance Rights
63,358,339	29,000,000	1,500,000

* Inclusive of 16.5 million shares under escrow until 29 March 2024, held by board and management.

Use of Funds under Prospectus

In accordance with Listing Rule 5.3.4, the March 2024 quarter was in a period covered by a 'use of funds' statement in the IPO Prospectus, below is a comparison of the Company's actual expenditure to 31 March 2024 in comparison the estimated expenditure in the 'use of funds' statement:

Use of Funds	Expenditure allocated under Prospectus (2-year period)	Actual expenditure to date 31 March 2024
	A\$'000	A\$'000
Exploration Expenditure	6,294	4,864
Expenses of the Public Offer	697	771
Director reimbursement	146	146
Working capital	1,713	985
Total	8,850	6,766

This ASX announcement has been approved for release by the Board of Leeuwin.

About Us

Leeuwin Metals Ltd (**Leeuwin**) is a mineral explorer committed to securing critical metals vital for the advancement of electric vehicles and renewable energy.

Leeuwin has five projects, three located in Canada and two in Western Australia, which are collectively highly prospective for Nickel, Copper, PGE, and Lithium.

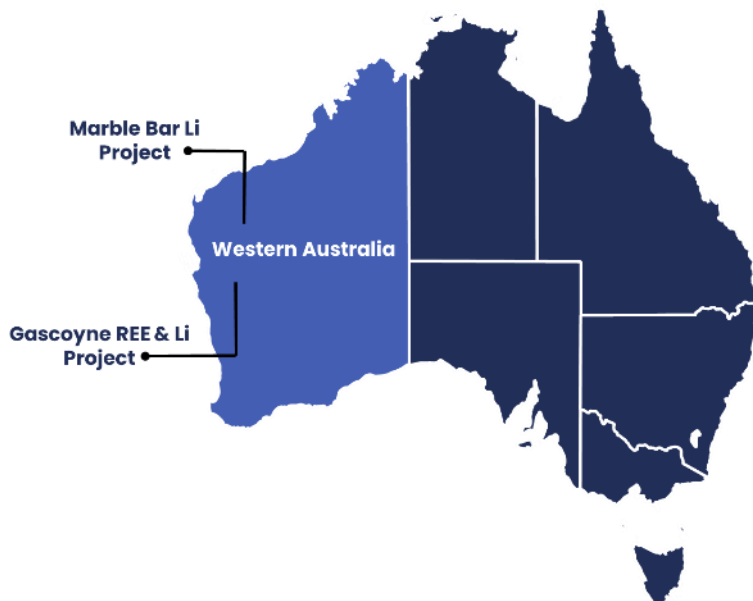

Our goal is to contribute to the global shift towards decarbonisation and electrification, working towards a greener future. Leeuwin is led by a skilled team with expertise in project generation, discovery, development, operations, and transactions.

Cross Lake Lithium Project is highly prospective for LCT type pegmatites. The project is located in the Cross Lake greenstone belt with previous drilling intercepting spodumene bearing pegmatites with grades of +1% Li₂O present.

William Lake Nickel Project is the flagship asset where the Company is exploring for high-grade Nickel, Copper and PGE mineralisation hosted in sulphides. The project is located in the Thompson Nickel Belt, which is highly fertile with several existing nickel mines currently in production.

Complimentary Projects located in Western Australia and Ontario targeting Lithium and REE's.

Australian Projects

Canadian Projects

APPENDIX A: IMPORTANT NOTICES

No new information

Except where explicitly stated, this announcement contains references to prior exploration results, all of which have been cross-referenced to previous market announcements made by the Company. The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcements.

The information in this release that relates to Exploration Results, was released in the Company's prospectus dated 10 February 2023 (see LMI ASX release dated 28 March 2023), 17 April 2023, 4 May 2023, 8 May 2023, 13 June 2023, 15 June 2023, 21 June 2023, 26 June 2023, 11 July 2023 19 July 2023, 14 August 2023, 21 August 2023, 4 September 2023, 18 October 2023, 15 November 2023, 13 December 2023 and 23 April 2024. The Company confirms that it is not aware of any new information or data that materially affects the information in that release and that the material assumptions and technical parameters underpinning these estimates continue to apply and have not materially changed.

Competent Person Statement

The information in this report that relates to exploration results is based on and fairly represents information compiled by Mr Christopher Piggott, a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy and the Managing Director of the Company. Mr Piggott has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Piggott consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Forward Looking Statements

Various statements in this announcement constitute statements relating to intentions, future acts and events. Such statements are generally classified as "forward looking statements" and involve known and unknown risks, uncertainties and other important factors that could cause those future acts, events and circumstances to differ materially from what is presented or implicitly portrayed herein. The Company gives no assurances that the anticipated results, performance or achievements expressed or implied in these forward-looking statements will be achieved.

APPENDIX B: Tenement Schedule

Per ASX listing rule 5.3.3, Mining tenement interest held at the end of the quarter and their location.

8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	2,086
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	4.10
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 26 April 2024

Authorised by: by the board.
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
