Comments on the operations and the results of those operations are set out below:

On the 11th of March 2020, the World Health Organisation (WHO) declared the Coronavirus or COVID 19 a pandemic. Although the WHO later declared an end to the global public health emergency for COVID 19 in May 2023, the impacts of COVID 19 continue to affect the financial position of the Company and its controlled entities (the Group) as at the date of this report, and the financial results for the quarter ended 31 March 2024 and at the date of this statement. There remains uncertainty in terms of the overall economic environment such that economic events and conditions in future may be materially different from those experienced by the Group as at the date of this report. At this time, it is not possible for the Group to estimate fully the future effects of its operations as any impact will largely depend on the magnitude of the rebound in the domestic and international tourism and hospitality industries and stability of the Melbourne property market.

There has not been any other matters or circumstance that has significantly affected, or may significantly affect, the operations of the economic entity, the results of those operations, or the state of affairs of the economic entity for the remainder of the financial year after quarter ended 31 March 2024.

For the quarter ended 31 March 2024, International Equities Corporation Limited (IEQ) generated revenues of \$0.815 million mostly from Hospitality and Tourism and Real Estate management activities as indicated in the table above. For the period ended 31 March 2024, revenues were down 23.73% to \$5.241 million from a as compared to period ended 31 March 2023.

For the same quarter ended 31 March 2024, expenses from normal operating activities were \$0.834 million mostly from Hospitality and Tourism and holding cost of properties held for investment as indicated in the table above.

For the quarter ended 31 March 2024, unaudited consolidated post tax loss was \$0.19 million. For the period ended 31 March 2024 post tax profit was up 327.12% to \$0.804 million as compared to period ended 31 March 2023 as explained above.

For the rest of financial year 2024, IEQ will continue its sale of apartments to reduce our exposure to loans. In the hotel and tourism sector, efforts are being made to encourage long stay tenancies where possible to mitigate against low occupancies until such time we return to normalise trading. Leasing will remain our focus.
