Quarterly Activities Report For The Period Ending 31st March 2024

Highlights for the quarter ending 31st March 2024

Magnetite Range Project (MRP)

- Updated MRP global Mineral Resource estimate (MRe)
- Heritage and Environmental field surveys have been completed
- The design of a Geometallurgical diamond core drilling program was completed
- Civils work to construct drill pads, sumps and access tracks commenced
- Tenement applications submitted for E59/2878, E59/2879 and P59/2401
- A Wamex desktop review over the project area has been completed
- A high-level conceptual MRP mine study and gap analysis is ongoing
- Updates to MRP Database

Norseman Gold Project

- A review of WAMEX exploration reports has been completed
- A Heritage field survey was completed
- Regional targeting has been considered at local scale
- 2024 -2025 exploration budget has been finalised, planning to commence next quarter

Magnetite Range Iron Ore Project (ACS 100%)

The Company's wholly owned Magnetite Range Project is located in the Midwest region of Western Australia, immediately adjacent to the Extension Hill iron ore mine.

A 3D geological model for the project completed during 2023 utilising Leapfrog software has been used to complete an update of the project MRe (JORC 2012). The Mineral Resource estimate (MRe) for Magnetite Range incorporated results from 118 reverse circulation percussion (RCP) drill holes completed during 2021 and 2022 and was released on 23rd February 2024, *Refer: ASX announcement 23 February 2024 Amended version—Magnetite Range Mineral Resource Update.*

A total Mineral Resource tonnage increase of 20.4% to 523.3Mt at 31.3% Fe, including a measured Mineral Resource tonnage increase of 221.4% to 21.9 Mt at 32.5% Fe was recorded. The updated resource estimate was completed by CSA Global and is reported in accordance with the JORC Code (2012). The updated Mineral Resource is presented in Table 1.

- Mineral Resources are reported in accordance with the JORC Code (2012 Edition).
- Mineral Resources are reported within an optimised open pit shell and above a 15% Davis Tube Recovery (DTR) cut-off.
- Mineral Resources exclude oxide domain material.
- Approximately 97% of the Mineral Resources are reported below the water table.
- Tonnage information has been rounded and as a result the figures may not add up to the totals quoted.

¹ Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. The JORC Code, 2012 Edition. Prepared by: The Joint Ore Reserves Committee of The Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists and Minerals Council of Australia (JORC).

Geometalurgical diamond drill planning over Julia and Robb Prospects was finalized during the reporting period. A total of 16 diamond drill holes 'DD' have been designed across Julia – Robb prospect for a total of 2139m. Civils work has commenced to establish drill pads, sumps and access tracks for the program. Drilling is due to commence in the next reporting period.

Environmental flora and fauna predrill clearance surveys were completed over Julia-Robb Geo Met drill sites during the reporting period. Project wide RCP drill targeting has been completed, further surveys to cover these targets will be required and are in the planning phase.

Figure 02 – Magnetite Range Project – Proposed Geo Met DD 2024 drilling

Three tenement applications were submitted during the reporting period. E59/2878 and E59/2879 were submitted on 12th January 2024 and subsequently granted on 14th March and 20th March 2024. P59/2401 was submitted on 11th January 2024 and is currently pending grant.

Figure 03 – Magnetite Range Project – Tenement Location Plan

A desktop data review of the MRP project area was completed. Data was collated from historical WAMEX exploration reports to be integrated in future target generation over the project area.

Work planned for the next reporting period includes Julia-Robb Geomet diamond drill program (16 DD), downhole geophysical logging of the sixteen diamond drillholes, finalization and submission of relevant POW's for identified RCP drill targets, multielement geochemical selection studies, MRP Wamex review to assist project targeting, ongoing database updates to include environmental data capture, additional heritage, flora and fauna work area clearance surveys and project wide logistics and strategic studies.

Norseman Gold Project (ACS 100%)

The Norseman Gold Project occurs within a strongly mineralised portion of the southern Norseman-Wiluna greenstone belt and is located 5km south of the Norseman town site. A JORC 2004 Code Mineral Resource for Iron Duke and Surprise deposits of **1,039,400 tonnes @ 1.8 g/t Au for 59,500 ounces** (99 percentile upper cut, 1.0 g/t Au lower cut off) was announced to the ASX on 26 November 2012. Over 70-80% of the resource is shallow, within 50m of surface.

An Aboriginal Ethnographic and Anthropological survey of tenements P63/2200 and P63/2154 and preliminary review of DPLH Place ID 2920 Munguni over the company's Norseman Gold Project including M63/657, M63/229, P63/1997, P63/2052, P63/2200 and P63/2153 was conducted during August 2023.

The aim of the investigation was to ascertain the impact of proposed exploration work and identify and consider any potential impacts to any archaeological and ethnographic sites located on tenements P63/2200 and P63/2154 identified in the survey.

Investigations found P63/2200 and P63/2154 do not contain any known Aboriginal Cultural Heritage (ACH). DPLH Site ID 2920 Munguni is a registered site with a footprint overlapping the entire Norseman project area. Advice has been sought concerning the management of this site, Accent Resources will need to apply for approval to impact the Place under the relevant Act (ACHA or AHA). Consultation with Ngadju and DBCA is ongoing.

Financial

Accent Resources held cash at bank of \$7,687,000 (as at 31st March 2024). Exploration expenditure cash outflow for the quarter was \$220,000.

Tenements

For the quarter ended 31st March 2024, all projects are in Western Australia

**Competent Persons Statement – Magnetite Range Project**

The information in this report that relates to Mineral Resources is based on, and fairly reflects, information compiled by Mr Matt Clark, a Competent Person, who is an employee of CSA Global (ERM Australia Consultants Pty Ltd) and a Member of the Australasian Institute of Mining and Metallurgy. Mr. Clark has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as Competent Person as defined in the 2012 edition of the Australasian Code for the Reporting of Exploration Results, Mineral Resources, and Ore Reserves (JORC Code). Mr. Clark consents to the disclosure of information in this report in the form and context in which it appears. All parties have consented to the inclusion of their work for the purposes of this announcement.

Competent Persons Statement – Norseman Project

The information that relates to Mineral Resources at the Norseman Gold Project is based on a resource estimate that was prepared by Mr Stephen Hyland of Ravensgate Mining Industry Consultants. Mr Hyland is a Fellow of the Australian Institute of Mining and Metallurgy. Mr Hyland has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hyland consents to the inclusion in this report of the matters based on his information (and the public reporting of these statements) in the form and context that the information appears. This information was prepared and first disclosed under the JORC Code 2004. It has not been updated since to comply with the JORC Code 2012 on the basis that the information has not materially changed since it was last reported.

Competent Persons Statement – Annual Mineral Reserves and Resources Statement

The Mineral Resources and Ore Reserves statement in this Quarterly Report is based on, and fairly represents, information and supporting documentation prepared by a competent person or persons. The Mineral Resources and Ore Reserves statement as a whole has been approved by Ms G Morton, who is a full-time employee of the Company and a Member of the Australian Institute of Geoscientists. Ms Morton consents to the inclusion of the Mineral Resources and Ore Reserves statement in the form and context in which it appears in this Annual Report. This information was prepared and first disclosed under the JORC Code 2004. It has not been updated since to comply with the JORC Code 2012 on the basis that the information has not materially changed since it was last reported.

Yours faithfully,
Accent Resources NL

Notes

- This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
