

VRX SILICA LIMITED
ACN 142 014 873

PROSPECTUS

For a pro-rata renounceable entitlement issue of one (1) Share for every thirteen (13) Shares held by those Eligible Shareholders registered at the Record Date at an issue price of \$0.055 per Share together with one (1) free Attaching Options for every two (2) Shares applied for and issued to raise up to \$2,468,140 (based on the number of Shares on issue as at the date of this Prospectus) (**Entitlement Offer**).

The Entitlement Offer is fully underwritten by Canaccord Genuity (Australia) Limited (AFSL 234666) (**Canaccord** or **Underwriter**). Refer to Section 6.4.1 for details regarding the terms of the underwriting.

This Prospectus also contains the Sub-Underwriting Options Offer, which is detailed in Section 2.2.

IMPORTANT NOTICE

This document is important and should be read in its entirety. If, after reading this Prospectus you have any questions about the Securities being offered under this Prospectus or any other matter, then you should consult your professional advisers without delay.

The Securities offered by this Prospectus should be considered as highly speculative.

IMPORTANT NOTICE

This Prospectus is dated 3 May 2024 and was lodged with the ASIC and ASX on that date. The ASIC, ASX and their respective officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No Securities may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The Securities offered by this Prospectus should be considered as highly speculative.

Applications for Securities offered pursuant to this Prospectus can only be made by an original Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

No Investment Advice

The information contained in this Prospectus is not financial product advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional

advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for Securities under this Prospectus to determine whether it meets your objectives, financial situation and needs.

Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 5.

Overseas shareholders

The Offers do not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value

of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offers are not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia, New Zealand, Germany or the United Kingdom.

For further information on overseas Shareholders please refer to Section 2.6.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of the Attaching Options and Sub-Underwriting Options issued under this Prospectus. The Company and the Lead Manager will only

distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website (www.vrxsilica.com.au).

Electronic Prospectus

A copy of this Prospectus can be downloaded from the website of the Company at www.vrxsilica.com.au. If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be a resident of Australia, New Zealand, Germany or the United Kingdom and must only access this Prospectus from within Australia, New Zealand, Germany or the United Kingdom.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus, or it accompanies the complete and unaltered version of this Prospectus. You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on +61 8 9226 3780 during office hours or by emailing the Company at info@vrxsilica.com.au.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

Definitions and Time

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 8.

All references to time in this Prospectus are references to Australian Western Standard Time.

Privacy statement

If you complete an Application Form, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Securities, the

Company may not be able to accept or process your application.

Enquiries

If you are in any doubt as to how to deal with any of the matters raised in this Prospectus, you should consult with your broker or legal, financial or other professional adviser without delay. Should you have any questions about the Offers or how to accept the Offers please call Computershare, the Company's share registry, from 8.30am to 5.00pm AEST, Monday to Friday, on 1300 850 505 (within Australia) or +61 3 9415 4000 (outside Australia).

1.3 Key Risk Factors

Prospective investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 5.

1.4 Directors' Interests in Securities

The relevant interest of each of the Directors in the Securities of the Company as at the date of this Prospectus, together with their respective Entitlement, is set out in the table below:

Director	Shares	Options ¹	Entitlement		\$
			Share Entitlement	Attaching Option Entitlement	
Paul Boyatzis	5,180,000	3,900,000	398,462	199,231	\$21,915
Bruce Maluish	13,810,535	5,400,000	1,062,349	531,175	\$58,429
Peter Pawlowitsch	23,841,769	3,000,000	1,833,983	916,992	\$100,869
David Welch	Nil	3,000,000	Nil	Nil	Nil

Notes:

1. Unlisted Options exercisable at \$0.30 and expiring 31 August 2024.

The Board recommends all Shareholders take up their Entitlements. The Directors reserve the right to take up their respective Entitlement in whole or in part at their discretion.

1.5 Details of Substantial Holders

Based on publicly available information and the Company's records as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	%
Sparta AG	51,200,000	8.78%

In the event all Entitlements are accepted there will be no change to the substantial holders on completion of the Entitlement Offer.

1.6 Underwriting and sub-underwriting

The Entitlement Offer is fully underwritten by Canaccord Genuity (Australia) Limited (AFSL 234666) (**Canaccord** or **Underwriter**).

The Underwriter has also been appointed as the lead manager of the Entitlement Offer. Refer to Section 6.4.1 for details regarding the key terms of the Underwriting Agreement.

The allocation of the Shortfall Securities will be determined by the Underwriter in agreement with the Company. For further information regarding the application and allocation of Shortfall Securities please refer to Section 2.3.5.

The Underwriter intends to enter into sub-underwriting agreements in respect of the Entitlement Offer with various sub-underwriters (**Sub-Underwriters**), to take up the Shortfall Securities.

Subject to completion of the Entitlement Offer, the Company agrees to issue the Sub-Underwriters (or their nominee/s), 22,437,637 Sub-Underwriter Options on the same terms as the Attaching Options, on a one (1) for two (2) Shares sub-underwritten basis.

Pursuant to the Underwriting Agreement, no sub-underwriter will increase their shareholding to above 19.99% as a direct result of the issue of Securities under the Entitlement Offer. Where Shares are issued pursuant to the exercise of Sub-Underwriting Options, the voting power of the Sub-Underwriters who exercise their Sub-Underwriting Options will increase. The likelihood of Sub-Underwriting Options being exercised is dependent on the price of Shares from time to time until the Sub-Underwriting Options expire.

1.7 Effect on Control

The Underwriter is presently not a Shareholder and is not a related party of the Company for the purposes of the Corporations Act. The issue of Shares under this Prospectus to the Underwriter may increase its interest in the Company and dilute the Shareholding of other Shareholders to the extent they elect not to participate in the Entitlement Offer or are ineligible to participate in the Entitlement Offer.

In accordance with the terms of the Underwriting Agreement, the Underwriter will allocate the Shortfall to its Sub-Underwriters and/or clients and people who have otherwise agreed to assist with the completion of the Entitlement Offer such that neither the Underwriter, the Sub-Underwriters nor any of the Underwriter's clients, individually, will have a voting power in the Company in excess of 19.99% after the issue of the Shortfall.

The Company, in consultation with the Underwriter, will ensure that the Entitlement Offer (including the equitable dispersion of any Shortfall Securities) complies with the provisions of Chapter 6 of the *Corporations Act 2001* (Cth) and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

1.8 Potential dilution on non-participating Shareholders

In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by approximately 7.14% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of Attaching Options or Sub-Underwriting Options under this Prospectus. However subsequent exercise of any or all of the Attaching Options or Sub-Underwriting Options will result in dilution. Based on Full Subscription and assuming all Attaching Options and Sub-Underwriting Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Entitlement Offer, are likely to be diluted by an aggregate of approximately 13.33% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

Holder	Holding as at Record date	% at Record Date	Entitlement Shares under the Entitlement Offer	Holdings if Entitlement Offer not taken Up	% post Entitlement Offer
Shareholder 1	10,000,000	1.71%	769,231	10,000,000	1.59%
Shareholder 2	5,000,000	0.86%	384,616	5,000,000	0.80%
Shareholder 3	2,500,000	0.43%	192,308	2,500,000	0.40%
Shareholder 4	1,250,000	0.21%	96,154	1,250,000	0.20%
Shareholder 5	625,000	0.11%	48,077	625,000	0.10%

Notes:

1. This is based on a share capital of 583,378,548 Shares as at the date of the Prospectus. Based on Full Subscription of the Entitlement Offer and does not account for Attaching Options or Sub-underwriting Options to be issued under this Prospectus.
2. Based on Full Subscription under the Entitlement Offer and assuming no Options are exercised. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Underwriting and Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

2. DETAILS OF THE OFFERS

2.1 The Entitlement Offer

The Entitlement Offer is being made as a pro-rata renounceable entitlement issue of one (1) Share for every thirteen (13) Shares held by Eligible Shareholders registered at the Record Date at an issue price of \$0.055 per Share together with one (1) free attaching Option exercisable at \$0.18 and expiring on 31 August 2025 (**Attaching Options**), for every two (2) Shares subscribed for and issued. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus, (and assuming no additional Shares are issued prior to the Record Date) approximately 44,875,273 Shares and 22,437,637 Attaching Options may be issued under the Entitlement Offer to raise up to \$2,468,140 (before costs). No funds will be raised from the issue of the Attaching Options.

As at the date of this Prospectus the Company has 58,708,386 Options on issue, with various exercise prices and expiry dates, all of which may be exercised prior to the Record Date in order to participate in the Entitlement Offer.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.1 for further information regarding the rights and liabilities attaching to the Shares. The Attaching Options will be exercisable at \$0.18 on or before 31 August 2025 and otherwise on the terms set out in Section 4.2.

The purpose of the Entitlement Offer and the intended use of funds raised are set out in Section 3.

2.2 The Sub-Underwriting Options Offer

The Sub-Underwriting Options Offer made by this Prospectus is an offer to the Sub-Underwriters (or their nominee/s) for a total of 22,437,637 sub-underwriting Options, being one (1) sub-underwriting Option for every two (2) Shares sub-underwritten which will be issued on the same terms as the Attaching Options (**Sub-Underwriting Options**).

Only the Sub-Underwriters (or their nominee/s) may apply for the Sub-Underwriting Options under the Sub-Underwriting Options Offer. Application Forms in respect of the Sub-Underwriting Options Offer will only be provided by the Company to these parties.

The Sub-Underwriters have the right but not an obligation to subscribe for Sub-Underwriter Options. No subscription price is payable for the grant of the Sub-Underwriter Options. The primary purpose of offering the Sub-Underwriter Options under the Sub-Underwriter Options Offer is for the Company to fulfil its obligation under the Underwriting Agreement.

By offering the Sub-Underwriter Options under this Prospectus, the Sub-Underwriter Options will be issued with disclosure under Chapter 6D of the Corporations Act. Accordingly, the Sub-Underwriter Options (and any Shares issued on their exercise) will not be subject to secondary trading restrictions.

The Sub-Underwriter Options will be issued on the same terms and conditions as the Attaching Options as set out in Section 4.2 of this Prospectus.

The Sub-Underwriter Options Offer:

- (a) is not subject to Shareholder approval;
- (b) is not subject to any minimum subscription condition or requirement;
- (c) is not underwritten; and
- (d) is not made to any person other than the Sub-Underwriters and their nominee/s.

The transferee must submit payment by EFT in accordance with the instructions provided, so that the completed Standard Renunciation and Acceptance Form and payment is received by the Share Registry no later than 22 May 2024. If you wish to transfer all or a proportion of your Entitlement to or from another person on the CHES subregister you must engage your CHES controlling participant (usually your stockbroker). If the transferee wants to exercise some or all of the Entitlement, you should follow your stockbroker's instructions as to the most appropriate way to take up the Entitlement on their behalf. The Application monies for Shares the transferee of the Entitlement wants to acquire must be received by Share Registry. 	N/A
<p>Allow all or part of your Entitlement to lapse</p>	<ul style="list-style-type: none"> Shareholders should be aware that their Entitlement may have value. Entitlement are renounceable, which enable Eligible Shareholders who do not wish to take up part or all of their Entitlement to seek to sell or trade all or some of their Entitlement on ASX or otherwise. If you do not wish to accept or trade any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement by the Closing Date, the Entitlement Offer to you will lapse. 	N/A

2.3.2 Payment options

(a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form found online at www.computersharecas.com.au/vrxoffer. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 3:00pm (WST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

(b) By Electronic Funds Transfer (overseas applicants)

For payment by Electronic Funds Transfer (EFT) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form found online at www.computersharecas.com.au/vrxoffer. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and

- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

(c) **Other forms of payment not accepted**

Payment by cheque, money order or cash will not be accepted.

2.3.3 Implications of an acceptance

Payment of any Application monies by BPAY® or EFT in accordance with the instructions on your personalised Entitlement and Acceptance Form, will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

2.3.4 Minimum subscription

There is no minimum subscription for the Entitlement Offer on the basis that the Entitlement Offer is fully underwritten.

No Securities will be issued until the minimum subscription has been received. If the minimum subscription is not achieved within 4 months after the date of issue of this Prospectus, the Company will either repay the Application monies to the Applicants or issue a supplementary prospectus or replacement prospectus and allow Applicants one month to withdraw their Application and be repaid their Application monies.

2.3.5 Shortfall Offer

Any Entitlement not taken up pursuant to the Entitlement Offer will form the Shortfall Offer (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.055 being the price at which Shares have been offered under the Entitlement Offer (**Shortfall Share**). The Shortfall Offer will also include the issue of one (1) Attaching Option per two (2) Shortfall Shares issued and subscribed for, on the same terms as the Entitlement Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Entitlement Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Section 2.3.2

Allocation of the Shortfall Securities will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the

Underwriting Agreement, details of which are set out in Section 6.4.1, and any agreements with Sub-Underwriters. If the Entitlement Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer. The Company may in its absolute discretion determine to apply the scale back to the extent and in the manner it sees fit, which may include taking into account a number of factors including, but not limited to:

- (a) the size of your shareholding at the Record Date;
- (b) the extent to which you have sold or purchased Shares since the Record Date;
- (c) whether you have multiple registered holdings;
- (d) the date on which your application was made; and
- (e) the total number of applications and Shares subscribed for by Eligible Shareholders.

The Underwriter notes that no Securities will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any related parties of the Company.

2.4 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

2.5 Issue of Securities

Securities issued pursuant to the Entitlement Offer will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue is made surplus Application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Entitlement Offer will be mailed as soon as practicable after the issue of Securities and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

2.6 Overseas shareholders

These Offers do not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Entitlement Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand, Germany or the United Kingdom.

New Zealand

The Entitlement Offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

The Entitlement Offer and the content of this Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under that Act set out how the Entitlement Offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to the Entitlement Offer. If you need to make a complaint about the Entitlement Offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The Entitlement Offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand,

the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

Germany

This document has not been, and will not be, registered with or approved by any securities regulator in Germany or elsewhere in the European Union. Accordingly, this document may not be made available, nor may the Shares or the Options be offered for sale, in Germany except in circumstances that do not require a prospectus under Article 1(4) of Regulation (EU) 2017/1129 of the European Parliament and the Council of the European Union (the "Prospectus Regulation").

In accordance with Article 1(4) of the Prospectus Regulation, an offer of Shares and Options in Germany is limited:

- (a) to persons who are "qualified investors" (as defined in Article 2(e) of the Prospectus Regulation);
- (b) to fewer than 150 natural or legal persons (other than qualified investors);
or
- (c) in any other circumstance falling within Article 1(4) of the Prospectus Regulation.

United Kingdom

Neither this document nor any other document relating to the offer of Shares and Options has been delivered for approval to the Financial Conduct Authority in the United Kingdom and no prospectus (within the meaning of section 85 of the Financial Services and Markets Act 2000, as amended ("FSMA")) has been published or is intended to be published in respect of the Shares.

The Shares and the Options may not be offered or sold in the United Kingdom by means of this document or any other document, except in circumstances that do not require the publication of a prospectus under section 86(1) of the FSMA. This document is issued on a confidential basis in the United Kingdom to fewer than 150 persons who are existing shareholders of the Company. This document may not be distributed or reproduced, in whole or in part, nor may its contents be disclosed by recipients, to any other person in the United Kingdom.

Any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received in connection with the issue or sale of the Shares has only been communicated or caused to be communicated and will only be communicated or caused to be communicated in the United Kingdom in circumstances in which section 21(1) of the FSMA does not apply to the Company.

In the United Kingdom, this document is being distributed only to, and is directed at, persons (i) who have professional experience in matters relating to investments falling within Article 19(5) (investment professionals) of the Financial Services and Markets Act 2000 (Financial Promotions) Order 2005 ("FPO"), (ii) who fall within the categories of persons referred to in Article 49(2)(a) to (d) (high net worth companies, unincorporated associations, etc.) of the FPO or (iii) to whom it may otherwise be lawfully communicated (together "relevant persons"). The investment to which this document relates is available only to relevant persons. Any person who is not a relevant person should not act or rely on this document.

Nominees and custodians

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia, New Zealand, Germany or the United Kingdom without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

2.7 Appointment of Nominee – Entitlement Offer

Pursuant to ASX Listing Rule 7.7, the Company has appointed Canaccord as nominee to sell the Entitlements to which Ineligible Shareholders are entitled. The nominee will have the absolute and sole discretion to determine the timing and price at which the Entitlements may be sold and the manner of any such sale.

The proceeds of the sale of these Entitlements will firstly be applied against expenses of such sale, including brokerage, and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company.

Notwithstanding that the nominee must sell Entitlements, Ineligible Shareholders may nevertheless receive no net proceeds if the costs of the sale are greater than the sale proceeds. In this regard, the nominee will not be required to sell Ineligible Shareholders' Entitlements at a particular price.

Shareholders resident in Australia or New Zealand holding Securities on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement under the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

3. PURPOSE AND EFFECT OF THE OFFERS

3.1 Purpose of the Offers

The purpose of the Entitlement Offer is to raise up to \$2,468,140 before costs.

The purpose of the Sub-Underwriting Options Offers is set out in Section 2.2.

The funds raised from the Entitlement Offer is intended to be applied in accordance with the table set out below:

Item	Proceeds of the Entitlement Offer	Full Subscription (\$)	%
1.	Muchea drilling, testwork, environmental studies and referral	\$900,000	36.46%

Item	Proceeds of the Entitlement Offer	Full Subscription (\$)	%
2.	Arrowsmith North access roads, final engineering and final permitting	\$650,000	26.34%
3.	VDT trials and environmental follow-up	\$200,000	8.10%
4.	Working capital	\$325,226	13.18%
5.	Expenses of the Entitlement Offer ¹	\$392,914	15.92%
	Total	\$2,468,140	100%

Notes:

1. Refer to Section 6.8 for further details relating to the estimated expenses of the Offers.

On completion of the Entitlement Offer, the Board believes the Company will have sufficient working capital to achieve its stated objectives. In the event the Entitlement Offer is not fully subscribed, operational objectives are likely to be modified, which may result in delay or substantial changes to the Company's future plans.

In addition, it should be noted that the Company's budgets and forecasts will be subject to modification on an ongoing basis depending on the results achieved from its business activities and operations.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

3.2 Effect of the Offers

The principal effect of the Offers, based on Full Subscription and assuming no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date, will be to:

- (a) increase the cash reserves by \$2,075,226 (after deducting the estimated expenses of the Offers) immediately after completion of the Offers;
- (b) increase the number of Shares on issue from 583,378,548 as at the date of this Prospectus to 628,253,821 Shares; and
- (c) increase the number of Options on issue from 58,708,386 as at the date of this Prospectus to 103,583,660 Options.

3.3 Effect on capital structure

The effect of the Offers on the capital structure of the Company, based on Full Subscription and assuming no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date, is set out below.

Shares

	Number
Shares currently on issue	583,378,548
Shares offered pursuant to the Entitlement Offer	44,875,273
Total Shares on issue after completion of the Offers	628,253,821

Options

	Number
Options currently on issue as at the date of this Prospectus ¹	58,708,386
Attaching Options to be issued pursuant to the Entitlement Offer	22,437,637
Sub-Underwriting Options to be issued under the Sub-Underwriting Options Offer	22,437,637
Total Options on issue after completion of the Offers	103,583,660

Notes:

1. Comprising:
 - (a) 12,708,386 unlisted options exercisable at \$0.18 and expiring 31 August 2025;
 - (b) 10,000,000 unlisted options exercisable at \$0.20 and expiring 31 December 2025;
 - (c) 7,200,000 unlisted options exercisable at \$0.15 and expiring 31 December 2026; and
 - (d) 28,800,000 unlisted options exercisable at \$0.30 and expiring 31 August 2024.

The capital structure on a fully diluted basis as at the date of this Prospectus would be 642,086,934 Shares and on completion of the Offers (based on Full Subscription and assuming no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date) would be 731,837,481 Shares.

No Shares or Options on issue are subject to escrow restrictions, either voluntary or ASX imposed.

3.4 Pro-forma balance sheet

The reviewed balance sheet as at 31 December 2023 and the unaudited pro-forma balance sheet as at 31 December 2023 shown below have been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position.

The pro-forma balance sheet has been prepared based on Full Subscription and assuming no Options or convertible securities are exercised prior to the Record Date and including expenses of the Offers.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

4. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

4.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares and the underlying securities of the Options being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may capitalise any profits of the Company and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

(j) **Proportional Takeover Provisions**

The Constitution contains provisions in relation to proportional takeover approval. The effect of these provisions will be to prohibit the transfer of Shares as a result of acceptance of an offer made under a proportional takeover bid unless and until a resolution is passed by the Company approving the proportional takeover bid.

4.2 Terms of Attaching Options and Sub-Underwriting Options

(a) **Entitlement**

Each Option entitles the holder to subscribe for one Share upon exercise of the Option.

(b) **Exercise Price**

The amount payable upon exercise of each Option will be \$0.18 (**Exercise Price**).

(c) **Expiry Date**

Each Option will expire at 5:00 pm (WST) on 31 August 2025 (**Expiry Date**). An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**). The Options are exercisable on any business day during the Option Exercise Period. An Optionholder may only exercise Options in multiples of 25,000, unless the Optionholder exercises all of their Options.

(e) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the holding statement for the Options (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 20 Business Days (as that term is defined in the ASX Listing Rules) after the Exercise Date (or such lesser time as required by the ASX Listing Rules), the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company; and
- (ii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

(h) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then issued Shares.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(k) **Bonus Issue**

If before the expiry of any Options, the Company makes a pro rata issue of Shares to Shareholders for no consideration (**Bonus Issue**), the number of Shares over which an Option is exercisable will be increased by the number of Shares which the holder would have received if the Option had been exercised before the record date for the Bonus Issue.

(l) **No change in exercise price or number of underlying securities**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised in the event of the Company making a pro rata issue of Shares or other securities to shareholders (other than a Bonus Issue).

(m) **Transferability**

If the Options are not quoted on ASX, the Options are transferable subject to the prior approval of the Company's board of directors. If the Options become quoted on ASX, the Options are freely transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

5. RISK FACTORS

5.1 Introduction

The Securities offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

5.2 Company specific

(a) Potential for dilution

In addition to potential control impacts set out in Section 1.7, Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by approximately 7.14% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of Attaching Options or Sub-Underwriting Options under this Prospectus. However subsequent exercise of any or all of the Attaching Options or Sub-Underwriting Options will result in dilution. Based on Full Subscription and assuming all Attaching Options and Sub-Underwriting Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Entitlement Offer, are likely to be diluted by an aggregate of approximately 13.33% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Entitlement Offer being implemented and the Directors do not make any representation as to such matters.

The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.07 is not a reliable indicator as to the potential trading price of Shares after implementation of the Entitlement Offer.

(b) **Title risk**

The ability of the Company to carry out successful exploration and mining activities on its tenements will depend on it obtaining and maintaining the appropriate approvals and permits to operate, including exploration licences, programs of work, environmental approvals, mining leases, mining permits and other approvals and permits necessary to carry out these activities.

The grant, maintenance and renewal of such licences, permits and approvals is regulated by the applicable State legislation, such as the Mining Act 1978 (WA) as amended. No guarantee can be given that any such licence, permit or approval will be granted and/or maintained or, if granted, any attaching conditions are acceptable to the Company or their grant is not overturned or restricted. There is also no guarantee that a renewal will be automatically granted other than in accordance with the applicable mining legislation or granted without new conditions, including relinquishment of ground.

Each tenement carries with it annual expenditure and reporting commitments as well as other conditions requiring compliance. There is a risk that the Company could lose title to one or more of its tenements if tenement conditions or annual expenditure commitments are not met.

(c) **Granting of licenses, permits etc.**

The Company requires numerous governmental, environmental, mining permits, water rights and approvals authorising operations for mining and processing facilities. A decision by a governmental agency or other third party to deny or delay issuing a new or renewed permit or approval, or to revoke or substantially modify an existing permit or approval, could have a material adverse effect on the ability to continue operations. Furthermore, state and local governments could impose a moratorium on mining operations in certain areas. Expansion of operations is also predicated on securing the necessary environmental or other permits, water rights or approvals, which may not be received in a timely manner or at all.

(d) **Exploration and Development Risks**

Mineral exploration, development and mining are high-risk enterprises, only occasionally providing high rewards. In addition to the normal competition for prospective ground, and the high average costs of discovery of an economic deposit, factors such as demand for commodities, stock market fluctuations affecting access to new capital, sovereign risk, environmental issues, labour disruption, project financing difficulties, foreign currency fluctuations and technical problems all affect the ability of a company to profit from any discovery.

There is no assurance that exploration of the mineral interests currently held by the Company, or any other projects that may be acquired in the future will result in the discovery of an economically viable mineral deposit. Even if an apparently viable mineral deposit has been identified, there is no guarantee that it can be profitably exploited.

(e) **Resource and Reserve Estimates**

Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates that are valid when made may change significantly when new information becomes available through drilling, sampling, economic conditions and similar examinations.

In addition, resource estimates are necessarily imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Should the Company encounter mineralisation or formations different from those predicted, resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations.

Reserve and resource estimates are expressions of judgment based on drilling results and other exploration observations, along with a competent person's experience working with relevant mining properties, and other factors. Estimates based on available data and interpretations and thus estimations may prove to be inaccurate or may change substantially when new information becomes available. The actual quality and characteristics of mineral deposits cannot be known until mining takes place and will almost always differ from the assumptions used to develop resources.

Reserves are value based financial and operational forecasts and, consequently, the actual reserves, resources and economic conditions may differ from those estimated either positively or negatively.

(f) **Capital costs estimates**

The Company has undertaken feasibility studies on, among other things, the capital costs to develop its silica sand projects through to production. These studies are undertaken at a point in time.

If the Company proceeds with a decision to mine at one or more of its projects, during the construction phase prices of goods and services in connection with that mine's development may increase substantially, resulting in an increase in the cost to develop the mine. As a consequence the Company may need to raise additional capital to complete the construction and there is no guarantee that the Company will be able to achieve this.

(g) **Operational Risks**

The operations of the Company may be affected by various factors including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration or mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment, fire, explosions and other incidents beyond the control of the Company.

These risks and hazards could also result in damage to, or destruction of, production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability. While the Company currently intends to maintain insurance within ranges of coverage consistent with industry practice, no assurance can be given that the Company will be able to obtain such insurance coverage at reasonable rates (or at all), or that any coverage it obtains will be adequate and available to cover any such claims.

(h) **Environmental Risks**

The operations and proposed activities of the Company are subject to regulations concerning the environment. The government and other authorities that administer and enforce environmental laws determine these requirements. As with all exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if mine development proceeds, and the Company will require approval from the relevant authorities before it can undertake such activities. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with best industry practice and applicable laws.

The cost and complexity of complying with the applicable environmental laws and regulations may prevent the Company from being able to develop potentially economically viable mineral deposits.

Environmental matters applicable to the Company's silica sand projects are within the remit of Commonwealth and State authorities, including under legislation in the form of the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (**EPBC Act**) and the Environmental Protection Act 1986 (WA). The Company will need to seek pre-approval on environmental matters for any mining operations and the Environmental Protection Authority (**EPA**) will, among other things, assess the impact of proposed activities on flora and fauna and matters of national environmental significance under the EPBC Act as part of an accredited assessment.

The assessment process requires interaction between Commonwealth and State authorities and there is no fixed time for the process to complete. Significant delays in the process can potentially have a material adverse effect on the Company's business, financial condition and operations and affect the Company's ability to pursue the projects. In addition, there is no guarantee that the assessments undertaken by these authorities will be favourable or the approvals sought will be granted. Failure to obtain such approvals will prevent the Company from undertaking its desired activities and this will have a material adverse effect on the Company's business, financial condition and operations.

The Environmental Review Document (**ERD**) for Arrowsmith North has been accepted by the Department of Water and Environmental Regulation (**DWER**) for publication and a four-week Public Environmental Review (**PER**) completed in mid-July 2023. Following completion of the PER period DWER compiled public submissions for the Company to review and these were provided to the Company in September 2023. The Company lodged its response to those public submissions for consideration by the EPA in October 2023. The EPA has collated formal comments from all relevant State Government departments and the Commonwealth Department of Climate Change, Energy, the Environment and Water, has provided these to the Company. The

Company is in the process of updating its 'Response to Submissions' document in response to these comments. This PER and response process are the final steps before the EPA prepares an assessment report including recommendations to the Western Australian Environment Minister on whether the proposal should be approved. There is no guarantee that such approval will be forthcoming.

Environmental approval will be required for the Company's other silica sand projects, including Muchea. There is no guarantee that such approval will be forthcoming.

Future State and Federal legislation and regulations governing mineral exploration and production may impose significant environmental obligations on the Company. The Company is unable to predict the effect of additional environmental laws and regulations, which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area. There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments in such respect which could have a material adverse effect on the Company's business, financial condition and results of operations.

Any failure by the Company to comply with applicable environmental laws and regulations may cause governmental authorities to take actions that could adversely impact operations and financial condition, including issuance of administrative, civil, and criminal penalties denial, modification, or revocation of permits or other authorisations, imposition of injunctive obligations or other limitations on operations, including cessation of operations; and requirements to perform site investigatory, remedial, or other corrective actions.

(i) **Metallurgy**

Mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable product;
- (ii) developing an economic process route to produce a product; and
- (iii) changes in mineralogy in the deposit can result in inconsistent recovery, affecting the economic viability of a project.

(j) **Changes to glassmaking and foundry industries in Asia**

Prices for silica sand will be subject to glass and foundry demand in Asia, among other industries. A reduction in glass production or foundry activity would generally depress the demand, development, production, and mining activity for silica sand the Company may produce. Such a decline could have a material adverse effect on the Company's business, results of operations and financial conditions generally.

(k) **Changes to demand for silica sand generally**

Demand for silica sand products can be affected generally by advances in industry and the development and use of new technology or new processes that reduce or eliminate the need for silica sand products, including as a material for glass-making, metal casting, metallurgical processes, chemical production, paint and coatings, ceramics, filtration and water production and proppant.

Such events could cause a decline in demand for the products produced and could have a material adverse effect on the Company's business, results of operations and financial conditions generally.

(l) **Fluctuations in market pricing**

Supply agreements involving the sale of silica sand products may be fixed or have market-based pricing mechanisms, or a combination of both. Accordingly, in periods with decreasing prices, results of operations may be lower if prices under these agreements are not fixed. In periods with increasing prices, some agreements may permit an increase in prices; however, some customers may elect to cease purchasing products if they do not agree with price increases or are able to find alternative, cheaper sources of supply. Furthermore, certain volume-based supply agreements may influence the ability to fully capture current market pricings.

Depending on the pricing provisions, there may be significant variability in results of operations and cash flows from period to period.

(m) **A significant reduction in purchases by major buyers**

Major customers may not continue to purchase the same levels of products in the future due to a variety of reasons. The Company is likely to sell products to customers on a purchase order basis and pursuant to supply agreements that will contain customary termination provisions for bankruptcy related events and uncured breaches of the applicable agreement. If any of these major customers substantially reduces or altogether ceases purchasing products and the Company is not able to generate replacement sales into the market, the business, financial condition, and results of operations could be adversely affected for a short-term period until such time as the Company can generate replacement sales in the market.

(n) **Credit risk of major international export customers**

The Company is subject to the risk of loss resulting from non-payment or non-performance by customers, many of whose operations are concentrated solely in the Asian market which is subject to volatility and therefore credit risk. Credit procedures and policies may not be adequate to fully reduce customer credit risk. If the Company fails to adequately assess the creditworthiness of customers or unanticipated deterioration in their creditworthiness, any resulting increase in non-payment or non-performance by them and the inability to re-market or otherwise use the production could have a material adverse effect on the Company's business, financial condition, and results of operations.

(o) **Increasing logistics costs for rail, port and shipping**

Transportation and handling costs are a significant component of the total delivered cost of products. In many instances, transportation costs can represent 50% to 60% of the delivered cost of silica sand. The high relative cost of transportation could favour suppliers located in close proximity to the customer. The Company will contract with rail, wharf and ship services to move products from the production facilities to customers. Labour disputes, derailments, adverse weather conditions or other environmental events and other changes to rail freight systems could interrupt or limit available transportation services or result in a significant increase in transportation service rates. Increased costs resulting from these types of events that the Company is not able to pass on to customers could impair the ability to deliver the products economically to customers or to expand the markets.

(p) **Maintaining effective quality control at the mining and processing operation**

The performance and quality of the products are critical to the success of the business. These factors depend significantly on the effectiveness of the quality control systems, the quality-training program, and the ability to ensure that employees adhere to the quality control policies and guidelines. Any significant failure or deterioration of the quality control systems could have a material adverse effect on the Company's business, financial condition, results of operations, and reputation.

(q) **Interruptions or failures in information technology systems**

The Company's operations may rely on sophisticated information technology systems and infrastructure to support the business, including process control technology. Any of these systems may be susceptible to outages due to fire, floods, power loss, telecommunications failures, usage errors by employees, computer viruses, cyber-attacks or other security breaches, or similar events. The failure of any of the information technology systems may cause disruptions in operations, which could adversely affect product supply, sales and profitability.

(r) **Extreme seasonal weather conditions**

Unexpected weather conditions may result in damage to plant, equipment and transport infrastructure or the Company having insufficient stockpiles to supply feedstock for rail and ship operations, and result in being unable to satisfy customer requirements during these periods.

As a consequence of potential seasonal supply impacts, cash flows from operations can fluctuate if plant operations must remain shut down due to extreme weather conditions.

(s) **Insurance Risks**

The Company intends to adequately insure its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

Insurance of all risks associated with mineral exploration and production is not always available and, where available, the costs can be prohibitive.

(t) **Key personnel**

The ability of the Company to achieve its objectives depends on the retention of key employees and contractors who provide technical expertise. If the Company cannot secure technical expertise (for example to carry out drilling) or if the services of the present technical panel cease to become available to the Company, this may affect the Company's ability to achieve its objectives either fully or within the timeframes and the budget the Company has decided upon.

Whilst the ability of the Company to achieve its objectives may be affected by the matters mentioned above, the Company believes that appropriately skilled and experienced professionals would be available to provide services to the Company at market levels of remuneration in the event key external contractors cease to be available.

(u) **Shortage of labour or labour disputes**

Efficient mining using modern techniques and equipment requires skilled operators, preferably with several years of experience and proficiency in multiple mining tasks, including processing of mined minerals. If a shortage of experienced labour is encountered or subject to labour disputes or if the Company is unable to train the necessary number of skilled operators, there could be an adverse impact on productivity and costs and the ability to maintain production. An inability to maintain good relations with the workforce could cause a material adverse effect on the operations and financial position.

(v) **No Profit To-Date**

The Company has incurred losses since its inception and it is therefore not possible to evaluate its prospects based on past performance. As the Company intends to continue investing in exploration and development programs, the Company anticipates making further losses in the foreseeable future.

While the Company has confidence in the future revenue-earning potential of the Company, there can be no certainty that the Company will achieve or sustain profitability or achieve or sustain positive cash flow from its operating activities.

(w) **Changes in laws and regulations related to mining and processing**

Mining operations are subject to a variety of Federal, State and Local regulatory legislative requirements affecting the mining and mineral processing industry, including among others, those relating to employee health and safety, environmental permitting and licensing, air and water emissions, greenhouse gas emissions, water pollution, waste management, remediation of soil and groundwater contamination, land use, reclamation and restoration of properties, hazardous materials, and natural resources.

Some environmental laws impose substantial penalties for non-compliance, and liability for the remediation of releases of hazardous substances. Liability under Federal and State laws may be imposed as a result of conduct that was lawful at the time it occurred or for the conduct of, or conditions caused by, prior operators or other third parties. Failure to properly handle, transport, store or dispose of hazardous materials or otherwise conduct operations in compliance with environmental laws could expose the Company to liability for governmental penalties, cleanup costs and civil or criminal liability associated with releases of such materials into the environment, damages to property or natural resources and other damages, as well as potentially impair the ability to conduct operations.

In addition, future environmental laws and regulations could restrict the ability to expand the facilities or extract mineral reserves or could require the Company to acquire costly equipment or to incur other significant expenses in connection with business. Future events, including changes in any environmental requirements (or their interpretation or enforcement) and the costs associated with complying with such requirements, could have a material adverse effect on the Company.

(x) **Foreign Exchange Risk**

International prices of silica sand products are denominated in United States Dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States Dollar and the Australian Dollar as determined in international markets.

(y) **Native title and Aboriginal Heritage**

The Native Title Act recognises and protects the rights and interests in Australia of Aboriginal and Torres Strait Islander people in land and waters, according to their traditional laws and customs. There is significant uncertainty associated with Native Title in Australia and this may impact on the Company's operations and future plans.

Native Title can be extinguished by valid grants of land (such as freehold title) or waters to people other than the Native Title holders or by valid use of land or waters. It can also be extinguished if the indigenous group has lost its connection with the relevant land or waters. Native Title is not necessarily extinguished by the grant of mining leases, although a valid mining lease prevails over Native Title to the extent of any inconsistency for the duration of the title.

Tenements granted before 1 January 1994 are valid or validated by the Native Title Act. For tenements to be validly granted (or renewed) after 1 January 1994, the future act regime established by the Native Title Act must be complied with. The existence of a Native Title claim is not an indication that Native Title in fact exists on the land covered by the claim, as this is a matter ultimately determined by the Federal Court.

The Company must also comply with Aboriginal Cultural Heritage legislation requirements, which require certain due diligence investigations to be undertaken ahead of the commencement of exploration and mining. Whilst no sites of Aboriginal heritage have been uncovered in surveys conducted to-date on the Company's projects, in the event the Company subsequently discovers evidence of Aboriginal

heritage on land accessed by the Company, the Company must comply with regulations prohibiting the disturbance of physical evidence of prehistoric or historical significance without statutory permission and legislation prohibiting or restricting access to Aboriginal cultural heritage or native title land. Accordingly, delays or additional costs in the exploration or production of the Company's business may be experienced. Further, the disturbance of any such land or objects may expose the Company to additional fines or other penalties.

(z) **Future Capital Needs and Additional Funding**

There can be no guarantees that the Company's cash reserves will be sufficient to successfully achieve all the objectives of the Company's overall business strategy.

Any additional equity financing may be dilutive to the Company's existing shareholders and any debt financing, if available, may involve restrictive covenants, which limit the Company's operations and business strategy, and may restrict the ability to finance future operations or capital needs or to engage in, expand, or pursue the business activities. The ability to obtain financing or to access the capital markets for future equity or debt offerings may be limited by the financial conditions at the time of any such financing or offering, the covenants contained in credit facilities, term loans or future debt agreements, adverse market conditions or other contingencies and uncertainties that are beyond our control. Failure to obtain the funds necessary to maintain, develop, and increase the asset base, could adversely impact the Company's growth and profitability. Even if the Company is able to obtain financing or access the capital markets, incurring debt will incur interest expense and increase financial leverage, and the level of indebtedness could restrict the ability to fund future development and acquisition activities.

5.3 General risks

(a) **Economic Risk**

Changes in the general economic climate in which the Company will operate may adversely affect the financial performance of the Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption and the rate of growth of gross domestic product in Australia and other jurisdictions in which the Company may acquire mineral assets.

(b) **Changes in Government Policies and Legislation**

Any material adverse changes in government policies or legislation of Australia or any other country that the Company may acquire economic interests may affect the viability and profitability of the Company.

(c) **Changing political environment**

Changes in the political relationship between Australia and its trading parties can affect the demand for the Company's products. Examples of this might be trade embargos or increased tariffs on the Company's goods or economic sanctions against the countries that are buying the Company's products or war between countries to which the Company exports its products.

(d) **Risk of litigation, claims and disputes**

The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of claims by contract counterparties, personal injury and property damage claims, environmental and indemnity claims, employee claims and other litigation and disputes. There is a risk that such litigation, claims and disputes could materially and adversely affect the Company's operating and financial performance due to the cost of defending and/or settling such claims, and could affect the Company's reputation.

The Company is not aware of any legal proceedings pending or threatened against it or any of its subsidiary companies.

(e) **Global credit and investment markets**

Global credit, commodity and investment markets can experience a high degree of uncertainty and volatility. The factors which lead to this situation are outside the control of the Company and may result in volatility and uncertainty in world stock markets (including ASX). This may impact the price at which the Company's shares trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general, and resources securities in particular. Neither the Company, nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

5.4 Speculative investment

The risk factors described above, and other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Securities offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those Securities.

Before deciding whether to subscribe for Securities under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

6. ADDITIONAL INFORMATION

6.1 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

6.2 Continuous disclosure obligations

As set out in the Important Notes Section of this Prospectus, the Company is a disclosing entity for the purposes of section 713 of the Corporations Act. Accordingly, information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report most recently lodged by the Company with the ASIC;
 - (ii) any half-year financial report lodged by the Company with the ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC; and
 - (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest annual financial report and before the lodgement of this Prospectus with the ASIC are set out in the table below.

6.3 Market price of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX.

The highest, lowest and last market sale prices of the Shares on ASX during the three months immediately preceding the date of lodgement of this Prospectus with the ASIC and the respective dates of those sales were:

	(\$)	Date
Highest	\$0.11	15 February 2024
Lowest	\$0.053	1 May 2024
Last	\$0.053	1 May 2024

6.4 Material Contracts

6.4.1 Underwriting Agreement

The Company has entered into an underwriting agreement (**Underwriting Agreement**) with Canaccord, pursuant to which Canaccord has agreed to fully underwrite the Entitlement Offer (**Underwritten Securities**).

Canaccord may appoint sub-underwriters to sub-underwrite the Entitlement Offer. The appointment of any sub-underwriter and the allocation of any Underwritten Securities is at the sole discretion of the Underwriter, subject to ensuring that no sub-underwriter (together with their associates) acquires a relevant interest in more than 19.99% of the issued share capital of the Company.

The material terms and conditions of the Underwriting Agreement are summarised below:

Fees	<p>The Company has agreed to pay the Underwriter the following fees in consideration for acting as Underwriter to the Entitlement Offer:</p> <ul style="list-style-type: none"> (a) an underwriting fee equal to 4% of the total gross amount raised under the Entitlement Offer; (b) an issue management fee of 2% of the total gross amount raised under the Entitlement Offer; and
-------------	---

	(c) a corporate advisory fee of \$75,000 plus GST for its services in managing the Entitlement Offer.

Security holdings

The relevant interest of each of the Directors in the Securities as at the date of this Prospectus, together with their respective Entitlement, is set in Section 1.4.

Remuneration

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$250,000 per annum.

A Director may be paid fees or other amounts (i.e. non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

The following table shows the total annual remuneration paid to both executive and non-executive Directors in the financial years ended 2023 and 2022, as disclosed in the Company's 2023 Annual Report, and the proposed remuneration for the financial year ending 2024.
