CEO Anthony Noble said, “Excellence in ecommerce is our primary growth pillar. We have continued to grow month-on-month in these channels, with both Shopify and Amazon contributing. Shopify USA sales in April were more than 4x the March baseline indicating that our strategy in the USA is showing similar promising signs to the early days in the Australian market for Shopify.”

“Profitable Retail is our second growth pillar and Coles Australia has been our primary partner in this channel. The initial sales results seen for the new range of three products in Coles are extremely promising and this is now backed up by scan data showing a rapid acceleration in both value of retail sales and units sold across the discount cycle in Coles.”

“The company will continue to focus on the most profitable and sustainable sales channels over the coming year.”
