Important Notice and Disclaimer

This presentation may include forward-looking statements. Forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions, which are outside the control of Brookside Energy Limited (“Brookside Energy” or “the Company”). These risks, uncertainties and assumptions include commodity prices, currency fluctuations, economic and financial market conditions in various countries and regions, environmental risks and legislative, fiscal or regulatory developments, political risks, project delay or advancement, approvals and cost estimates. Actual values, results or events may be materially different to those expressed or implied in this presentation. Given these uncertainties, readers are cautioned not to place reliance on forward-looking statements. Any forward-looking statements in this presentation speak only at the date of issue of this presentation. Subject to any continuing obligations under applicable law and the ASX Listing Rules, Brookside Energy does not undertake any obligation to update or revise any information or any of the forward-looking statements in this presentation or any changes in events, conditions or circumstances on which any such forward looking statement is based.

This presentation does not constitute investment advice. Neither this presentation nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction. Shareholders should not rely on this presentation. This presentation does not take into account any person's particular investment objectives, financial resources or other relevant circumstances and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.

The information set out in this presentation does not purport to be all-inclusive or to contain all the information, which its recipients may require in order to make an informed assessment of Brookside Energy. You should conduct your own investigations and perform your own analysis in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation.

To the fullest extent permitted by law, the Company does not make any representation or warranty, express or implied, as to the accuracy or completeness of any information, statements, opinions, estimates, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this presentation arising out of negligence or otherwise is accepted.

This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States or in any other jurisdiction in which such an offer would be illegal. The distribution of this presentation may be restricted by law in certain other countries.

Reserves Cautionary Statement

Oil and gas reserves and resource estimates are expressions of judgment based on knowledge, experience, and industry practice. Estimates that were valid when originally calculated may alter significantly when new information or techniques become available. Additionally, by their very nature, reserve and resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional drilling and analysis, the estimates are likely to change. This may result in alterations to development and production plans which may, in turn, adversely impact the Company's operations. Reserves estimates and estimates of future net revenues are, by nature, forward looking statements and subject to the same risks as other forward-looking statements. Brookside confirms that it is not aware of any new information or data that materially affects the information included in the market announcement dated 17 April 2024 that included the results of the 2024 independent certification of its reserves of oil and gas and that all the material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

Brookside Energy

Financially Disciplined Oil Price Leverage

- Established producer, pure exposure to oil and gas production in the US, 1Q2024 Net production of 1,200 BOE per day (60% liquids)
- 11.6MMBOE independently certified Net Proved and Probable Reserves (2P)
- Transformational drilling program underway, Flames-Maroon Development Plan (FMDP), to double production by 4Q2024 through development of ~17% of Net Reserves.
- Positioned to become a top tier ASX listed small cap oil and gas producer
- Financially strong, ~A\$32.7m cash; conservative financial structure with strong operating cash flows from existing production (FY2023 after tax Profit A\$16.7m) and no debt.
- Focused on shareholder returns, closing the gap between net asset value and market capitalization, 5% on-market share buy-back completed in FY2023 with further buy-backs contemplated post FMDP
- Disciplined growth underpinned by financial strength, provides foundation for development of the Reserve base and growth via prospecting and/or acquisitions

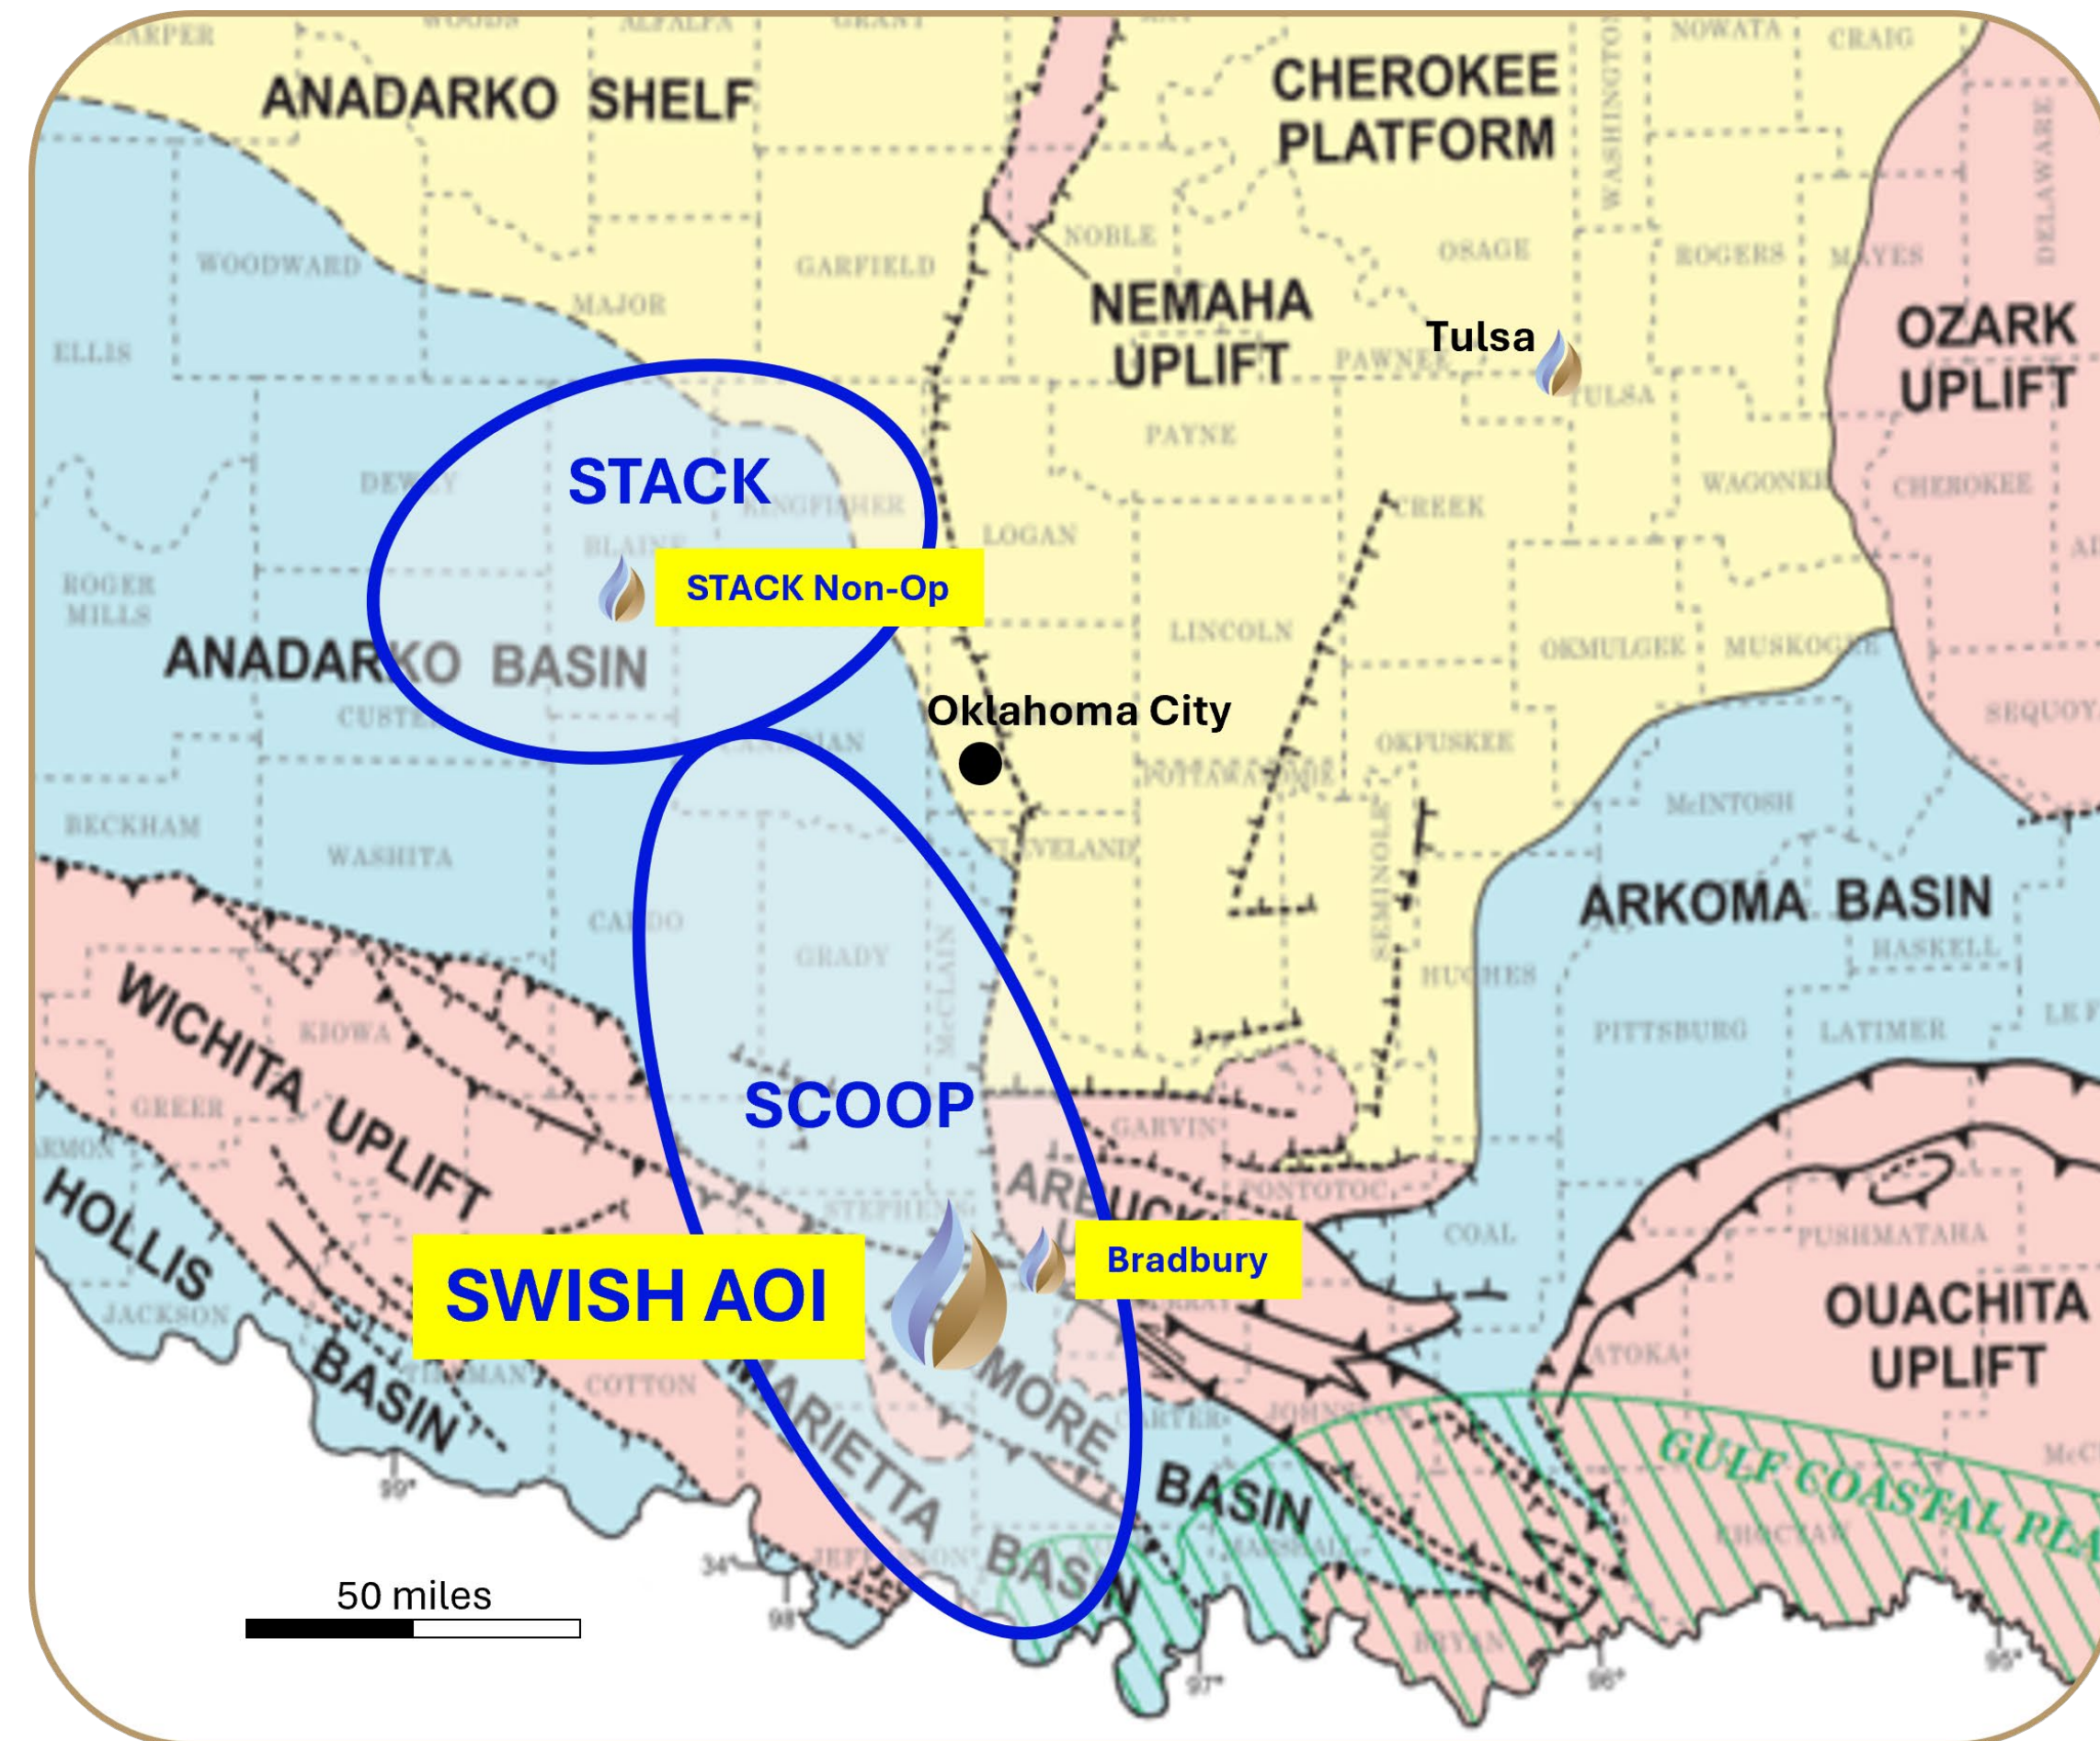

Kenai Drilling Rig 19, Garvin County, Oklahoma, March 2024

Brookside Energy Projects

Oklahoma's Anadarko Basin

- 🔥 Anadarko Basin is a long-term contributor to US oil production & hosted numerous notable oil fields including 6 >100MMBBLs oil fields
- 🔥 1 of 7 major onshore US hydrocarbon basins & just getting started in terms of delivering on its unconventional potential
- 🔥 Unconventional reservoirs in the Greater Anadarko Basin hold an estimated 16 billion barrels of oil in unrisks technically recoverable resources
- 🔥 Only ~20% of the Anadarko Basin's tier one locations drilled and developed (IHS).
- 🔥 Brookside holds a core position in the highly sought-after liquids rich part of the Southern SCOOP Play

Brookside's SWISH AOI

Liquids Rich Southern SCOOP Play

- Highly sought after Sycamore-Woodford trend in southern part of the SCOOP Play
- Four operated wells of ~24+ well inventory drilled, completed and in production
- Outstanding well productivity combined with high IP24 and IP30 production rates delivering rapid payouts and high proved undeveloped reserves (PUD) value
- Successful held-by-production (HBP) program proved up a large inventory of extremely high quality very low risk development wells
- Continental Resources highly successful Courbet and Gapstow Developments provides blueprint for full field development

Reserves Summary

Independently Certified Net Reserves

- 11.6MMBOE Net Reserves as of January 1st, 2024, classified as Proved and Probable Reserves (2P)
- Total Proved (1P) 4.1MMBOE, up 10% from 2023
- Reserves are Net to Brookside's Working Interest and after the deduction of royalties
- Liquids make up 58% of total Reserves and ~70% of initial 5 years of Reserves

Net Reserves

	Oil (Bbls)	NGL (Bbls)	Gas (Mcf)	BOE
Proved Producing	451,140	526,228	4,743,292	1,767,917
Proved Non-Producing	7,408	-	16,996	10,241
Proved Undeveloped	663,429	667,112	5,897,900	2,313,524
Total Proved (1P)	1,121,977	1,193,340	10,658,188	4,091,682
Probable	1,960,986	2,387,346	18,720,166	7,468,360
Total Proved Plus Probable (2P)	3,082,963	3,580,686	29,378,354	11,560,041

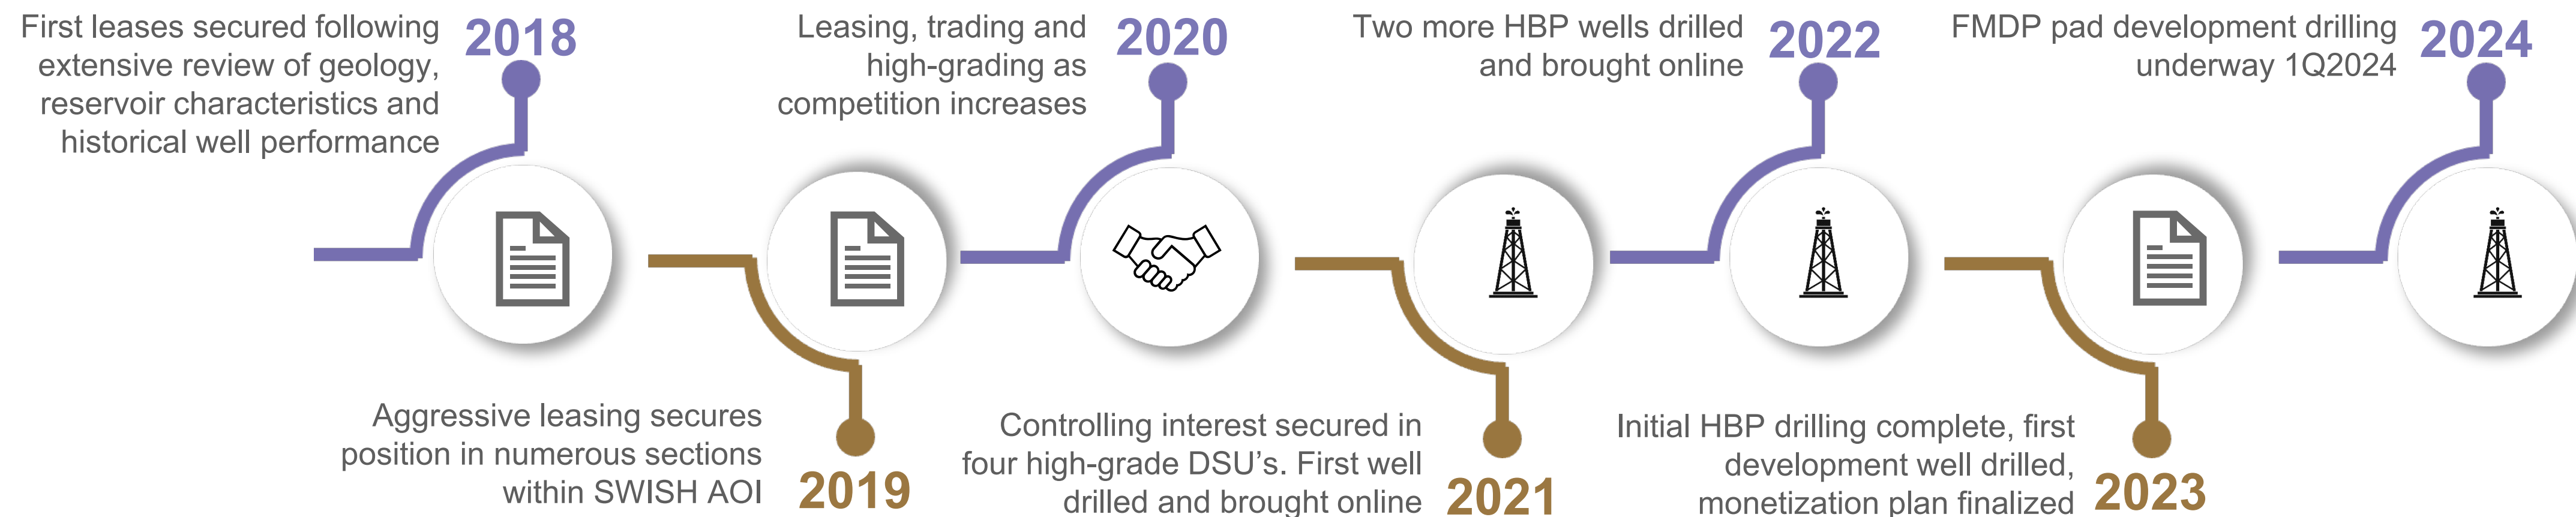

Note: Reserves as of 01/01/2024

Reserves Cautionary Statement, Oil and gas reserves and resource estimates are expressions of judgment based on knowledge, experience, and industry practice. Estimates that were valid when originally calculated may alter significantly when new information or techniques become available. Additionally, by their very nature, reserve and resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional drilling and analysis, the estimates are likely to change. This may result in alterations to development and production plans which may, in turn, adversely impact the Company's operations. Reserves estimates and estimates of future net revenues are, by nature, forward looking statements and subject to the same risks as other forward looking statements. Brookside confirms that it is not aware of any new information or data that materially affects the information included in its market announcement dated 17 April 2024 that included the results of the 2024 independent certification of its reserves of oil and gas and that all the material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

SWISH AOI Story

Discovery to Full Field Development in 5-years

- 🔥 Remarkable achievement given our size, capital constraints, market conditions and stiff competition
- 🔥 Company making asset with all the ingredients required to achieve a re-rating and provide springboard for growth
- 🔥 Free cashflow generated from initial wells has largely funded ongoing leasing, development, 5% on-market share buyback and G&A costs

SWISH AOI Well Performance

Brookside Operated Sycamore and Woodford Wells

- Four wells drilled and completed, safely and efficiently and within budget
- Premium rock, operational excellence and risk management are keys to success
- Well performance in-line with or better than pre-drill estimates
- Very rapid payouts attributed to well performance and high realized prices
- Resilient economics, **on a look back basis** the Rangers Well would generate a 10% (before tax) ROR at US\$45 WTI and US\$2.50 NG

1. Estimated Ultimate Recoveries (EUR's) are 8/8ths, three stream i.e. Oil, NGL's and shrunk gas

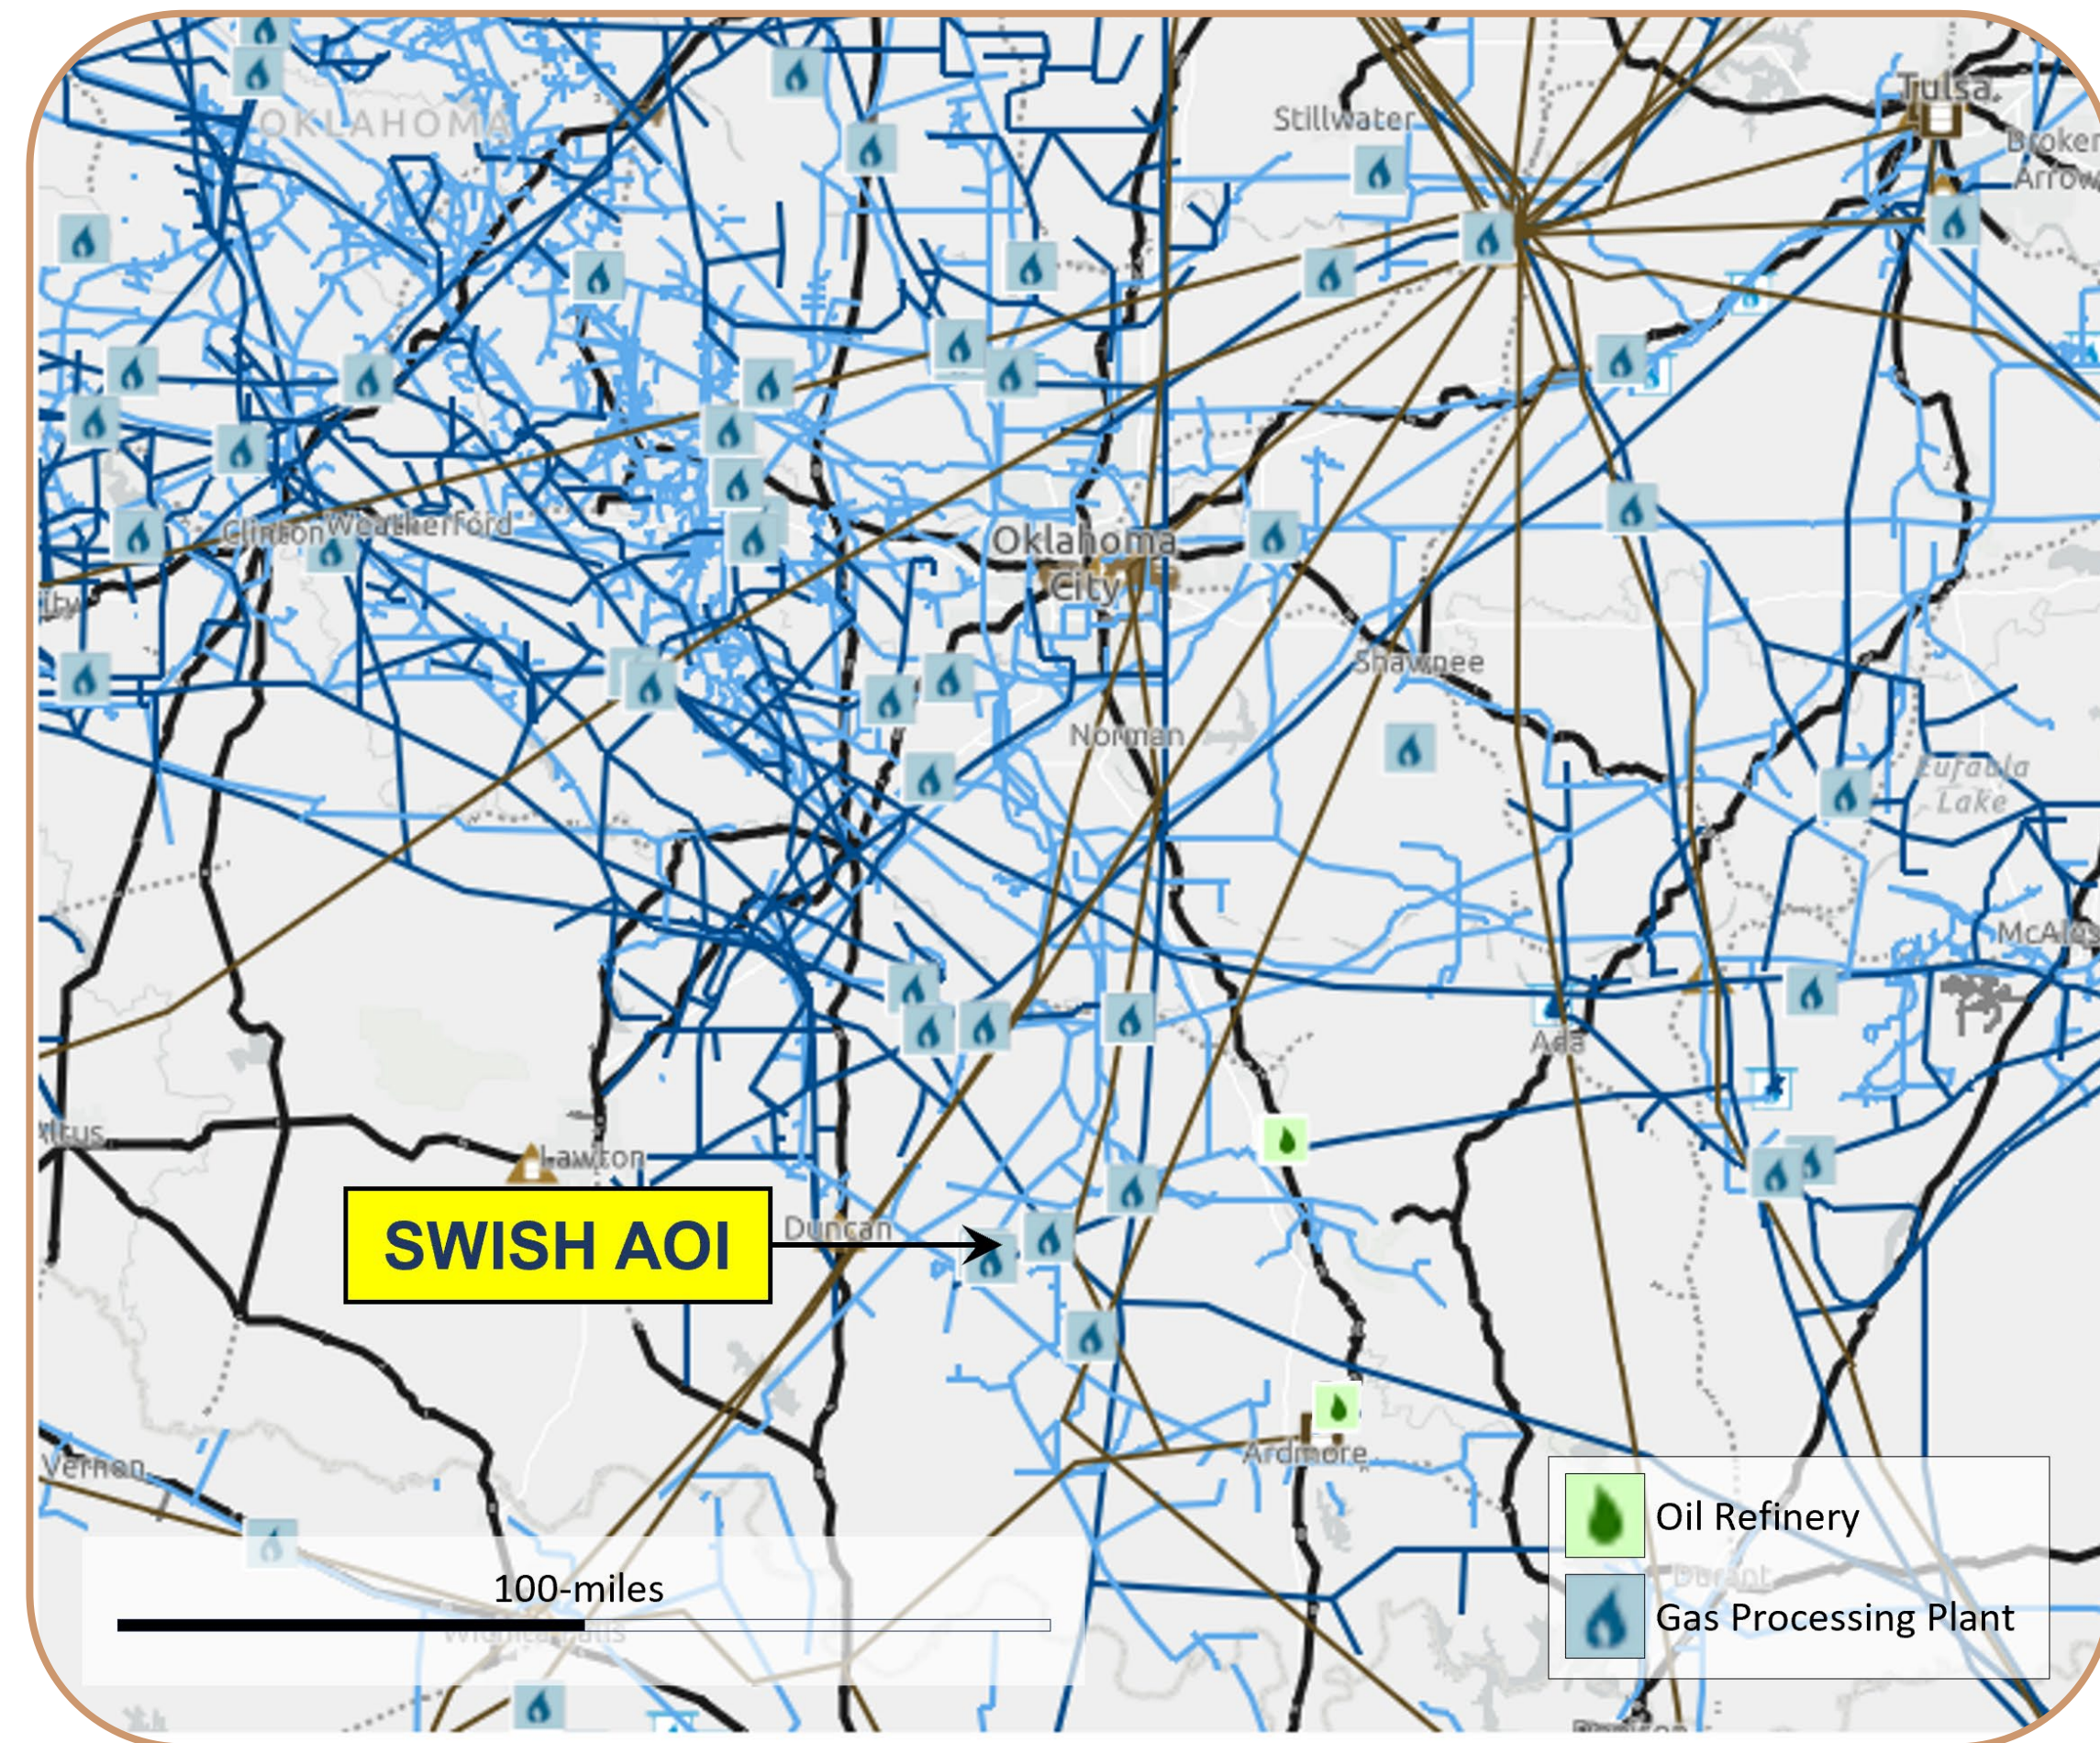

SWISH AOI Operating Costs

Low-Cost, High-Margin Production Stream

-  High liquids content, rich gas with no impurities and minimal produced water
-  Proximity to refining and gas processing facilities
-  Strong price realization for Oil, NGLs and Gas
-  Low transport, marketing and lease operating expenses
-  Delivers very strong margins and protection against lower prices

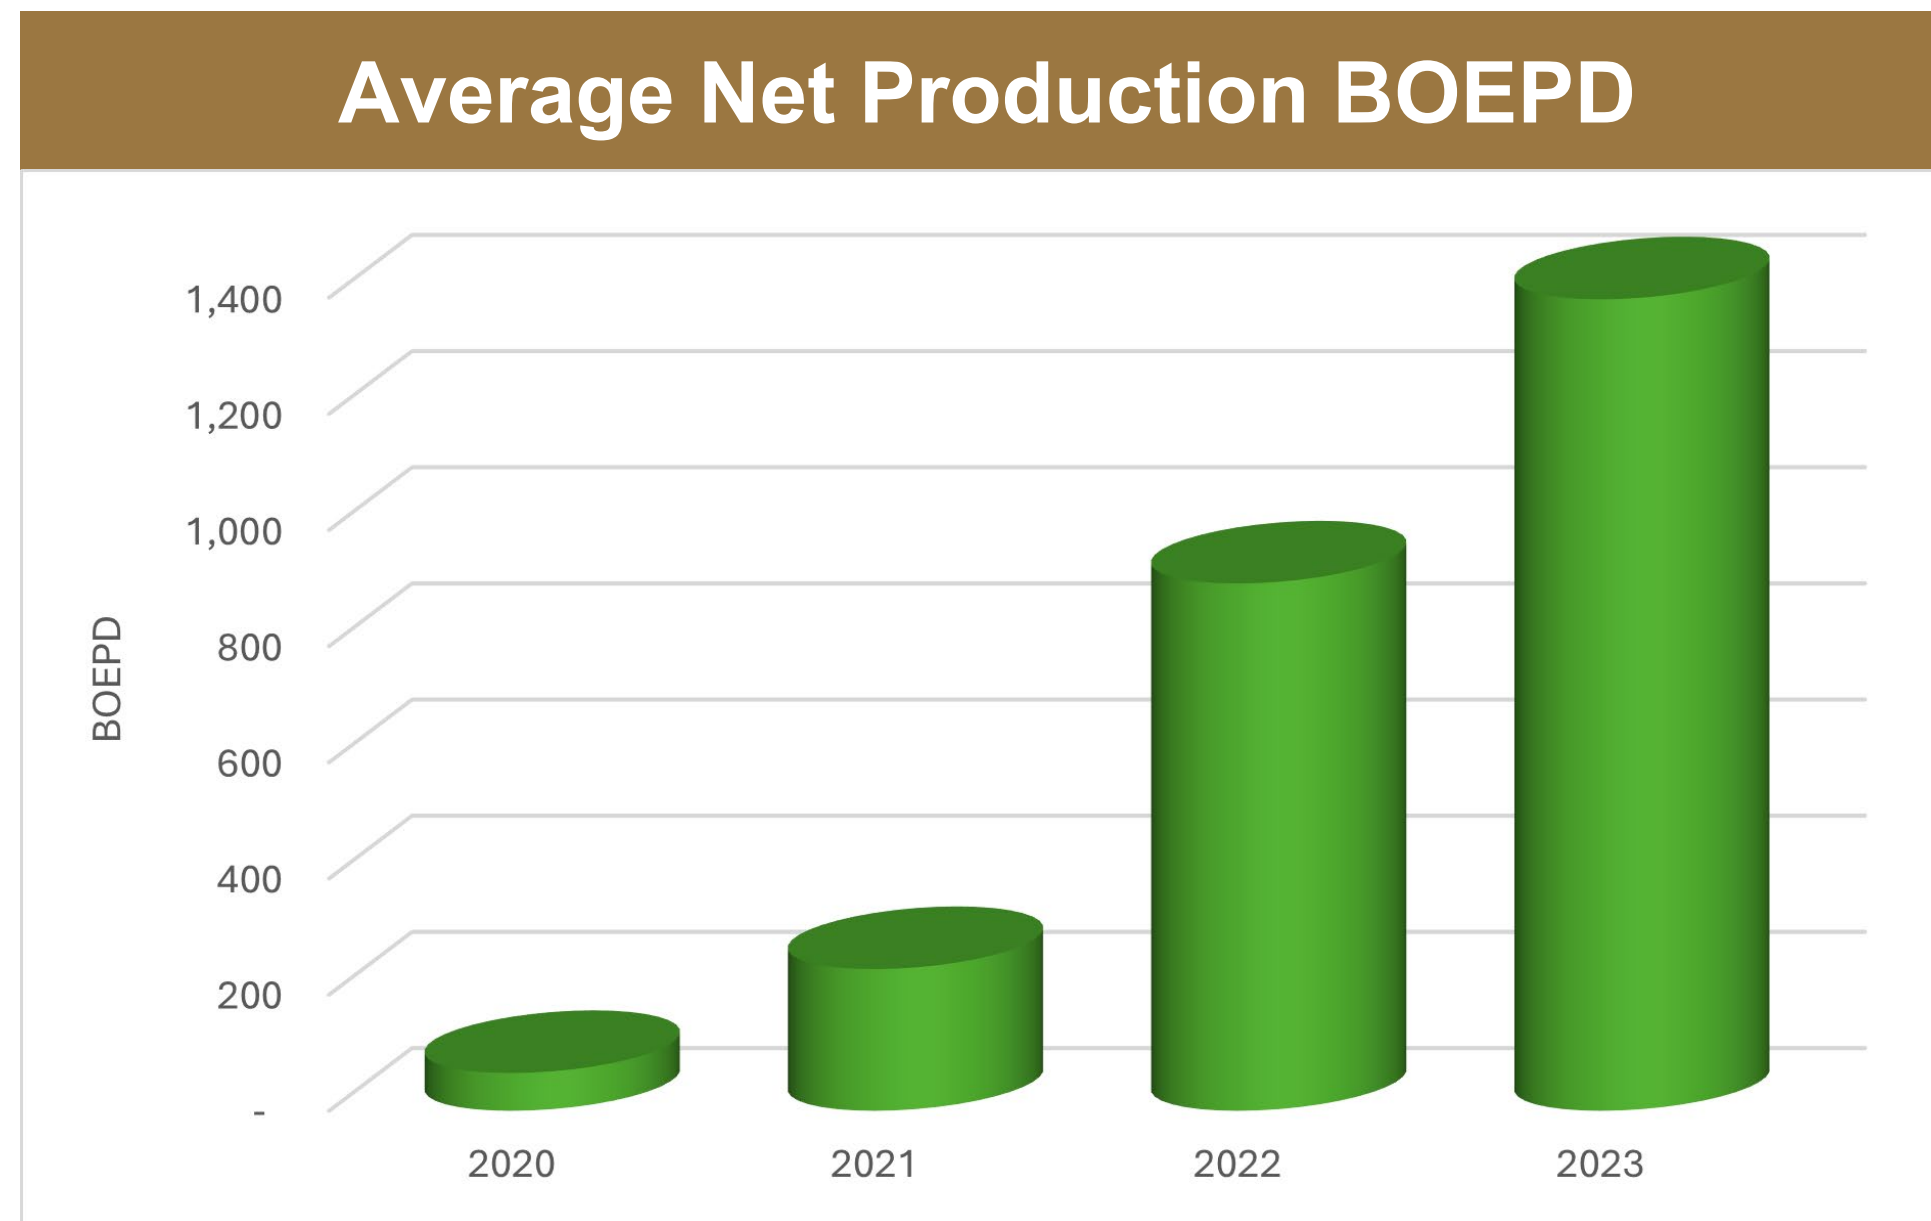

Operating Costs US\$/BOE	
Lease Operating	US\$3.74
Production & Ad Valorem Taxes	US\$2.62
Gathering & Transport	US\$2.72
Total	US\$9.09

SWISH AOI Reserve Definition Drilling

Impact on Production, Revenue and Net Income

- 🔥 21x increase in average daily production in 3-years to an average 1,397 BOEPD Net in 2023
- 🔥 85x increase in Revenue in 3-years to A\$31.3m (After tax Profit A\$16.7m)

2024 Drilling & Completion Activity

FMDP Pad Development Drilling

- FMDP pad development drilling underway for optimum efficiency and reserve exploitation
- Three of four wells successfully DUC'd, with Kenai Rig 19 moving to Flames Pad to drill the 10,000' lateral Rocket Well
- Four wells to be drilled and then completed sequentially, two targeting the Sycamore Limestone and two targeting the Woodford Shale
- Drilling operations scheduled to be completed in 2Q2024 with completion operations to commence shortly thereafter

FMDP Wells				
Well Name	Formation	Lateral Length	EUR ¹	Est. Interest ²
Fleury 3-1S-3W WH3	Woodford	5,000'	616,157	80%
Maroons 3-1S-3W SH1	Sycamore	5,000'	1,031,851	51%
Iginla 3-10-1S-3W WXH2	Woodford	10,000'	1,183,156	80%
Rocket 3-10-1S-3W SXH2	Sycamore	10,000'	1,981,321	46%

FMDP Project Economics

Production to 2,300 BOEPD Net

- CAPEX of US\$26m (net to Brookside) to drill, complete for production and tie-in to sales
- Flow-back and first sales scheduled for late 3Q/early 4Q2024, boosting average production to 2,300 BOEPD Net and Revenue to US\$70m (Net Income US\$26.6m) in FY2025
- Forecast to produce 715,000 BOE (78% liquids) Net to Brookside in its first year of operation and 2,100,000 BOE Net (~60% liquids) over the life of the wells

Project Economics ¹	
Revenue	US\$164m
Net Income	US\$58m
ROR	38.4%
Payout	26-months
PV10	US\$14m

1. Assumes SEC pricing as at 31/12/2023 of US\$78/Bbl. WTI and US\$2.60/Mcf NG

2025 SWISH AOI Full Field Development Commences

Grow Output to 4,500 BOEPD Net

🔥 Revenue of US\$110.8 million and net income of US\$54.5 million for FY2028

🔥 Forecast to generate cumulative revenue of US\$384 million and cumulative net income of US\$169 million to the end of FY2028

1. Assumes US\$75/Bbl. WTI and US\$2.50/Mcf NG
2. Includes forecast volumes and revenue from the FMDP that is currently underway

Beyond Full Field Development

Net Production of 4,200,000 BOE in the 5-years from 2Q2028

- Net production reaches 6,300BOEPD by mid-2028
- 5-years post FFD generates a significant cash surplus to be used to fund possible capital returns, further buy-backs and disciplined growth
- Long tail of low-decline production base (post FY2033) supports meaningful prospecting, evaluation and leasing initiatives

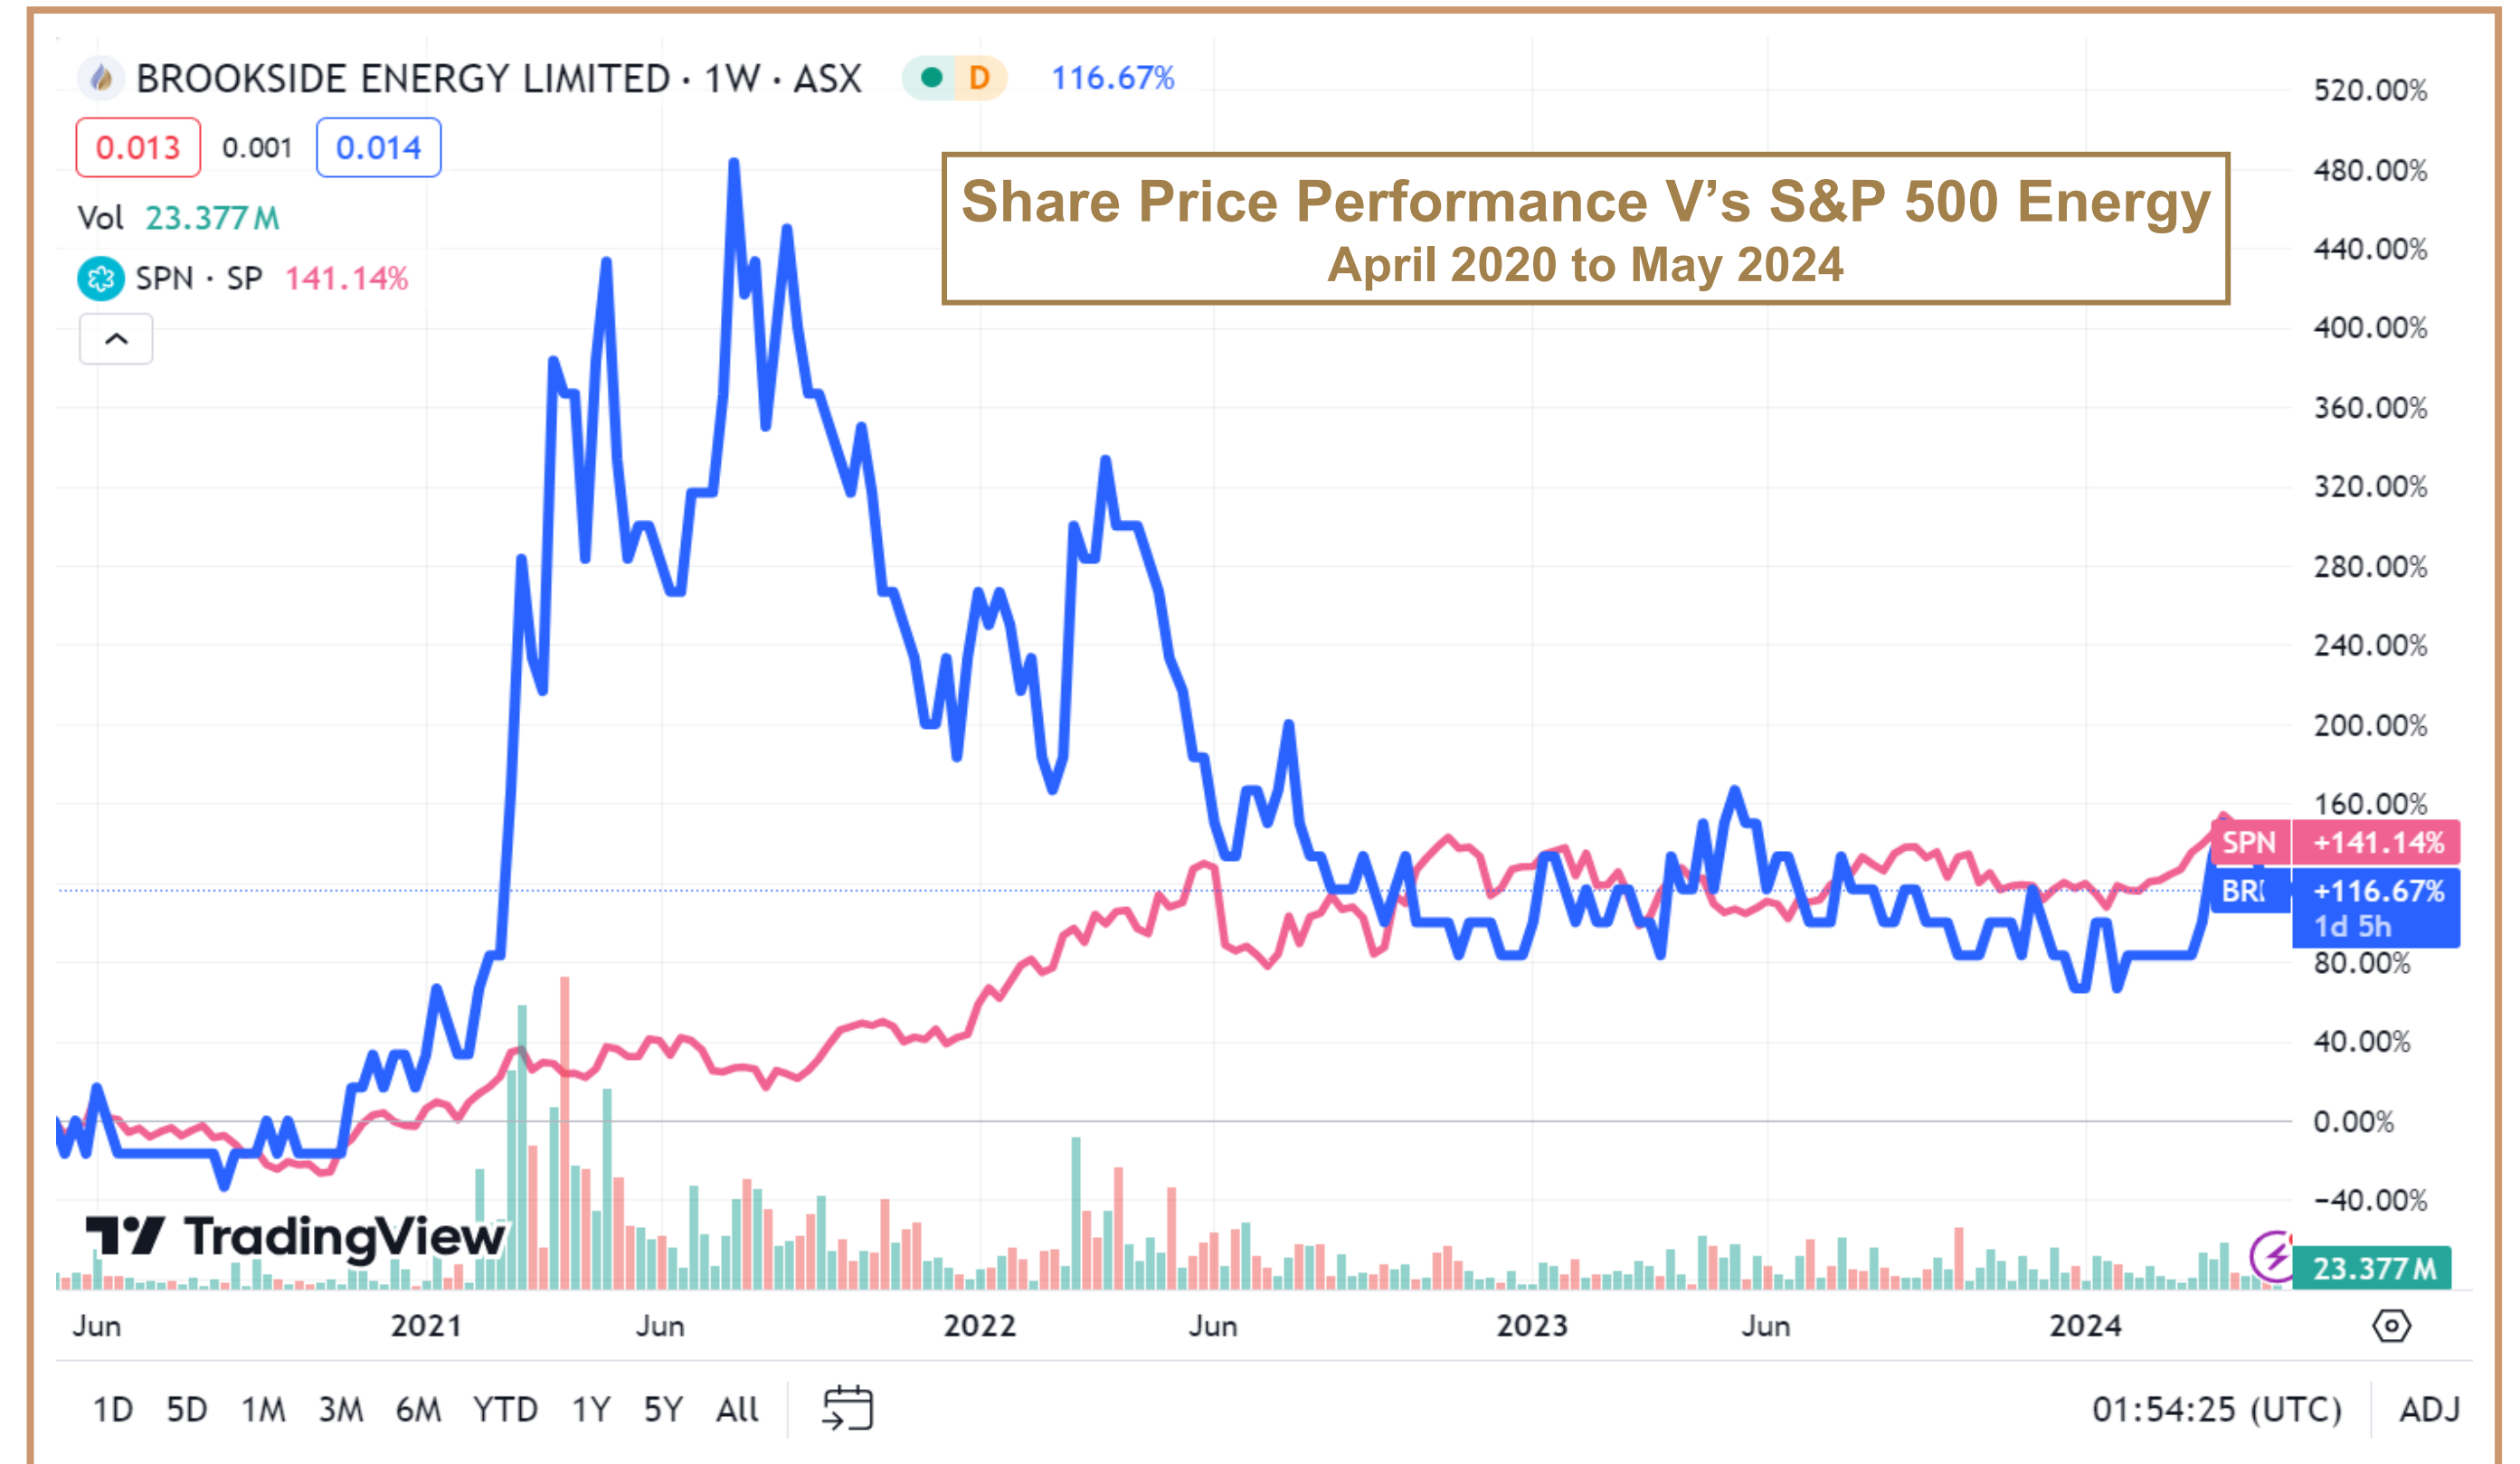

Corporate Overview

Shares on Issue 4.764bn	Market Cap A\$64.3m	Cash A\$32.7m ¹
Debt Nil	Enterprise Value A\$31.6m	Land holding ~5,015 acres ²
2P Net Reserves 11.6MMBOE	EV / 2P BOE ~US\$1.77	EV / BOEPD ³ ~US\$9,000

Ownership Analysis

1. As at 31 March 2024.
2. Subject to the issue of final pooling orders.
3. FY2025 average daily production

Board & Executive Team

Multi Decade Oil & Gas E&P and Corporate Commercial Experience

Michael Fry
Chairman

Extensive corporate, financial and capital markets experience

David Prentice
Managing Director

20-years on-shore US corporate commercial E&P experience

Chris Girouard
EVP Land & New Ventures

40-plus years in the oil & gas industry, expert in all aspects of petroleum land management.

Richard Homsany
Non-Executive Director

Corporate lawyer and CPA, significant experience in resources and energy

Shane Gray
Chief Financial Officer

16-year oil and gas E&P finance professional with expertise across all accounting areas and a background in M&A and IPO's.

John Schumer
EVP Reservoir Engineering

20-plus years in oil and gas exploration and development. Reservoir engineer with experience in development strategy, A&D, reserves, type curves, and prospect generation.

Chris Robertson
Non-Executive Director

34 years of investment market experience, including 20 years in senior roles in the funds management industry

Dr Gracjan Lambert
EGM Commercial

27-years global technical and commercial E&P experience

Lee Francis
EVP Operations

40-plus years engineering and management experience in upstream and midstream operations. Responsible for all drilling, production and infrastructure projects.

Katherine Garvey
Company Secretary

Corporate lawyer, significant resource sector governance and company secretarial experience

Why Brookside Energy?

Low-cost Operator in one of the Highest Return Plays on-shore US

- 🔥 Delivering on our strategy - prospect, prove-up and then monetize
- 🔥 Established producer with 11.6MBOE Net Proved and Probable Reserves (2P)
- 🔥 Transformational FMDP drilling program underway
- 🔥 Set to be positioned in the top tier of small-cap ASX listed oil and gas producers
- 🔥 Financially strong, ~A\$32.7m cash, A\$16.7m FY2023 after tax Profit and no debt
- 🔥 Rates of Return provide resilience through the cycles
- 🔥 Focus on shareholder returns via on-market share buybacks
- 🔥 Disciplined growth underpinned by financial strength
