- Following a successful pilot phase, Hardi Aged Care (“Hardi”) is now moving forward with full site implementation at the Manly Vale facility.
- Implementation of InteliCare in 42 rooms at Blacktown, Hardi’s second site, will now be brought forward to occur concurrently with the Manly Vale implementation.

InteliCare Holdings Ltd (“ICR” or the “Company”) (ASX: ICR), an Australian Software-as-a-Service (SaaS) technology company commercialising its proprietary AI driven InteliCare platform (InteliCare) in the aged care, disability and health sectors is pleased to announce the 10-bed deployment at the Hardi Aged Care Manly Vale facility will now expand to a full site rollout. In addition, the deployment of InteliCare into 42 single rooms at the Blacktown facility, Hardi’s second site has been brought forward to occur at the same time.

InteliCare and Hardi entered into a binding Subscription Agreement on 27 February 2024 to deploy InteliCare into Hardi’s six (6) residential aged care facilities, supporting almost 600 residents. The deployment across these six facilities is expected to take approximately nine months.

Daniel Pilbrow, InteliCare CEO, says: “I am delighted to report on the success of the 10 bed pilot deployment at Manly Vale. InteliCare will now be implemented across the remaining 82 beds at Manly Vale to provide Hardi with the valuable benefits they have seen in the pilot period across an entire facility.

We have built a really strong partnership with the Hardi team during this first phase of pilot deployment at the Manly Vale site, and we continue to benefit from their valuable inputs and insights. I am particularly impressed with the way Hardi are approaching how the implementation of InteliCare can support their operating model, and how it can support in the delivery of the best care to residents and great experiences for team members.

I am really excited that we are also able to support Hardi in bringing forward the implementation of InteliCare in 42 single rooms at the second site in Blacktown to occur at same time as the Manly Vale facility.”

Jo Dalton, Hardi Aged Care GM, says: “We are genuinely impressed with the progress on the pilot as well as the commitment from the InteliCare team to be responsive and address things as they have arisen. The commitment and responsiveness from InteliCare gives us great confidence to progress to next steps.

We are currently planning the roll out across the whole Manly Vale facility and are really looking forward to being able to benefit from the

full site implementation. We also confirm we have brought forward the implementation of IntelliCare into the 42 Extra Service single rooms with ensuites at our Blacktown site, with the aim of completing these at the same time as the Manly Vale roll out.”

This announcement is approved for release by the Board of IntelliCare Holdings Limited.

About Intelicare Holdings Limited

InteliCare is an Australian technology company that has commercialised a predictive analytics hardware and software system for use in the aged care and health industries. IntelliCare believes Australians deserve to age with dignity and through its business-to-business (B2B) and business-to-consumer (B2C) solutions built on its proprietary internet of things (IOT) platform utilising smart sensors and artificial intelligence (AI), IntelliCare empowers care providers to tailor care solutions to their customers, delivering improved outcomes and increasing client independence.

About Hardi Aged Care

Hardi Aged Care’s vision is to enhance the life of every resident in their care, by treating residents as family in an environment of respect, dignity, compassion, and enjoyment. Hardi has been in operation for over 40 years with six facilities across Greater Sydney. Hardi is adding additional facilities and rooms for residents with the need for more care in the aged care space whilst also identifying key partners to accelerate investment in technology innovation in the care space. As part of Hardi’s continued commitment to excellence in clinical care, the organisation has undertaken additional investments in technology to improve care outcomes for residents, make it easier for their care team to provide better care, and for the families of the residents to have better real time information relating to the care of the residents and supporting their loved ones.
