Disclaimers & Compliance Statements

This Presentation has been prepared by Bellevue Gold Limited (Company or Bellevue) (ASX: BGL) and is authorised by the Managing Director and Chief Executive Officer of Bellevue Gold Limited.

DISCLAIMER

This Presentation has been prepared by the Company based on information from its own and third party sources and is not a disclosure document. No party other than the Company has authorised or caused the issue, lodgement, submission, despatch or provision of this Presentation, or takes any responsibility for, or makes or purports to make any statements, representations or undertakings in this Presentation. Except for any liability that cannot be excluded by law, the Company and its related bodies corporate, directors, employees, servants, advisers and agents disclaim and accept no responsibility or liability for any expenses, losses, damages or costs incurred by you relating in any way to this Presentation including, without limitation, the information contained in or provided in connection with it, any errors or omissions from it however caused, lack of accuracy, completeness, currency or reliability or you or any other person placing any reliance on this Presentation, its accuracy, completeness, currency or reliability. Information in this Presentation which is attributed to a third-party source has not been checked or verified by the Company. This Presentation is not a prospectus, disclosure document or other offering document under Australian law or under any other law. It is provided for information purposes and is not an invitation nor offer of shares or recommendation for subscription, purchase or sale in any jurisdiction. This Presentation does not purport to contain all the information that a prospective investor may require in connection with any potential investment in the Company. It should be read in conjunction with, and full review made of, the Company's disclosures and releases lodged with the Australian Securities Exchange (ASX) and available at www.asx.com.au. Each recipient must make its own independent assessment of the Company before acquiring any shares in the Company.

NOT INVESTMENT ADVICE

This Presentation does not provide investment advice or financial product advice. Each recipient of the Presentation should make its own enquiries and investigations regarding all information in this Presentation including, but not limited to, the assumptions, uncertainties and contingencies which may affect future operations of the Company and the impact that different future outcomes might have on the Company. Information in this Presentation is not intended to be relied upon as advice to investors or potential investors and has been prepared without taking account of any person's individual investment objectives, financial situation or particular needs. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own investment objectives, financial situation and needs and seek legal, accounting and taxation advice appropriate to their jurisdiction. The Company is not licensed to provide financial product advice in respect of its securities.

FORWARD LOOKING INFORMATION

This Presentation contains forward-looking statements. Wherever possible, words such as "intends", "expects", "scheduled", "estimates", "anticipates", "believes", and similar expressions or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, have been used to identify these forward-looking statements. Although the forward-looking statements contained in this Presentation reflect management's current beliefs based upon information currently available to management and based upon what management believes to be reasonable assumptions, the Company cannot be certain that actual results will be consistent with these forward-looking statements. A number of factors could cause events and achievements to differ materially from the results expressed or implied in the forward-looking statements. These factors should be considered carefully and prospective investors should not place undue reliance on the forward-looking statements. Forward-looking statements necessarily involve significant known and unknown risks, assumptions and uncertainties that may cause the Company's actual results, events, prospects and opportunities to differ materially from those expressed or implied by such forward-looking statements. Although the Company has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors and risks that cause actions, events or results not to be anticipated, estimated or intended, including those risk factors discussed in the Company's public filings. There can be no assurance that the forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, prospective investors should not place undue reliance on forward-looking statements. Any forward-looking statements are made as of the date of this Presentation, and the Company assumes no obligation to update or revise them to reflect new events or circumstances, unless otherwise required by law. This Presentation may contain certain forward-looking statements and projections regarding:

- estimated Resources and Reserves;
- planned production and operating costs profiles;
- planned capital requirements; and
- planned strategies and corporate objectives.

Such forward looking statements/projections are estimates for discussion purposes only and should not be relied upon. They are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Company. The forward looking statements/projections are inherently uncertain and may therefore differ materially from results ultimately achieved. The Company does not make any representations and provides no warranties concerning the accuracy of the projections, and disclaims any obligation to update or revise any forward looking statements/projections based on new information, future events or otherwise except to the extent required by applicable laws.

Any statements in relation to or connected with the Company's ambition to achieve net-zero greenhouse gas emissions for the Bellevue Gold Project by 2026, including targeted renewable energy penetration rates, are based on the material assumptions detailed in the Company's 2023 Sustainability Report released to the ASX on 20 December 2023. The Company confirms that the assumptions as disclosed in that report continue to apply and have not materially changed.

Disclaimers & Compliance Statements

JORC COMPLIANCE STATEMENTS

It is a requirement of the ASX Listing Rules that the reporting of Ore Reserves and Mineral Resources in Australia comply with the Joint Ore Reserves Committee's Australasian Code for Reporting of Mineral Resources and Ore Reserves (JORC Code). Investors outside Australia should note that while Ore Reserve and Mineral Resource estimates of the Company in this presentation comply with the JORC Code (such JORC Code-compliant ore reserves and mineral resources being "Ore Reserves" and "Mineral Resources" respectively), they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43-101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators (the "Canadian NI 43-101 Standards"); or (ii) Item 1300 of Regulation S-K, which governs disclosures of mineral reserves in registration statements filed with the SEC. Information contained in this document describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of Canadian or US securities laws.

This Presentation contains references to Mineral Resource and Ore Reserves estimates, which have been extracted from the Company's ASX announcements dated 4 May 2022 titled "Resource Update", 10 June 2022 titled "Project Production, De-risking and Growth Update-update" and 24 November 2022 titled "Further positive grade control results". This Presentation also contains references to Exploration Results which have been extracted from various ASX announcements dated as indicated throughout this Presentation. The Company confirms that it is not aware of any new information or data that materially affects the information included in the said announcements, and in the case of estimates of Mineral Resources and Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the original market announcements.

INVESTMENT RISK

There are a number of risks specific to the Company and of a general nature which may affect the future operating and financial performance of the Company and the value of an investment in the Company, including and not limited to the Company's capital requirements, the potential for shareholders to be diluted, risks associated with the reporting of resources and reserves estimates, budget risks, underwriting risk, development risk and operational risk. An investment in new shares is subject to known and unknown risks, some of which are beyond the control of the Company. The Company does not guarantee any particular rate of return or the performance of the Company. Investors should have regard to the risk factors outlined in this Presentation under the section titled "Risks" when making their investment decision.

FINANCIAL DATA

All dollar values are in Australian dollars (A\$ or AUD) unless otherwise stated. The information contained in this Presentation may not necessarily be in statutory format. Amounts, totals and change percentages are calculated on whole numbers and not the rounded amounts presented. Past performance, including past share price performance of the Company and the pro forma historical financial information provided in this Presentation is for illustrative purposes only and is not represented as being indicative of the Company's views on its future financial condition and/or performance. The pro forma historical financial information has been prepared by the Company in accordance with the measurement and recognition requirements, but not the disclosure requirements, of applicable accounting standards and other mandatory reporting requirements in Australia. Past performance of the Company cannot be relied upon as an indicator of (and provides no guidance as to) the future performance of the Company. Nothing contained in this presentation nor any information made available to you is, or shall be relied upon as a promise, representation, warranty or guarantee, whether as to the past, present or future.

Bellevue Gold FY24 Focus

Unlocking a globally significant high-grade, high margin, growth focused gold project in Australia

**Production
ramp up**

**Generate
Consistent
Results**

**Unlock World
Class Potential**

**ESG, people and
culture**

- Project delivered – Mar Q 2024 production of 37,338 ounces during ramp up phase
- Commercial production declared; Guidance for H2 FY24 of 75k–85koz gold produced
- FY25 guidance and multi-year outlook to be released in July 2024
- Development within high-grade stoping areas established with continued increase in number of high-grade stopes expected as operation continues to ramp up; increasing head grade
- Focus on maintaining underground development and stoping rates for steady state
- +180,000m of grade control drilling completed in last 18 months; multiple high-grade hits define robust, high-quality Resource
- Optimise milling performance for maximum value at 1.0Mtpa milling rate
- Underground development provides platform for exploration growth
- Bellevue lode system remains open along strike and at depth
- Mill throughput rates up to 1.2Mtpa proven to be able to be achieved
- Expansion studies underway to circa 1.5Mtpa
- Industry leading aspirational target of net zero greenhouse gas emissions by 2026
- Highly motivated workforce with strong, values-based culture
- Sector-leading diversity >40% of employees are women*

Board and management – a proven team of mine builders

Kevin Tomlinson
Non-Executive
Independent
Chairman

Investment Banking

- >40yrs' experience
- Previously Centamin Plc, Orbis Gold, and Cardinal Resources
- Chair of Health, Safety & Sustainability Committee, member of the Nomination & Remuneration Committee and Audit & Risk Management Committee

Steve Parsons
Non-Executive
Director

Geologist

- >20yrs' experience
- Founder Gryphon Minerals discovered 3 million oz Banfora (Wahgnion) gold Project, that was acquired by Endeavour Mining
- Member of the Health, Safety & Sustainability Committee

Fiona Robertson
Non-Executive
Independent
Director

Finance

- >40yrs' experience
- Previously Chase Manhattan and prior CFO of Delta Gold
- Chair of Audit & Risk Management Committee, member of the Nomination and Remuneration Committee and Health, Safety and Sustainability Committee

Shannon Coates
Non-Executive
Independent
Director

Lawyer

- >25yrs' experience in corporate law & compliance for publicly listed companies and Chartered Secretary
- Chair of Nomination & Remuneration Committee and member of the Audit & Risk Management Committee

Mike Naylor
Non-Executive
Director

Chartered Accountant

- >25yrs' experience across corporate advisory and public company management
- Senior roles with Resolute Mining, Dragon Mining and Gryphon Minerals
- Member of the Nomination & Remuneration Committee

Darren Stralow
Managing Director
& CEO

Mining Engineer

- >20yrs' experience
- Previous role of Chief Development Officer and GM of Operations at Northern Star Resources (NST)
- Led integration of NST's Australian business units

Bill Stirling
Chief Operating
Officer

Mining Engineer

- >15yrs' experience
- Previously Northern Star Resources (NST) GM Jundee, GM Kalgoorlie Operations, and GM of Bronzewing
- Specialising in operational productivity & contract negotiations

Amber Stanton
General Counsel &
Company
Secretary

Corporate Lawyer

- >20yrs' experience
- Previously General Counsel/Co Sec at Resolute Mining (RSG)
- Prior was a partner at international legal firms specialising in M&A and capital markets

Guy Moore
Chief Financial
Officer

Chartered Accountant

- >20yrs' experience
- Previously GM Finance at Northern Star Resources
- Instrumental KCGM Super pit acquisition & Saracen merger
- Perth Mint Finance Manager, involved in new product development

Luke Gleeson
Chief
Sustainability
Officer & Head of
Corp Development

Finance, Geology & MSc in Mineral Economics

- >20yrs' experience in equity markets and sustainability
- Raised over \$1.4B in the last 5yrs at Bellevue and at Northern Star Resources

Sam Brooks
Chief Geologist

Geologist

- >20yrs' experience
- Led the discovery of the 3.1 million oz Bellevue Gold project.
- Other discoveries include 3 million oz Banfora (Wahgnion) gold project

Daina Del Borrello
General Manager -
People & Company
Culture

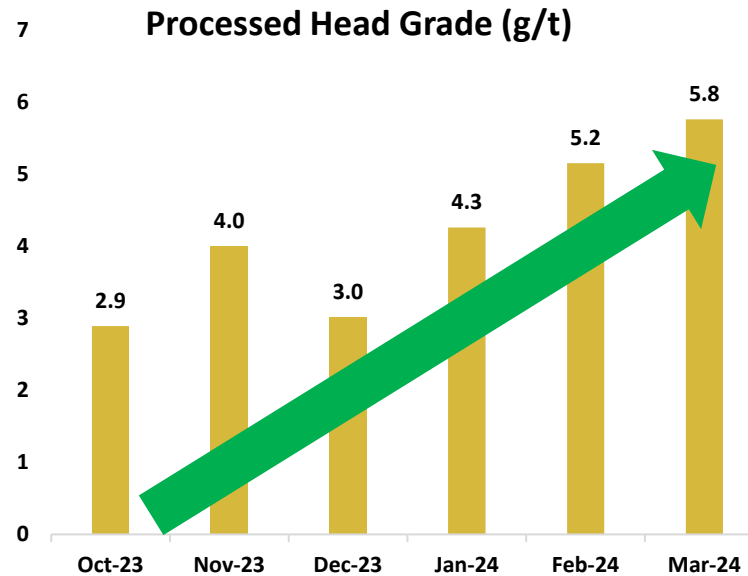

Human Resources

- >18yrs' experience working in mining related HR roles
- Supported CITIC Pacific and a lithium miner from development to pre-production

March quarter delivers 37,338 ounces during ramp up

Commercial production declared in May 2024 with key metrics achieved across mining & processing

- Milled head grade continues to increase, as stoping tonnes increase to a higher percentage of mill feed ✓
- Further increase in head grade forecast for the June 2024 quarter underpinning guidance ✓
- Mining and reconciliation tracking in line with project assumptions ✓
- H2 FY24 Guidance of 75,000oz-85,000oz – transition to steady state production achieved ✓
- Positive free cash flow¹ delivered over the three months to 30 April 2024 ✓

¹ Free cash flow calculated as the sum of operating and investing cash flows, plus or minus the movement in opening and closing gold dore and bullion value (at closing month end gold prices).

2H FY24 Guidance of 75k-85koz

Commercial production declared and on track for guidance ✓

- Commercial production declared in May 2024
- Positive free cash flow¹ delivered over the three months to 30 April 2024
- On track to achieve guidance of 75,000 to 85,000 ounces for the six months to 30 June 2024
- FY25 guidance and multi-year outlook to be released in July 2024

Strengthening Balance Sheet ✓

- Very low construction capital remaining
- Growth in FCF set to continue to ramp up in Jun Q 2024
- Focus of building balance sheet strength through operational delivery
- First debt repayment of \$6M paid in March 2024. Upcoming minimum payments are nil in June 2024, \$8M in September 2024 and \$10M in December 2024

Growth ✓

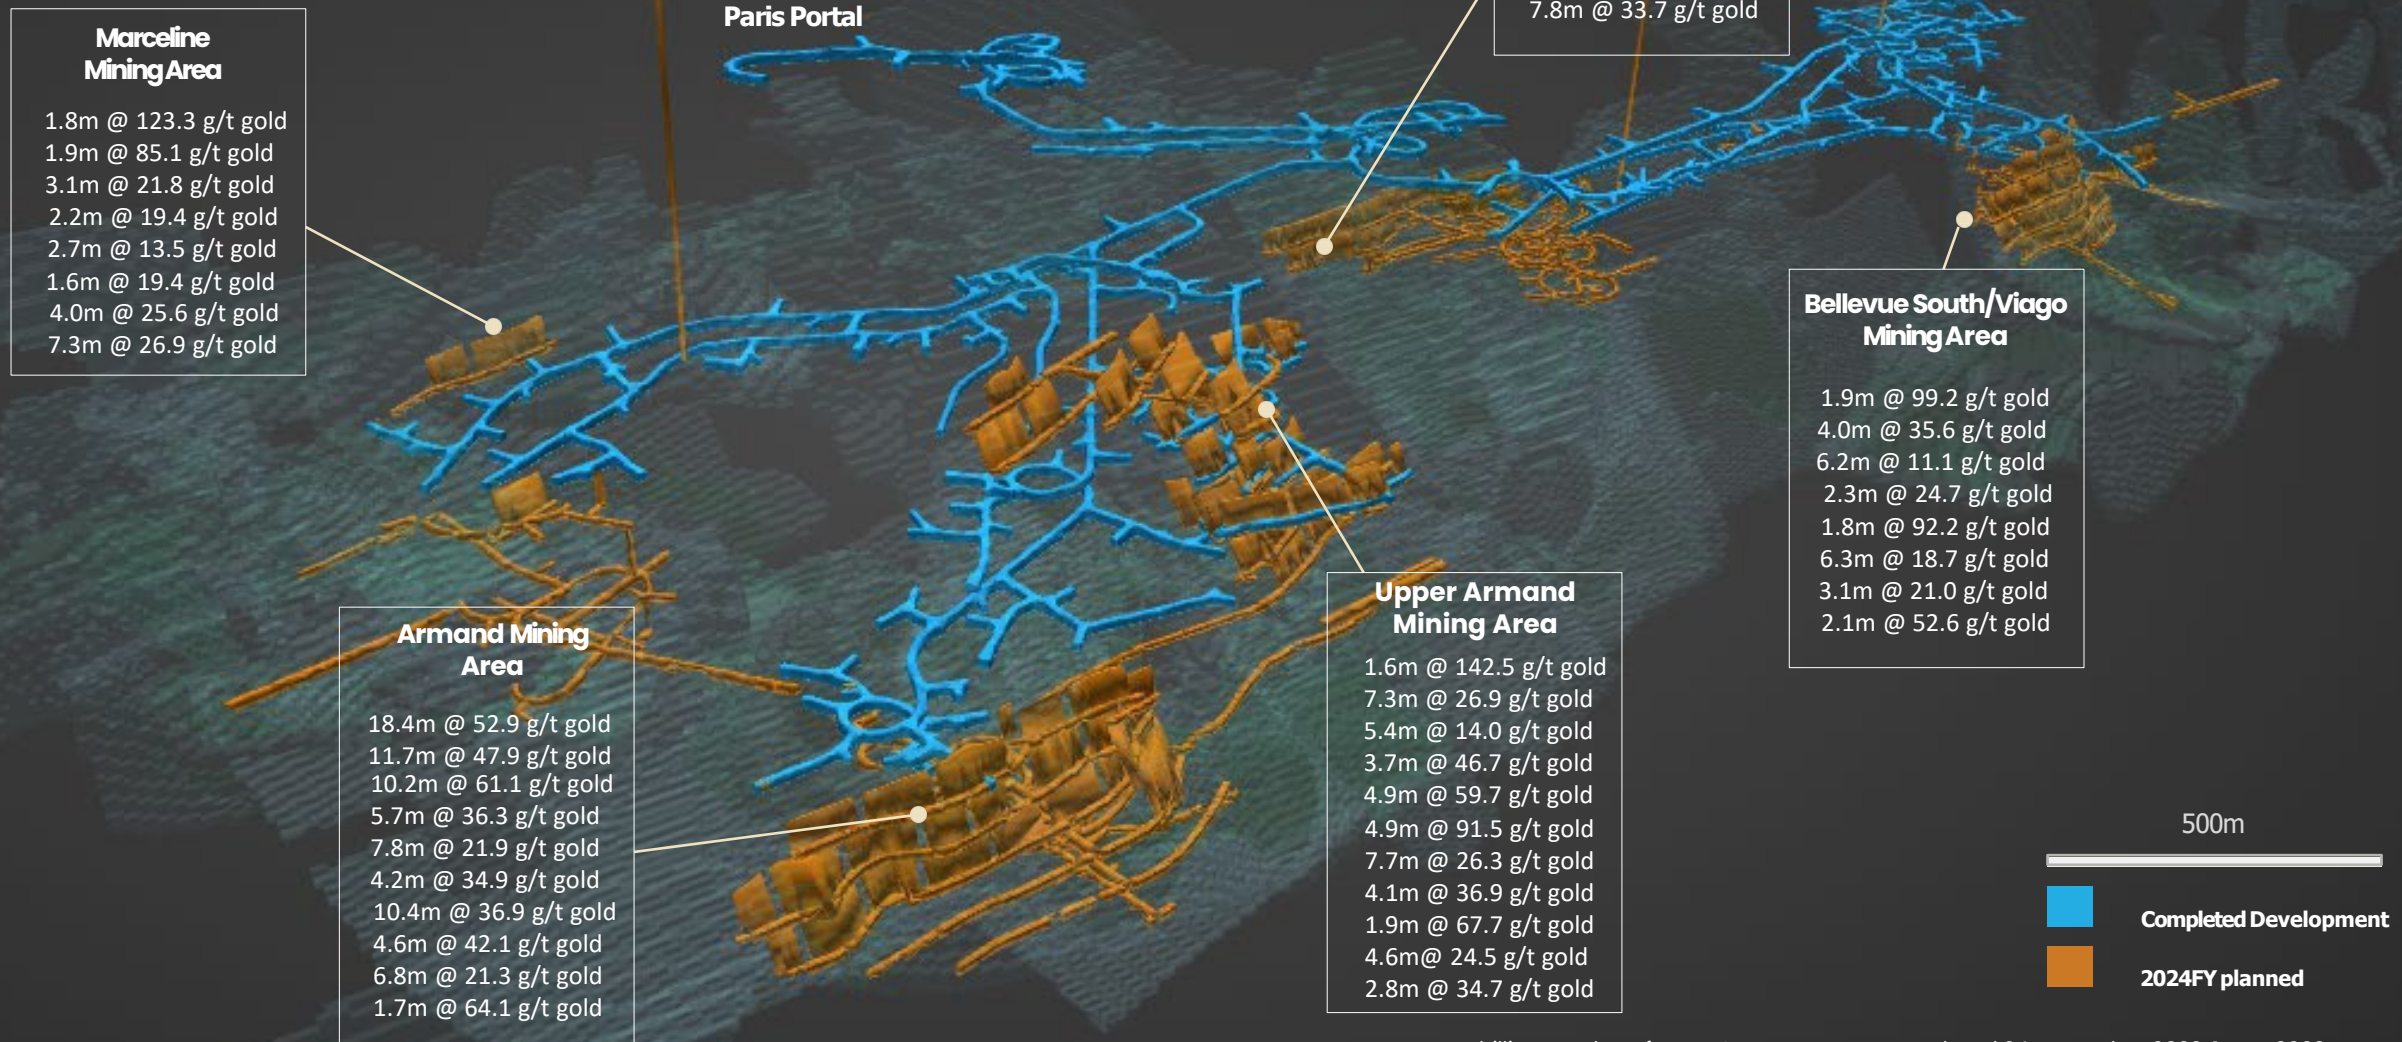

- Restart near-mine exploration with additional drill rig in Jun Q 2024
- Leverage the underground infrastructure for exploration platforms
- Project execution sets platform for production growth
- Expansion study underway for increase in processing rate to 1.5Mtpa

¹Free cash flow calculated as the sum of operating and investing cash flows, plus or minus the movement in opening and closing gold ore and bullion value (at closing month end gold prices).

Grade control drilling; high-grade lodges

Underground areas ramping up into five independent mining areas, significantly decreasing risk across the deposit

For drilling results refer to ASX announcements dated 24 November 2022, 1 May 2023, 3 August 2023, 12 September 2023 and 19 March 2024

Multiple independent mining areas in development

Five independent mining areas in ore development with multiple development levels

- Stoping underway at Upper Armand, Lower Armand, Bellevue South, Deacon and Marceline
- Excellent reconciliation achieved from grade control drilling to mined shapes
- All areas grade control drilled on at least 20 x 10m spacing ahead of ore development

Recently reported infill results include:

| | | |
|-----------------|-----------------------|-----------------------|
| Bellevue | 1.9m @ 99.2 g/t gold | 1.8m @ 92.2 g/t gold |
| | 4.0m @ 35.6 g/t gold | 6.3m @ 18.7 g/t gold |
| Deacon | 10.8m @ 66.8 g/t gold | 14.0m @ 49.4 g/t gold |
| | 8.9m @ 71.1 g/t gold | 8.4m @ 50.1 g/t gold |
| Armand | 18.4m @ 52.9 g/t gold | 17m @ 47.9 g/t gold |
| | 10.2m @ 61 g/t gold | 4.2m @ 34.9 g/t gold |

>40 active headings available to deliver the platform for mine production

For drilling results refer to ASX announcements dated 1 May 2023, 3 August 2023 and 19 March 2024

Stoping ramping up; excellent performance to date

- Ramp-up continues with >30 stopes completed, majority from Upper Armand area
- Cavity monitoring of voids to date highlight favourable stoping conditions
 - Minimum widths achieved
 - Target dilution achieving better than design (less than 10%)
 - Good fragmentation for processing
- Five stoping areas now online: Upper Armand, Lower Armand, Bellevue South, Deacon and Marceline
- Stoping productivity to increase in high-grade areas during H2 FY24 as multiple stoping levels accessed
- **Stoping provides majority of high-grade material for processing**

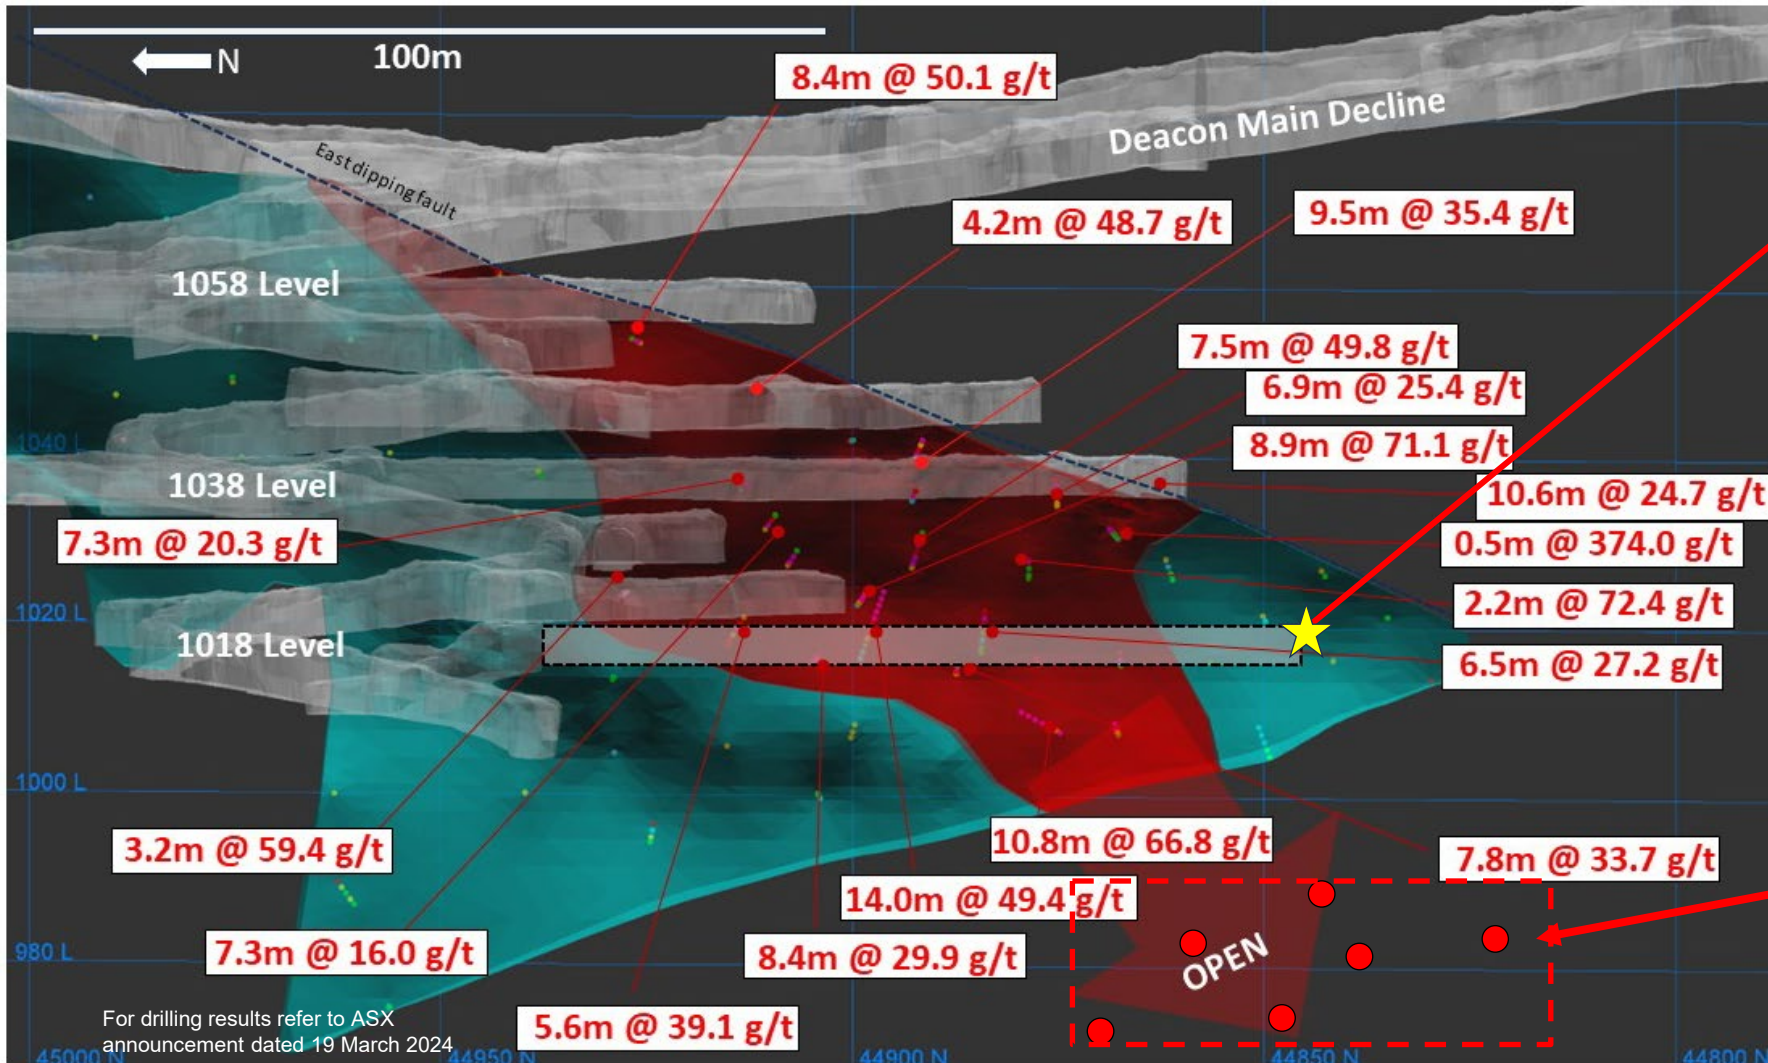

Stoping to date across multiple areas is achieving better than target dilution parameters

Deacon high-grade shoot defined by infill drilling

- New 'High-grade shoot' identified along 1.4Moz Deacon lode through underground grade control drilling (in red) and remains open down plunge
- High-grade shoot analogous to zones in historic Bellevue lode where ~800koz were mined at 13g/t gold between 1987-1997

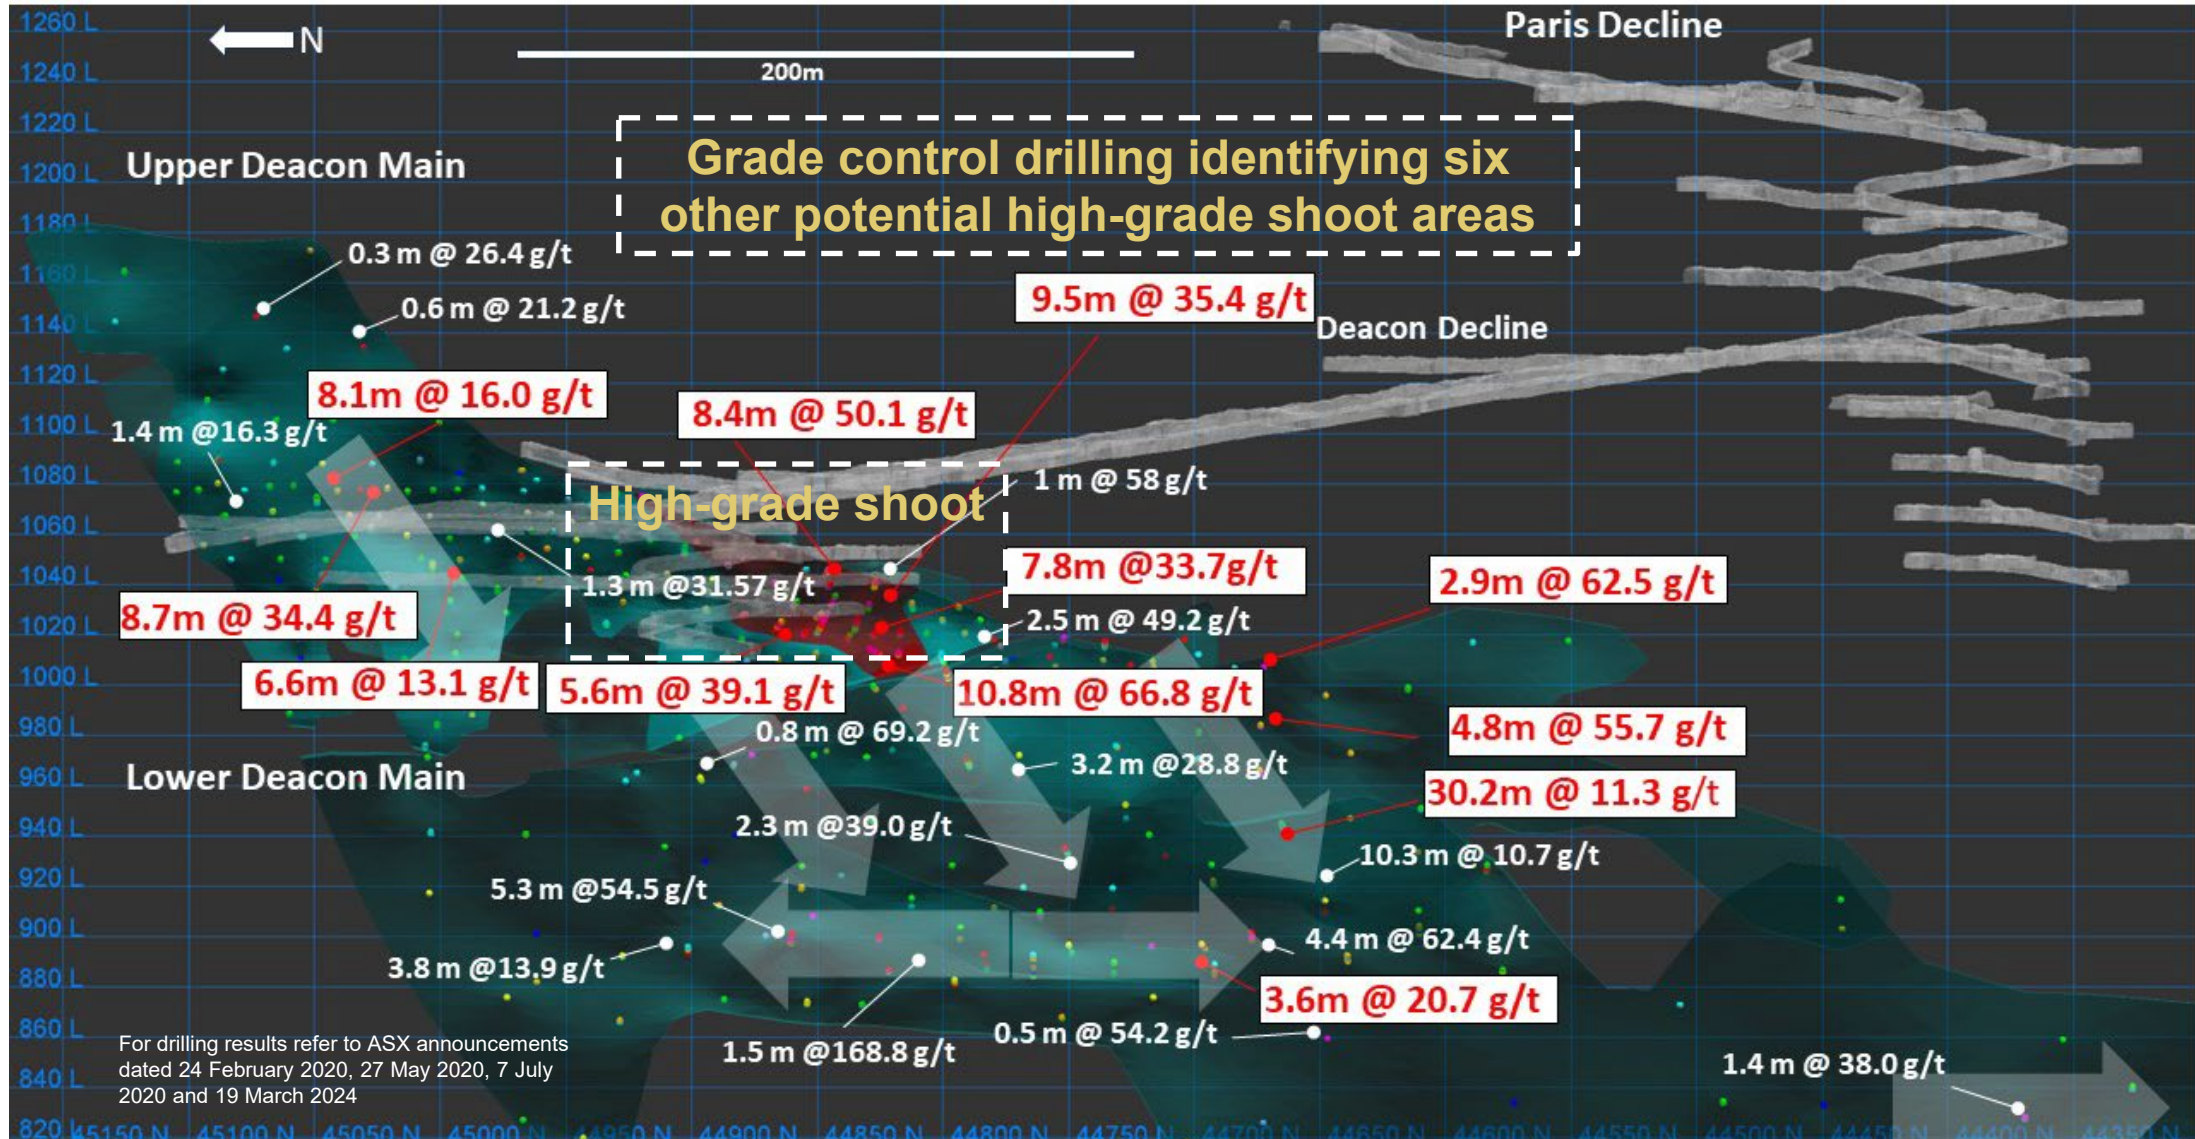

Drive position end of March 2024 first stopes from shoot to be mined during June 2024 quarter

Currently grade control drilling

For drilling results refer to ASX announcement dated 19 March 2024

Deacon high-grade shoot – Multiple repeat shoots to drive mine plan

- New 'High-grade shoot' identified along 1.4Moz Deacon lode through infill drilling
- Potential for a further six high-grade shoot areas identified along Deacon Main lode to date

BELLEVUE
GOLD

Growth Story

- Exceptional grade in recent grade control infill drilling
- Underground development creates platform for further exploration
- Deposit remains open along strike, at depth and down plunge
- Plant designed for increased throughput

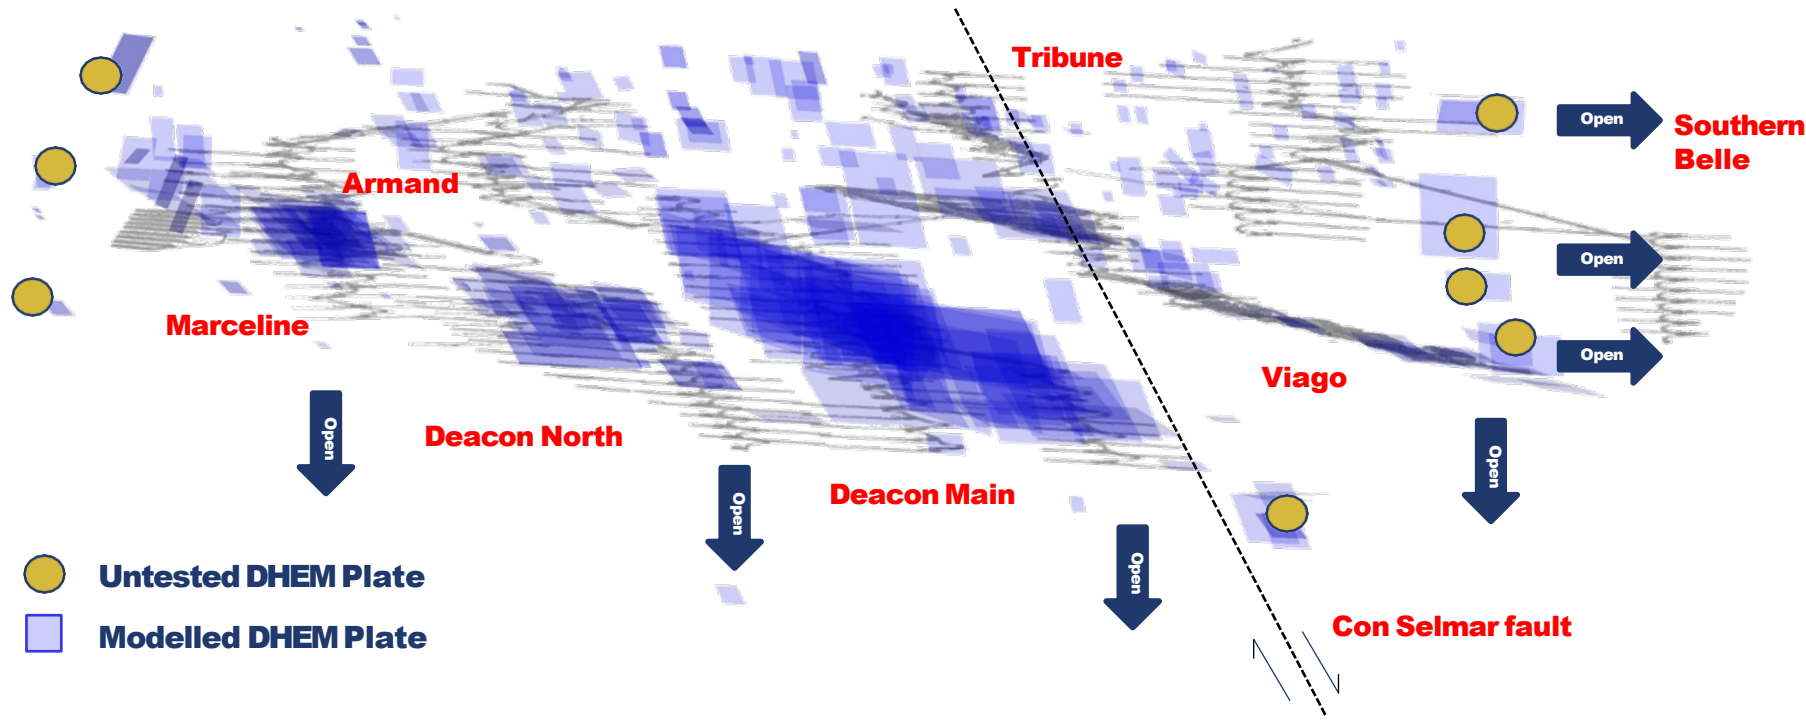

Vrify 3D presentation – [play here](#)

Exploiting the competitive exploration advantage

- Conductive mineralisation drives more efficient discovery and target appraisal
- Several areas highlight the potential for future Resource growth with further drilling outside of known Resource areas

- Viago, Deacon Main and Deacon North Lodes - all blind discoveries resulting from downhole electromagnetic (DHEM) application
- Future exploration will be from underground development allowing access to the southern plunge and at depth strike extents

STRONG DHEM CONDUCTOR

Deacon Main vein texture, DRDD237 667.1m

Recent core from Deacon Main DDUG1613
8.9m @ 71.1g/t gold

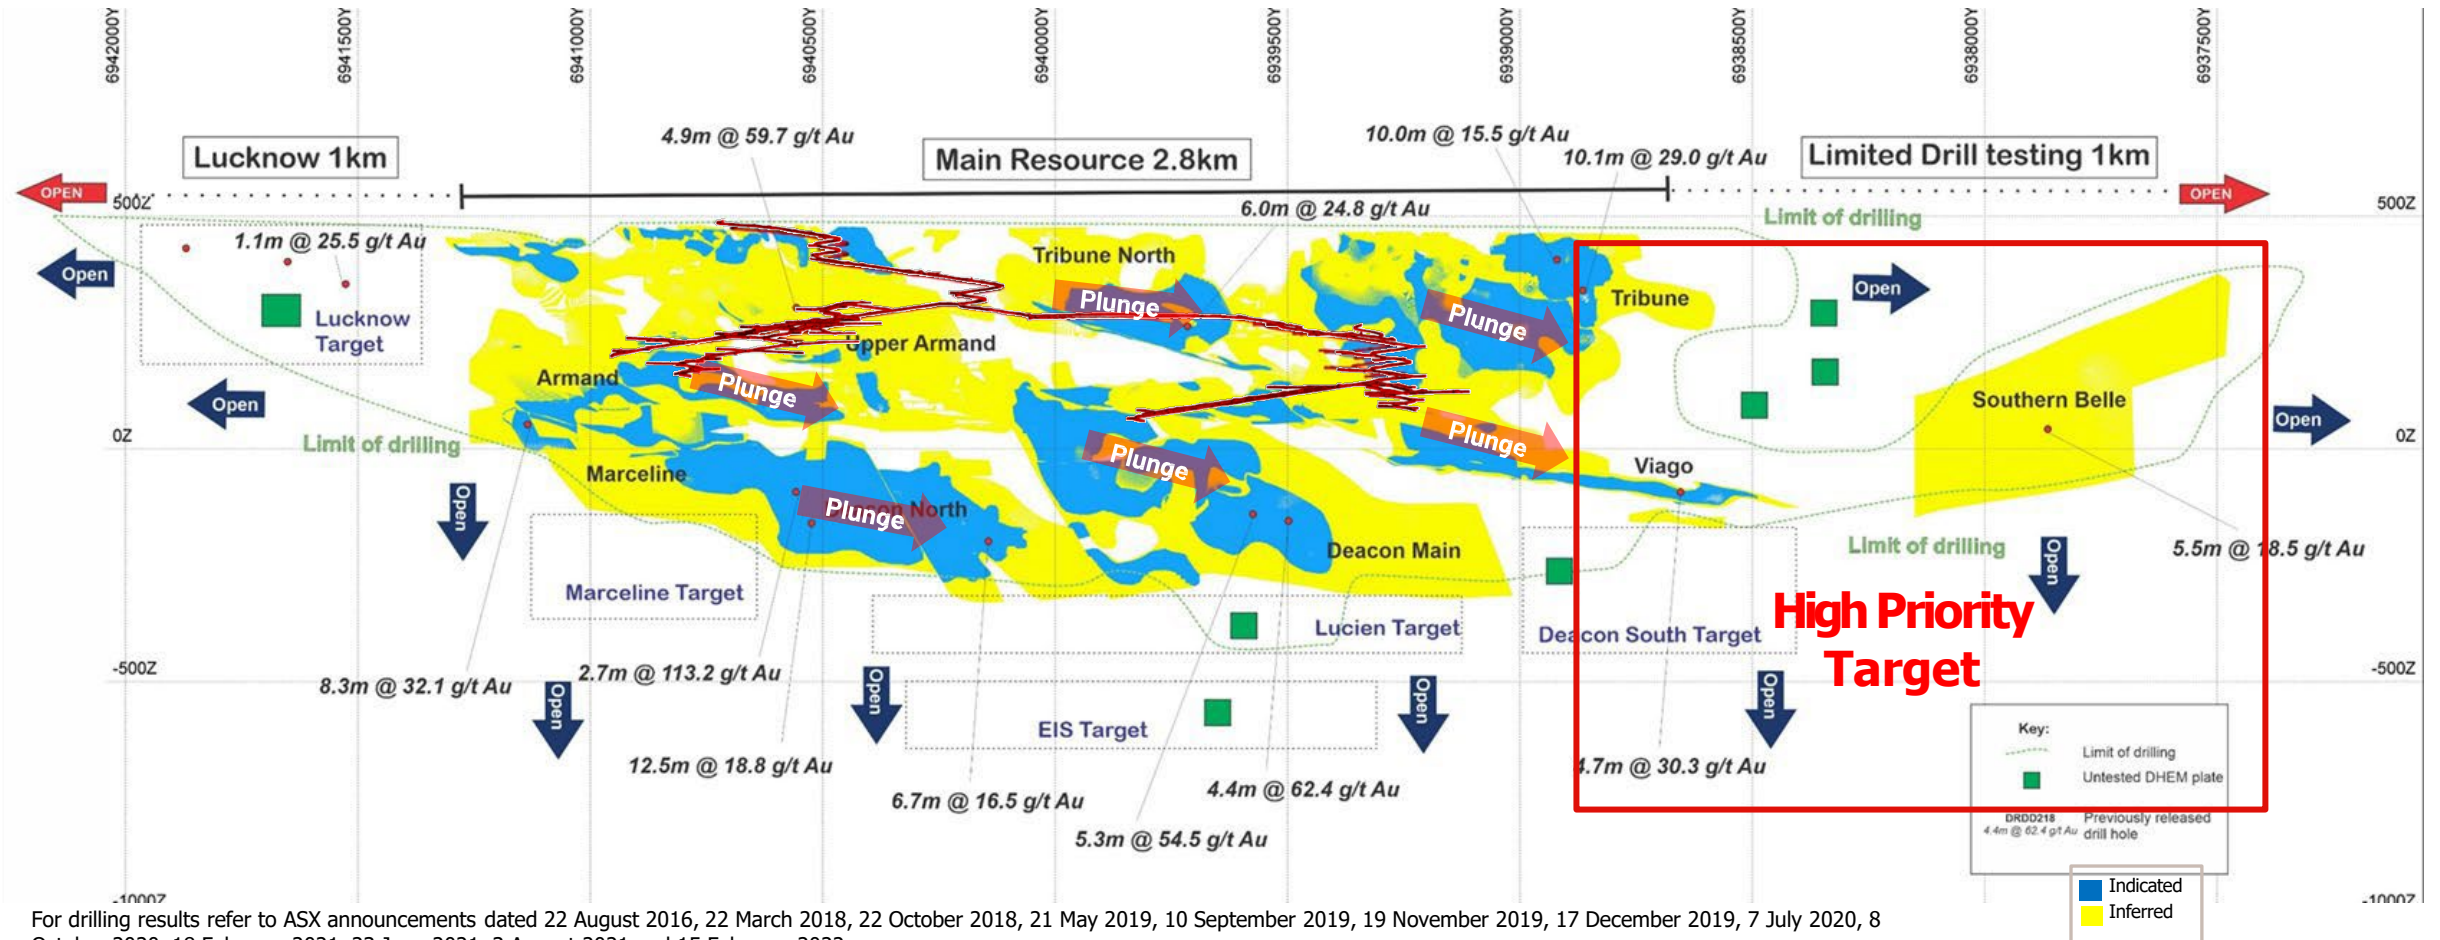

Cataclastic Remobilised Sulphide
Quartz clast milled within sulphide matrix - highest level of remobilisation. Often associated with highest grades.

Refer to ASX announcement dated 19 March 2024 for details of DDUG1613 and 2 October 2019 for DRDD237 (inset core photo)

UG development creates platform for exploration growth

- Gentle southerly plunge to the south associated with fold hinge plunge and high-grade, high pyrrhotite ore
- Completely OPEN and untested to south except for historic 250m spaced drilling
- Every hole on the 250m spacing has significant gold intercepts, best results including:
 - 5.5m @ 18.5 g/t gold
 - 2.3m @ 20.4 g/t gold

Deep holes confirm 3.1Moz system is OPEN

Repeated system open at depth

- Parallel structure at depth in deep EIS funded drilling
 - 1.6m @ 9.3 g/t gold in new structure at depth
- Flat Viago analogue targets at Lucien
- Progress in underground development is opening up new areas for drill testing along strike and at depth
- Bellevue Lode system remains OPEN along strike and at depth; potential to grow the 3.1Moz Global Resource
- Drilling will also target conversion of existing Inferred to Indicated category to allow inclusion in the Project Reserves - 1.8Moz sit outside current Reserve

Cross section of the Bellevue lode system looking north

For drilling results refer to ASX announcement dated 1 October 2020.

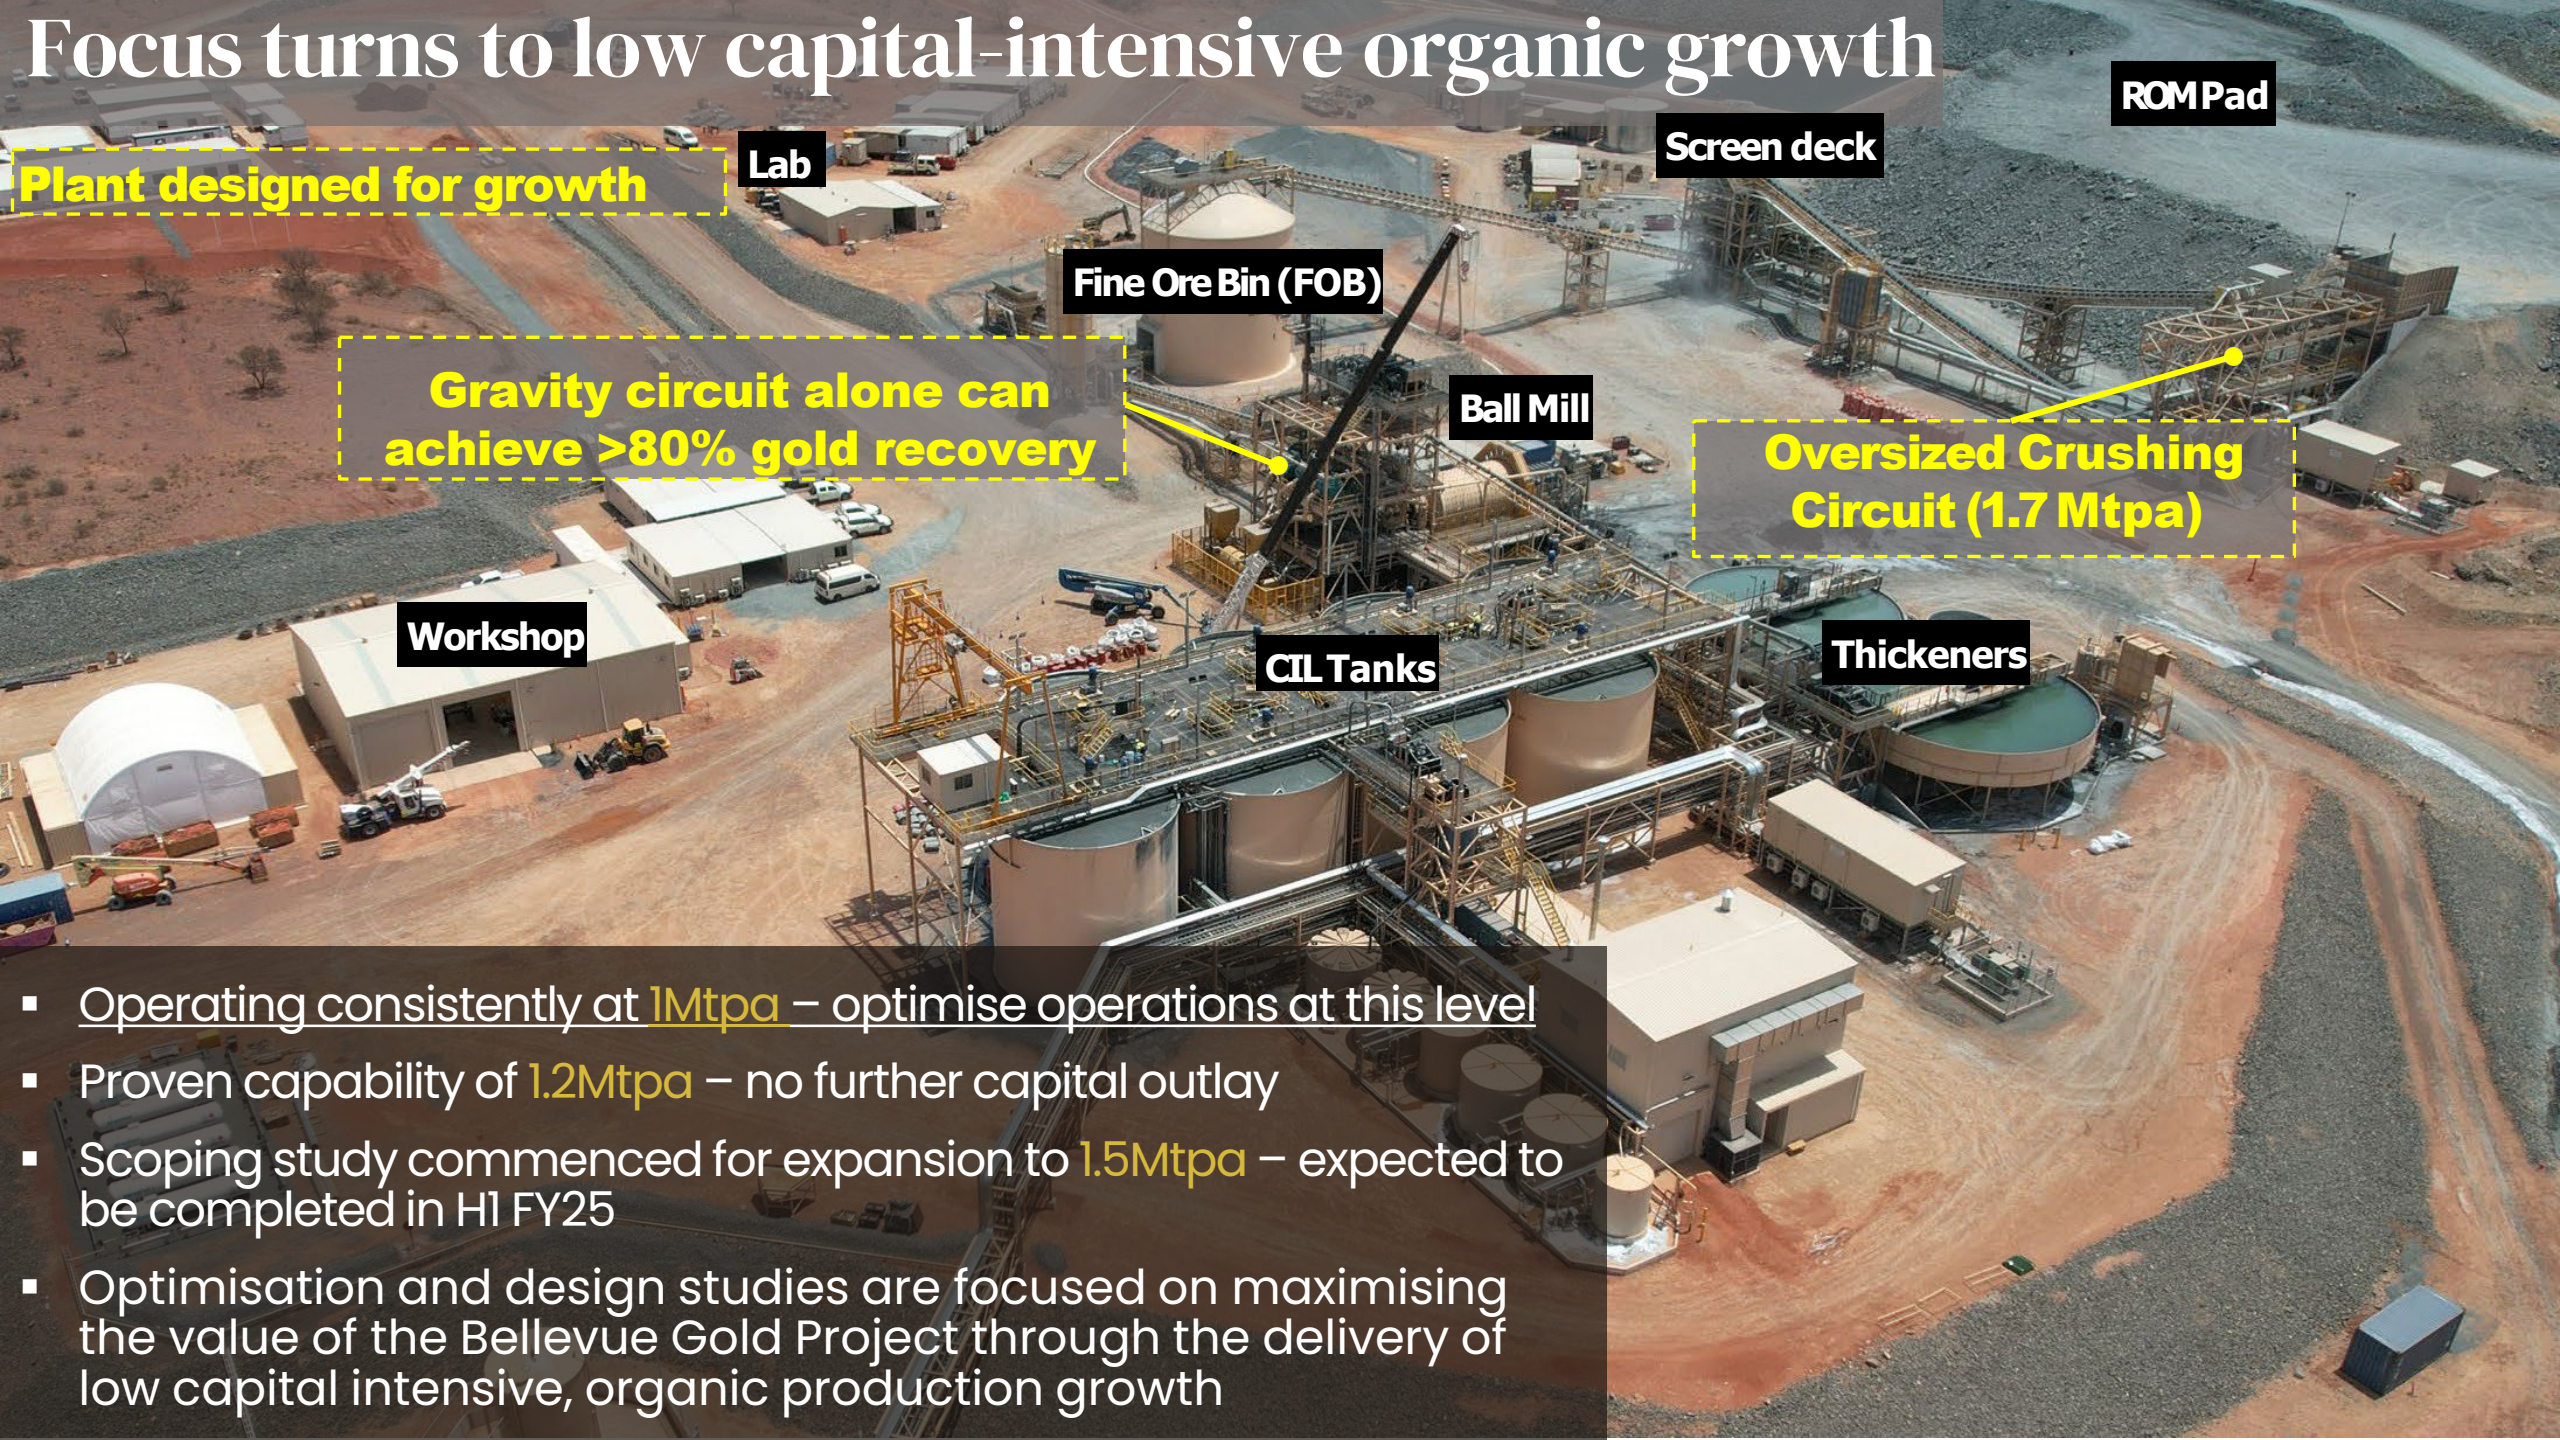

Focus turns to low capital-intensive organic growth

Plant designed for growth

Gravity circuit alone can achieve >80% gold recovery

Oversized Crushing Circuit (1.7 Mtpa)

- Operating consistently at **1Mtpa** – optimise operations at this level
- Proven capability of **1.2Mtpa** – no further capital outlay
- Scoping study commenced for expansion to **1.5Mtpa** – expected to be completed in H1 FY25
- Optimisation and design studies are focused on maximising the value of the Bellevue Gold Project through the delivery of low capital intensive, organic production growth

Sustainability is core to BGL's vision and purpose

Partnership with Zenith to deliver up to 80% of green energy supply from solar and wind power

Progress on the 29MWh Battery Energy Storage

Complete 24MW Thermal station

Solar - 20MW of solar installation completed to date

- ✓ **Renewable Energy**
 - Construction on track for sector leading 89.7 MW hybrid power station consisting of: 24 MW wind, 27 MW solar, 24 MW thermal and 15 MW/ 29 MWh Battery Energy Storage Solution (BESS)
 - High renewable energy penetration with thermal 'engine off' capability
 - Solar & BESS commissioning May/June 2024
- ✓ **Aspirational Goal of Net Zero Greenhouse Gas Emissions by 2026**
 - Refining agreement signed with ABC Refinery to allow for a differentiated 'green product'
 - Joined the Electric Mine Consortium to collaborate on further decarbonisation initiatives
 - Further study work planned on decarbonisation initiatives in CY2024
- ✓ **Diversity***
 - Sector-leading gender diversity
 - 40.2% of employees are female
 - 34.4% gender diversity across leadership roles
 - 33.3% of the Board are female
 - 6.1% Indigenous employment
- ✓ **Community & Heritage**
 - Native Title Agreement signed with Tjiwarl (Aboriginal) Corporation RNTBC (TAC)
 - Project layout in consultation with TAC and employment/contract opportunities
 - BGL has been a strong supporter of community and social initiatives in the areas in which we operate

* As at 30 June 2023

Investment highlights

BELLEVUE
GOLD

World class potential

Forecast to be a top-20 Australian gold producer with significant grade, scale and margin

Resource Growth

Current underground development creates the platform for exploration to grow the current high-grade 3.1Moz Resource

Production Growth

1Mtpa plant designed for low capital-intensive production growth - expansion studies commenced

ESG Leader

Project is forecast to have the lowest greenhouse gas intensity of any major Australian gold project

Re-Rate Potential

Successful delivery of a premium gold asset sets the platform for expansion of EV/EBITDA multiples
