Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia, the United States (to the extent such Shareholder is an Approved US Investor) or New Zealand.

For further information on overseas Shareholders please refer to Section 2.12.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

The Company, the Lead Manager and the Underwriter will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website (www.scoutalarm.com). Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a

reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHESS) and Issuer Sponsorship

The Company will apply to participate in CHESS, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHESS will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

1.3 Debt Conversion

As announced on 11 June 2024, the Company is in the process of completing a restructure, as follows:

- (a) a placement (**Placement**) of 93,854,957 Shares (**Placement Shares**) at an issue price of \$0.004 per Share to raise \$375,420, together with one attaching New Option for each Share issued (**Placement Options**), as follows:
 - (i) 29,604,957 Placement Shares issued on 13 June 2024 utilising the Company's placement capacity under ASX Listing Rule 7.1 (**Placement Tranche 1**);
 - (ii) 64,250,000 Placement Shares to be issued subject to Shareholder approval (**Placement Tranche 2**); and
 - (iii) 93,854,957 Placement Options to be issued subject to Shareholder approval;
- (b) the Offer under this Prospectus;
- (c) the issue of 368,750,000 Shares (**Convertible Note Shares**) at a deemed issue price of \$0.004 per Share in conversion of \$1,475,000 in Convertible Notes on issue¹ (**Convertible Notes**), together with one attaching New Option for each Share issued (**Convertible Note Options**); and
- (d) the issue of 517,111,279 Shares (**Loan Note Shares**) at a deemed issue price of \$0.004 per Share in conversion of Loan Notes on issue² (**Loan Notes**) to a value of US\$1,344,489.33³ together with accrued interest of up to US\$8,142.50¹ (assuming conversion occurs on 31 August 2024, however, the Company's intention is to complete all conversions sooner), together with one attaching New Option for each Share issued (**Loan Note Options**).

Following conversion of a portion of the Loan Notes (**Loan Note Conversion**), Loan Notes with an aggregate value of US\$933,683 will remain on issue. Notwithstanding the Debt Conversion, the Company will remain liable to pay up to US\$189,601.49 in accrued but unpaid interest on the Loan Notes and \$131,710 in accrued but unpaid interest on the Convertible Notes (assuming Debt

Conversion occurs on 31 August 2024, however, the Company's intention is to complete all conversions sooner).

Under the terms of the Loan Note Deed prior to its amendment announced on 11 June 2024, the maturity date of the Loan Notes was 3 May 2027. In connection with the Loan Note holders agreeing to the Loan Note Conversion, the maturity date of the Loan Notes was extended to the date that is 4 years following Loan Note Conversion. Further, Loan Note holder consent was required by the Company in the event that it sought to issue more than 50,000,000 Shares following entry into the Loan Note Deed, which has been granted by the Loan Note holders.

In consideration for these concessions by the Loan Note holders, the Company has agreed to issue them (on a pro rata basis):

Conversion of the Convertible Notes and Loan Notes (together, the **Debt Conversion**) contemplated above, as well as the extension of the maturity date under the Loan Notes, is conditional upon the Company raising a minimum of \$1,000,000 in aggregate under the Placement and the Offer, which will be satisfied in the event the Minimum Subscription is raised under the Offer and Shareholders approve the issue of Placement Shares under the Placement Tranche 2.

In the coming days, a general meeting of shareholders will be convened for 25 July 2024 (**General Meeting**) to seek the requisite Shareholder approvals for the Debt Conversion and Placement.

1.4 Key Risk Factors

Prospective investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 5.

The predominant risks relating to the Company and the Offer are summarised below:

Risk	Description	Further Information
Going Concern	The Company's financial report for the year ended 30 June 2023 (Financial Report) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.	Section 5.2

Risk	Description	Further Information
	<p>The Company incurred a net loss from operations of \$2,058,176 for the half-year ended 31 December 2023 and had a net cash outflow from operations of \$1,175,002 for the period. As at 31 December 2023, the Company had a working capital deficiency of \$3,472,777 which included \$118,490 of unearned revenues.</p> <p>Notwithstanding the 'going concern' qualification included in the Financial Report, the Directors believe that upon the successful completion of the Offer, Placement and Debt Conversion, the Company will have sufficient funds to adequately meet the Company's current commitments and short-term working capital requirements. To this end, the Company has undertaken a review of internal operations resulting in material cost reductions, reducing cash overheads by over \$1 million a year, which together with the conversion of debt and resulting reduced interest payments, will place the Company in a more sustainable cashflow position.</p> <p>In the event that the Offer and the Placement are not completed successfully, which would also result in the Debt Conversion not proceeding, there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>	
Suspension from quotation	<p>On 28 May 2024, the Company's Shares were suspended from quotation by ASX in accordance with Listing Rule 17.3. The Company's securities will remain suspended until such time that ASX is satisfied with the Company's compliance with the ASX Listing Rules, including ASX Listing Rule 12.2 and that it is otherwise appropriate for the Company's securities to be reinstated to quotation, including the satisfaction of any reinstatement conditions imposed by ASX. The Company anticipates that its securities will be reinstated to quotation following completion of the Offer, Placement and Debt Conversion.</p> <p>In the event the Offer, Placement and Debt Conversion do not complete, the Company's securities will remain suspended until such time as the Company has remedied ASX's concerns. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.</p>	Section 5.2
Manufacturing risks in China	<p>There is the potential that the Company could experience manufacturing difficulties due to international circumstances that are out of their control. If the Company uses a single or limited number of suppliers, they may be at risk of shortage, price increases, changes, delay, or discontinuation of key components, which could disrupt and adversely affect their business.</p>	Section 5.2
International Operations	<p>The Company's operations are subject to a number of risks inherent in global operations. Additionally, operating an international business with a sales force managed from Australia and with distributorships and sales in a number of legal jurisdictions necessarily requires substantial input from a variety of legal counsel and exposes the Company to legal costs that may be disproportionately high relative to its revenues, and will be incurred regardless of whether the Company derives revenues from a given jurisdiction or at all.</p>	Section 5.2
Supply	<p>The Company may experience delivery delays if its contract manufacturer fails to deliver products. The Company's products are manufactured by one contract manufacturer. There is a risk with working with only one manufacturer, in that termination of the agreement to produce will temporarily halt</p>	Section 5.2

Risk	Description	Further Information
	all deliveries until resolved or a new agreement is made with another manufacture.	
Foreign exchange	The Company operates in a variety of jurisdictions and, as such, expects to generate revenue and incur costs and expenses in more than one currency. Consequently, movements in currency exchange rates may adversely or beneficially affect the Company's results or operations and cash flows.	Section 5.2
Product liability	Adverse events could expose the Company to product liability claims or litigation, resulting in the removal of regulatory approval for the relevant products and/or monetary damages being awarded against the Company.	Section 5.2
Protection of Intellectual Property Rights	The commercial value of the Company's intellectual property assets is dependent on any relevant legal protections. These legal mechanisms, however, do not guarantee that the intellectual property will be protected or that the Company's competitive position will be maintained. No assurance can be given that employees or third parties will not breach confidentiality agreements, infringe or misappropriate the Company's intellectual property or commercially sensitive information, or that competitors will not be able to produce non-infringing competitive products.	Section 5.2
Data loss, theft or corruption	Exploitation or hacking of any of the Company's systems or networks could lead to corruption, theft or loss of the data which could have a material adverse effect on the Company's business, financial condition and results. Further, if the Company's systems, networks or technology are subject to any type of 'cyber' crime, its technology may be perceived as insecure which may lead to a decrease in the number of customers.	Section 5.2

1.6 Details of Substantial Holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	%
National Nominees Limited ¹	44,650,000	17.01%
Altior Capital Management Pty Ltd ¹	14,769,048	5.63%

Notes:

1. Each of the substantial holders named above are holders of Convertible Notes and will be issued Debt Conversion Shares and Debt Conversion Options on conversion of their Convertible Notes. Refer to Section 1.8 for further information with respect to the control impact of the Debt Conversion.

In the event all Entitlements are accepted there will be no change to the substantial holders on completion of the Offer.

1.7 Underwriting and sub-underwriting

The Offer is partially underwritten by PAC Partners Securities Pty Ltd (ABN 68 623 653 912) (AFSL 335 374) (**PAC Partners** or **Lead Manager**). Refer to Section 6.4.1 for details of the terms of the underwriting. PAC Partners is a holder of 87,500 Convertible Notes, which are to be converted into 21,874,995 Shares and 21,874,995 New Options upon completion of the Debt Conversion.

PAC Partners has also been appointed as the lead manager of the Offer. The terms of the lead manager appointment and total fees payable are set out in Section 6.4.1 and 6.4.3 below.

PAC Partners has entered into a number of sub-underwriting agreements in respect of the Shortfall Securities, including with entities associated with Martin Pretty (a Director of the Company). No sub-underwriter will increase their shareholding to above 19.99% as a direct result of the issue of Securities under the Offer. Where Shares are issued pursuant to the exercise of New Options, the voting power of the sub-underwriters who exercise their New Options will increase. The likelihood of New Options being exercised is dependent on the price of Shares from time to time until the New Options expire.

Refer to Section 6.4.2 for further detail of the sub-underwriting agreements.

1.8 Effect on Control

Based on current shareholding and Entitlements of Shareholders (including substantial Shareholders) as at the date of this Prospectus, together with holdings of Convertible Notes and Loan Notes, regardless of the amount raised under the Offer, no Shareholder will increase their holding, to an amount in excess of 19.9% through applying for their Entitlements.

Further as set out in Section 2.8, on the basis of the allocation policy, no person will acquire, through participation in the Shortfall Offer a holding of Shares of, or increase their holding to, an amount in excess of 19.9% of all the Shares on issue on completion of the Offer, including the Underwriter if it is required to take up 100% of the Underwritten Amount.

On completion of the Debt Conversion, it is anticipated that the following persons will acquire a voting power in the Company in excess of 5%:

Shareholder	Current	Entitlement	Sub-underwriting Commitment	Debt Conversion Shares	% Minimum Subscription ¹		% Maximum Subscription ¹	
					Undiluted	Diluted	Undiluted	Diluted
National Nominees Limited ²	44,650,000	66,975,000	-	153,125,000	18.74%	18.35%	16.04%	15.67%
Altor Capital Management Pty Ltd ³	14,769,048	22,153,572	-	30,937,493	4.80%	4.54%	4.11%	3.88%
Cameron Drummond ⁴	-	-	20,000,000	207,779,083	16.12%	17.21%	13.80%	14.70%
Ed Drummond ⁵	-	-	-	211,621,420	14.98%	16.56%	12.82%	14.14%
Martin Pretty ⁶	7,197,497	10,796,246	20,500,043	33,039,972	5.06%	5.13%	4.33%	4.38%

Notes:

1. All percentages assume the relevant holder takes up its entitlement under the Offer.
2. National Nominees Limited (**NNL**) holds Shares as nominee and trustee for FundHost Limited in its capacity as responsible entity for Eternal Growth Partners Concentrated Value Fund (**EGP**). EGP has confirmed to the Company that, in the event the Company does not raise a minimum of \$1,000,000 under the Placement and the Offer, it will subscribe, or procure subscriptions, for up to \$50,000 worth of Securities under the Shortfall Offer, provided that it will not take up Securities under the Offer to the extent that doing so would result in its voting power in the Company increasing beyond 19.9%. National Nominees Limited (**NNL**) will also be issued 152,125,000 New Options on conversion of Convertible Notes.
3. Altor Capital Management Pty Ltd (**ACM**) has confirmed to the Company that, in the event the Company does not raise a minimum of \$1,000,000 under the Placement and the Offer, it will subscribe, or procure subscriptions, for up to \$50,000 worth of Securities under the Shortfall Offer. ACM will also be issued 30,937,493 New Options on conversion of Convertible Notes, together with one New Option for each Share subscribed pursuant to its entitlement under the Offer.
4. Cameron Drummond will also be issued 222,595,785 Options on conversion of Loan Notes held by him or entities he controls including 13,038,698 Class A Fee Options and 14,816,702 Class B Fee Options.
5. Ed Drummond will also be issued 233,568,838 Options on conversion of Loan Notes held by him or entities he controls, including 19,313,728 Class A Fee Options and 21,947,418 Class B Fee Options.
6. Martin Pretty will also be issued 23,124,995 Options on conversion of Convertible Notes and 10,453,706 Options on conversion of Loan Notes held by him or entities he controls, including 474,082 Class A Fee Options and 538,179 Class B Fee Options, together with one New Option for every Share issued pursuant to entitlements under the Offer.

There will be no change to any Shareholder's voting power as a result of the issue of the Options. Where such Options are exercised into Shares, the voting power of the Shareholders who exercise the Options will increase. The likelihood of Options being exercised is dependent on the price of Shares from time to time until the Options expire.

It is noted that the Class A Fee Options are exercisable at the same price as the issue price of Shares under the Offer, which may increase the likelihood of them being exercised. However, no Options can be exercised if it would result in a contravention of the 20% prohibition under the Corporations Act.

1.9 Potential dilution on non-participating Shareholders

In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 60% in the event the Maximum Subscription is raised (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of Options under this Prospectus. However subsequent exercise of any or all of the Options will result in dilution.

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders if the Maximum Subscription is raised:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer
Shareholder 1	10,000,000	3.82%	15,000,000	10,000,000	1.53%
Shareholder 2	5,000,000	1.91%	7,500,000	5,000,000	0.76%

Shareholder 3	1,500,000	0.57%	2,250,000	1,500,000	0.23%
Shareholder 4	400,000	0.15%	600,000	400,000	0.06%
Shareholder 5	50,000	0.02%	75,000	50,000	0.01%
Total	262,032,339		656,299,598		

Notes:

1. This is based on a share capital of 266,127,339 Shares as at the Record Date and assumes no Options, Warrants or Performance Rights are exercised and no other Shares are issued.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Underwriting Agreement and Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

Further, in the event that the Company completes the Debt Conversion and Placement Tranche 2, an additional 994,111,279 Shares will be issued and Shareholders that do not participate will be diluted by approximately 81% (on Minimum Subscription) and 84% (on Maximum Subscription).

The Debt Conversion and Placement Tranche 2 will also cause dilution to Shareholders that elect to take up their Entitlements under the Offer. In the event the Debt Conversion and Placement Tranche 2 are completed, Shareholders that take up their full Entitlement under the Offer will be diluted by approximately 70% (on Minimum Subscription) and 60% (on Maximum Subscription) following completion of the Offer.

2. DETAILS OF THE OFFER

Only the holders of Convertible Notes and Loan Notes may accept the Debt Conversion Offers and only the Placement Participants may accept the Placement Offer. A personalised application form in relation to the Debt Conversion Offers and Placement Offer will be issued to the relevant parties together with a copy of this Prospectus. The Cleansing Offer will only be extended to specific parties on invitation from the Directors. Application Forms will only be provided by the Company to these parties.

All of the Shares (to the extent that offer includes Shares) offered under the Debt Conversion Offers, Placement Offer and Cleansing Offer (together, the **Secondary Offers**) will rank equally with the Shares on issue at the date of this Prospectus. The issue of Securities under the Debt Conversion Offers is conditional upon the Company raising the Minimum Subscription under the Offer. It is not currently anticipated that any Shares will be issued under the Cleansing Offer.

2.3 Cleansing Offer

The Company is seeking to raise only a nominal amount of \$4 under the Cleansing Offer and, accordingly, the purpose of the Cleansing Offer is not to raise capital.

The primary purpose of the Cleansing Offer is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Secondary Offer Closing Date so that, following quotation of those Shares, any on-sale of Shares issued before the Secondary Offer Closing Date does not breach section 707(3) of the Corporations Act. This will include the Shares issued under Placement Tranche 1 and any Shares issued on exercise of Options, Performance Rights or Warrants prior to the Secondary Offer Closing Date (including prior to the date of this Prospectus).

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body;
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have

been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and

- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

The Shares are in a class of quoted securities. It is not currently intended that any Shares will be issued under the Cleansing Offer.

Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

(b) By Electronic Funds Transfer (overseas applicants)

For payment by Electronic Funds Transfer (EFT) for Australian and overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. 2.6 Implications of an acceptance

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;

2.7 Minimum subscription

The minimum subscription under the Offer is 156,145,043 Shares (\$624,580) (**Minimum Subscription**), being the minimum amount required, when aggregated with the Placement, to be raised to trigger conversion of the Convertible Notes and Loan Notes.

The Company raised \$118,420 under the Placement Tranche 1 and has the following additional commitments:

- (a) commitments under the Placement Tranche 2 to raise an additional \$257,000 under the Placement, subject to Shareholder approval;
- (b) underwriting commitments in respect of the Offer for an aggregate of \$458,580; and

No Securities will be issued until the Minimum Subscription has been received. If the Minimum Subscription is not achieved within 4 months after the date of issue of this Prospectus, the Company will either repay the Application monies to the

Applicants or issue a supplementary prospectus or replacement prospectus and allow Applicants one month to withdraw their Application and be repaid their Application monies.

2.8 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer. (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.004 being the price at which Shares have been offered under the Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Section 2.5.

Allocation of the Shortfall Shares will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 6.4.1. If the Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer on a pro-rata basis to the respective shareholdings of Eligible Shareholders. There is no guarantee that Eligible Shareholders will receive Securities applied for under the Shortfall Offer.

The Underwriter notes that no Securities will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any related parties of the Company.

2.9 ASX Waivers

(a) ASX Listing Rule 7.11.3

ASX Listing Rule 7.11.3 provides that the ratio of securities offered under a pro rata rights issue must not be greater than one security for each security held. ASX Listing Rule 7.11.3 does not apply where the offer is renounceable and the issue price is not more than the VWAP for securities in that class, calculated over the last 5 days on which sales in the securities were recorded before the day on which the issue was announced.

The Company's Shares have been suspended from official quotation since 19 April 2024 and will continue to be suspended until such time as ASX is satisfied that the Company's financial position is adequate to warrant the continued quotation of its securities and continued listing of the Company, including satisfying any reinstatement conditions imposed by ASX. As such, the Company cannot make the Offer on a renounceable basis in order to comply with ASX Listing Rule 7.11.3. The Company therefore sought, and ASX granted, a waiver of ASX Listing Rule

7.11.3 to the extent necessary to permit the Company to proceed with the Offer on the terms set out in this Prospectus.

It is a condition of the waiver that Company obtain Shareholder approval for the terms of the Offer. A resolution will be put to Shareholders at the General Meeting to seek to satisfy this condition. The Company has otherwise complied with the conditions of the waiver.

(b) ASX Listing Rule 7.15

The Company has also been granted a waiver of ASX Listing Rule 7.15 to permit the Company to undertake the Offer with a record date that is prior to the General Meeting (at which the Company will seek the requisite Shareholder approval in accordance with the waiver of ASX Listing Rule 7.11.3 granted to the Company), on the condition that the Company's securities are not reinstated to trading prior to the General Meeting.

2.10 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

2.11 Issue of Securities

Securities issued pursuant to the Offers will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue is made surplus Application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed as soon as practicable after the issue of Securities and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

2.12 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to Shareholders with a registered address which is outside Australia, New Zealand or the United States (to the extent such Shareholder is an Approved US Investor).

New Zealand

This Offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This Offer and the content of the Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under that Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The Offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

United States

The Shares, the Options and the Shares underlying the Options offered under this Prospectus have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States. Accordingly, such securities may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.

The Offer is being made in the United States only to a limited number of shareholders and noteholders of the Company who are "accredited investors" (as defined in Rule 501(a) under the US Securities Act). In order to participate in the Offer, such persons must sign and return a US investor certificate that is available from the Company to confirm, amongst other things, that such person is an accredited investor.

Nominees and custodians

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia or New Zealand without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

3. PURPOSE AND EFFECT OF THE OFFER

3.1 Purpose of the offer

The purpose of the Offer is to raise up to \$1,575,119 before costs.

The funds raised from the Offer and Placement are intended to be applied in accordance with the table set out below:

Item	Proceeds of the Offer	Minimum Subscription (\$)	%	Full Subscription (\$)	%
1.	Employee Wages ¹	400,000	40.00%	728,664	37.36%
2.	New Product Development	-	-	200,000	10.25%
3.	Payment of Loan Note and Convertible Note Interest ²	392,664	39.27%	392,664	20.13%
4.	Working capital	98,790	9.88%	500,000	25.63%
5.	Expenses of the Offer ⁴	108,546	10.85%	129,231	6.63%
	Total	1,000,000	100.00%	1,950,539	100.00%

Notes:

1. Employee wages to support current ongoing operations, roll-out of products with Lumen and IMG throughout 2024, and support the partners with respect to the newly developed Wi-Fi sensing security product roll-out. The Company has undertaken a cost reduction process starting in February 2024, with additional measures implemented in May and another anticipated in early July 2024. As a result, the Company's average cash burn has decreased from US\$200,000 to US\$100,000 per month. The Company anticipates further reductions to result in an average US\$50,000 cash burn per month in July 2024. The annual savings amounts to greater than A\$1.3M with current reductions and is anticipated to be over A\$1.8M after anticipated further reductions.
2. Refer to Section 1.3 for further details with respect to interest payments. This value assumes conversion of all Convertible Notes and Loan Notes, and payment of applicable interest, on 31 July 2024. The Company notes that part of the accrued Loan Note interest will be converted into Shares and Options as set out in Section 1.3(d). The Company further notes that it intends to pay the Loan Note and Convertible Note interest over the balance of the year (i.e. not in its entirety immediately post-Offer).
3. Refer to Section 6.8 for further details relating to the estimated expenses of the Offer.

While the Company has prepared internal cashflow forecasts for internal purposes, the Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Notwithstanding the above, on completion of the Offer, assuming the Minimum Subscription is raised and based on the Company's internal anticipated cashflows, which the Board considers to be reasonable and based upon appropriate assumptions for internal purposes, the Board believes the Company will have sufficient working capital to sustain its ongoing operational and corporate costs over a 12-month period following completion of the Offer and Debt Conversion. However, in the event less than the Maximum Subscription is raised, the Company will need to modify its operational objectives with respect to new product development and will not be able to support its roll-out program as aggressively as desired, which may result in delay or substantial changes to the

Company's future plans until such time as warranted through the Company's anticipated cashflows or raising of further capital.

In addition, it should be noted that the Company's budgets and forecasts will be subject to modification on an ongoing basis depending on the results achieved from its business activities and operations.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

3.2 Effect of the Offer

The principal effect of the Offer, assuming all Entitlements are accepted, and no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date, will be to:

- (a) increase the cash reserves by \$1,468,413 (after deducting the estimated expenses of the Offer) immediately after completion of the Offer;
- (a) increase the number of Shares on issue from 262,519,839 as at the Record Date to 656,299,598 Shares; and
- (b) increase the number of Options on issue from 118,963,676 as at the date of this Prospectus to 512,743,435 Options, in each case including Warrants on issue but excluding Performance Rights.

It is noted that the above values do not include the issues of Shares and Options on completion of the Debt Conversion, Placement Tranche 2 or the issue of Placement Options, each of which are subject to Shareholder approval and are anticipated to occur after completion of the Offer.

3.3 Effect on capital structure

4.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. The Company's constitution permits the use of technology at general meetings of shareholders (including wholly virtual meetings), to the extent permitted under the Corporations Act, Listing Rules and applicable law.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

(h) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without exercising the New Options.

(k) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(l) **Transferability**

The New Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

5.1 Introduction

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

5.2 Company specific

Risk Category	Risk
Going Concern	<p>The Company's Financial Report includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>The Company incurred a net loss from operations of \$2,058,176 for the half-year ended 31 December 2023 and had a net cash outflow from operations of \$1,175,002 for the period. As at 31 December 2023, the Company had a working capital deficiency of \$3,472,777 which included \$118,490 of unearned revenues.</p> <p>Notwithstanding the 'going concern' qualification included in the Financial Report, the Directors believe that upon the successful completion of the Offer, Placement and Debt Conversion, the Company will have sufficient funds to adequately meet the Company's current commitments and short-term working capital requirements. To this end, the Company has undertaken a review of internal operations resulting in material cost reductions, reducing cash overheads by over \$1 million a year, which together with the conversion of debt and resulting reduced interest payments, will place the Company in a more sustainable cashflow position.</p> <p>In the event that the Offer and the Placement are not completed successfully, which would also result in the Debt Conversion not proceeding, there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>

Risk Category	Risk
<p>Suspension from quotation</p>	<p>On 28 May 2024, the Company's Shares were suspended from quotation by ASX in accordance with Listing Rule 17.3. The Company's securities will remain suspended until such time that ASX is satisfied with the Company's compliance with the ASX Listing Rules, including ASX Listing Rule 12.2 and that it is otherwise appropriate for the Company's securities to be reinstated to quotation, including that any reinstatement conditions imposed by ASX are satisfied. The Company anticipates that its securities will be reinstated to quotation following completion of the Offer, Placement and Debt Conversion.</p> <p>In the event the Offer, Placement and Debt Conversion do not complete, the Company's securities will remain suspended until such time as the Company has remedied ASX's concerns. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.</p>
<p>Potential for dilution</p>	<p>In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 60% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).</p> <p>Further, in the event that the Company completes the Debt Conversion and Placement Tranche 2, an additional 994,111,279 Shares will be issued and Shareholders that do not participate in the Offer will be diluted by approximately 81% (on Minimum Subscription) and 84% (on Maximum Subscription). The Debt Conversion and Placement Tranche 2 will also cause dilution to Shareholders that elect to take up their Entitlements under the Offer. In the event the Debt Conversion and Placement Tranche 2 are completed, Shareholders that take up their full Entitlement under the Offer will be diluted by approximately 70% (on Minimum Subscription) and 60% (on Maximum Subscription) following completion of the Offer.</p> <p>No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming all New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted.</p> <p>It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.007 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer, Placement and Debt Conversion.</p>
<p>Additional requirements for capital</p>	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer and the Placement. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>
<p>Market presence and economies of scale</p>	<p>Traditional home security providers maintain broad market presence and economies of scale not accessible for smaller players such as the Company. Further, existing companies that engage in the home security business, or are within the IOT space, could introduce new or enhance existing products. If a larger, better funded company markets or creates a comparable product at a lower price point, the Company may have to reduce prices to remain competitive or could be priced out of the market. This could potentially negatively impact the Company's growth.</p>
<p>Market segments</p>	<p>The Company is targeting a new segment within the home security market, which introduces unknowns, such as potential downward impacts to expected attach rates, retention rates, and customer adoption. The Company may also not have accurately forecasted demand for its product in this market segment, given the unknowns of new market segments.</p>

Risk Category	Risk
Manufacturing risks in China	The Company manufactures its product internationally in China. There is the potential that the Company could experience manufacturing difficulties due to international circumstances that are out of their control. If the Company uses a single or limited number of suppliers, they may be at risk of shortage, price increases, changes, delay, or discontinuation of key components, which could disrupt and adversely affect their business. The Company maintains a small inventory and may have difficulty meeting demand if they have any manufacturing or supply chain issues.
Seasonality risk	The Company's operations and revenue experience some seasonality. The winter holiday season is its busiest period, specifically November. Quarterly results may vary, and are not necessarily an indication of future performance. The seasonality of the Company's revenue and operations could exacerbate fluctuations due to other factors, including costs of expansion, upgrades to systems and infrastructure, or changes in business or macroeconomic conditions.
Competition risk	White label, low price, home security hardware is available to potential competitors. The Company will need to continue to differentiate itself on the hardware front over time. It may prove difficult for the Company to establish itself as a well-known brand in the competitive IOT space, and the product may be in a market where customers will not have brand loyalty. If competitors develop equal or better products, the Company may be forced to compete on a pricing basis, which could negatively affect its revenue.
International operations	The Company does not currently have distributor relationships in countries outside of the USA (and Canada in relation to its monitoring services), but expects to do business internationally at a later date. The Company's operations will therefore be subject to a number of risks inherent in global operations, including political and economic instability in foreign markets, inconsistent product regulation by foreign agencies or governments, imposition of product tariffs and burdens, cost of complying with a wide variety of international and U.S. export laws and regulatory requirements (including the U.S. Foreign Corrupt Practices Act, the U.S. Export Administration Act and the U.S. Arms Export Control Act (and the regulations promulgated thereunder)), risks stemming from the Company's lack of local business experience in specific foreign countries, foreign currency fluctuations, difficulty in enforcing intellectual property rights, foreign taxes, and language and other cultural barriers. Additionally, operating an international business with a sales force managed from Australia and with distributorships and sales in a number of legal jurisdictions will necessarily require substantial input from a variety of legal counsel and expose the Company to legal costs that may be disproportionately high relative to its revenues, and will be incurred regardless of whether the Company derives revenues from a given jurisdiction or at all.
Strategies	<p>There are no limits on strategies that the Company may pursue. The strategy discussed in this Prospectus may evolve over time due to, among other things, market developments and trends, technical challenges, the emergence of new or enhanced technology, changing regulation and/or industry practice, and otherwise in the Company's sole discretion. As a result, the strategy, approaches, markets and products described in this Prospectus may not reflect the strategies, approaches, markets and products relevant to, or pursued by, the Company at a later date.</p> <p>Further, a change in strategy may involve material and as yet unanticipated risks, as well as a high degree of risk, including a higher degree of risk than the Company's strategy in place as of the date hereof.</p>
Supply	The Company may experience delivery delays if its contract manufacturer fails to deliver products. The Company's products are manufactured by one contract manufacturer. Any operational issues that the manufacturer incurs may affect the delivery of the products. The Company depends on the manufacturer to adjust operations accordingly with demand of the products to ensure no back log in production. There is also a risk with working with only one manufacturer, in that termination of the agreement to produce will temporarily halt all deliveries until resolved or a new agreement is made with another manufacture.
Dependence on re-seller contracts	The Company depends on a number of contracts with resellers. These contracts include termination rights whereby either party may terminate with 30-60 days' notice to the other party. In the event of insolvency of either party, the reseller agreements are able to be terminated immediately. The consequences of breach or termination of any of these contracts could,

Risk Category	Risk
	although unlikely, have a material adverse effect on the Company's business, financial condition and results of operations. In addition, the Company's payment obligations in relation to the Company's products sold under the reseller contracts will not cease with the termination of these reseller contracts and the Company will be required to continue to comply with those obligations. The Company has entered into and may enter into other agreements with various parties in relation to the Company's business. In such cases, there is the risk that parties may default on their obligations, which may in turn necessitate the termination of the contract or legal action. Although unlikely, this may result in financial loss for the Company. In most, if not all, cases, the contracts that the Company has entered into may be governed in jurisdictions outside Australia. It may be more difficult to resolve disputes in such jurisdictions than it would be under Australian law. As such, the Company cannot ensure that an appropriate legal resolution will be achieved.
Loss of Customers	The Company has established important customer relationships through development of the technologies. The loss of one or more customers through termination or expiry of contracts may, although unlikely, adversely affect the operating results of the Company.
Foreign exchange	The Company operates in a variety of jurisdictions, including the United States of America and Australia, and as such, generates revenue and incur costs and expenses in more than one currency. Consequently, movements in currency exchange rates may adversely or beneficially affect the Company's results or operations and cash flows. For example, the appreciation or depreciation of the US dollar relative to the Australian dollar would result in a foreign currency loss or gain. Any depreciation of currencies in foreign jurisdictions in which the Company operates may result in lower than anticipated revenue, profit and earnings of the Company.

5.3 Industry specific

Risk Category	Risk
Product liability	As with all new products, even after the granting of regulatory approval, there is no assurance that unforeseen adverse events or manufacturing defects will not arise in the Company's products. Adverse events could expose the Company to product liability claims or litigation, resulting in the removal of regulatory approval for the relevant products and/or monetary damages being awarded against the Company. In such event, the Company's liability may exceed the Company's insurance coverage, if any.
Protection of Intellectual Property Rights	The commercial value of the Company's intellectual property assets is dependent on any relevant legal protections. These legal mechanisms, however, do not guarantee that the intellectual property will be protected or that the Company's competitive position will be maintained. No assurance can be given that employees or third parties will not breach confidentiality agreements, infringe or misappropriate the Company's intellectual property or commercially sensitive information, or that competitors will not be able to produce non-infringing competitive products. Competition in retaining and sustaining protection of technologies and the complex nature of technologies can lead to expensive and lengthy disputes for which there can be no guaranteed outcome. There can be no assurance that any intellectual property which the Company (or entities it deals with) may have an interest in now or in the future will afford the Company commercially significant protection of technologies, or that any of the projects that may arise from technologies will have commercial applications. It is possible that third parties may assert intellectual property infringement, unfair competition or like claims against Scout or the Company under copyright, trade secret, patent, or other laws. While the Company is not aware of any claims of this nature in relation to any of the intellectual property rights in which it has or will acquire an interest, such claims, if made, may harm, directly or indirectly, the Company's business. If the Company is forced to defend claims of intellectual property infringement, whether they are with or without merit or are determined in the Company's favour, the costs of such litigation may be potentially significant and may divert management's attention from normal commercial operations.
Data loss, theft or corruption	The Company stores data in its own systems and networks and also with a variety of third-party service providers. Exploitation or hacking of any of these systems or networks could lead to corruption, theft or loss of the data which

Risk Category	Risk
	could have a material adverse effect on the Company's business, financial condition and results. Further, if the Company's systems, networks or technology are subject to any type of 'cyber' crime, its technology may be perceived as unsecure which may lead to a decrease in the number of customers. Some competitors of Scout have received negative publicity associated with the ability to hack their devices. Scout has not been hacked and does not have the same security flaws of said competitors, but it is possible that the Company may experience the same negative publicity if their devices are able to be hacked at some point in the future.

5.4 General risks

Risk Category	Risk
Economic	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.
Market conditions	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> (a) general economic outlook; (a) introduction of tax reform or other new legislation; (b) interest rates and inflation rates; (c) changes in investor sentiment toward particular market sectors; (d) the demand for, and supply of, capital; and (e) terrorism or other hostilities. <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
Litigation risks	The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.
Dividends	Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.
Taxation	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.</p>
Reliance on key personnel	The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.
Economic conditions and other global or national issues	General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and

Risk Category	Risk
	<p>floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p>

5.5 Speculative investment

The risk factors described above, and other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Securities offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those Securities.

6.4 Material Contracts

6.4.1 Underwriting Agreement

The Company has entered into an underwriting agreement (**Underwriting Agreement**) with Pac Partners Securities Pty Ltd (**Underwriter** or **PAC Partners**), pursuant to which PAC Partners has agreed to underwrite the Offer up to a value of \$458,580 (the **Underwritten Amount**) equal to 114,645,043 Shares and 114,645,043 New Options (**Underwritten Securities**).

The Underwriter may appoint sub-underwriters to sub-underwrite the Offer (including Martin Pretty who has been appointed as set out in section 6.4.2 below). The appointment of any sub-underwriter and the allocation of any Underwritten Securities is at the sole discretion of the Underwriter. It is a condition of the Underwriting Agreement that no sub-underwriter (together with their associates) acquires a relevant interest in more than 19.9% of the issued share capital of the Company on completion of the Offer.

The material terms and conditions of the Underwriting Agreement are summarised below:

Fees	<p>The Company must pay the following fees to PAC Partners:</p> <ul style="list-style-type: none"> (a) on the date of issue of the Underwritten Securities, pay to PAC Partners an underwriting fee of 6% of the Underwritten Amount; (b) on completion of the Offer (being the date that the last of the shortfall securities are issued under the Offer), pay to PAC Partners a management fee of 2% of the funds raised under the Offer in excess of the Underwritten Amount, <p>as consideration for the underwriting obligation undertaken by PAC Partners pursuant to the Underwriting Agreement.</p>
Conditions Precedent	<p>The obligations of PAC Partners under the Underwriting Agreement are subject to and conditional upon:</p> <ul style="list-style-type: none"> (a) Shareholder Approval: on or before 5:00pm on 31 August 2024 (Approval Date), the Company receiving Shareholder approval to undertake the Offer in accordance with the terms of the ASX Waiver; (b) Due Diligence: PAC Partners being satisfied acting reasonably (in its sole and absolute discretion) with the due diligence program and the due diligence results; (c) Sub-Underwriters: PAC Partners procuring such persons to sub-underwrite the Offer as PAC Partners in its absolute discretion thinks fit; (d) Underwriter's consent to be named: PAC Partners being satisfied (in its sole and absolute discretion) with the form of the Prospectus and having given its consent to be named in the Prospectus; (e) Legal sign-off: a legal sign-off letter being provided to the due diligence committee by the solicitors for the Company; and (f) Prospectus: the Prospectus being lodged with ASIC, <p>(together, the Conditions Precedent).</p>

If any of the Conditions Precedent are not satisfied by 5:00pm on the lodgement date set out in the Underwriting Agreement (or the Approval Date, in respect of the condition set out in paragraph (a) above), PAC Partners may terminate the Underwriting Agreement by notice in writing to the Company.

Immediate Termination Events

PAC Partners may terminate the Underwriting Agreement by notice in writing to the Company given on or at any time before the issue of all the Underwritten Securities, without cost or liability to PAC Partners in the following circumstances:

- (b) **Prospectus:** the Company does not lodge the Prospectus on the lodgement date or the Prospectus or the Offer is withdrawn by the Company; or
- (c) **supplementary prospectus:**

 - (ii) the Company lodges a supplementary prospectus without the prior written agreement of PAC Partners; or
- (d) **non-compliance with disclosure requirements:** it transpires that the Prospectus does not contain all the information that investors and their professional advisers would reasonably require to make an informed assessment of:
 - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; and
 - (ii) the rights and liabilities attaching to the Underwritten Securities; or
- (e) **misleading Prospectus:** it transpires that there is a statement in the Prospectus that is misleading or deceptive or likely to mislead or deceive, or that there is an omission from the Prospectus (having regard to the provisions of Sections 711, 713 and 716 of the Corporations Act) or if any statement in the Prospectus becomes misleading or deceptive or likely to mislead or deceive or if the issue of the Prospectus is or becomes misleading or deceptive or likely to mislead or deceive; or

- (m) **Takeovers Panel:** the Takeovers Panel makes a declaration that circumstances in relation to the affairs of the Company are unacceptable circumstances under Pt 6.10 of the Corporations Act, which in PAC Partners' reasonable opinion has a material adverse effect; or

- (b) **default:** default or breach by the Company under the Underwriting Agreement of any terms, condition, covenant or undertaking;
- (c) **incorrect or untrue representation:** any representation, warranty or undertaking given by the Company in the Underwriting Agreement is or becomes untrue or incorrect in a material respect;
