Mladen Stevanovic appointed as Exploration Manager

Kali Metals Limited (**ASX: KM1**) (“**Kali Metals**” or “**the Company**”) is pleased to announce the appointment of Mladen Stevanovic as the Company’s new Exploration Manager.

Mladen is a highly experienced geologist with just under 20 years’ international experience across a number of commodities including lithium, gold, copper, nickel and base metals.

During his extensive career throughout Australia and overseas, Mladen has led exploration teams that made significant discoveries in lithium, gold and uranium in Europe, Australia and Africa. Mladen provided the technical expertise for the acquisition and start-up of Adriatic Metals p.l.c., he was Chief Geologist at the Gorno polymetallic mine in Italy and also Principal Geologist for major gold producer Gold Fields. Mladen has additional experience in project development, coordinating pre-feasibility (PFS) and definitive feasibility studies (DFS).

Most recently, Mladen worked as Exploration Manager at Liatam Mining Pty Ltd at the Bald Hill Lithium and Tantalum Mine. This project is adjacent to Kali’s Higginsville Lithium Projects and therefore the Company is fortunate to be bringing on an Exploration Manager with recent success, experience and familiarity within the Higginsville Lithium District.

Mladen holds a Bachelor of Sciences (Exploration Geology) and Master of Sciences (Economic Geology) from the University of Belgrade in Serbia and is currently Non-Executive Director at Lykos Metals.

Paul Adams, Managing Director of Kali Metals commented:

We are very fortunate to have secured Mladen as the Exploration Manager for Kali Metals. Mladen brings a wealth of lithium experience to our exploration team and his knowledge and experience at Bald Hill in the Higginsville District in particular, provides the company with significant additional expertise. I look forward to working closely with Mladen to execute our exploration and corporate strategy across all our Projects going forward.

Mladen Stevanovic, Exploration Manager of Kali Metals commented:

I am excited to join Kali Metals. The Company has amazing ground, an experienced Board and seasoned field and management teams, as well as backers able to support discoveries. Such a large prospective landholding is unique in its potential to deliver significant results. My exploration experience in target generation, prioritising activities and managing teams will contribute towards Kali Metals achieving success for all stakeholders. Thank you for my warm welcome, and I look forward to being part of the Kali Metals team.

Authorised for release by the Board of Kali Metals Limited.

About Kali Metals Limited

Kali Metals' (ASX: KM1) portfolio of assets represents one of the largest and most prospective exploration packages across Australia's world leading hard-rock lithium fields. Kali's 3,854km² exploration tenure is located near existing, emerging, and unexplored lithium and critical minerals regions in WA including the Pilbara and Eastern Yilgarn and the Lachlan Fold Belt in NSW and Victoria.

Kali Metals has a team of well credentialed professionals who are focused on exploring and developing commercial lithium resources from its highly prospective tenements and identifying new strategic assets to add to the portfolio. Lithium is a critical component in the production of electric vehicles and renewable energy storage systems. With the rapid growth of these industries, the demand for lithium is expected to increase significantly in the coming years. Kali Metals is committed to playing a key role in meeting this demand and powering the global clean energy transition.
