

## QUARTERLY ACTIVITIES REPORT

### Quarter ended 30 June 2024

Marvel Gold Limited (ASX: MVL) (**Marvel** or the **Company**) is pleased to provide an update on its activities undertaken during the June quarter.

#### HIGHLIGHTS

- **Cash of \$0.90 million at June 30, 2024.**
- **Evolution Energy Minerals shareholding valued at \$1.6 million<sup>1</sup>.**
- **Appointment of experienced mining executive, Mr Steven Michael as Non-Executive Director.**
- **Continuing evaluation of exploration opportunities outside of Mali with the potential to provide an avenue of long-term sustainable growth .**
- **Efforts continued to assess opportunities to realise value for the current portfolio of Mali exploration assets.**

#### BUSINESS DEVELOPMENT

During the quarter, Marvel continued to evaluate various exploration opportunities outside of Mali, which have the potential to provide a future avenue of long-term, sustainable growth for the Company. The Company has been primarily focussed on identifying greenfield opportunities with a priority on gold and other metal projects in Africa and elsewhere and has conducted detailed due-diligence on a number of potential projects. The Company looks forward to updating shareholders of developments with respect to this process in accordance with its continuous disclosure obligations.

#### CORPORATE

##### Board Changes

During the quarter, the Company appointed experienced mining executive, Mr Steven Michael to the Board as an independent, non-executive Director. Mr Michael brings a wealth of experience to the Board with over 25 years' experience in the resources sector in senior executive leadership roles.

As announced in February 2024, Mr Chris van Wijk, stepped down from his role as Managing Director in April 2024, and as Chief Executive Officer in May 2024.

<sup>1</sup> Based on EVI's closing price of \$0.032 on 22 July 2024

## Cash

As at 30 June 2024, the Company had cash of \$0.90 million. Staff costs for the quarter included one off redundancy costs for its Mali employees. The Company continues to manage its cash-flow prudently.

## Annual General Meeting

The Company held its Annual General Meeting of Shareholders (**AGM**) on 29 May 2024. All resolutions put to shareholders were passed by a poll.

## Shareholding in Evolution Energy Minerals

Pursuant to the completion of a spin out of the Chilalo Graphite Project and an initial public offering and listing on ASX of Evolution Energy Minerals Limited (**Evolution**) in November 2021, Marvel was issued and retained 50,000,000 ordinary shares in Evolution (**Evolution Shares**).

At Evolution's closing share price of A\$0.032 on 22 July 2024, the Evolution shares held by Marvel have a market value of A\$1.6 million.

The Company intends to dispose of its shareholding in Evolution Energy Minerals when circumstances permit.

## MALI EXPLORATION ASSETS

Marvel holds a 70% interest in the Tabakorole Gold Project and a 100% interest in the Kolondieba Gold Project and the Yanfolila Gold Project located in Southern Mali.<sup>2</sup>

Marvel continued to assess strategic opportunities to realise value for its Mali exploration assets during the quarter.

## Mali Cadastre

The Tabakorole exploration licence expired at the end of its second renewal in June 2023. Since November 2022, the Malian Mining Cadastre (**Cadastre**) has not accepted new tenement applications or processed tenement renewals or transfers. As a result, the licence renewal process for Tabakorole and the process to transfer licences from B2Gold to the Company has been delayed until such time as the Cadastre reopens.

All the Company's licences are currently compliant in terms of statutory reporting requirements and ultimately the Company remains confident that when the Cadastre recommences accepting licence applications, title to Tabakorole can be renewed and the other permits can be renewed or transferred as necessary.

---

<sup>2</sup> Marvel reached an agreement with B2Gold Corporation (**B2Gold**) in April 2023 to acquire the remaining 20% interest in exploration licences that we were held under a joint venture with B2Gold. These licences included the Kolondieba and Yanfolila Gold Projects (**JV exploration licences**). Completion of the acquisition and the transfer of the JV exploration licences to the Company is subject to the Mali Cadastre resuming normal operations.

## Mali Mining Code

In July 2024, the government of Mali announced the official decree implementing a new Mining Code (**Code**) that amongst other things, increases State and private Malian interests in new projects. The new Code allows the Government to take a 10% stake in new mining projects and grants it the option to buy an additional 20% within the first two years of commercial production.

A further 5% stake could be ceded to locals, taking state and private Malian interests in new projects to a maximum level of 35%.

## INFORMATION REQUIRED UNDER ASX LISTING RULES
